HOME HEALTH CARE AFFILIATES, INC. 401(k) RETIREMENT PLAN

Notes to Financial Statements

July 31, 2010 and December 31, 2009

Note 1 - Description of plan:

Home Health Care Affiliates, Inc. (the Company) established the Home Health Care Affiliates, Inc. 401(k) Retirement Plan (the Plan) effective as of April 1, 2001. The Plan is a defined contribution plan covering all employees of the Company and the following affiliates: Gilbert's Home Health Agency, Inc., Colorado Springs Medical Management, Inc. (doing business as Physicians Home Health Care), Home Health Care Affiliates of Central Mississippi, LLC, Home Health Care Affiliates of Mississippi, Inc., Van Winkle Home Health Care, Inc, Gilbert's Hospice Care, LLC, and Gilbert's Hospice Care of Mississippi, LLC. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. As plan administrator, the Company has delegated certain of its authority to The Standard, an independent third party, for the purpose of day-to-day administration. The Plan's assets are held in trust by Reliance Trust Company (the Trustee), an independent third party. Complete information regarding the Plan is included in the Plan document.

The Company voted to cease participation in the Plan effective February 29, 2008 for all participating employers except Colorado Springs Medical Management, Inc., which ceased participation in the Plan effective March 31, 2008. Upon the effected dates the employers became participating employers in the Gentiva Health Services Retirement Savings Plan and all affected employees became 100% vested in their Plan accounts. As the Plan was frozen, no further contributions were made to the Plan.

The Plan was merged into the Gentiva Health Services Retirement Savings Plan effective July 1, 2010. All assets were transferred by July 8, 2010.

Eligibility

Employees of the Company were generally eligible to participate in the salary reduction portion of the Plan on the date of employment. For participating in Company contributions the effective date was the first day of the month coinciding with or next following the date the employee met the 6 months of service eligibility requirement. Once eligible for the employer contribution, the participant must have completed at least a year of service and been employed on the last working day of the Plan year to be eligible for an allocation of the contribution.

Note 1 - Description of plan - continued:

Contributions

Participants could elect to contribute a portion of their pre-tax compensation, as defined in the Plan document, through payroll deductions subject to certain limitations as provided in applicable sections of the Internal Revenue Code (the Code). The Company determined annually a percentage of the employee contribution that would be matched through a Company matching contribution. They also determined the maximum employee contribution to be matched. This contribution was determined at the sole discretion of the Company. No matching contribution was made for the year ended December 31, 2009. A total of $5,506 in corrective contributions were made by the employer in 2009 reflecting a correction required for an error made in calculation of distributions made to individuals upon freezing of the Plan during 2008.

Participant accounts

Each active participant's account is credited with the participant's contribution and an allocation of the Company's contribution, plan earnings and, as applicable, forfeitures of terminated participants' non-vested accounts. Allocations are based on a participant's compensation or account balance, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting and forfeitures

Participants were immediately vested in their voluntary contributions and the earnings thereon. Vesting in the Company's contributions was based on years of credited service as follows:

Completed Years of Service	Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Note 1 - Description of plan - continued:

Vesting and forfeitures - continued

At July 1, 2010 and December 31, 2009 there was a forfeiture account balance of $0 and $3,968, respectively. As discussed in Note 1, all plan assets were transferred to the Gentiva Health Services Retirement Savings Plan during July 2010, including the forfeiture account balance. For the period ended July 31, 2010 there were no forfeitures used to pay administrative expenses, reduce contributions or allocated to participants.

Payment of benefits

Upon retirement, death, disability or termination of service, a participant could elect to receive a lump-sum distribution or installment distribution equal to his or her vested account balance. In addition, hardship distributions were permitted if certain criteria were met.

Plan termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be fully vested and distributed to such participant or to his or her beneficiary at the time prescribed by the Plan terms and the Code. As discussed in Note 1, the Company chose to merge the plan out of existence into the Gentiva Health Services Retirement Savings Plan effective July 1, 2010.

Administrative Expenses

Substantially all expenses incidental to the administration of the Plan have been paid by the Company.

Note 2 - Summary of significant accounting policies:

Basis of presentation

The Plan has adopted Financial Accounting Standards Board (FASB) Codification. The Codificaiton is the single source of authoritative generally accepted accounting principles in the United States (U.S. GAAP) recognized by the FASB to be applied by nongovernmental entities and all of the Codifications content carries the same level of authority.

Note 2 - Summary of significant accounting policies - continued:

Basis of accounting

The accounting records of the Plan are maintained on the accrual basis in accordance with accounting principles generally accepted in the United States of America.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Accordingly, actual results may differ from those estimates.

Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate risk, market risk, and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.

Fair value measurements

The Plan's investments are valued at fair value based on a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;

Note 2 - Summary of significant accounting policies - continued:

Fair value measurements - continued

- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodology used at July 31, 2010 and December 31, 2009.

- Shares of registered investment companies are valued at the net asset value of shares held by the Plan at year-end by obtaining quoted prices on nationally recognized securities exchanges.
- Units of participation of the common/collective trust fund are valued by the fund's trustee based on the fair values of the underlying assets of the fund at period end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

As described in Note 1, the Plan was merged into the Gentiva Health Services Retirement Savings Plan effective July 1, 2010, therefore, the fair value of assets at July 31, 2010 was $0.

Subsequent events

The Plan has evaluated subsequent events through December 3, 2010, which is the date these financial statements were available to be issued. All subsequent events, if any, requiring recognition as of July 31, 2010, have been incorporated into these financial statements.

Note 3 - Tax status:

The underlying volume submitter plan has received an opinion letter from the Internal Revenue Service (IRS) dated July 5, 2005 stating that the form of the Plan is qualified under Section 401(a) of the Internal Revenue Code (IRC), and therefore, the related trust is tax-exempt. The Plan administrator has determined that it is eligible to and has chosen to rely on the current IRS volume submitter plan opinion letter. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes the Plan has been operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Note 4 - Investments and information certified by the trustee:
