Independent Auditor's Report

Board of Directors
Darwill Press, Inc. Profit Sharing and Savings Plan
Hillside, Illinois

We were engaged to audit the statements of net assets available for benefits of Darwill Press, Inc. Profit Sharing and Savings Plan as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009, and the supplemental Schedule of Assets (Held at End of Year) as of December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified or provided by Fidelity Management Trust Company, the former trustee, and Wilmington Trust Retirement and Institutional Services Company, the current trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the current and former trustees hold/held the Plan's investment assets and execute/executed investment transactions. The Plan Administrator has obtained a certification from the current trustee as of December 31, 2009, and for the period from September 1, 2009 through December 31, 2009, that the information provided to the Plan Administrator by them is complete and accurate. The Plan Administrator has obtained a certification from the former trustee as of December 31, 2008, and for the period from January 1, 2009 through August 31, 2009, that the information provided to the Plan Administrator by them is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the current/former trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Plan Description

The following description of the Darwill Press, Inc. (the Company) Profit Sharing and Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of the Company who have completed six months of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute up to 60 percent of pretax annual compensation, as defined by the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Effective September 1, 2009, eligible participants are automatically enrolled in the Plan with a 3% deferral amount, unless they elect differently. The Company may make a discretionary matching contribution to the Plan equal to a percentage of the elective contributions made by the participants to the Plan. The Company's discretionary matching contribution was 30 percent of the first 10 percent of eligible compensation, as defined by the Plan, that a participant contributed to the Plan. The Company may also make a discretionary profit sharing contribution to the Plan at the end of the plan year. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contribution and Company matching contributions and allocations of the Company's discretionary profit sharing contribution, Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions plus actual earnings thereon. Company discretionary matching contributions are immediately vested at 100 percent. Company discretionary profit sharing contributions vest at 100 percent after three years of credited service. In the event of death, disability, or retirement at designated ages as defined, participants become fully vested.

Participant notes receivable: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance, whichever is less. Loan terms are up to five years, unless the loan is for the purchase of a primary residence. The loans are secured by the vested balance in the participant's account and bear interest at the prime rate plus 1%. This ranges from 4.25 percent to 8.25 percent at December 31, 2009. Principal and interest are paid ratably through payroll deductions.

Payment of benefits: On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or monthly, quarterly, semiannual or annual installments over a period not to exceed the participant's assumed life expectancy.

Forfeited accounts: At December 31, 2009 and 2008, forfeited nonvested accounts totaled $890 and $714, respectively. These accounts are used to reduce future Company contributions. During 2009 there were no Company contributions paid from forfeited nonvested accounts.

Investment options: Upon enrollment in the Plan, participants are allowed to invest in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options at any time.

Note 2. Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Payment of benefits: Benefits are recorded when paid.

New accounting pronouncements: In September 2009, the Financial Accounting Standards Board (FASB) issued an amendment, *Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)* (ASU 2009-12), which provides guidance on how entities should estimate fair value of certain alternative investments. The fair value of investments within the scope of this guidance can now be determined using net asset value (NAV) per share as a practical expedient, when the fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV. It also requires disclosure of certain attributes by major category of alternative investments, regardless of whether the practical expedient was used. This amendment was effective for periods ending after December 15, 2009, with early adoption permitted. See Note 4 for the disclosures related to the adoption of ASU 2009-12.

The FASB issued new guidance on accounting for uncertainty in income taxes. The Plan adopted this new guidance for the year ended December 31, 2009. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local authorities for years before 2006.

Note 2. Significant Accounting Policies (Continued)

Pending accounting pronouncements: In January 2010, the FASB issued an amendment, *Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements* (ASU 2010-16), which requires new disclosures and reasons for transfers of financial assets and liabilities between Levels 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and those disclosures should include a discussion of inputs and valuation techniques. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these charges. With respect to matters other than Level 3 measurements, the amendment is effective for periods beginning after December 15, 2009. The guidance related to Level 3 measurements is effective for periods beginning after December 15, 2010. Management is currently evaluating the impact of the guidance related to disclosures in the financial statements.

In September 2010, the FASB issued an amendment, *Plan Accounting – Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans (ASU 2010-25)*, which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This amendment was effective for periods ending after December 15, 2010, with early adoption permitted. This amendment requires retrospective application to all periods presented. This amendment has not yet been adopted. Management is currently evaluating the impact of the guidance related to presentation and disclosures in the financial statements.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through March 28, 2011, the date the financial statements were available to be issued.

Note 3. Information Certified or Provided by the Current Trustee, Wilmington Trust Retirement and Institutional Services Company, and the Former Trustee, Fidelity Management Trust Company

The following is a summary of the investment information as of December 31, 2009 and 2008, and for the year ended December 31, 2009, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the current trustee as of December 31, 2009 and for the period from September 1, 2009 through December 31, 2009, and the former trustee as of December 31, 2008 and for the period from January 1, 2009 through August 31, 2009, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustees that information provided to the Plan Administrator by the trustees related to the following investments are complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following investments:

Note 3. Information Certified or Provided by the Current Trustee, Wilmington Trust Retirement and Institutional Services Company, and the Former Trustee, Fidelity Management Trust Company (Continued)

The following information has been certified by the former trustee:

	2009	2008
Shares of registered investment companies	$ -	$ 9,611,569
Participant notes receivable	-	181,013
Net appreciation in fair value of investments	2,138,584	
Interest and dividends	71,037	

The following information has been certified by the current trustee:

	2009
Shares of registered investment companies	$ 10,966,200
Shares of common/collective trust	1,315,751
Participant notes receivable	142,712
Net appreciation in fair value of investments	1,082,225
Interest and dividends	114,001

Note 4. Fair Value Measurements

ASC 820, *Fair Value Measurements and Disclosures,* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 4. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008:

Shares of registered investment companies: Valued at the quoted market price of shares held by the Plan at year-end.

Shares of common/collective trust: Valued at the total net asset values of the underlying investments and cash held by the fund at year-end based on information reported by the investment advisor.

Participant notes receivable: Valued at amortized cost, which approximates fair value.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2009 and 2008:

	December 31, 2009			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies:

Total assets at fair value	$ 9,611,569	$ -	$ 181,013	$ 9,792,582

Note 4. Fair Value Measurements (Continued)

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2009.

	Participant Notes Receivable
Balance, beginning of year	$ 181,013
Loan issues and repayments, net	(38,301)
Balance, end of year	$ 142,712

The following table sets forth the fair value of investments in certain entities that calculate net asset value per share (or its equivalent):

Investment	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
MetLife Stable Value (a)	$ 1,323,644	$ -	Immediate	60 days

(a) This trust includes synthetic investment contracts, traditional investment contracts and cash investments. Investments in this category can be redeemed immediately by participants, and in 60 days following advance written notification at the Plan level. The fair value of investments in this category has been estimated using the net asset value per share of the investment.

Note 5. Investments

The fair value of investments that represent 5 percent or more of the Plan's net assets at December 31, 2009 and 2008, are as follows:

	2009	2008
Shares of registered investment companies:		
Fidelity Growth & Income Fund	**	$ 716,839
Fidelity Magellan Fund	**	1,288,158
Fidelity Low Price Stock Fund	**	815,776
Fidelity Intermediate Bond Fund	**	585,226
Fidelity OTC Portfolio	**	546,818
Templeton Foreign Fund	**	709,283
Fidelity Retirement Money Market Portfolio	**	1,452,387

Shares of common/collective trust:		
MetLife Stable Value, at fair value	1,323,644	**
MetLife Stable Value, at contract value	1,315,751	**

** Less than 5 percent of the Plan's net assets at the respective year-end.

During 2009, the Plan's investments in shares of registered investment companies (including investments bought, sold and held during each year) appreciated in value by $3,225,184.

Note 6. Related Party Transactions

Certain Plan investments were/are shares of registered investment companies managed by Fidelity Management Trust Company and Wilmington Trust Retirement and Institutional Services Company. These companies are the prior and current trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Furthermore, the prior and current trustees provided administration services to the Plan. Fidelity Management Trust Company and Wilmington Trust Retirement and Institutional Company received fees of $2,129 and $8,530, respectively, for the year ended December 31, 2009.

Certain employees of the Company provide administrative services for the Plan and are not reimbursed for their services from the Plan. Certain other administrative expenses are paid by the Company on behalf of the Plan.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their Company contributions.

Note 8. Tax Status

Effective January 1, 2002, the Plan adopted a non-standardized form of a prototype plan sponsored by Milliman USA, Inc. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
