To the Trustees
Illinois Central Companies
401(k) and Profit Sharing Plan
Joliet, Illinois

We were engaged to audit the statement of net assets available for benefits and supplemental schedule of the Illinois Central Companies 401(k) and Profit Sharing Plan as of June 30, 2010, and the related statement of changes in net assets available for benefits for the year then ended. These financial statements and the supplemental schedule of assets (held at end of year) as of June 30, 2010, are the responsibility of the Plan's management. Other auditors were engaged to audit the financial statements of the Plan for the year ended June 30, 2009, whose report dated April 13, 2010, disclaimed an opinion on the 2009 financial statements for the same reasons described in the following paragraph.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by John Hancock Life Insurance Company (U.S.A.), the custodian, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the custodian holds the Plan's assets and executes transactions. As disclosed in Note 3, the Plan Administrator has obtained certifications from the custodian regarding the completeness and accuracy of the information provided to the Plan Administrator by the custodian as of and for the year ended June 30, 2010, and as of June 30, 2009.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

## Notes to Financial Statements

### Note 1. Plan Description

The following description of the Illinois Central Companies 401(k) and Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

**General**: The Plan is a defined contribution plan that covers all employees of Illinois Central School Bus, LLC, MAL Staffing, LLC, KB Staffing, LLC, and Oak Lawn Tire and Service through March 1, 2010 (collectively, the Company). Employees who are covered employees of the plan sponsor, as defined, are eligible for the Plan after meeting 90 days of service and over 18 years of age. Eligible employees may begin deferring the first of the month following meeting eligibility. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

**Contributions**: A participant may elect to contribute in 1 percent intervals of his/her annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified retirement plans. The Company may make a discretionary contribution to the Plan. All contributions are subject to certain limitations.

**Participant accounts**: Each participant's account is credited with the participant's contribution and Company matching contributions and receives an allocation of Company regular contributions, if any, Plan earnings/losses and administrative expenses. Allocations are based on participant account balances or compensation, as defined. The benefit to which a participant is entitled is the benefit that can be provided by the participant's vested account.

**Vesting**: Participants are immediately vested in their elective contributions and the Company matching contribution plus the actual earnings thereon. Vesting for the Company regular contributions is based upon years of service as defined. Participants are 100 percent vested after three years of credited service. Participants who attain retirement age 65, or terminate employment due to death or disability, are 100 percent vested in their accounts.

**Investment options**: Upon enrollment in the Plan, participants direct the investment of their account balances into a variety of investment options, as more fully described in the Plan's literature. Participants may change their investment options daily.

**Forfeitures**: At June 30, 2010 and 2009, there were no forfeited nonvested accounts. These accounts are used to reduce future Company contributions and reduce any administrative expenses of the Plan. In 2010, no forfeitures were used.

**Payment of benefits**: On termination of service, death, retirement, or at the option of the employee, a participant will receive a lump-sum distribution. Withdrawals may also be made from the Plan in cases of financial hardship.

### Note 2. Significant Accounting Policies

**Accounting estimates**: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts in the financial statements and accompanying notes. Actual results could differ from those estimates.

**Basis of accounting**: The financial statements of the Plan are prepared on the accrual basis of accounting.

**Note 2. Significant Accounting Policies (Continued)**

**Investment valuation and income recognition**: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

**Payment of benefits**: Benefits are recorded when paid.

**New accounting pronouncements:** In September 2009, the Financial Accounting Standards Board (FASB) issued an amendment, *Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)* (ASU 2009-12), which provides guidance on how entities should estimate fair value of certain alternative investments. The fair value of investments within the scope of this guidance can now be determined using net asset value (NAV) per share as a practical expedient, when the fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV. It also requires disclosure of certain attributes by major category of alternative investments, regardless of whether the practical expedient was used. This amendment was effective for periods ending after December 15, 2009, with early adoption permitted. See Note 4 for the disclosures related to the adoption of ASU 2009-12.

The FASB issued new guidance on accounting for uncertainty in income taxes. The Plan adopted this new guidance for the year ended June 30, 2010. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by U.S. federal, state or local tax authorities for years before 2007.

In July 2009, the FASB launched the FASB Accounting Standards Codification (the Codification) as the single source of Generally Accepted Accounting Principles (GAAP). While the Codification did not change GAAP, it introduced a new structure to the accounting literature and changed references to accounting standards and other authoritative accounting guidance. The Codification did not have an effect on the Plan's financial statements.

**Pending accounting pronouncement:** The FASB issued ASU 2010-6, *Fair Value Measurements and Disclosures (Topic 820) – Improving Disclosures about Fair Value Measurements,* which requires new disclosures and reasons for transfers of financial assets and liabilities between Levels 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and those disclosures should include a discussion of inputs and valuation techniques. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these charges. With respect to matters other than Level 3 measurements, the amendment is effective for periods beginning after December 15, 2009. The guidance related to Level 3 measurements is effective for periods beginning after December 15, 2010. Management is currently evaluating the impact of the guidance related to disclosures in the financial statements.

**Subsequent events**: The Company has evaluated subsequent events for potential recognition and/or disclosure through April 12, 2011, the date the financial statements were available to be issued.

### Note 2. Significant Accounting Policies (Continued)

**Reclassifications**: Amounts previously shown have been reclassified to conform to the current year presentation.

### Note 3. Information Certified and Provided by John Hancock Life Insurance Company (U.S.A.) (John Hancock)

The following is a summary of the Plan's asset information as of June 30, 2010 and 2009, and for the year ended June 30, 2010, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate to the best of their knowledge. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

| | June 30, 2010 | 2009 |
|---|---|---|
| Shares of pooled separate accounts | $ 182,142 | $ 94,883 |

John Hancock, the custodian, also certified to the completeness and accuracy of $11,403 of net appreciation in fair value of investments related to the aforementioned investments for the year ended June 30, 2010.

## Note 4. Fair Value Measurements

ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

| | |
|---|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include:<br>• Quoted prices for similar assets or liabilities in active markets;<br>• Quoted prices for identical or similar assets or liabilities in inactive markets;<br>• Inputs other than quoted prices that are observable for the asset or liability;<br>• Inputs that are derived principally from or corroborated by observable market data by correlation or other means.<br>If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2010.

*Shares of pooled separate accounts*: Valued at the total of the NAV of shares of mutual funds and cash held by the account at year-end. The Plan's interest in the pooled separate accounts are valued based on the information reported by the investment advisor.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

### Note 4. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of June 30, 2010 and 2009:

| | Assets at Fair Value as of June 30, 2010 | | | |
|---|---|---|---|---|
| | Level 1 | Level 2 | Level 3 | Total |
| Shares of pooled separate accounts | $ - | $ 182,142 | $ - | $ 182,142 |

| | Assets at Fair Value as of June 30, 2009 | | | |
|---|---|---|---|---|
| | Level 1 | Level 2 | Level 3 | Total |
| Shares of pooled separate accounts | $ - | $ 94,883 | $ - | $ 94,883 |

The following table sets forth the fair value of investments in certain entities that calculate net asset value per share (or its equivalent):

| Investment | Fair Value | Unfunded Commitment | Redemption Frequency | Redemption Notice Period |

(a) This category invests substantially all of its assets in underlying funds using an asset allocation strategy designed for investors expected to retire in the designated retirement year. Investments in this category can be redeemed immediately at the current net asset value per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the net asset value per share of the investments.

(b) This category invests primarily in equity securities. Investments in this category can be redeemed immediately at the current net asset value per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the net asset value per share of the investments.

(c) This category invests primarily in diversified fixed income mutual funds and separately managed bond accounts run by John Hancock Life Insurance Company and in book value stabilizing agreements offered by high quality financial institutions. Investments in this category can be redeemed immediately at the current net asset value per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the net asset value per share of the investments.

**Note 4. Fair Value Measurements (Continued)**

(d) This category invests primarily in inflation-indexed bonds and fixed income securities. Investments in this category can be redeemed immediately at the current net asset value per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the net asset value per share of the investments.

(e) This category invests primarily in the common stock of large capitalization U.S. companies and dividend-paying common stock. Investments in this category can be redeemed immediately at the current net asset value per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the net asset value per share of the investments.

(f) This category invests primarily in the common stock of small and mid capitalization companies in the U.S. and foreign countries. Investments in this category can be redeemed immediately at the current net asset value per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the net asset value per share of the investments.

(g) This category invests primarily in equity securities of real estate investment trusts and real estate companies. Investments in this category can be redeemed immediately at the current net asset value per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the net asset value per share of the investments.

(h) This category invests primarily in equity securities of technology-based and natural resource-based companies. Investments in this category can be redeemed immediately at the current net asset value per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the net asset value per share of the investments.

**Note 5. Investments**

The following table presents investments representing more than 5 percent of the Plan's net assets as of June 30, 2010 and 2009.

| | 2010 | 2009 |
|---|---|---|
| Shares of pooled separate accounts: | | |
| Lifecycle 2015 | $ 11,814 | ** |
| Lifecycle 2025 | 40,203 | $ 23,883 |
| Lifecycle 2030 | 10,095 | ** |
| Lifecycle 2040 | 11,559 | ** |
| Lifestyle Balanced Fund | 17,607 | 7,854 |
| Lifestyle Growth Fund | 19,142 | 13,576 |

** Less than 5% of net assets

During 2010, the Plan's investments in shares of pooled separate accounts (including investments bought, sold and held during each year) appreciated in value by $11,403.

### Note 6. Related Party Transactions

Certain Plan investments are shares of pooled separate accounts managed by John Hancock. John Hancock is the custodian as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. The Plan paid $3,974 in fees to John Hancock during the year ended June 30, 2010.

Certain accounting and administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan for such services. Other expenses of the Plan are paid by the Company.

### Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

### Note 8. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated November 23, 2009, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. The Plan Administrator believes the Plan is designed and is being operated in accordance with the applicable requirements of the IRC.

### Note 9. Risks and Uncertainties

The Plan provides for various investment options in funds which invest in any combination of stocks, bonds, fixed income securities, mutual funds and other investment activities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.
