SOUTHWESTERN INDUSTRIES, INC. 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2010

NOTE 1 - Description of the Plan

The following description of the Southwestern Industries, Inc. (the Company) 401 (k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the Company who have completed one year of service. Employees will become participants on the first day of the month coinciding with or following the date eligibility is met. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may elect to contribute from 2% to 10% of their pretax annual compensation, as defined in the Plan document. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company matches up to 3% of compensation, plus 50% of participant contributions in excess of 3%, not to exceed 5% of compensation for the Plan year. The Company may also make a discretionary profit-sharing contribution. Participants direct the investment of contributions to their account into various investment options offered by the Plan. The Plan currently offers a common collective trust and various mutual funds as investment options for participants. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's matching contribution and discretionary contribution, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, contributions, or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 – Description of the Plan (Continued)

Vesting

Participants' elective deferral contributions and the Company's matching and discretionary contributions, plus actual earnings thereon, are 100% vested upon contribution. Prior to July 1, 2003, the Company's matching and discretionary contributions followed a vesting schedule.

Payment of Benefits

On termination of service due to death, disability, retirement or other reasons, a participant or beneficiary may elect to receive a lump sum distribution equal to the value of the participant's vested interest in his or her account. If, upon termination, the participant has not elected to receive or rollover his or her account balance and, if the vested account balance is greater than $1,000 and does not exceed $5,000, the trustee will follow the Plan provisions for distribution.

Forfeited Accounts

At June 30, 2010 and 2009, forfeited nonvested accounts totaled $12,760 and $12,410, respectively. These amounts are to be used first to pay Plan administrative expenses, and, then to reduce future employer matching contributions.

NOTE 2 – Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of change in net assets available for benefits is prepared on a contract value basis.

NOTE 2 – Summary of Significant Accounting Policies (Continued)

Basis of Presentation of Financial Statements

In June 2009, the Financial Accounting Standards Board (FASB) established the Accounting Standards Codification (Codification) as the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in accordance with generally accepted accounting principles (GAAP). Existing GAAP is not intended to be changed as a result of the Codification and, accordingly, the change did not impact the Plan's financial statements. The Codification does change the way the guidance is organized and presented.

Use of Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses not paid by the Plan are paid by the Company.

Subsequent Events

The Plan has evaluated subsequent events through January 27, 2011, the date the financial statements were available to be issued.

NOTE 3 – Investments

The Plan's investments have been certified by Wells Fargo Bank, the Plan trustee. The investments that represent 5% or more of the Plan's net assets are separately stated.

Wells Fargo Bank:		
Wells Fargo Stable Return	$ 2,871,005	$ 2,251,583

Other mutual funds	914,952	1,039,492
	$ 8,274,577	$ 7,235,875

During the plan year ended June 30, 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $577,511 as follows:

Mutual funds	$ 636,789
Common collective trust	(59,278)
	$ 577,511

NOTE 4 – Fair Value Measurements

FASB *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1
Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2
Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3
Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 4 – Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2010 and 2009.

Mutual funds: Valued on a daily basis using quoted market prices.

Common collective trust: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realized value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2010 and 2009:

	Assets at Fair Value as of June 30, 2010			
	Level 1	Level 2	Level 3	Total

Total assets at fair value	$ 4,984,292	$ 2,251,583	None	$ 7,235,875

NOTE 5 – Related-Party Transactions

Certain Plan investments are shares of mutual funds and a common/collective trust managed by Wells Fargo Bank. Wells Fargo Bank is the trustee defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $4,950 for the year ended June 30, 2010.

NOTE 6 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time or to terminate the Plan subject to the provisions of ERISA.

NOTE 7 - Tax Status

Effective July 1, 2003, the Company adopted a prototype profit-sharing plan with a cash or deferral arrangement and received a favorable opinion letter from the IRS which stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the opinion letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 8 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 9 - Reconciliation of Financial Statements to the Form 5500
