Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 8 for further discussion of fair value measurements.

The Wells Fargo Collective Stable Return (N) invests in fully benefit-responsive investment contracts. These investment contracts are recorded at fair value (see Note 8); however, since these contracts are fully benefit-responsive, an adjustment is reflected in the statements of net assets available for benefits to present these investments at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

New Accounting Pronouncements

Paragraphs 51A-51H of Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820-10-35, issued in April 2009 as FASB Staff Position No. 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly*, provide additional authoritative guidance to assist both the Sponsor and users of financial statements in determining whether a market is active or inactive, and whether a transaction is distressed. The Plan adopted the revised provisions of ASC 820 for the reporting period ended December 31, 2009. The adoption did not impact the Plan's net assets available for benefits or its changes in net assets available for benefits.

In May 2009, the FASB issued Statement of Financial Accounting Standards (SFAS) No. 165, *Subsequent Events*, which was codified into ASC 855, *Subsequent Events*, to provide general standards of accounting for and disclosure of events that occur after the balance sheet date, but before financial statements are issued or are available to be issued. ASC 855 was amended in February 2010. The Plan has adopted ASC 855, as amended. The Plan evaluated subsequent events for recognition or disclosure through the time of issuing these financial statements on February 18, 2011, and one event was identified. Effective January 1, 2010, the Plan was restated.

Paragraphs 58-62 of FASB ASC 820-10-35, issued in September 2009 as Accounting Standards Update 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, amended ASC 820 to allow entities to use net asset value (NAV) per share (or its equivalent), as a practical expedient, to measure fair value when the investment does not have a readily determinable fair value and the NAV is calculated in a manner consistent with investment company accounting. The Plan adopted the amended guidance for the reporting period ended December 31, 2009. The adoption did not impact the Plan's net assets available for benefits. See Note 8 for fair value disclosures.

In January 2010, the FASB issued Accounting Standards Update 2010-06, *Improving Disclosures about Fair Value Measurements*, which amends ASC 820 to clarify certain existing fair value disclosures and to require a number of additional disclosures. The amended guidance clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. The new guidance also clarified the requirement for entities

to disclose information about both the valuation techniques and inputs used in estimating Level II, and Level III fair value measurements. In addition, the new guidance introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels I, II and III of the fair value hierarchy and to present information regarding the purchases, sales, issuances, and settlements of Level III assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level III measurements on a gross basis, which is delayed until 2011, the amended guidance became effective for reporting periods beginning after December 15, 2009. The Plan adopted the amended guidance effective January 1, 2010, and the adoption did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

3. Investments

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held, and the adjustment from fair value to contract value for fully benefit-responsive investment contracts at December 31, 2009 and 2008, and net appreciation (depreciation) in fair value of investments, interest, and dividends for the year ended December 31, 2009, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by Wells Fargo, N.A., the trustee of the Plan.

The following presents investments that represent 5% or more of the Plan's total net assets as of December 31:

4. Party-in-Interest Transactions

The Plan holds units of mutual funds and common/collective trust funds managed by Wells Fargo, N.A., the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

5. Plan Termination

Although it has not expressed any intent to do so, the Sponsor reserves the right under the plan document to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA and collective bargaining unit contracts. Upon termination, the participants become fully vested and all plan assets will be allocated to participants' accounts.

6. Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated June 7, 2001, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended and restated. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, credit, and overall market risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and that such change would materially affect the amounts reported in the statements of net assets available for benefits.

8. Fair Value Measurements

In accordance with FASB ASC 820, *Fair Value Measurements and Disclosures*, assets and liabilities measured at fair value are categorized into the following fair value hierarchy:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Veolia Water Indianapolis Savings Plan

Notes to Financial Statements (continued)

8. Fair Value Measurements (continued)

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the assets or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The following is a description of the valuation methodologies used for assets and liabilities measured at fair value.

Mutual Funds: The shares of mutual funds are valued at quoted market prices, which represent the NAV of shares held by the Plan at year-end.

Common/collective trust funds: Valued at the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, divided by the number of units outstanding.

8. Fair Value Measurements (continued)

The collective trust funds, which consist of the Plan's investments in the Wells Fargo Collective Stable Return Fund and Wells Fargo COLL/BGI S&P 500 Index High Bal Fund, are designed to deliver safety and stability by preserving principal and accumulating earnings. The funds are primarily invested in guaranteed investment contracts and synthetic investment contracts. Withdrawals from the funds are not restricted; however, the Plan may be required to provide a one-year redemption notice to withdraw assets. Plan requests of fund-to-fund transfers must direct transfers to a non-competing fund for 90 days before transferring investments to a competing fund offered by the Plan.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets carried at fair value:

	Level 1	Level 2	Total
December 31, 2009			
Mutual funds	\$ 6,914,881	\$ –	\$ 6,914,881
