NOTES TO FINANCIAL STATEMENTS

For the Years Ended June 30, 2010 and 2009

NOTE 1 DESCRIPTION OF PLAN

The following description of the Dura-Stress, Inc. Employee 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering all employees of Dura-Stress, Inc. (the Company) who have one year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions – Each year, participants may contribute from 1% to 100% of pretax annual compensation, as defined in the Plan and to the extent allowable by the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of contributions into various investment options offered by the Plan. The Plan currently offers various pooled separate accounts as investment options to participants. The Company may make annual discretionary matching and/or profit sharing contributions to the Plan. During the period July 1, 2008 through February 28, 2009, the Company contributed 30% of the first 15% of base compensation that a participant contributed to the Plan. Effective March 1, 2009, the Company elected to discontinue employer matching contributions. Contributions are subject to certain limitations.

Contributions received from participants during the year ended June 30, 2010 are net of payments of $1,353, made in August 2010, to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. The amount is also included in the Plan's statements of net assets available for benefits as excess contributions payable at June 30, 2010.

Participant Accounts – Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant does not begin to vest until year two (20%) and increases ratably until fully vested in year six.

Payment of Benefits – On termination of service, a participant may elect to receive a single sum of either the entire value or a portion of the value of the participant's vested interest in his or her account.

NOTE 1 DESCRIPTION OF PLAN – Continued

Forfeited Accounts – At June 30, 2010 and 2009, forfeited nonvested accounts totaled $24,424 and $31,053, respectively. These accounts may be used to reduce future employer contributions or to pay plan expenses. During the year ended June 30, 2010, plan expenses were reduced by $9,030 from forfeited nonvested accounts. During the year ended June 30, 2009, employer contributions were reduced by $8,593 from forfeited nonvested accounts.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates – The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from those estimates.

Basis of Accounting – The Plan's financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits – Benefits are recorded when paid.

Operating Expenses – Certain expenses of maintaining the Plan are paid by the Company.

Subsequent Events – The Plan Sponsor has evaluated subsequent events through March 18, 2011, the date which the financial statements were available to be issued.

NOTE 5 FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

NOTE 5 FAIR VALUE MEASUREMENTS – Continued

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets or liabilities in an active market; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2010 and 2009.

Pooled separate accounts: Valued based on the number of shares of the respective underlying fund multiplied by the closing net asset value per share quoted by that fund.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5 FAIR VALUE MEASUREMENTS – Continued

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2010 and 2009:

Assets at Fair Value as of June 30, 2010

	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 2,933,532	$ -	$ 2,933,532
Total assets at fair value	$ -	$ 2,933,532	$ -	$ 2,933,532

Assets at Fair Value as of June 30, 2009

	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 2,712,037	$ -	$ 2,712,037
Total assets at fair value	$ -	$ 2,712,037	$ -	$ 2,712,037

NOTE 6 RELATED PARTY TRANSACTIONS

Plan investments are managed by Hartford. Hartford is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

NOTE 7 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100 percent vested in their account.

NOTE 8 TAX STATUS

The Plan and Trust have been formed utilizing the Plan Document Systems Prototype Profit Sharing Plan with CODA documents and adoption agreement. The prototype plan sponsor, Plan Document Systems, obtained a favorable determination letter dated March 31, 2008; however, such letter is only applicable to Plan Document Systems. The Plan administrator has adopted all Plan provisions within the prototype document and believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE 9 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
