Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITORS' REPORT

To the Plan Committee and Participants of
The Newark Group, Inc. Salaried Employees' Pension Plan

We were engaged to audit the accompanying statement of net assets available for benefits of The Newark Group, Inc. Salaried Employees' Pension Plan (the "Plan") as of April 30, 2010, the related statement of changes in net assets available for benefits for the year ended April 30, 2010, and the supplemental schedules of assets (held at end of year) and reportable transactions as of and for the year ended April 30, 2010. These financial statements and supplemental schedules are the responsibility of the Plan's management. The April 30, 2009 financial statements were audited by Amper, Politziner & Mattia, LLP, whose practice was combined with the practice of Eisner LLP to form EisnerAmper LLP as of August 16, 2010, and whose report, dated February 12, 2010, expressed an unqualified opinion on those statements.

As permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information discussed in Note 3, which was certified by State Street Bank and Trust Company, the Trustee of the Plan, except for comparing such information with the related information included in the financial statements and the supplemental schedules. We have been informed by the Plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the Trustee as of April 30, 2010 and for the year ended April 30, 2010, that the information provided to the Plan administrator by the Trustee is complete and accurate.

Because of the significance of the information in the Plan's April 30, 2010 financial statements and supplemental schedules that we did not audit, we are unable to, and do not, express an opinion on the accompanying April 30, 2010 financial statements and supplemental schedules taken as a whole. The form and content of the information included in the April 30, 2010 financial statements and supplemental schedules, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTES TO FINANCIAL STATEMENTS AS OF AND FOR THE YEARS ENDED APRIL 30, 2010 AND 2009

1. DESCRIPTION OF THE PLAN

The following description of The Newark Group, Inc. Salaried Employees' Pension Plan (the "Plan") provides only general information. Participants should refer to the Plan document for more complete information.

General—The Plan is a defined benefit, noncontributory pension plan established as of May 1, 1976, for certain salaried employees of The Newark Group, Inc. (the "Company," "Plan Sponsor," or "Employer") and participating affiliates. The Plan is administered by the Plan Committee (the "Committee"). Members of the Committee are responsible to, appointed by, and serve at the discretion of the Board of Directors of the Company. The Committee has the exclusive right to interpret the Plan, establish rules for administration of the Plan, and to decide any and all matters arising in connection with interpretation and administration of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective June 1, 2008, Plan assets are held in an individual account in the trust of State Street Bank & Trust Company. Prior to June 2008, the Plan participated in a group trust (The Newark Group Pension Plan Trust) arrangement whereby various brokers and investment institutions held combined investment assets for all of the Company's defined benefit plans. Bank of America combined and organized all the investments held by the Company's defined benefit plans which were held in five separately managed accounts. The Company then allocated the commingled investment assets, investment income, and administrative expenses on a pro-rata basis based on average investment balances. The statements of net assets available for benefits and the changes therein were presented in the Plan's pro-rata amounts, as allocated.

At April 30, 2010, as a result of the Company's financial position, current market conditions and the uncertainty relating to the outcome of the Company's ongoing negotiations with its lenders, there is substantial doubt about the Company's ability to continue as a going concern. At this time, there is no impact on the Plan resulting from the Company's financial condition.

Eligibility—Eligible non-union salaried employees of the Company who were employed when the Plan became effective on May 1, 1976 automatically became participants on that date. Eligible salaried employees hired after May 1, 1976 and before July 1, 1991 would participate in the Plan as of their date of hire. Eligible salaried employees hired on or after July 1, 1991 and before May 1, 2006 became participants of the Plan on the May 1st or November 1st coincident with or next following completion of one year of service. Effective May 1, 2006, participation in the Plan was discontinued for employees hired or rehired by the Company on or after that date. In addition, effective July 1, 2006, participation was also closed to employees who transfer to salaried status on or after July 1, 2006.

Pension Benefits—The Plan provides for normal, early and late retirement benefits as further discussed in the Plan document. Benefits are calculated based upon compensation levels. Benefit payment options include lump sum and monthly joint or survivor installments. An employee is 100% vested in his accrued benefit after completing five years of service.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation—The accompanying financial statements have been prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America.

Codification— In June 2009, the Financial Accounting Standards Board ("FASB") issued "The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles – a replacement of FASB Statement No. 162", ("FASB Codification") which was effective for reporting periods ending after September 15, 2009. The FASB Codification is the single source of authoritative nongovernmental U.S. generally accepted accounting principles ("GAAP"), superseding existing FASB, American Institute of Certified Public Accountants ("AICPA"), Emerging Issues Task Force ("EITF") and related accounting literature. The FASB Codification reorganizes the thousands of GAAP pronouncements into roughly 90 accounting topics and displays them using a consistent structure. The adoption of the FASB Codification did not impact the Plan's financial position or results of operations.

Fair Value of Financial Instruments— As required by the Fair Value Measurements and Disclosure Topic of the FASB Accounting Standards Codification, fair value is to be determined based on the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market, in an orderly transaction between market participants. Such is a market-based measurement, not an entity-specific measurement.

This Topic establishes a three-level valuation hierarchy based upon observable and non-observable inputs. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Plan's market assumptions. The fair value hierarchy consists of three levels of inputs that may be used to measure fair value as follows:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.

Level 2 – Inputs other than quoted prices included in Level 1 that are observable either directly or indirectly; quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data, for substantially the full term of the assets or liabilities.

Level 3 – Significant inputs to the valuation model that are unobservable, typically based on a Plan's own assumptions, as there is little, if any, related market activity.

In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

The methods of valuation described herein may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Accounting for Uncertainty in Income Taxes— The Income Taxes Topic of the FASB Accounting Standards Codification clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements and was effective for fiscal years beginning after December 15, 2008. The Plan adopted the provisions of the Topic and the adoption did not impact the amounts reported in the Plan's financial statements.

Subsequent Events— As required by the Subsequent Events Topic of the FASB Accounting Standards Codification, the Plan evaluated subsequent events through February 11, 2011, which is the date the financial statements were available to be issued.

Investment Valuation and Income Recognition—The Plan's investments are stated at fair value based on quoted market prices, or, in instances where securities are not quoted on any national securities exchange on the valuation date, quotations are obtained from brokerage firms or banks. Common stocks are valued at the closing price reported on the active market in which the individual securities are traded. Shares of mutual funds and money market funds are valued at the net asset value of shares held by the Plan at year-end. As these mutual funds are held in a trust, and the Plan does not directly invest these funds, they are therefore shown as a Level 2 investment. The respective fair values of the common collective trust investments are determined by reference to the funds' underlying assets. Units held in collective trusts are valued based on the market prices of the underlying investments in the funds at year-end. The investments at April 30, 2010 consist primarily of common collective trusts and mutual funds.

Massachusetts Fidelity Trust Company is the trustee of the common collective trust investments. Pursuant to the trust agreement for the common collective trust, withdrawals from the Plan will be made no later than 5 business days for single sum withdrawals, 31 days for periodic benefit payments and 31 days for withdrawing the Plan's entire interest following the trustee's receipt of the written withdrawal request.

All security transactions are accounted for on the date the securities are purchased or sold (trade-date basis). Interest and dividend income is recorded on the accrual basis. Dividends, which include capital gain distributions, are accrued as of the ex-dividend date. The Plan presents in the statement of changes in net assets available for benefits the net appreciation (depreciation) in the fair value of its investments which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments.

Valuation of Investments (Securities with No Quoted Market Prices)—Amounts for securities that have no quoted market price represent estimated fair value. Many factors are considered in arriving at estimated fair value. The fair value of the Plan's limited partnership interests have been estimated by the Company in the absence of readily ascertainable market values.

Use of Estimates—The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and actuarial present value of accumulated Plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Benefit Payments to Participants—Benefit payments to participants are recorded upon distribution.

Expenses—Administrative expenses of the Plan are paid by the Plan to the extent not paid by the Plan Sponsor as provided in the Plan document.

Recent Accounting Pronouncements— In January 2010, the FASB issued Accounting Standards Update (“ASU”) 2010-06, *Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements* (“ASU 2010-06”), which amended ASC 820. The guidance required additional disclosures of significant transfers in and out of Level 1 and Level 2 assets and description of the reasons for the transfers. Additionally the information regarding purchases, sales, issuances, and settlements for Level 3 assets should be reported on a gross basis. ASU 2010-06 is effective for interim and annual reporting periods beginning after December 15, 2009 except for the disclosures about purchases, sales, issuances, and settlements in the roll forward of activity for Level 3 investments, which are effective for the fiscal years beginning after December 15, 2010. The Plan is currently evaluating the additional disclosure requirements.

3. INVESTMENT CERTIFICATION

Substantially all investments are held by State Street Bank and Trust Company, the trustee. State Street Bank and Trust Company, has certified the completeness and accuracy of substantially all investments and related activity as of and for the year ended April 30, 2010 in the accompanying financial statements and supplemental schedules.

4. INVESTMENTS

For the years ended April 30, 2010 and 2009, the investments in the Plan (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$19,782,291 and depreciated in value by \$13,767,414, respectively, as follows:

6. FUNDING POLICY

All contributions to the Plan are made by the Company acting upon the advice of the actuary for the Plan. The Company intends to make contributions in an amount determined by actuarial calculations, which are at least sufficient to meet the minimum funding requirements of ERISA. For 2010 and 2009, the Company met the minimum funding requirements of ERISA.

7. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The accumulated plan benefits for active employees are based on their estimated accrued benefits as of the valuation date, which is May 1, 2009. Benefits payable under all circumstances--retirement, death, disability, and termination of employment--are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary, Diversified Investment Advisors and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits as of the latest valuation date is presented below:

	<u>May 1</u> <u>2009</u>
Vested benefits:	
Participants currently receiving payments	\$ 30,073,971
Other participants	<u>51,226,961</u>
Total vested	81,300,932
Nonvested benefits	<u>711,131</u>
Total	<u>\$ 82,012,063</u>

The changes in the actuarial present value of the Plan's accumulated plan benefits for the year ended May 1, 2009, are as follows:

Actuarial present value of accumulated plan benefits—May 1, 2008	<u>\$77,555,621</u>
Increase (decrease) during the year attributable to:	
Interest accumulated	4,572,039
Benefits paid	(2,749,988)
Benefits accrued and actuarial experience	2,480,665
Assumption changes	<u>153,726</u>
Net increase	<u>4,456,442</u>
Actuarial present value of accumulated plan benefits—May 1, 2009	<u><u>\$82,012,063</u></u>

The significant assumptions underlying the actuarial computations at May 1, 2009 are as follows:

- a. Discount Rate— 6.00% per annum in 2009.
- b. Rates of mortality— Static Mortality Table.
- c. Rates of turnover—T-1 turnover rates.
- d. Retirement—Normal age of retirement - Age 65.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

8. FEDERAL INCOME TAX STATUS

The Plan obtained a determination letter dated March 20, 2003, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter and the Company filed a new Application for Determination on January 29, 2010. While the IRS determination is pending, the Plan Administrator does not believe that anything has occurred that would be reasonably likely to cause the IRS to revoke such determination letter or to cause the Plan to lose its tax-qualified status. Therefore, there is no provision for income taxes in the Plan's financial statements.

9. PARTY-IN-INTEREST TRANSACTIONS

State Street Bank and Trust Company is the trustee of the Plan's assets and Diversified Investment Advisors is the Plan's recordkeeper and actuary, and, therefore, these transactions qualify as party-in-interest transactions.

10. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities including common collective trusts, mutual funds, limited partnership interests and common stocks. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements. Users of these financial statements should be aware that the financial markets' volatility may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments at April 30, 2010 may not necessarily be indicative of amounts that could be realized in a current market exchange.

11. MUTUAL FUND FEES

Investments in mutual funds are subject to sales charges in the form of front-end loads, back-end loads or 12b-1 fees. 12b-1 fees, which are ongoing fees allowable under Section 12b-1 of the Investment Company Act of 1940, are annual fees deducted to pay for marketing and distribution costs of the funds. These fees are deducted prior to the allocation of the Plan's investment earnings activity and thus not separately identifiable as an expense.

12. PENSION PROTECTION ACT

On August 17, 2006, the Pension Protection Act (the "Act") was signed into law. Included in its many provisions are numerous revisions surrounding new funding rules for defined benefit plans that may significantly increase required contributions for underfunded plans. The Act establishes new minimum funding standards (effective for Plan years beginning after December 31, 2007) and limits benefit increases and accruals for underfunded plans. Plans with a funding percentage below 80 percent will be required to implement certain benefit limitations such as restricting lump sum payments and restricting the plan from amending the Plan to enhance benefits. Further limitations such as freezing the accrual of all future benefits will be required for Plan's that are underfunded by more than 60 percent until such time as the percentage increases above 60 percent. Additionally, pursuant to the Act, each year actuaries are required to certify to a plan's funded percentage. The Plan received such certification for the 2009 Plan year for the Adjusted Funding Target Attainment Percentage ("AFTAP"), which is one way of measuring the funded status of a Plan using actuarial assumptions mandated by the IRS, and the actuary determined that the 2009 AFTAP for the Plan is 98.69%.

13. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document. To the extent that any assets remain after satisfying all benefit obligations under the Plan, such excess assets will revert to the Company.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (“PBGC”) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor’s pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan’s termination, subject to a statutory ceiling on the amount of an individual’s monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan’s net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

Upon termination of the Plan, participants would be 100% vested.

14. SUBSEQUENT EVENTS

On June 9, 2010 (the “Commencement Date”), the Company, and certain of its domestic subsidiaries, filed voluntary petitions for relief under Chapter 11 of title 11 of the United States Code, in the United States Bankruptcy Court for the District of New Jersey. The Chapter 11 cases are being jointly administered under the caption “In re: The Newark Group, Inc., et al.”, Case No. 10-27694. The Company and its subsidiaries that filed for Chapter 11 protection continued to operate their businesses and manage their properties as “debtors-in-possession” (“DIP”) until the Company’s Pre-packaged Plan of Reorganization (“the Reorganization Plan”) was approved at the confirmation hearing on July 30, 2010. The Reorganization Plan became effective on August 16, 2010, (the “Effective Date”). On the Effective Date, the Reorganization Plan provides that the Company will exchange the subordinated Notes for a 96.5% equity position in the Company. In addition, the Company will establish a new Board of Directors, consisting of five directors, one of which will be the Company’s current Chief Executive Officer and the remaining four nominated by certain of the Company’s lenders.

Plan Year: May 1, 2009 to April 30, 2010**

A ACTUARIAL COST METHOD

The actuarial cost method used to determine the target normal cost, target liability and required contribution amounts for the plan is the Traditional Unit Credit Actuarial Cost Method. Under this method, both the target normal cost and target liability are based on the annual accrual of benefits as accruals occur each year.

The target liability for each active plan participant is equal to the actuarial present value of the participant's accrued benefit as of the valuation date. The total target liability of the plan is equal to the sum of such liabilities as determined for each active participant plus the actuarial present value of benefits being paid, or due to be paid, to retirees, beneficiaries and former participants with deferred vested benefits.

The target normal cost for each active participant is equal to the actuarial present value of the benefit expected to be earned during the year starting on the valuation date. The total target normal cost of the plan is the sum of the target normal costs for each active plan participant.

All employees who are plan participants on a valuation date are included in the actuarial valuation.

B ASSET VALUATION METHOD

The actuarial value of assets is equal to the market value of assets on the valuation date reduced by the sum of:

1. 66.67% of gains and losses of the prior year;
2. 33.33% of gains and losses of the second prior year.

Investment gains and losses are determined by the excess or deficiency of the expected return (target liability third segment rate) over the actual return on the market value (including employer contributions receivable for any given year).

The actuarial valuation of assets is further constrained to be not less than 90% or more than 110% of market value (including employer contributions receivable).

Previously, the actuarial value of assets was equal to the market value of plan assets on the valuation date plus any accrued but unpaid Company contributions as of the valuation date.

The actuarial value of assets is equal to the market value of assets on the valuation date reduced by the sum of:

1. 66.67% of gains and losses of the prior year;
2. 33.33% of gains and losses of the second prior year.

Investment gains and losses are determined by the excess or deficiency of the expected return (at the third segment valuation interest rate) over the actual return on the market value (including employer contributions receivable for any given year).

The actuarial valuation of assets is further constrained to be not less than 90% or more than 110% of market value (including employer contributions receivable).

Previously, the actuarial value of assets was equal to the market value of plan assets on the valuation date plus any employer contributions receivable.
