NOTES to FINANCIAL STATEMENTS
JULY 21, 2010 AND DECEMBER 31, 2009

Note 1 – Plan Description

The following description of the Elmar Acquisition Corp., Inc. Profit Sharing 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the plan document for a more complete description of the Plan’s provisions.

General: The Plan was a defined contribution plan established on October 1, 1980 covering eligible employees of the Elmar Inc. division of Hunter Douglas (the “Company”). It was subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Effective July 21, 2010, all of the net assets of the Plan in the amount of \$3,155,445 were transferred to the Hunter Douglas Inc. Employee Savings 401(k) Plan.

Eligibility: Employees were eligible to participate if they had attained the age of 21. Plan entry dates were the first day of the plan year and the first day of each quarter in the plan year.

Contributions: Participants were permitted to make contributions from their compensation each pay period. The amount deferred in any calendar year could not exceed the limits specified under Internal Revenue Code Section 415(d). The maximum contribution for 2010 and 2009 was \$16,500. Participants were also able to contribute amounts representing distributions (rollovers) from other qualified benefit or contribution plans. An employee had to complete the rollover contribution amount within 60 days of the receipt of the distribution from another qualified plan or from the IRA. Additionally, participants who had attained the age of 50 before the close of the Plan year were eligible to make catch-up contributions of up to \$5,500 in 2010 and 2009, under the provisions of the Economic Growth and Tax Relief Reconciliation Act of 2001. The Company could have made discretionary employer contributions to the plan.

Participant Accounts: Participants directed the investment of their contributions into various investment options offered by the Plan. Each participant’s account was credited with the participant’s contribution and their allocation of Plan earnings and the Company’s discretionary contribution, if any, and was charged with an allocation of administrative expenses. Allocations were based on participant earnings or account balances, as defined. The benefit to which a participant was entitled was the benefit provided from the participant’s vested account.

Note 1 – Plan Description (continued)

Vesting: All participants of the Plan were immediately 100% vested in all their elective and rollover deferral contributions. Vesting in the Company's matching contributions was based on years of service as follows:

<u>Years of service</u>	<u>Vesting interest</u>
1-3	0%
4	100%

A participant became 100% vested in any nonvested amount if, while employed by the Company, the employee reached the normal retirement age of 65, died, or became disabled as defined by the Plan document.

Participant Loans: Participants were able to obtain loans against the value of their account, up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans were secured by the balance in the participant's account and bore interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan's Board of Trustees. Principal and interest were paid ratably through weekly payroll deductions. Upon termination of service, the loan balance was due in full.

Payment of Benefits: On termination of service due to death, disability or retirement, a participant was able to elect to receive an amount equal to the value of the participant's vested interest in his or her account at his or her election within a reasonable amount of time. Minimum distributions began no later than the April 1st following the year in which the participant attained the age of 65.

Forfeited Accounts: Any non-vested portion of a participant's account balance was forfeited upon a severance from service. Forfeitures were used to reduce future employer contributions to the Plan and to reduce plan expenses. Forfeitures used to reduce employer contributions during the year ended December 31, 2009 amounted to \$493.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting: The financial statements of the Plan were prepared on the accrual basis of accounting.

Note 2 – Summary of Significant Accounting Policies (continued)

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments were reported at fair value. Fair value was the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for discussion of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation included the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits: Benefits were recorded when paid.

Accounting for Uncertainty in Income Taxes: The Financial Accounting Standards Board ("FASB") issued an interpretation regarding Accounting for Uncertainty in Income Taxes. This interpretation clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with FASB ASC 740-10, *Accounting for Income Taxes*, and is effective for fiscal years beginning after December 15, 2008. The Plan adopted the provisions of this pronouncement and the adoption did not impact the amounts reported in the Plan's financial statements.

Note 3 – Risks and Uncertainties

The Plan invested in various investment options in combinations of mutual funds and other investment securities. Investment securities were exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it was at least reasonably possible that changes in the values of investment securities would occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 4 – Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 4 – Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Collective trust: Valued at the NAV and is based upon the market value of its underlying investments.

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009:

Assets at Fair Value as of December 31, 2009

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

Purchases, sales, issuances and settlements (net)	(16,318)	(35,465)
Balance, end of year	\$ -	\$ 16,318

Note 5 – Tax Status

The Plan used a prototype plan document sponsored by Alerus Financial. Alerus Financial obtained an opinion letter on March 31, 2008, in which the IRS stated that the prototype adopted by the Plan, as then designed, qualified under Internal Revenue Code ("IRC") Section 401(a). The Plan had not received a determination letter specific to the Plan itself; however, the Plan administrator and the Plan's tax counsel believed that the Plan was designed and was being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 7 – Related-Party Transactions

Certain Plan investments were shares of mutual funds managed by Alerus Financial. Alerus Financial was the custodian as defined by the Plan and, therefore, these transactions qualified as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to \$8,413, and \$16,578 for the period from January 1, 2010 to July 21, 2010 and the year ended December 31, 2009, respectively.
