INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of the
Lion Country Safari Inc – Florida
Employee Savings Plan
Loxahatchee, Florida

We were engaged to audit the statements of net assets available for benefits of Lion Country Safari Inc – Florida Employee Savings Plan (the "Plan") as of October 31, 2010 and 2009, and the statements of changes in net assets available for benefits for the years then ended and the supplemental schedule of assets (held at end of year) as of October 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Principal Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the custodian as of October 31, 2010 and 2009 and for the years then ended that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with U.S. generally accepted auditing standards and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

(1) Description of plan

The following description of the Lion Country Safari Inc – Florida Employee Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all full-time employees of Lion Country Safari, Inc. – Florida (the "Company") who have six months of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Participants may contribute from 1% to 15% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Additionally, participants age 50 or older, who are making contributions to the plan, are allowed to make catch-up contributions as defined in the Plan. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may annually determine whether or not it will make a matching contribution to eligible participant accounts. For 2010 and 2009, the Company elected to contribute a matching contribution equal to 10% of eligible employee contributions. Additional amounts may be contributed at the option of the Company. Contributions are subject to certain limitations.

The Plan was amended effective October 5, 2009 to eliminate automatic enrollment in the 401(k) Plan at a 1% deferral rate.

Participant accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expense. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participant's contributions plus actual earnings are 100% vested immediately. Employer contributions are subject to the following vesting schedule:

Years of Service	Vested %
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

(1) Description of plan (continued)

Participants' loans receivable - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through payroll deductions.

Payment of benefits - On termination of service due to death, disability or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or annual installments as defined in the Plan. For termination of service due to other reasons, for accounts with a value of $5,000 or less, participants will receive the value of the vested interest in his or her account as a lump sum distribution and for accounts with a greater value, participants may receive a lump sum or annual installments as defined in the Plan. A participant may also make up to two withdrawals per year after reaching the age of 59 ½.

Forfeited accounts – At October 31, 2010 and 2009, the forfeited balances were $13 and $1,343, respectively. Forfeited accounts will be used to reduce employer contributions. Also, in 2010 and 2009, employer contributions were reduced by $1,535 and $0 from forfeited nonvested accounts, respectively.

(2) Summary of significant accounting policies

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a fair value basis.

Use of estimates - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

(2) Summary of significant accounting policies (continued)

New accounting pronouncements –

Fair value disclosures - In January 2010, the FASB issued guidance which expanded the required disclosures about fair value measurements. In particular, this guidance requires (i) separate disclosure of the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements along with the reasons for such transfers, (ii) information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for Level 3 fair value measurements, (iii) fair value measurement disclosures for each class of assets and liabilities and (iv) disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for fair value measurements that fall in either Level 2 or Level 3. This guidance is effective for annual reporting periods beginning after December 15, 2009 except for (ii) above which is effective for fiscal years beginning after December 15, 2010. The Company is currently evaluating the impact that this guidance will have on the Plan's financial statement disclosures.

Participant loans - In September 2010, the FASB issued guidance that requires participant loans to be classified as notes receivable from participants rather than investments and be measured at their unpaid principal balance plus accrued but unpaid interest. This guidance is effective for fiscal years ending after December 15, 2010. The Company is currently evaluating the impact that this guidance will have on the Plan's financial statement disclosures.

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits - Benefits are recorded when paid.

Administrative expenses - Certain expenses of the Plan are paid by the sponsor and are not included in the statement of changes in net assets available for benefits.

(3) Investment contract with insurance company

The Plan investments include guaranteed investment accounts with Principal Life Insurance Company (Principal). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at fair value as reported to the Plan by Principal

(3) Investment contract with insurance company (continued)

since the investment is not considered benefit responsive; while participants can normally transfer all or a portion of their investment at contract value, in the event the group annuity contract with Principal is terminated, the guaranteed investments would be distributed at fair value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. At October 31, 2010 and 2009, the average yield and crediting interest rates ranged from 1.50% to 4.43% with maturities ranging from October 31, 2010 through October 31, 2015 and 1.81% to 4.35% with maturities ranging from October 31, 2009 through October 31, 2014, respectively. The crediting interest rates are based on rates specified by the issuer and are reviewed on an annual basis for resetting.

(4) Investments

The following presents individual investments held by the Plan at October 31, 2010 and 2009 that represent 5% or more of net assets:

	October 31,	
	2010	2009
Lg Cap S&P 500 Idx Sep Acct	$ 237,375	$ 127,531
MidCap Value III Sep Acct	108,577	83,766
Small Cap Blend Sep Acct	96,176	74,216
Bond Emphasis Bal Sep Acct	88,457	70,655
U.S. Property Sep Acct	N/A	125,469
Diversified Intl Sep Acct	N/A	98,989

During the year ended October 31, 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated by $180,506 which was solely due to the pooled separate accounts.

(5) Information prepared and certified by the custodian

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Life Insurance Company has certified that the following data included in the accompanying 2010 and 2009 financial statements and supplemental schedule are complete and accurate with respect to investments:

- Investments at fair value
- Net appreciation (depreciation) in fair value of investments
- Interest and dividends
- Schedule of assets (held at end of year)

(5) Information prepared and certified by the custodian (continued)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(6) Fair value measurements

FASB ASC 820, (formerly SFAS No. 157*), Fair Value Measurements and Disclosures* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at October 31, 2010 and 2009.

Participant loans: Valued at amortized cost, which approximates fair value.

Guaranteed interest contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. See Note 3.

Pooled separate accounts: Valued at the net assets value of units held by the Plan at year end.

(6) Fair value measurements (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of October 31, 2010:

	Investments at Fair Value as of October 31, 2010

(6) Fair value measurements (continued)

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 investments for the year ended October 31, 2009.

	Level 3 Investments Year Ended October 31, 2009			
	Guaranteed Interest Account	U.S Property Separate Account	Participant Loans	Total
Balance, beginning of year	$ 218,107	$ 187,565	$ 12,642	$ 418,314

Balance, end of year	$ 239,406	$ 125,469	$ 15,802	$ 380,677

(7) Related party transactions

Plan investments are primarily within separate accounts managed by Principal with the exception of the guaranteed investment accounts, which are held in the general account of Principal. Principal is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for services provided by Principal amounted to $374 and $334 during the years ended October 31, 2010 and 2009, respectively.

(8) Tax status

The Company amended the Plan effective March 31, 2008 when it adopted a non-standard proto-type plan document sponsored by Principal Financial Group. The Internal Revenue Service has determined that the non-standard prototype 401(k) profit sharing plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC) and informed Custodian of such in an opinion letter dated March 31, 2008. The Plan Administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC.

(9) Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

(10) Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and such changes could materially affect participants' account balances and the amount reported in the statements of net assets available for benefits.

Due to the state of the real estate market, Principal took action to protect participants' interest in the Principal U.S. Property Separate Account (U.S. Property). Effective, September 26, 2008, Principal implemented a pre-existing contractual limitation in the group annuity contract to delay payment of most requests for withdrawal from the Separate Account. This allows Principal to manage the Separate Account and satisfy withdrawal requests over time and fairly among all those who request a withdrawal.

The withdrawal requests are honored proportionately as sufficient cash becomes available for distribution, in accordance with the terms of the group annuity contract. Death, disability and qualified retirement benefits and hardship withdrawals are not affected by this limitation and will be processed as usual. Transfers and contributions into this Separate Account are also being accepted as usual.

Participants are able to view their pending U.S. Property transactions via the participant website, as well as cancel pending investment transfer or rebalance requests from the U.S. Property. A list of all pending activity related to the U.S. Property for a specific retirement plan can be obtained from the plan's Client Service Associate/Manager upon request. As of October 21, 2010, all pending requests for withdrawals effective prior to that date have been fully satisfied. However, the limitation for withdrawal still remains for future requests.

This limitation applies only to U.S. Property and does not apply to other retirement plan separate accounts or Principal Funds, Inc.

(11) Subsequent events

The Plan has evaluated subsequent events through March 28, 2011, which is the date the financial statements were available to be issued.
