Independent Auditor's Report

To the Board of Trustees
Addison Search 401(k) Plan
Chicago, Illinois

We were engaged to audit the accompanying statement of net assets available for benefits of the Addison Search 401(k) Plan (the Plan) as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009 and the schedule of assets (held at end of year) as of December 31, 2009 and the schedule of delinquent participant contributions for the year ended December 31, 2009 and 2008. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment summarized in Note 3, which was certified or provided by Transamerica Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan Administrator that the custodian holds the Plan's assets and executes transactions. As disclosed in Note 3, the Plan Administrator has obtained certifications from the custodian regarding the completeness and accuracy of the investment information provided to the Plan Administrator by the custodian as of and for the year ended December 31, 2009 and as of December 31, 2008.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified or provided by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As described in Note 2, the Plan adopted Financial Accounting Standards Board Accounting Standards Update 2010-25, *Plan Accounting - Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans,* as of December 31, 2009, which clarified how loans to participants should be classified and measured by defined contribution pension plans. This update was retrospectively applied to December 31, 2008.

Note 1. Plan Description

The following brief description of the Addison Search 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of Addison Professional Financial Search, Inc. (the Company), as defined by the Plan. Employees are eligible to participate in the Plan on the first day of the first, fourth, seventh, and tenth month of the Plan year upon reaching the age of 21 and completing one year of service, as defined by the Plan. These employees are eligible to receive a matching contribution, a safe harbor matching contribution and any discretionary contribution made by the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may contribute a minimum of 1 percent up to the lesser of 50 percent of pretax annual compensation, as defined in the Plan, or the maximum allowed by the IRS. Participants age 50 and older may contribute catch-up contributions as allowed per IRS limitations. The Company provides a safe harbor matching contribution for all participants equal to 100 percent of each participant's contribution up to the first 3 percent of the participants' compensation plus 50 percent of the next 2 percent of the participants' compensation, as defined by the Plan. The Company may also make separate discretionary contributions to the Plan. During 2009 plan year, the Company did not make such discretionary contributions to the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Participant accounts: Each participant's account is credited with the participant's contribution, Company safe harbor matching contribution, matching contribution, and allocations of the Company's discretionary contribution, if any, Plan earnings, and administrative expenses. Allocations are based on participant earnings or account balances, as defined by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions, the Company's safe harbor matching 401(k) contributions and earnings thereon. Company matching contribution and discretionary contributions are vested 20 percent after two years of service, and 20 percent per year thereafter, being fully vested after six years of credited service.

Payment of benefits: On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Under certain circumstances, participants may make financial hardship withdrawals.

Administrative expenses: Administrative expenses of the Plan are charged against earnings except to the extent the expenses are paid by the Plan Administrator.

Forfeitures: At December 31, 2009 and 2008, forfeited nonvested accounts amounted to $12,631 and $10,909, respectively. Forfeitures related to Company matching and discretionary contributions are used to offset administrative expenses and future Company contributions. Safe harbor matching contributions were reduced by $18,261 in 2009 from forfeited nonvested accounts.

Investment options: Upon enrollment in the Plan, a participant may direct employee contributions in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options at any time.

Note 1. Plan Description (Continued)

Participant loans: Participants may borrow from their account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 less the highest outstanding balance of loans during the one-year period prior to the date of the current loan or 50 percent of their vested account balance. Loan terms range from one to five years, or longer if used to purchase a primary residence. The loans are secured by the balance in the participant's account and bear interest at reasonable interest rate, as defined. Interest rates on current loans range from 4.25 percent to 6.00 percent. Principal and interest are paid ratably through payroll deductions.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits: Benefits are recorded when paid.

Accounting estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities, and changes therein. Actual results could differ from those estimates.

New accounting pronouncements: In September 2009, the Financial Accounting Standards Board (FASB) issued an amendment, *"Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)"* (ASU 2009-12), which provides guidance on how entities should estimate fair value of certain alternative investments. The fair value of investments within the scope of this guidance can now be determined using net asset value (NAV) per share as a practical expedient, when the fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV. It also requires disclosure of certain attributes by major category of alternative investments, regardless of whether the practical expedient was used. This amendment was effective for periods ending after December 15, 2009, with early adoption permitted. See Note 4 for the impact of our adoption.

The FASB issued new guidance on accounting for uncertainty in income taxes. The Plan adopted this new guidance for the year ended December 31, 2009. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by U.S. federal, state, or local tax authorities for years before 2006.

Note 2. Significant Accounting Policies (Continued)

In September 2010, the FASB issued an amendment, *Plan Accounting--Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans* (ASU 2010-25), which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This amendment is effective for periods ending after December 15, 2010, with early adoption permitted. This amendment will require retrospective application to all periods presented.

This amendment was adopted for the year ended December 31, 2009, and retrospectively applied to December 31, 2008. The adoption resulted in a reclassification of participant loans totaling $168,693 and $112,009 from investments to notes receivable as of December 31, 2009 and 2008, respectively. There was no impact to the net assets as of December 31, 2009 or 2008, as a result of the adoption.

Pending accounting pronouncements: In January 2010, the FASB issued ASU 2010-6, *Fair Value Measurements and Disclosures (Topic 820) – Improving Disclosures about Fair Value Measurements* which requires new disclosures and reasons for transfers of financial assets and liabilities between Levels 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and those disclosures should include a discussion of inputs and valuation techniques. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these charges. With respect to matters other than Level 3 measurements, the amendment is effective for periods beginning after December 15, 2009. The guidance related to Level 3 measurements is effective for periods beginning after December 15, 2010. Management is currently evaluating the impact of the guidance related to disclosures in the financial statements.

Subsequent events: The Plan has evaluated subsequent events through February 15, 2011, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by Transamerica Life Insurance Company

The following is a summary of the Plan's assets information as of December 31, 2009 and 2008, and for the year ended December 31, 2009, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	2009	2008
Shares of pooled separate accounts	$ 4,605,589	$ 2,543,350
Net appreciation in fair value of investments	$ 1,040,819	

Note 4. Fair Value Measurements

ASC 820, *Fair Value Measurements and Disclosures,* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Shares of pooled separate accounts: Valued at the total of the net asset value of the underlying investments, primarily consisting of shares of mutual funds and cash held by the account at year-end. The Plan's interest in the pooled separate accounts is valued based on the information reported by the investment advisor.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2009.

(a) This category includes investment choices that pursue their objectives primarily through the investment in investment grade bonds, issued by domestic companies and government agencies. Investment choices may also invest a portion of their assets in below investment grade securities.

(b) This category includes investment choices whose objectives are to maximize current income, consistent with liquidity and preservatin of principal. This category seeks to protect against loss of principal while providing returns comparable to money market funds and short-term Treasury instruments.

(c) This category includes investment choices that invest in a combination of domestic stocks, bonds, treasuries and money market securities. The values of stocks change in response to general market and economic conditions and the circumstances of individual issuers.

(d) This category includes investment choices that invest primarily in stocks issued by foreign companies, or that invest globally.

(e) This category includes investment choices that pursue their objectives primarily through the investment in both growth and value common stocks of large- to medium-sized domestic issuers.

(f) This category includes investment choices that invest primarily in stocks issued by larger companies that are expected to grow faster than the overall economy.

(g) This category includes investment choices that invest primarily in stocks issued by companies which are in specific industry sectors or invest only in companies that meet specific guidelines or beliefs.

Note 5. Investments

The following presents investments that represent five percent or more of the Plan's net assets as of December 31, 2009 and 2008.

Diversified Investors Long Horizon	263,038	154,162

*Less than 5 percent of net assets.

During 2009, the Plan's investments in shares of pooled separate accounts (including investments bought, sold and held during the year) appreciated in value by $1,040,819.

Note 6. Related-Party and Party-in-Interest Transactions

The Plan's investments are held and managed by Transamerica Life Insurance Company, the custodian. Also, Southeastern Employee Benefit Services, Inc. provides plan administrative services to the Plan. Therefore, these investment transactions qualify as party-in-interest transactions. Administrative expenses paid by the Plan were $10,381 for the year ended December 31, 2009.

Certain employees of the Company provide administrative and trustee services to the Plan. These employees do not receive compensation from the Plan for their services. Certain other expenses of the Plan are paid by the Company.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 8. Tax Status

Effective January 1, 2010, the Plan adopted a standardized form of a prototype plan sponsored by Southeastern Employee Benefit Services, Inc. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by the Company. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Note 9. Risks and Uncertainties

The Plan provides for various investment options. These investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 at December 31, 2009 and 2008:
