Rowe Price Trust Company ("T. Rowe"), the trustee of the Plan for the year ended December 31, 2007. Their report, dated October 15, 2008, indicated that (a) because of the significance of the information that they did not audit, they were unable to, and did not, express an opinion on the financial statements taken as a whole and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the trustee, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note D, which was certified by T. Rowe, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2008, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Altivity Packaging Savings Plan for Union Hourly Employees

Notes to Financial Statements

A. DESCRIPTION OF THE PLAN

The following description of the Altivity Packaging Savings Plan for Union Hourly Employees (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan established July 1, 2006. The Plan was sponsored by Altivity Packaging, LLC ("the Company"). On January 23, 2007, the Benefits Committee of the Company approved the merger of the Field Container Company, L.P. Tax Deferred Savings Plan (Hourly) into the Plan effective January 1, 2008. On March 10, 2008, the Company was acquired by Graphic Packaging Holding Company at which time Graphic Packaging International, Inc. became the Plan's sponsor. Effective January 1, 2008, the Plan was amended and restated and the Plan name was changed from Altivity Packaging Savings Plan for Hourly Employees to Altivity Packaging Savings Plan for Union Hourly Employees. Effective January 1, 2009, the Plan merged into the GPI Hourly Savings Plan.

The Plan covers substantially all employees of the Company who are covered by a collective bargaining agreement and who have completed a required amount of continuous service, as defined in the Plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions. Each year, participants may make pre-tax contributions, as defined by the Plan document, not to exceed certain Internal Revenue Code ("IRC") limits. Participants may also make after-tax contributions up to 20% of compensation, although in no event may pre-tax and after-tax contributions exceed 50% of eligible compensation. In addition, participants may contribute amounts representing distributions from other qualified plans. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

The Company contribution is based on fixed matching of pre-tax contributions pursuant to the collective bargaining agreements. In addition, the Company makes an additional mandatory matching contribution for certain eligible participants in the amount of 1% of eligible compensation. The Company does not match any participant voluntary catch-up or after-tax contributions.

Participant Accounts. Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and Plan earnings and charged with withdrawals and allocations of administrative expenses and Plan losses. Allocations are based on participant earnings, participant contributions or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes to Financial Statements (Continued)

Vesting. Participants are immediately vested in their contributions and actual earnings thereon. Vesting in the Company's matching contribution portion of their account is based on years of continuous service and varies according to the location where the participant is employed. Depending upon location, the participant vests in matching contributions either immediately, after three years credited service or on a graduated scale after five years of credited service. Participants are 100% vested in the Company's automatic contribution portion of their account after three years of credited service. If continuous service is terminated by death, disability or retirement a participant is immediately 100% vested.

Payment of Benefits. A participant is entitled to a distribution of 100% of his or her account balance upon retirement, death or disability. Upon termination of service for any other reason, a participant may elect to receive the value of the vested portion of their account as a direct rollover to a qualified plan, lump-sum payment, installment payment or partial payments. A participant may take a distribution in the event of financial hardship if all requirements are met as specified by the Plan document.

Participant Loans. Effective January 1, 2008, participants may borrow from their accounts in amounts equal to a maximum of \$50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear varying rates of interest, which are commensurate with local prevailing rates as determined by the Plan administrator. Interest rates range from 7.0% to 8.25% per annum on loans outstanding at December 31, 2008. Principal and interest is paid ratably through payroll deductions.

Forfeited Accounts. Forfeitures are first used to pay any Plan expenses not paid by the Company and are then used to reduce future employer contributions. There were no forfeited, nonvested accounts at December 31, 2008 and 2007. In 2008, employer contributions were reduced by \$2,323 from forfeited nonvested accounts.

Administrative Expenses. With the exception of certain administrative costs, costs of administering the Plan are paid by the Company. These costs include legal, accounting and administrative fees.

B. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting. The financial statements of the Plan are prepared under the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America.

Fully-Benefit Responsive Investment Contracts. As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans (the "FSP")*, investment contracts held by a defined-contributions plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan invests in a common/collective trust which invests in investment contracts. The Statement of Net Assets Available for Benefits, as of December 31, 2007, presents the fair value of the investment in the common/collective trust as well as the adjustment

Notes to Financial Statements (Continued)

of the fully benefit-responsive investments from fair value to contract value relating to investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition. The Plan's investments are reported at fair value. Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). Following is a description of the valuation methodologies used for assets at fair value as of December 31, 2007:

Common/collective trust: The Plan invests in the T. Rowe Price Stable Value Common Trust Fund, which invests primarily in guaranteed investment contracts ("GICS") issued by insurance companies, investment contracts issued by banks and synthetic investment contracts ("SICS") issued by banks, insurance companies and other issuers. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals. The fair value of the Plan's interest in the common/collective trust is determined by the net asset value as reported by the trust on the valuation date which is determined by the underlying investments as follows: The fair value of GICs is generally determined by discounting the scheduled future payments required under the contract using an interpolated market rate for contracts with maturities comparable to the average remaining life of the contract being valued. GIC fair value reflects interest accrued on the contract, assuming the contract is held to maturity and, therefore, not subject to any adjustments that could be assessed by the issuer for certain types of withdrawals or early surrender by the trust. The fair value of wrap contracts reflects the discounted present value of the difference between the current wrap contract cost and its replacement cost, based on issuer quotes. For assets other than investment contracts, including assets underlying SICs, fair value generally is reflected by market value at the close of business on the valuation date. Debt securities generally are traded in the over-the-counter market. Debt securities with original maturities of one year or more at the time of acquisition are valued at prices furnished by dealers who make markets in such securities or by an independent pricing service, which considers the yield or price of bonds of comparable quality, coupon, maturity, and type, as well as prices quoted by dealers who make markets in such securities. Debt securities with remaining maturities of less than one year at the time of acquisition generally use amortized cost to approximate fair value. However, if amortized cost is deemed not to reflect fair value, the securities are valued at prices furnished by dealers who make markets in such securities or by an independent pricing service.

Mutual funds: Valued at net asset value of shares held by the Plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Management fees and operating expenses charged to the Plan are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Notes to Financial Statements (Continued)

Risks and Uncertainties. The Plan invests in mutual funds and a common/collective trust which invest in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Use of Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Payment of Benefits. Benefits are recorded when paid.

New Accounting Pronouncements. In September 2006, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards ("SFAS") No. 157, *Fair Value Measurements* ("SFAS 157"). SFAS 157 defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. SFAS 157 applies to reporting periods beginning after November 15, 2007. The Plan has adopted SFAS 157. There was no material impact to the financial statements of the Plan upon adoption of SFAS 157.

On April 9, 2009, the FASB issued Staff Position No. SFAS 157-4 (the "FSP") to provide additional guidance for estimating fair value in accordance with FAS 157 when the volume and level of activity for an asset or liability have significantly decreased. This FSP also includes requirements to disclose the inputs and valuation technique(s) used to measure fair value and guidance on identifying circumstances that indicate when a transaction is not considered orderly. The FSP is effective for fiscal years and interim periods ending after June 15, 2009. The Company has not yet analyzed the impact of this FSP to the Plan.

C. INVESTMENTS (UNAUDITED INFORMATION)

All investments are participant directed. The following presents the Plan's investments that represent five percent or more of the Plan's net assets available for benefits as of December 31, 2007. There were no investments as of December 31, 2008.

T. Rowe Price Blue Chip Growth Fund	4,324,157

D. INFORMATION CERTIFIED BY TRUSTEE

The following is a summary of unaudited information regarding the Plan as of December 31, 2008 and 2007, and for the year ended December 31, 2008, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information prepared by T. Rowe and furnished to the Plan administrator. The Plan administrator has obtained certifications from the trustee that such information is complete and accurate.

E. FEDERAL INCOME TAX STATUS

On January 1, 2008, the Plan was restated. The Company has not submitted the new plan document to the Internal Revenue Service ("IRS") for approval. However, the Company and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

F. PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are shares of mutual funds and a common/collective trust managed by T. Rowe. T. Rowe is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. T. Rowe receives administrative fees from the Plan.

G. DELINQUENT CONTRIBUTIONS

During the year ended December 31, 2008, there were late contributions relating to employee deferrals of \$523. The contributions were deposited into the Plan during 2008 and the Company is in the process of taking corrective action including the calculation of lost earnings and expects to deposit the lost earnings to the GPI Hourly Savings Plan for the affected participants no later than December 31, 2009.
