Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Plan Administrator
Home Nursing Agency's Pension Plan
Altoona, Pennsylvania

We were engaged to audit the accompanying statement of net assets available for benefits for the Home Nursing Agency's Pension Plan as of June 30, 2010, and the related statement of changes in net assets available for benefits for the year then ended and the accompanying supplemental schedules. These financial statements and schedules are the responsibility of the Plan's management. Other accountants were engaged to audit the financial statements of Home Nursing Agency's Pension Plan as of and for the year ended June 30, 2009, whose report dated April 9, 2010, did not express an opinion on those financial statements as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Income Security Act of 1974.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, auditing procedures with respect to the information summarized in *Note 3*, which was certified by Principal Life Insurance Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the year ended June 30, 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying 2010 financial statements and schedules taken as a whole. The form and content of the information included in the 2010 financial statements and schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Home Nursing Agency's Pension Plan

Notes to Financial Statements

June 30, 2010 and 2009

Note 1: Description of the Plan

The following description of Home Nursing Agency's Pension Plan (Plan) provides only general information. Additional information about the vesting and benefit provisions and the Pension Benefit Guarantee Corporation's (PBGC) benefit guarantee is contained in the Plan Document and *Summary Plan Description*, which are available from the plan administrator.

General

The Plan is a noncontributory defined benefit plan that covers substantially all employees of Home Nursing Agency Affiliates (Company) and provides for retirement, death and disability benefits. The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Principal Life Insurance Company is the trustee of the Plan.

On November 11, 2009, the Board of Directors unanimously approved a recommendation that all new employees hired on or after January 1, 2010, will be enrolled in a separate defined contribution plan. No current employees will lose any benefits.

Contributions

The Company has agreed to voluntarily contribute such additional amounts that are necessary to provide assets sufficient to meet the benefits to be paid to plan members. The Company's present intention is to make contributions in amounts sufficient to annually fund the Plan's current service cost and the initial past-service costs plus interest on them over a period of 30 years. The Plan has met the minimum funding requirements established by the federal government.

Pension Benefits

Benefits under the Plan are based on 1.25% of the employees' highest average monthly compensation (during any 60 consecutive months) multiplied by the employee's total number of benefit service years, but not more than 40 years. Normal retirement age for plan benefits is 65. Participants may elect to receive reduced benefits upon early retirement at age 55. Monthly pension benefit payments are determined for each participant according to the retirement option selected. When a married participant retires, the normal benefit under the Plan is a qualified joint and 50% survivor annuity with the participant's spouse. For an unmarried participant, the normal retirement benefit is a single life annuity. A participant may elect to receive benefits in a form other than noted above, with a spouse's written permission, as applicable.

Death Benefits

The spouse of a participant will receive a 50% survivor annuity, as defined in the Plan, upon the death of the participant. The surviving spouse annuity is equal to 50% of the participant's monthly benefit. This benefit is immediately payable to the spouse if the participant was already receiving benefits. If the participant was not already receiving benefits, payments to the spouse may commence as of the earliest date the participant would have received benefits.

Notes to Financial Statements

June 30, 2010 and 2009

Vesting

The pension benefits for the Plan are fully vested after seven years. However, a participant is always fully vested upon reaching the normal retirement age.

Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- (a) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
- (b) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) up to the applicable limitations discussed below.
- (c) Vested benefits not insured by the PBGC.
- (d) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Pooled separate accounts are valued at estimated fair value as provided by Principal Life Insurance Company.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Accumulated Plan Benefits

Accumulated plan benefits (see *Note 5*) are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to:

- (a) Retired or terminated employees or their beneficiaries
- (b) Present employees or their beneficiaries

Home Nursing Agency's Pension Plan

Notes to Financial Statements

June 30, 2010 and 2009

Benefits under the Plan are based on employees' compensation during their last five years of credited service. The accumulated plan benefits for active employees are based on their average compensation during the five years preceding the valuation date. Benefits payable under all circumstances — retirement, death, disability and termination of employment — are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

Plan Tax Status

The Plan obtained its latest determination letter on August 29, 2002, in which the Internal Revenue Service stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code and therefore not subject to tax. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

With a few exceptions, the Plan is no longer subject to federal, state and local income tax examinations by tax authorities for years before 2007.

Subsequent Events

Subsequent events have been evaluated through April 14, 2011, which is the date the financial statements were available to be issued.

Note 3: Investments

The Plan's investments are held by Principal Life Insurance Company.

The Plan uses an annuity contract that has certain former participants retired under a benefit index alternative. Under this arrangement, a benefit index is established. The benefit index represents the amount needed to purchase an annuity for each retiree under this alternative. Annuity payments are made directly from allocated plan funds to these retirees as long as there are assets in the contract to support the payments. In the event assets under the contract are equal to or less than the benefit index amount, annuities will be purchased from Principal Life Insurance Company, and therefore, this funding arrangement meets the definition of an allocated annuity contract. The investments underlying these contracts accordingly have been excluded from plan assets. Although the investments underlying these contracts have been excluded from plan assets, the actual experience of the fund, *i.e.*, interest earnings, benefit payments, mortality changes and changes in the purchase price of annuities, has been included in the statement of changes in net assets available for benefits as increase/decrease in benefit index fund.

Note 4: Transfer Restrictions on the Principal U.S. Property Separate Accounts

The Principal U.S. Property Separate Account (the U.S. Property account) invests primarily in commercial real estate and includes mortgage loans which are backed by the associated properties. The Plan's investment in the U.S. Property account was \$477,595 and \$519,979 at June 30, 2010 and 2009, respectively.

Effective September 26, 2008, the Principal Life Insurance Company (Principal) implemented a preexisting contractual limitation in the group annuity contract, which allows Principal to manage the U.S. Property account and satisfy withdrawal requests over time among those who request a withdrawal. The contractual limitation includes a blackout period, which delays the payment of withdrawal requests.

The blackout period for the U.S. Property account began September 26, 2008, and ended March 24, 2011. During this time, transfers and distributions from the U.S. Property account will be paid in a pro-rata manner, based on the total amount requested compared to the total amount of funds available for distribution.

Note 5: Accumulated Plan Benefits

An actuary from Principal Financial Group determines the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Notes to Financial Statements

June 30, 2010 and 2009

The accumulated plan benefit information calculated as of the end of each plan year prepared as of July 1, 2010 and 2009, is as follows:

	2010	2009
Actuarial present value of accumulated plan benefits		
Vested benefits		
Participants currently receiving payments	\$ 8,745,416	\$ 7,651,791
Other participants	4,209,451	3,806,595

Nonvested benefits	675,318	633,428
Total actuarial present value of accumulated plan benefits	<u>\$ 13,630,185</u>	<u>\$ 12,091,814</u>

Changes in the actuarial present value of accumulated plan benefits were as follows:

	2010	2009
Actuarial present value of accumulated plan benefits, beginning of year	<u>\$ 12,091,814</u>	<u>\$ 11,242,065</u>
Increase (decrease) during the year attributable to		
Increase due to the decrease in the discount period	1,329,161	1,197,673

Notes to Financial Statements

June 30, 2010 and 2009

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 6: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association, or relatives of such persons.

The Plan invests in certain funds of the plan trustee. Fees expensed by the Plan to the trustee for investment management services amounted to \$32,878 and \$36,213 for the years ended June 30, 2010 and 2009, respectively.

The Company provides certain administrative services at no cost to the Plan. The Company pays certain accounting and auditing fees relating to the Plan.

Note 7: Fair Value of Plan Assets and Liabilities

ASC Topic 820, *Fair Value Measurements*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Topic 820 also specifies a fair value hierarchy which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities.
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3** Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy.

Home Nursing Agency's Pension Plan

Notes to Financial Statements

June 30, 2010 and 2009

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. The Plan did not invest in Level 1 securities. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. Level 2 securities include pooled separate accounts and are valued at the net asset value (NAV) of units held by the Plan at year end. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy and include the U.S. Property pooled separate account which is valued based upon the fair value of the underlying real estate using estimated discounted cash flow valuation models and independent appraisals.

The following table presents the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at June 30, 2010 and 2009:

2010

Home Nursing Agency's Pension Plan

Notes to Financial Statements

June 30, 2010 and 2009

The following is a reconciliation of the beginning and ending balances of recurring fair value measurements recognized in the accompanying statements of net assets available for benefits using significant unobservable (Level 3) inputs:

	U.S. Property Pooled Separate Account
Balance, July 1, 2008	\$ 964,459
Net realized and unrealized gains and losses included in net decrease in net assets available for benefits	(421,667)
Contributions, withdrawals and transfers, net	<u>(22,813)</u>
Balance, June 30, 2009	519,979
Net realized and unrealized gains and losses included in net increase in net assets available for benefits	(82,243)
Transfers	<u>39,859</u>
Balance, June 30, 2010	<u><u>\$ 477,595</u></u>

Realized and unrealized gains and losses included in net increase (decrease) in net assets available for benefits for the period from July 1, 2008, through June 30, 2010, are reported in net appreciation (depreciation) in fair value of investments in the statements of changes in net assets available for benefits.

Note 8: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. The Plan's exposure to these risks has been heightened because of the current economic environment. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits. The financial statements have been prepared using values and information currently available to the Plan.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Methods Selected by Plan Sponsor	
Asset Measure	<p>The asset valuation method is prescribed by law for plans that elect to use a value other than market value.</p> <p>For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.</p> <p>The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the Maximum Allowable Rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.</p> <p>When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.</p>
Yield Curve Rates	Full yield curve. Use the rates from the month of March.
PBGC Premium Basis	Premiums are calculated using the funding target rates used for the plan year. Once elected, must continue on this basis for 5 years before a change can be made.
Methods Elected by Actuary	
Retirees	Assets and liabilities for current and future retirees are included.
HCE Benefit Payment Restrictions	<p>A ratio of the market value of assets and funding target is used to determine if restrictions apply. Assets and Funding Target are as of the valuation date and are reduced by:</p> <ul style="list-style-type: none"> • any retiree benefit index or floor • amounts for HCEs who were previously restricted • an amount for the retiring HCE

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Line 2a - Explanation of Assets
HOME NURSING AGENCY'S PENSION PLAN
EIN 251518698 Plan No. 001

Line 2a includes assets allocated for retirees' guaranteed benefits of \$7,508,113.

Schedule SB, Line 25 – Change in Method
HOME NURSING AGENCY'S PENSION PLAN
EIN 251518698 Plan No. 001

A change in funding method has occurred since last year due to:

- a change in the valuation interest rate to use yield curve
- a change in the asset valuation method to use smoothed value
- a change to include an administrative expense estimate in the Target Normal Cost

These changes are available under Code section 430 and do not need IRS approval.

Schedule SB, Part III - Explanation of Funded Ratios
HOME NURSING AGENCY'S PENSION PLAN
EIN 251518698 Plan No. 001

For 2009 and prior years, funded ratios were rounded to the nearest 0.01% for operational purposes.

Schedule SB, Part V - Summary of Plan Provisions
HOME NURSING AGENCY'S PENSION PLAN
EIN 251518698 Plan No. 001

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report reflects the provisions of the plan signed 12/23/2008.
