These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of September 30, 2010 and 2009 and for the year ended September 30, 2010 that the information provided to the plan administrator by the trustee is complete and accurate.

NOTE 1 - PLAN DESCRIPTION

The Shorr Paper Products, Inc. Employees' Profit Sharing Plan (the Plan) is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The following is a general description of certain provisions of the Plan. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan and includes a 401(k) feature. Plan participants include all eligible employees of Hanchett Paper Company (the Company) who are not covered by a collective bargaining agreement and who have met the eligibility requirements. Employees who have completed 1,000 hours of service in a plan year and have reached the age of 21 are eligible to participate in the Plan.

The Plan is administered by the Company. Fidelity Management Trust Company (Fidelity) holds all of the Plan's assets in a trust fund. The assets are invested by Fidelity pursuant to a trust agreement between the Company and Fidelity.

Contributions: Participating employees may elect to defer from 1% to 100% of their eligible compensation, up to the current Internal Revenue Service (IRS) limit. Participants may change their deferral rate quarterly on the anniversary date or discontinue their contributions at any time as the Plan specifies. Salary reduction contributions are also subject to a separate limitation that must be met in order to satisfy certain nondiscrimination tests as required under tax law and regulations.

Employer matching contributions are optional for any plan year at the Company's discretion. The Company elected to match 15% of the employees' deferrals up to 6% of compensation for the year ended September 30, 2010 for a total match of $76,337.

The Company's annual profit sharing contribution is at the discretion of the Board of Directors. There was no profit sharing contribution for the year ended September 30, 2010.

Vesting: Participants are fully vested at all times for amounts they contribute to the Plan and in the Company's matching contribution. Participants vest in the Company's profit sharing contribution equally over six years of service. Forfeitures of terminated employees' nonvested balances are used to offset administrative expenses of the Plan.

Loans to Participants: Loans are permitted to participants. A participant may have up to two loans outstanding at any one time. Participants may borrow the lesser of $50,000 or 50% of their vested account balances.

Withdrawals and Distributions: Upon retirement, death, or termination, the participant or beneficiary will receive the vested balance in the participant's account in the form of a lump-sum distribution, installment payments, or transfer to another plan at the participant's discretion. If the participant's vested account balance is greater than $1,000, the participant may elect to keep that balance in the Plan.

Plan Termination: Although it has not expressed any intent to do so, the Company has the right to terminate the Plan. In the event of the Plan's termination, participants will become 100% vested in their accounts.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accounting principles and procedures followed by the Plan conform to accounting principles generally accepted in the United States of America. The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs when measuring fair value. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

> Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.
>
> Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
>
> Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Participant loans: Participant loans are reported at their outstanding balances, as the fair value of the loans is not practicable to estimate due to restrictions placed on the transferability of the loans.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Payment of Benefits: Benefits are recorded when paid.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties: The Plan provides for investment options in various mutual funds offered by Fidelity Investments, Inc. The underlying investment securities are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participants' individual account balances.

NOTE 4 - INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter dated February 6, 2004 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, Plan management believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

NOTE 5 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others

All plan investments, excluding participant loans of $224,776 at September 30, 2010 and $178,964 at September 30, 2009, are shares of mutual funds managed by Fidelity Investments. Fidelity Investments is affiliated with Fidelity Management Trust Company, the trustee of the Plan, and therefore, these transactions qualify as party-in-interest transactions. Participant loans also qualify as party-in-interest investments. Fees paid by the Plan for investment management services in the amount of $2,218 for the year ended September 30, 2010 were paid to Fidelity Management Trust Company and, thus, qualify as a party-in-interest transaction. All other expenses were paid by the Company.

NOTE 6 - SUBSEQUENT EVENTS

Plan management has evaluated all events or transactions that occurred from September 30, 2010 to March 7, 2011, the date the financial statements were available to be issued.
