UIC 401(k) Retirement Savings Plan

Notes to Financial Statements

April 6, 2010 and December 31, 2009

1. Description of Plan

The following description of the UIC 401(k) Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan. The purpose of the Plan is to encourage employees to save regularly and to provide them additional funds upon their retirement. Through July 16, 2008, United Industrial Corporation was the named fiduciary, which controlled and managed the operations of the Plan, and the UIC 401(k) Retirement Savings Plan Administrative Committee was the plan administrator. Beginning on July 16, 2008, Textron Inc. (the Company or Employer) became the plan sponsor, fiduciary and plan administrator. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

On December 31, 2008, the Plan was frozen to new participants and contributions. Effective April 6, 2010, the Plan was merged into the Textron Savings Plan (TSP) and all Participant balances were transferred to the TSP.

Eligibility

Prior to December 31, 2008, full-time employees were eligible to participate in the Plan at any time following attainment of age eighteen. Part-time employees who had attained the age of eighteen were eligible to participate in the Plan upon completion of 1,000 hours of service during their first twelve months of employment. Effective December 31, 2008, no new participants are allowed in the Plan.

Investment Options

Plan participants may direct their elective contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds, self-directed brokerage accounts and a stable value fund as investment options for participants.

Contributions

Effective December 31, 2008, no further contributions or rollovers are allowed into the Plan, other than adjustments to correct prior period amounts. Prior to December 31, 2008, participating employees contributed to the Plan on a pre-tax basis through payroll deductions, in amounts of at least 1% up to such percentage as determined by the Employer from time to time (but in no event in excess of the annual Internal Revenue Service (IRS) limit). In addition, participating employees who turned fifty years of age or older in any calendar year could elect to make catch-up contributions to the Plan up to the annual IRS limit. Participants could also contribute amounts representing distributions

from other qualified defined benefit or defined contribution plans. These amounts were credited to each participant's elective contribution account and rollover contribution account, respectively.

Employer matching contributions were based on the participants' years of service as of January 1 of the plan year in which Employer matching contributions were made, in an amount equal to a percentage of compensation contributed as salary reduction contributions, up to a maximum range between 3% and 8% (subject to the maximum percentage of compensation permitted by the Plan). Employer matching contributions are not made with respect to catch-up contributions.

Forfeitures of the non-vested portion of the participant's matching contribution account occur upon termination of employment and after the vested portion of such an account has been distributed to the participants. Forfeitures are first used to pay any expenses payable by the Plan for the plan year and then used to reduce the Employer's contribution. At December 31, 2009, accumulated forfeited non-vested accounts totaled $27,708.

Vesting
Participants are fully vested in Employer and participants' contributions plus earnings.

Benefit Payments
Upon termination of service or attainment of 59-1/2 years of age, participants may elect to receive a lump-sum distribution equal to their vested account balance. Participants may also receive hardship withdrawals, subject to certain restrictions as defined in the plan document. A participant's beneficiary is entitled to a lump-sum distribution of the participant's vested account balance, if not yet distributed to the participant, following the participant's death. If the value of a participant's vested account balance is $1,000 or less, such benefit will be automatically distributed following the participant's termination of service.

Participant Loans
Participants may borrow from their plan accounts up to 50% of their vested account balance subject to a minimum of $1,000 and a maximum of $50,000 (reduced by outstanding loan amounts). The loans are secured by the balance in the participant's account and bear interest at a rate determined by the plan administrator. Principal and interest are paid ratably through payroll deductions to the participant's account and must be repaid over a period not to exceed sixty months, except in the case of loans incurred for the purchase of a primary residence, where the term may be up to fifteen years. As of March 1, 2007, participants are only allowed to have one loan outstanding. Any

participants that held more than one loan at March 1, 2007 were able to carry those loans until maturity.

Participant Accounts
Each participant's account is credited with the participant's contributions, the Employer's contributions, and an allocation of investment income or loss based on account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Prior to December 31, 2008, the Plan provided for automatic enrollment of employees. Under this provision, each employee who satisfied the eligibility requirements would be automatically enrolled and have an amount equal to 3% of his or her compensation automatically deferred unless the employee affirmatively elected a different elective deferral contribution percentage (including a zero percent election) or waived the automatic enrollment.

Plan Termination
The Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA.

2. Significant Accounting Policies

Basis of Accounting
The financial statements are prepared on the accrual basis of accounting.

Payment of Benefits
Benefits are recorded when paid.

Investment Valuation and Income Recognition
Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 6 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Fully Benefit-Responsive Investment Contracts

The Fidelity Managed Income Portfolio II (Stable Value) is a commingled pool that invests in fully benefit-responsive investment contracts. These contracts are recorded at fair value (see Note 6); however, since these contracts are fully benefit-responsive, an adjustment is reflected in the statements of net assets available for benefits to present these investments at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses.

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Administrative Expenses
All Plan expenses, except those directly associated with loan fees, are paid by the Company.

Subsequent Events
Management evaluated subsequent events for the Plan through February 14, 2011, the date the financial statements were available to be issued.

3. Investments

All investment information disclosed in the accompanying financial statements and schedules, including investments held and the adjustment from fair value to contract value for fully benefit- responsive investment contracts at December 31, 2009, and net appreciation in the fair value of investments and interest and dividends for the period January 1, 2010 through April 6, 2010 and the year ended December 31, 2009, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company, the trustee of the Plan.

During 2010 and 2009, the Plan's investments (including investments purchased, sold, as well as held during the year) appreciated in fair value as follows:

	January 1, 2010, through April 6, 2010	Year ended December 31, 2009
Mutual funds and common stock	**$ 7,249,931**	$ 26,436,512
	$ 7,249,931	$ 26,436,512

Investments that represent 5% or more of the Plan's net assets available for benefits are as follows:

	April 6, 2010	December 31, 2009
Fidelity Managed Income Portfolio II *	-	**$ 25,489,243**
Spartan 500 Index Fund	-	**22,173,096**
Fidelity Contrafund	-	**22,640,970**
Fidelity Retirement Government Money Market Fund	-	**11,274,066**
Davis NY Venture Y	-	**10,735,937**
Fidelity Diversified International Fund	-	**10,679,005**
Fidelity Low Priced Stock Fund	-	**8,880,339**

* The amount represents contract value for this investment; fair value at December 31, 2009 was $25,172,968.

4. Related Party Transactions

The Plan holds mutual funds managed by Fidelity Management Trust Company, the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

5. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated October 2, 2002, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and therefore the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status.

However, the plan administrator believes that the Plan has been designed to comply with the requirement of the Code. The Plan sponsor has submitted, but not yet received, a request for a new determination letter.

6. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The assumptions that market participants would use in pricing the asset or liability (the "inputs") are prioritized into a three-tier fair value hierarchy. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include quoted prices for similar assets and liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk.

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest-level input that is significant to the fair value measure in its entirety.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets carried at fair value.

	December 31, 2009			
	Level 1	**Level 2**	**Level 3**	**Total**
Equity securities:				
Domestic	**$ 35,755,812**	**$ —**	**$ —**	**$ 35,755,812**
International	**10,679,005**	**—**	**—**	**10,679,005**
Domestic-international blend	**36,933,401**	**—**	**—**	**36,933,401**
Equity and debt securities blend:				
Domestic-international blend	**29,124,989**	**—**	**—**	**29,124,989**
Debt securities blend:				
Domestic-international blend	**7,109,256**	**25,172,968**	**—**	**32,282,224**
Cash and money market fund	**12,108,581**	**—**	**—**	**12,108,581**
Total assets	**$ 131,711,044**	**$ 5,172,968**	**$ —**	**$ 156,884,012**

Mutual funds consist of groups of investments, which may include equity securities, debt securities or other mutual funds. The investments are valued primarily using quoted market prices in active markets (Level 1) and significant other observable inputs (Level 2), but the mutual funds themselves are quoted in an active market, and as a result, they are considered Level 1 investments.

The commingled pool is a stable value fund that invests in various types of investments, including corporate and government bonds, asset and mortgage backed securities, futures contracts, swap agreements and fully benefit-responsive wrap contracts. Because this investment is made up of observable inputs, but it is not quoted on an active market itself, it is a Level 2 investment.

The money market fund is quoted on an active market, although it is limited to institutional investors and retirement plan investors, and is a Level 1 investment. Common stock is quoted on an active market and is also a Level 1 investment.

Participant notes receivable are valued at the outstanding principal balance plus accrued interest, considering actual loan defaults. The current market interest rate of the loans approximates the historical issued interest rate, and the loan balance using the historical rates approximates fair value. These interest rates are objective amounts which are observable, but which are not based on quoted prices in active markets, and are therefore a Level 2 investment.

7. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	April 6, 2010	December 31, 2009
Net Assets available for benefits per the financial statements	-	**$ 159,914,183**
Adjustment from fair value to contract value for fully benefit-responsive investment contracts	-	**(316,275)**
Net assets available for benefits per Form 5500	-	**$ 159,597,908**
