Notes to Financial Statements

Description of plan:

General:

Kretek International and Subsidiaries, Inc. (the Company) is the sponsor of the Kretek International, inc. 401(K) Profit Sharing Plan (the Plan), a defined contribution plan covering all full-time employees of the Company who have at least three months of service and are twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

On June 11, 2009, the Company switched plan contracts with the recordkeeper (an agent of the custodian) to offer additional investments. The Plan was restated effective January 1, 2009.

Effective January 1, 2008, the Company split the plan into two separate plans, with the employees of Kretek International (a subsidiary of the Company) eligible to participate in this plan and the employees of Phillips & King and US Superfoods eligible to participate in the other plan. The plans are largely the same, the primary difference being employees of Kretek International can purchase life insurance through the Plan. During 2009, assets in the amount of $16,880 were transferred into the new plan as a participant was transferred between companies.

Contributions:

Participants may contribute (including catch-up contributions) up to 92% of pretax annual compensation up to the current statutory limits as defined by the Internal Revenue Code. Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions). The Company has the option of making discretionary matching contributions but has not elected to do so.

Participant accounts:

Participant accounts are credited with the participant's contribution, an allocation of plan earnings, and charged with an allocation of administrative expenses not paid for by the Company. Allocations are based on participant account balances. A participant is entitled to the vested portion of the participant's account.

Vesting:

Participants are immediately vested in their voluntary contributions. If the Company had a matching contribution it would be subject to the following vesting schedule. Vesting is based on years of continuous service as follows:

Years of service	Percentage
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

Notes to Financial Statements (continued)

Description of plan (continued):

Participant loans receivable: Participants may borrow from their fund accounts, a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms generally range from one to five years or up to 30 years for the purchase of a principal residence. Loans bear interest at prime plus 1%. Principal and interest is paid ratably through bi-monthly payroll deductions.

Payment of benefits: On termination of employment a participant may receive a lump sum distribution or an annuity as described in the Plan agreement. Hardship distributions are allowed. Benefits are recorded when paid.

Benefit claims payable: There were no amounts allocated to accounts of persons who have elected to withdraw from the Plan, but have not yet been paid at December 31, 2009 and 2008, respectively.

At December 31, 2009 and 2008, approximately $102,000 and $143,700, respectively, in plan benefits are applicable to person who no longer participate in the Plan. Amounts allocated to accounts of persons who have withdrawn from participation in the Plan are included in the net assets available for benefits.

Forfeited accounts: Forfeitures (if any) may be used to reduce the employer discretionary contribution. As all deferrals in the Plan at December 31, 2009 and 2008 were participant deferrals and 100% vested, there were no forfeitures during the years ended December 31, 2009 and 2008.

Plan expenses: Administrative expenses are reductions of plan assets allocated to participant accounts in accordance with their proportionate accumulated balance. Fees relating to distributions and participant loan processing are paid from the individual participant's accounts.

Summary of significant accounting policies:

Basis of accounting: The Plan's financial statements are prepared using the accrual method of accounting. Benefits are recorded when paid.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Plan termination: Although it has not expressed intent to do so, the Company has the right under the Plan to terminate it at anytime subject to the provisions of ERISA. In the event of a plan termination, participants would become fully vested in their employer contributions, if any.

Notes to Financial Statements (continued)

Summary of significant accounting policies:

Tax status:

The Plan utilizes a prototype plan document and relies on the opinion letter to the prototype document sponsor. The prototype document sponsor received an opinion letter on July 27, 2005 in which the Internal Revenue Service stated that the Plan as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since the prototype document sponsor received the opinion letter and is waiting for an updated determination letter. However, the Company believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC and that, therefore, the Plan qualifies under Section 401(a) and the related trust is exempt as of December 31, 2009 and 2008. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Investment valuation and income recognition:

The Plan's investments are reported at fair value which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Investments:

The fair values of individual investments that represent 5% or more of the Plan's assets, are as follows:

December 31,	**2009**	2008
Legg Mason var Money mkt	**$ n/a**	$218,426
BlackRock TempFund MGT	**241,900**	n/a
American Growth Fund	**116,233**	n/a
Pimco Total Return Fund - Met Life	**n/a**	96,484
Pimco Total Return Fund - ING	**175,391**	n/a
Pimco Total Return Fund - MSSB	**660,836**	587,842
Pimco Real Return Fund	**n/a**	232,459

n/a – not applicable in current presentation

During 2009, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $151,113.

Fair value measurements:

The Financial Accounting Standards Board issued Fair Value Measurements which establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Notes to Financial Statements (continued)

Fair value measurements (continued):

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Fair value of investments: Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual funds are held by the custodian in institutional funds that are not publicly traded. These institutional funds are identical or similar to the respective publicly traded counterpart. The funds are valued using the publicly traded counterpart's quoted price in an active market.

Equities are valued at its quoted market price at year end.

Life insurance policies are valued at their cash surrender value, which was $0 at December 31, 2009 and 2008.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to Financial Statements (continued)

Notes to Financial Statements (continued)

Risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent events: The Plan evaluates events and transaction occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The accompanying financial statements considered events through October 12, 2010, which is the date the financial statements were available for release.
