INDEPENDENT AUDITORS' REPORT

To the Plan Committee and Participants of
The Newark Group, Inc. Employees' Stock Ownership Plan

We have audited the accompanying statement of net assets available for benefits of The Newark Group, Inc. Employees' Stock Ownership Plan (the "Plan") as of April 30, 2010, and the related statement of changes in net assets available for benefits for the year ended April 30, 2010. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit. The April 30, 2009 financial statements were audited by Amper, Politziner & Mattia, LLP, whose practice was combined with the practice of Eisner LLP to form EisnerAmper LLP as of August 16, 2010, and whose report, dated February 12, 2010, expressed an unqualified opinion on those statements.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of April 30, 2010, and the changes in net assets available for benefits for the year ended April 30, 2010, in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 1, the Plan sponsor received a going concern opinion on its April 30, 2010 annual audited financial statements. Accordingly, the fair value of the stock is \$0 and is reflected on the Plan's financial statements at April 30, 2010. Given the financial condition of the Plan sponsor, no annual cash installment payments were made from the Plan during the year ended April 30, 2010. However, certain distributions of Company common stock were made in lieu of cash payments. There has been no decision to terminate the Plan as of the date of this report.

Our audit was performed for the purpose of forming an opinion on the basic April 30, 2010 financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of April 30, 2010 is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic April 30, 2010 financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic April 31, 2010 financial statements taken as a whole.

EMPLOYEES' STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

AS OF APRIL 30, 2010 AND 2009 AND FOR THE YEAR ENDED APRIL 30, 2010

1. DESCRIPTION OF PLAN

The following description of The Newark Group, Inc. Employees' Stock Ownership Plan ("ESOP" or the "Plan") is provided for general information purposes only. Participants should refer to the ESOP document for more complete information. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective May 1, 1985, The Newark Group, Inc. (the "Company," "Plan Sponsor," and "Employer") adopted the ESOP for the benefit of its non-union salaried employees. Eligible employees hired prior to May 1, 1992 became participants of the Plan as of the first day they were entitled to be credited with an "Hour of Service". Eligible employees hired after May 1, 1992 became participants of the Plan as of the May 1st or November 1st coinciding with or next following the employee's completion of a year of service. The Plan's eligibility requirements were amended so that eligible employees hired by the Company after November 1, 1992 became participants of the Plan as of the October 31st or April 30th coinciding with or next following the employee's completion of a year of service. The Plan was subsequently amended to exclude new participants after April 30, 1995.

The Plan Sponsor received a going concern opinion on its April 30, 2009 annual audited financial statements due to lack of liquidity and defaults under its lending agreements. Accordingly, the fair value of the common stock of the Plan Sponsor, including the common stock held by the Plan, is \$0 and is reflected as such on the Plan's financial statements at April 30, 2009. Given the financial condition of the Plan Sponsor, no annual cash installment payments were made from the Plan during the year ended April 30, 2009 (see cash option in "Benefit Payments" below). However, there were certain in-kind distributions of Company common stock as more fully described below. There has been no decision to terminate the Plan as of the date of this report.

The Company continued to be in default under its lending agreements throughout the year ended April 30, 2010, resulting in the fair value of Company common stock remaining at \$0 as of April 30, 2010. Subsequent to April 30, 2010, the Company voluntarily filed for relief under Chapter 11 of the United States' Bankruptcy Code, see Note 8.

Contributions—For Plan years ending prior to May 1, 1996, the Company made contributions to a trust fund under the Plan, in amounts determined by the Board of Directors, for the original acquisition of Company common stock. Virtually all funds received from the Company or otherwise were invested in the common stock of the Company or used to service ESOP debt incurred to acquire shares of Company common stock. No contributions have been made for Plan years commencing after April 30, 1995 and all shares have been allocated to the accounts of Plan participants. Earnings and losses of the Plan's trust continue to be recorded and distributions made pursuant to the terms of the Plan in the ordinary course of Plan operations subject to imposed restrictions by the Company's lenders.

Participant Vesting and Forfeitures—The accounts of all participants under the Plan are fully vested.

Benefit Payments—Payment of a participant's vested benefit is generally made following a participant's termination of employment, retirement or death. Subject to certain restrictions from the Company's lenders, participants may elect to either have their accounts distributed in shares of Company common stock or cash. If a participant chooses the stock option, such payment will be made in five substantially equal, annual installments in shares of Company common stock. Subject to certain restrictions from the Company's lenders, a participant may then exercise his right (a "put right") requiring the Company to purchase the shares allocated to his ESOP account at fair market value. The put right enables the Participant to put all the shares received by him in each installment to the Company, in the year received, subject to certain procedural rules and conditions. The Plan was restated on August 16, 2010, ("the Effective Date") upon the Company's court confirmed exit from the Bankruptcy. The restated Plan included a floor price of \$5.48 per share, compared to a floor price of \$9.83 as of April 2009. Distributions made after January 1, 2011, as well as put exercises, will be made at the floor price of \$5.48. The stock floor price is the greater of the value per share as of the most recent valuation date preceding the date the participant completed a distribution application or \$5.48 per share subject to any adjustment for a stock split, stock dividend, etc. Any amount by which the stock floor price exceeds the fair market value per share shall be funded by the Company.

As an alternative to receiving a distribution of shares from the Plan, and exercising his put rights, a Participant may elect to receive cash directly from the ESOP. The cash option also requires payment through five annual installments, and the price per share of the shares redeemed per each installment is equal to the fair value of the Company common stock as of April 30 of each year immediately preceding the date of each installment. For purposes of distributions under the Plan, including the exercise of a put right, the determination of the fair market value of the Company's common stock is based upon a methodology that is consistent with that utilized in connection with the valuation of the common stock that was used when the shares were acquired by the ESOP on December 30, 1985 or a similar valuation technique reflecting the basis of the original valuation. As more fully described in Note 2, the fair market value as of April 30, 2010 and 2009 was \$0 and \$0 per share, respectively.

During fiscal 2010 and 2009, due to lack of liquidity and defaults under its lending agreements, the Company was forbidden to fund its obligation for the annual installment payments due to Plan participants for shares put to the Company in prior periods. Plan participants were given the option of (i) receiving their current installment in the form of Company common stock or (ii) delaying distribution of their current installment until such time that the Company is again able to redeem shares. Pursuant to the redemption option discussed above, and to comply with the Plan and ERISA required-minimum-distribution rules, several Plan participants elected to receive stock for their current installment. During the first two quarters of fiscal 2010, stock certificates for 4,780 shares were issued to Plan participants.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation—The accompanying financial statements have been prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America.

Codification— In June 2009, the Financial Accounting Standards Board ("FASB") issued "The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles – a replacement of FASB Statement No. 162", ("FASB Codification") which was effective for reporting periods ending after September 15, 2009. The FASB Codification is the single source of authoritative nongovernmental U.S. generally accepted accounting principles ("GAAP"), superseding existing FASB, American Institute of Certified Public Accountants ("AICPA"), Emerging Issues Task Force ("EITF") and related accounting literature. The FASB Codification reorganizes the thousands of GAAP pronouncements into roughly 90 accounting topics and displays them using a consistent structure. The adoption of the FASB Codification did not impact the Plan's financial statements.

Stock Valuation—As there is no quoted market value for the common stock of the Company, the ESOP's investment in Company common stock has been recorded at fair market value based upon an annual valuation prepared by an independent appraiser. This valuation considered pertinent factors such as historical and projected income and cash flows of the Company, as well as operating statistics and market capitalization of comparable companies. For the valuation at April 30, 2010 and April 30, 2009 the valuation also considered the Company's capital deficit position, lack of liquidity and defaults on its debt obligations. As a result of these factors, the fair market value of Company common stock was determined to be \$0 per share at April 30, 2010 and April 30, 2009.

Fair Value of Financial Instruments— As required by the Fair Value Measurements and Disclosure Topic of the FASB Accounting Standards Codification, fair value is to be determined based on the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market, in an orderly transaction between market participants. Such is a market-based measurement, not an entity-specific measurement.

This Topic establishes a three-level valuation hierarchy based upon observable and non-observable inputs. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Plan's market assumptions. The fair value hierarchy consists of three levels of inputs that may be used to measure fair value as follows:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.

Level 2 – Inputs other than quoted prices included in Level 1 that are observable either directly or indirectly; quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data, for substantially the full term of the assets or liabilities.

Level 3 – Significant inputs to the valuation model that are unobservable, typically based on a Plan's own assumptions, as there is little, if any, related market activity.

In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

The methods of valuation described herein may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Accounting for Uncertainty in Income Taxes— The *Income Taxes* topic of the FASB Codification clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements and is effective for fiscal years beginning after December 15, 2008. The Plan adopted the provisions of the topic and the adoption did not impact the amounts reported in the Plan's financial statements.

Subsequent Events— As required by the *Subsequent Events* topic of the FASB Codification, the Plan evaluated subsequent events through February 11, 2011, which is the date the financial statements were available to be issued.

Use of Estimates—The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Expenses—Administrative expenses of the Plan are paid by the Plan to the extent they are not paid by the Plan Sponsor as provided in the Plan document.

Payment of Benefits—Benefit payments to participants are recorded upon distribution.

Recent Accounting Pronouncements—In January 2010, the FASB issued Accounting Standards Update (“ASU”) 2010-06, *Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements* (“ASU 2010-06”), which amended ASC 820. The guidance required additional disclosures of significant transfers in and out of Level 1 and Level 2 assets and description of the reasons for the transfers. Additionally the information regarding purchases, sales, issuances, and settlements for Level 3 assets should be reported on a gross basis. ASU 2010-06 is effective for interim and annual reporting periods beginning after December 15, 2009 except for the disclosures about purchases, sales, issuances, and settlements in the roll forward of activity for Level 3 investments, which are effective for the fiscal years beginning after December 15, 2010. The Plan is currently evaluating the additional disclosure requirements.

3. FAIR VALUE MEASUREMENTS

The Company common stock is a level 3 investment and is valued at \$0 at April 30, 2010 and at April 30, 2009.

4. FEDERAL INCOME TAX STATUS

The Internal Revenue Service (“IRS”) has determined and informed the Company by letter dated March 20, 2003, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (“IRC”). The Plan has been amended since receiving the determination letter and the Company filed a new Application for Determination on January 29, 2010. While the IRS determination is pending, the Plan Administrator does not believe that anything has occurred that would be reasonably likely to cause the IRS to revoke such determination letter or to cause the Plan to lose its tax-qualified status. Therefore, there is no provision for income taxes in the Plan’s financial statements.

5. RISKS AND UNCERTAINTIES

The Plan invests primarily in Company stock. Company stock is exposed to various risks such as interest rate, market, and credit risks.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company reserves the right to merge, consolidate, or terminate the Plan at any time, for any reason subject to the provisions of ERISA.

7. PARTY-IN-INTEREST TRANSACTIONS

Plan investments are shares of Company common stock and, therefore, these transactions qualify as party-in-interest transactions.

8. SUBSEQUENT EVENTS

On June 9, 2010, the Company and certain of its domestic subsidiaries filed voluntary petitions for relief under Chapter 11 of title 11 of the United States Code, 11 U S C 101-1532, as amended in the United States Bankruptcy Court for the District of New Jersey. The Bankruptcy Court held a hearing on July 30, 2010, at which time the Bankruptcy Court confirmed the Company's Plan of Reorganization (the "Reorganization Plan"). While the Company's Reorganization Plan was confirmed on July 30, 2010, it did not become effective until August 16, 2010 (the "Effective Date"). The Reorganization Plan provided that holders of existing equity shares receive 1.5% of shares in the reorganized Company and existing ESOP shareholders receive 2.0% of equity in the reorganized Company. The 2% of equity in the reorganized Company was valued at approximately \$3,150,000 or \$5.48 per share.
