## INDEPENDENT AUDITOR'S REPORT

Plan Administrator
Frank & Grossman Employee Stock Ownership Plan
San Francisco, California

We have audited the accompanying statements of net assets available for benefits of Frank & Grossman Employee Stock Ownership Plan as of June 30, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Frank & Grossman Employee Stock Ownership Plan as of June 30, 2010 and 2009, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets held for investment purposes at end of year is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

# FRANK & GROSSMAN EMPLOYEE STOCK OWNERSHIP PLAN
## NOTES TO FINANCIAL STATEMENTS

**DESCRIPTION OF PLAN**

The following description of the Frank & Grossman Employee Stock Ownership Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The purpose of the Plan is to enable participating employees to share in the growth and prosperity of Frank & Grossman Landscape Contractors, Inc. (Company) and to provide participants with an opportunity to accumulate capital for their future economic security. The Plan is intended to do this without any deductions from participants' paychecks and without requiring them to invest their personal savings. The primary purpose of the Plan is to enable participants to acquire stock ownership interests in the Company. Therefore, a trust (Trust) was established under the Plan designed to hold the Plan assets and invest primarily in Company stock.

The Company adopted the Plan effective July 1, 1999. The Plan is administered by a Board of Trustees and the Company for the exclusive benefit of its participants and their beneficiaries. The Board of Trustees is appointed by the Company's Board of Directors.

**Eligibility** – Employees of the Company are generally eligible to participate in the Plan after attaining age 21 and after one year of service as defined by at least 1,000 hours of service during the Plan year. Participants who do not have at least 1,000 hours of service during the Plan year or are not employed on the last working day of the Plan year are generally not eligible for an allocation of Company's contribution. Employees whose terms of service are covered by a collective bargaining agreement shall not be eligible to participate in the Plan unless the terms of such agreement specifically provide for participation in the Plan.

**Payment of benefits** – No distributions from the Plan will be made until a participant retires, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives) or otherwise terminates employment with the Company and its participating subsidiaries. Benefits are paid in substantially equal, annual installments over a five year period. The total benefit payment is recognized in the year requested.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations. There were no participant shares repurchased by the Company during 2010 and 2009. The Plan may redeem participant shares for cash and reallocate the shares to the remaining Plan participants. During 2010 and 2009 the Plan redeemed and reallocated 278.5911 and 8.25752 shares, respectively.

**Voting rights** – Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by a member of the Board of Trustees prior to the time that such rights are to be exercised. Any allocated shares of Company stock with respect to which voting instructions are not received from participants or beneficiaries and any shares of Company stock held by the Plan which are not then allocated to participants' company stock accounts shall be voted in the manner determined by a Trustee.

**Participant accounts** – The Plan is a defined contribution plan under which two separate accounts are established for each participant. One account is referred to as the Company stock account; the other account is referred to as the other investments account.

**DESCRIPTION OF PLAN** *(continued)*

The Company stock account is increased annually by the following (if any): (1) participant's share of Company stock contributed to the Plan, (2) participant's share of Company stock purchased by the Plan, (3) participant's share of Company stock forfeited by participants who terminate their employment without being 100% vested and (4) any stock dividends on shares allocated to the participant's Company stock account.

The other investments account is increased annually by the following (if any): (1) participant's share of contribution in cash that is not used to acquire Company stock, (2) participant's share of other investments account balances forfeited by participants who terminate their employment without being 100% vested, (3) participant's share of any net income of the Plan and (4) any cash dividends on Company stock in the participant's Company stock account (other than currently distributed dividends). The participant's other investments account will be decreased annually by the following (if any): (1) participant's share of the cost of Company stock purchased by the Plan and (2) participant's share of any net loss of the Plan.

Only those participants who are eligible employees of the Company on the allocation date will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation.

**Vesting** – If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants vest 20 percent after the first two years of service, then 20 percent per year of service subsequent to the first two years and are 100 percent vested after six years of service.

**Put option** – Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

**Diversification** – Diversification is offered to participants close to retirement so that they may have the opportunity to move a portion of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their accounts. If the participant elects to diversify, the Company may either (1) distribute to the participant in cash or shares of Company stock, or both (as determined by the Company), the portion of the participant's Company stock account the participant elects to diversify or (2) transfer to the Plan a cash amount representing the portion of the participant's Company stock account elected to be diversified.

**Forfeitures** – Forfeitures of terminated non-vested account balances are allocated to remaining participants. During the years ended June 30, 2010 and 2009 forfeitures totaled $16,208 and $16,296, respectively.

## NOTES TO FINANCIAL STATEMENTS

### SIGNIFICANT ACCOUNTING POLICIES

**Basis of accounting** – The financial statements of the Plan are prepared using the accrual method of accounting.

**Use of estimates** – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

**Cash** – Cash includes bank checking accounting and money fund investment accounts. Cash on deposit occasionally exceeds federally insured limits. The Plan has not experienced any losses in these accounts and believes they are not exposed to any significant credit risk with respect to cash.

**Investment valuation and income recognition** – Investments with readily determinable fair values are carried at fair value based on quoted market prices as of the last trading date of the year. Gains and losses that result from market fluctuations are recognized in the period such fluctuations occur. Realized gains or losses resulting from sales or maturities are calculated on a cost basis. Dividend and interest income are accrued when earned. The common shares of the Company are carried at fair value as determined by annual independent appraisals.

For Form 5500 reporting, the Plan calculates realized gains and losses as the increase or decrease in the value of investments sold since the beginning of the plan year if held on the first day of the plan year, or acquisition date for investments purchased during the plan year.

**Financial instruments** – Financial instruments included in the Plan's statements of net assets available for benefits include cash, investment in company stock, other investments, employee contribution receivable, other receivable, payroll tax payable and distributions payable. For cash, employee contribution receivable, other receivable, payroll tax payable and distributions payable, the carrying amounts represent a reasonable estimate of the corresponding fair values. Investment in Company stock and other investments are reflected in the accompanying statements of net assets available for benefits at their estimated fair values using methodologies described below.

**Fair value measurements** – Fair value is the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining fair value, the Plan considers the principal or most advantageous market in which it would transact and considers assumptions that market participants would use when pricing the asset or liability.

The three-level hierarchy for fair value measurements is defined as follows.

***Level 1*** – Valuation is based on observable inputs using quoted prices in active markets for identical assets or liabilities that are accessible at the measurement date.

***Level 2*** – Valuation is based on inputs from sources other than quoted prices in active markets that are either directly or indirectly observable as of the reporting date. This may include quoted prices for similar assets in an active market, quoted prices for similar assets in a market that is not active, or valuation methods using models, interest rates and yield curves as observable inputs.

## SIGNIFICANT ACCOUNTING POLICIES *(continued)*

***Level 3*** – Valuation is based on unobservable inputs for the assets or liabilities, reflecting the Plan's assumptions that a market participant would use in pricing the asset or liability, to the extent that observable inputs (Levels 1 and 2) are not available. Level 3 assets and liabilities include situations where there is little or no market activity for the assets or liabilities, and significant management judgment or estimates are required.

Other investments consists of mutual funds and certificates of deposit and are classified within Level 1 of the fair value hierarchy because they are valued using quoted market prices, broker dealer quotations or alternative pricing sources with reasonable levels of price transparency. Investment in Company stock is classified within Level 2 of the fair value hierarchy because it is valued by an independent appraiser which utilizes various valuation techniques and models to determine fair value.

While the Plan believes its valuation methods are appropriate and consistent with those used by other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at reporting date. Those estimated values may differ significantly from the values that would have been used had a readily available market for such assets and liabilities existed, or had such assets and liabilities been liquidated, and these differences could be material to the financial statements.

**Employer contributions** – Employer contributions are held and managed by the Trustees, which invest cash received and interest and dividend income as well as make distributions to participants. Employer contributions shall be paid to the Trustees for each Plan year in such amount (or under such formula) as may be determined by the Board of Directors.

**Operating expenses** – Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee fees, if any, and other administrative expenses of maintaining the Plan are paid directly by the Company.

## INVESTMENTS AND FAIR VALUE DISCLOSURES

The following tables present the fair value of investments on the accompanying statements of financial position at June 30 by fair value hierarchy.

**TAX STATUS**

The Internal Revenue Service has determined and informed the Company by letter dated June 1, 2001 that the Plan and related Trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator and the Plan's counsel believe the Plan was qualified and the related Trust was tax-exempt as of the financial statement date.

**PARTY-IN-INTEREST TRANSACTIONS**

The Plan invests in Company common stock. Accordingly, these transactions qualify as party-in-interest transactions. Plan management believes that transactions related to such investments during the normal course of business qualify as exempt party-in-interest transactions.

**PLAN TERMINATION**

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time, subject to Plan provisions. If the Plan is terminated, all employees affected by the termination will become fully vested in their account balances unless the Plan is replaced by contributions to a comparable plan. If the Plan is terminated, the Company will decide whether benefits will be distributed immediately or whether distribution of benefits will be deferred until a later date.
