Note 1. Description of Plan

The following description of the Witt/Kieffer, Ford, Hadelman & Lloyd Savings and Profit Sharing Plan and Trust (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of Witt/Kieffer, Ford, Hadelman, & Lloyd Corp. (the Company) who have completed 30 days of service and are at least 21 years of age. The Plan is designed as a qualified cash deferral arrangement pursuant to Section 401(k) of the Internal Revenue Code (IRC). Employees may begin contributing to the Plan on the first day of the following month upon meeting the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan, subject to IRC limitations. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Any newly eligible employees are automatically enrolled in the Plan with elective deferrals set to 3 percent of their eligible compensation. Participants have the option to increase, decrease or eliminate their automatic enrollment contribution at any time. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. For participants who are employed on the last day of the year, the Company may match 25 percent of the first 5 percent of compensation, subject to the IRC limitations, that a participant contributes to the Plan, except for any catch-up contributions, at the discretion of the Company's board of directors. Additional profit-sharing amounts may be contributed to eligible employees who have completed 1,000 hours of service and are employed at the end of the year, at the option of the Company's board of directors. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contribution, the Company's matching contribution, if any, and allocations of the Company's profit-sharing contributions, if any, plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment options: Upon enrollment in the Plan, participants are responsible for determining the type and nature of their investments within the guidelines established by the Plan trustees. A participant may elect to have their accounts invested in any one or a combination of investment options offered by the Plan.

Vesting: Participants are immediately vested in their contributions, the Company's matching contributions, and actual earnings or losses thereon. Vesting of the Company's profit-sharing contributions plus actual earnings or losses thereon is 20 percent after two years of credited service, and increases by 20 percent for each of the next four years of credited service. A participant is 100 percent vested after six years of credited service. Participants are automatically fully vested upon normal retirement, death, permanent disability, or termination of the Plan.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Participants are allowed a maximum of three loans outstanding at any time. Loans are repaid through bi-weekly payroll deductions within five years or longer if it is determined at the time of the loan that the proceeds will be used for the purchase of a primary residence. The loans are secured by the vested balance in the participant's account and bear interest at rates that range from 3.25 to 8.25 percent, which are commensurate with local prevailing rates at the time of the loan origination as determined by the Plan Administrator.

Note 1. Description of Plan (Continued)

Payment of benefits: On termination of service due to disability, retirement, or for other reasons except death, a participant may elect to receive the vested interest in his or her account as a lump-sum distribution. Upon death, a beneficiary may elect to receive either a lump-sum distribution or installment payments.

Forfeited accounts: At June 30, 2010 and 2009, forfeited non-vested accounts totaled $13,989 and $41,768, respectively. These accounts will be used to pay for the Plan's administrative expenses. Forfeiture accounts which are not used to pay administrative expenses will be used to reduce Company contributions, if any. In the event of termination of employment before full vesting, the non-vested portion of the Company's contributions is held in suspense until either a lump sum payment of the participants' vested portion of their account balance, or five consecutive one-year "breaks in service" have occurred, as provided by the Plan. If the participant should return to employment while the non-vested portion is still in suspense, the non-vested portion is reinstated. In fiscal year 2010, forfeited non-vested accounts were used to pay for administrative expenses in the amount of $25,000. Also, in fiscal year 2010, Company contributions were reduced by $35,519 from forfeited non-vested accounts.

Reclassification: Certain levels of investments previously reported in Note 5 have been reclassified to conform to the current year presentation.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Accounting policies: The Plan follows accounting standards established by the Financial Accounting Standards Board (FASB) to ensure consistent reporting of financial condition, results of operation, and cash flows. References to the Generally Accepted Accounting Principles (GAAP) in these footnotes are to the *FASB Accounting Standards Codification™*, sometimes referred to as the Codification or ASC. The Codification is effective for periods ending on or after September 15, 2009.

Investment valuation and income recognition: The Plan's investments are reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in such investment contracts through a common/collective trust. The Statements of Net Assets Available for Benefits present the fair value of this investment in the common/collective trust, as well as the adjustment of the investment in the common/collective trust fund from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis for such contracts. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Note 2. Summary of Significant Accounting Policies (Continued)

Notes receivable from participants: The notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Administrative expenses of the Plan are paid by the Plan as provided in the Plan document. Certain other administrative expenses are paid by the Company on behalf of the Plan, without reimbursement.

Income taxes: The FASB issued new guidance on accounting for uncertainty in income taxes. The Plan adopted this new guidance for the year ended June 30, 2010. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years before 2006.

Recent accounting pronouncements: In January 2010, FASB issued an amendment on *Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements*, which requires new disclosures and reasons for transfers of financial assets and liabilities between Levels 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. It further clarifies that the reconciliation of Level 3 investments should separately present purchases, sales, issuances, and settlements instead of netting these changes. With respect to matters other than Level 3 measurements, the amendment is effective and adopted for periods beginning on or after December 15, 2009. See Note 5 for impact of adoption. The guidance related to Level 3 measurements is effective for periods beginning on or after December 15, 2010 and has not yet been adopted. Management of the Plan is currently evaluating the impact of the guidance related to Level 3 measurements on the Plan disclosures.

In September 2010, FASB issued an amendment, *Plan Accounting—Defined Contribution Pension Plans: Reporting Loans to Participants by Defined Contribution Pension Plans*, which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This amendment was effective for periods ending after December 15, 2010, with early adoption permitted. This amendment requires retrospective application to all periods presented.

This amendment was adopted for the year ended June 30, 2010, and retrospectively applied to June 30, 2009. Prior year amounts and disclosures have been revised to reflect the retrospective application of adopting this new amendment. The adoption resulted in a reclassification of participant loans totaling $260,650 and $282,317 from investments to notes receivable as of June 30, 2010 and 2009, respectively. There was no impact to the net assets as of June 30, 2010 or 2009, as a result of the adoption.

Subsequent events: The Plan has evaluated subsequent events for potential recognition and/or disclosure through January 21, 2011, the date the financial statements were available to be issued.

Note 4. Information Certified by Charles Schwab Trust Company

The following is a summary of the Plan's asset information as of June 30, 2010 and 2009, and for the year ended June 30, 2010, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by Charles Schwab Trust Company, the trustee, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that the information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate, to the best of its knowledge. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedule related to the following assets:

	2010		2009	
Statement of net assets available for benefits				
Investments				
Shares of registered investment companies	$ 20,386,977		$ 16,952,090

Charles Schwab Trust Company also certified to the completeness and accuracy of the following income related to the aforementioned plan assets for the year ended June 30, 2010:

Statement of changes in net assets available for benefits	
Net appreciation in fair value of investments	$ 2,387,927

Note 5. Fair Value Measurements

FASB guidance establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note 5. Fair Value Measurements (Continued)

Level 2. Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2010 and 2009.

Shares of registered investment companies: Valued at the net asset value (NAV) of shares/units held by the Plan at year-end based on quoted market prices.

Shares of common/collective trusts: Valued at the NAV of shares/units held by the Plan at year-end based on quoted market prices.

Shares of common/collective trust with underlying investments in benefit-responsive investment contracts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Contract value represents contributions made under contract, plus earnings, less participant withdrawals and administrative expenses.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2010 and 2009:

Note 5. Fair Value Measurements (Continued)

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended June 30, 2010:

	Common/ collective trust
Balance, beginning of year	$ 3,619,186
Realized gains/(losses)	15,239
Unrealized gains/(losses) relating to instruments still held at the reporting date	98,714
Adjustment from contract value to fair value	201,218
Purchases, sales, issuances and settlements (net)	(210,985)
Balance, end of year	$ 3,723,372

In September 2009, FASB issued an amendment, *Investments in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent)*, which provides guidance on how entities should estimate fair value of certain alternative investments. The fair value of investments within the scope of this guidance can now be determined using the net asset value (NAV) per share as a practical expedient, when the fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV. It also requires disclosure of certain attributes by major category of alternative investments, regardless of whether the practical expedient was used. This amendment was effective and has been adopted for periods ending after December 15, 2009.

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share (or its equivalent) as of June 30, 2010:

Investment	Investment Objective	Fair Value	Redemption Frequency	Redemption Notice Period
Shares of common/collective trusts				
Target, lifecycle, allocation	(a)	3,084,796	Daily	None
Stable value	(b)	3,723,372	Daily	None

(a) Emphasis on return potential while balancing risk of worst case scenarios and inflation protection.
(b) Seeks to provide a stable rate of return with preservation of principal and liquidity.

Note 6. Related-Party Transactions

Certain plan investments are shares of common/collective trusts managed and issued by Charles Schwab Trust Company. Charles Schwab Trust Company is the Plan's trustee; therefore, these transactions qualify as party-in-interest transactions. Also, the trustee of the Plan is providing plan administration services to the Plan. Fees paid by the Plan for these services to the trustee were $35,083 for the year ended June 30, 2010.

Certain employees of the Company serve on a Profit Sharing Committee and perform administrative services for the Plan. These employees receive no compensation from the Plan for these services. The Company pays certain administrative fees of the Plan without reimbursement.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their accounts.

Note 8. Tax Status

Effective November 15, 2007, the Plan adopted a non-standardized form of a prototype plan sponsored by Charles Schwab Trust Company. The prototype plan has received an opinion letter from the Internal Revenue Service dated May 23, 2008, as to the prototype plan's qualified status. Effective July 1, 2009, the Plan adopted a restatement to the non-standardized prototype plan sponsored by Charles Schwab. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at June 30, 2010 and 2009 to the Form 5500 (assuming the previously filed Form 5500 has not been amended):

	June 30,	
	2010	2009
Net assets available for benefits per the financial statements	$ 28,278,583	$ 24,010,965

Notes receivable from participants	(260,650)	(282,317)
Adjustment from contract value to fair value for fully benefit - responsive contracts	25,515	(175,703)
Net assets available for benefits per the Form 5500	$ 28,304,098	$ 23,835,262

The following is a reconciliation of changes in net assets available for benefits per the financial statements for the year ended June 30, 2010 to the Form 5500:

Changes in net assets available for benefits per the financial statements	$ 4,267,618
Less: Adjustment from contract value to fair value for fully benefit - responsive investment contract at June 30, 2010	(25,515)
Add: Adjustment from contract value to fair value for fully benefit - responsive investment contract at June 30, 2009	175,703
Changes in net assets available for benefits per the Form 5500	$ 4,468,836

Note 10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
