Independent Auditor's Report

To the Trustees of
Martha's Hands LLC 401(k) Profit Sharing Plan and Trust

We have audited the accompanying statements of net assets available for benefits of Martha's Hands LLC 401(k) Profit Sharing Plan and Trust as of December 31, 2009, 2008, 2007 and 2006 the related statements of changes in net assets available for benefits for the years ended December 31, 2009, 2008, and 2007 and for the period from inception September 20, 2006 to December 31, 2006. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Martha's Hands LLC 401(k) Profit Sharing Plan and Trust as of December 31, 2009, 2008, 2007, and 2006 and the changes in its net assets available for benefits for or the years ended December 31, 2009, 2008, and 2007 and for the period from inception September 20, 2006 to December 31, 2006, in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets held for investment purposes at December 31, 2009, 2008, 2007 and 2006 are presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental information is the responsibility of the Plan's management. The supplemental information has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

1. Description of plan

The following description of the Martha's Hands LLC 401(k) Profit Sharing Plan and Trust (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the plan's provisions.

General: The Plan is a defined contribution Plan covering all full-time employees of the company who have one year of service and are age twenty-one or older. In 2006, the Plan permitted participants to enter the Plan on the first day of the quarter after they met eligibility requirements. Then also in 2006, the Plan was amended to enable participants to enter the Plan immediately after they met eligibility requirements. Also, in August of 2006 the Plan was amended to include a Roth option for employee deferrals. The Plan was restated in 2006, January 1, 2007, and January 1, 2008.

Contributions: Each year, participants may contribute up to 96 percent of pretax annual compensation in 1 % increments, as defined in the plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may make elect to reduce their compensation, or elect to have the contribution designated as a Roth contribution that does not reduce their compensation. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the plan. The Plan currently offers various mutual funds as investment options for participants. The company makes a safe harbor contribution contributes 100 percent of the first 3 percent of base compensation that a participant contributes to the Plan plus an additional 50% of contributions in excess of 3% but not more that 5 % of the employee's compensation.

Participant Accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions and safe harbor contributions plus actual earnings thereon. Vesting in the company's contribution portion of their accounts is based on years of continuous service. Non-safe harbor contributions are vested 100% after 3 years of service.

1. Description of plan (continued)

Participant loans: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or (95% of 50%) 47.5% of their percent of their account balance. The loans are secured by the balance in the participant's account at interest rates which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

Payment of benefits: On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten-year period. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited accounts: At December 31, 2009, 2008, 2007 and 2006 there were no non-vested forfeited non-vested accounts.

2. Summary of accounting policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits: Benefits are recorded when paid.

Operating expenses: All expenses of maintaining the Plan are paid by the company. The third party administrator and investment advisor also receive indirect compensation that is not reflected in the financial statements.

2. Summary of Accounting Policies (continued)

Subsequent events: The Plan has evaluated subsequent events through February 11 the date the financial statements were available to be issued.

3. Investments (continued)

The net appreciation and depreciation presented in the financial statements represents changes in the value of registered investment companies.

4. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1- Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. Inputs to the valuation methodology include, quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets;

Level 2 - Inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

4. Fair value measurements (continued)

The Plans investments are all level 1 investments in mutual funds. Mutual funds are publicly traded at are valued at the net asset value (NAV) of shares held by the Plan at year end. The following table classifies the investments in registered investment companies by objective for December 31, 2009, 2008, 2007 and 2006:

	December 31,			
	2009	2008	2007	2006

Other	798	1,541	513	243
Total	$ 341,090	$ 223,508	$ 174,133	$ 28,888

5. Participant loans

In September 2010, the Financial Accounting Standards Board passed an accounting standard update that requires participant loans be classified as notes receivable instead of investments. The standard will be effective for fiscal years ending after December 15, 2010. The Plan has elected to adopt that standard for all years of the Plan included in these financial statements. The form 5500 will continue to classify the participant loans as investments.

6. Party-in-interest transactions

The Plan has several service providers who are parties-in-interest. Transactions with the parties-in-interest are believed to be exempt.

7. Excess contributions

Excess contributions reported in the financial statements represent contributions by employees who were not eligible to participate in the Plan.

8. Plan termination

Although it has not expressed any intent to do so, the company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

9. Tax status

The Internal Revenue Service has approved the prototype Plan document and informed the trustees that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

10. Compliance

The Plan has not complied with the requirement to a file form 5500 audit requirements for large Plans. The Plan management engaged an auditor in December 2010. The Plan will an file amended form 5500 for the year ended December 31, 2006, and file delinquent form 5500 with the related audits for the years ended December 31, 2007 to 2009. The Plan trustees are responsible for any and all penalties that may be assessed.

10. Risks and uncertainties

The Plan invests in various registered investment companies. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants'

11. Accounts of terminated participants

Amounts in accounts for participants who have been terminated but not withdrawn was $ 16,071, $ 9,977, and $ 12,262 as of December 31, 2007, 2008, and 2009 respectively.

12. Reconciliation of financial statements to form 5500

There are no differences between the net assets reported on form 5500 and the financial statements.
