PHILLIPS PLASTICS CORPORATION RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

June 30, 2010 and 2009

NOTE A - PLAN DESCRIPTION

The following description of the Phillips Plastics Corporation Retirement Savings Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

1. General

The Plan is a defined contribution plan covering substantially all employees of Phillips Plastics Corporation (the "Company"). In general, employees become eligible for the Plan on the first day of the month following two months of employment. Employees whose customary scheduled employment is less than 40 hours per week will be excluded from the Plan until they complete a year of service. A year of service is a qualifying period of 12 consecutive months of employment within which the employee has had at least 1,000 credited hours of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

2. Contributions

Participants may contribute up to 75 percent of their annual compensation to the Plan not to exceed the limits of the Internal Revenue Code. All newly hired eligible employees are automatically enrolled in the Plan beginning with a deferral rate of 3%. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Plan also allows a catch-up provision for those employees who have attained age 50. Employer contributions may be contributed at the option of the Company's Board of Directors. The Company did not make an employer contribution for the years ended June 30, 2010 and 2009.

3. Participant's Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. Vesting

Participants are immediately vested in their contributions and employer discretionary contributions plus actual earnings thereon.

NOTES TO FINANCIAL STATEMENTS

June 30, 2010 and 2009

NOTE A - PLAN DESCRIPTION - Continued

5. Loans to Participants

Participants may borrow from their vested fund accounts a minimum of \$1,000 up to a maximum amount equal to the lesser of \$50,000 or 50 percent of their vested account balance. The repayment will be made in equal installments for a term that shall not be greater than five years, with the exception of a home loan for which the repayment may not exceed ten years. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with current rates charged under similar circumstances by financial institutions. Principal and interest payments are made through monthly payroll deductions.

6. Payment of Benefits

Benefits are typically paid as soon as practicable after a participant terminates, retires, dies, or becomes disabled. Benefits are payable in the form of a lump sum distribution or installments over a fixed period of years. If the terminating employee's balance is more than \$1,000 but less than \$5,000, the distribution will automatically be rolled into an IRA provided by Marshall & Ilsley Bank. If a terminating employee's balance is less than \$1,000, distributions must be in the form of a lump sum payment.

NOTE B - SIGNIFICANT ACCOUNTING POLICIES

The Plan's significant accounting policies consistently applied in the preparation of the accompanying financial statements follow.

1. Basis of Accounting

The accompanying financial statements have been prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

NOTE B - SIGNIFICANT ACCOUNTING POLICIES - Continued

2. Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

3. Valuation of Investments and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Investment securities are exposed to various risks including, but not limited to, interest rate and market and credit risks. Due to the level of risks associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

4. Payment of Benefits

Benefits paid to participants are recorded upon distribution.

5. Administrative Expenses

With the exception of loan, mutual fund, and collective trust fund fees, all other administrative expenses of the Plan are paid by the Company.

6. New Accounting Guidance

In April 2009, the Financial Accounting Standards Board ("FASB") issued guidance that provides additional requirements for estimating fair value when the volume and level of activity for the asset or liability have significantly decreased, and also provides additional information on circumstances that may indicate that a transaction is not orderly. The guidance also expanded disclosures and required that major categories for debt and equity securities in the fair value hierarchy table be determined on the basis of the nature and risks of the investments. This guidance became effective prospectively for the Plan's June 30, 2010 reporting period and did not materially impact the Plan's financial statements or related disclosures.

In September 2009, the FASB issued amendments to the guidance for the fair value measurement of investments in certain entities that calculate net asset value per share (or its equivalent). The amendments permit a reporting entity to measure the fair value of an investment on the basis of the net asset value per share of the investment (or its equivalent) if the net asset value of the investment (or its equivalent) is calculated in a manner consistent with the accounting rules under generally accepted accounting principles ("GAAP") for investment companies, including measurement of all or substantially all of the underlying investments of the investee. The amendments also require disclosures by major category of investment about the attributes of the investments, such as the nature of any restrictions on the investor's ability to redeem its investments at the measurement date, any unfunded commitments, and the investment strategies of the investees. The Plan has adopted this guidance on a prospective basis for the year ended June 30, 2010. The adoption of the amendments did not have a material impact on the Plan's financial statements but resulted in certain additional disclosures reflected in note D.

In January 2010, the FASB issued new accounting rules related to the disclosure requirements for fair value measurements. The new accounting rules require new disclosures regarding significant transfers between Levels 1 and 2 of the fair value hierarchy and the activity within Level 3 of the fair value hierarchy. The new accounting rules also clarify existing disclosures regarding the level of disaggregation of assets or liabilities and the valuation techniques and inputs used to measure fair value. The new accounting rules are effective for the Plan's first fiscal year beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances and settlements in the rollforward of activity in Level 3 fair value measurements. Those disclosures are effective for fiscal years beginning after December 15, 2010. The Plan does not expect the adoption of the disclosures will have a material impact on the Plan's net assets or changes in net assets.

In September 2010, the FASB issued new accounting rules related to the reporting of loans to participants by defined contribution pension plans. The new accounting rules require that participant loans be classified as notes receivable and measured at unpaid principal balance plus accrued but unpaid interest. Currently these participant loans are classified as Plan investments and are subject to the fair value measurement and disclosure requirements. This is effective for fiscal years ending after December 15, 2010 and is applied retrospectively. The Plan's management does not expect the adoption of this standard to have a material impact on the Plan's financial statements.

M&I Moderate Balanced Fund	3,634,238	3,297,597

* Represents less than 5% of Plan's net assets.

NOTE D - FAIR VALUE MEASUREMENTS

Generally accepted accounting principles include a framework for measuring fair value. That framework provided a fair value hierarchy that prioritized the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three Levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE D - FAIR VALUE MEASUREMENTS - Continued

The asset's or liability's fair value measurement Level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2010 and 2009.

Collective trust funds: Valued based on information reported by the investment advisor using the audited financial statements of the collective trust at year-end.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

Participant loans: Valued at their outstanding balances, which approximates fair value.

The methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by Level, within the fair value hierarchy, the Plan's assets at fair value as of June 30:

* No redemption notice period is required at the individual participant level and there is a 12-month redemption notice period at the plan level.

- (a) The fund objective and strategy is to achieve investment return primarily from capital appreciation and secondarily from income. The portfolio will allocate between 90% and 100% of its assets to equity securities and between 0% and 10% of its assets to fixed income securities.

- (b) The fund objective and strategy is to maintain safety of principal while generating a level of current income generally exceeding that of a money market. The Fund seeks to maintain a stable \$1.00 unit value, although there is no guarantee it will be able to do so. Fund is primarily invested in traditional and synthetic investment contracts. Traditional contracts are typically issued by insurance companies or banks and are essentially non-marketable deposits with the issuing entity. In the case of synthetic contract, the Fund purchases a high-quality debt obligation and arranges for a third party to provide book value benefit payments.
- (c) The Fund objective and strategy is to achieve total investment return from income and capital appreciation. The Fund will allocate between 30% and 50% of its assets to equity securities and between 50% and 70% of its assets to fixed income securities.
- (d) The Fund objective is intended for an investor planning to retire in or near the year identified as the portfolio. The strategy of the Fund is to achieve total investment return from the production of income and appreciation. Each fund may comprise a maximum percentage of equity securities and the 2040 and 2050 Portfolios may also invest in fixed income securities.

NOTE E - INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated February 4, 2005, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (the "IRC"). The Plan has been amended since receiving the last determination letter. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable provisions of the IRC.

NOTE F - PARTY-IN-INTEREST TRANSACTIONS

The Plan allows participants to take out loans, which are considered party-in-interest transactions.

Certain investments are managed by Marshall & Ilsley Trust Company N.A. Marshall & Ilsley Trust Company N.A. is the Trustee as defined by the Plan; therefore, these transactions qualify as party-in-interest. These transactions are not, however, considered prohibited transactions under 29 CFR 408(b) of the ERISA regulations.

NOTE G - INFORMATION CERTIFIED BY TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the financial statements and supplementary schedule is complete and accurate:

- Investments, as shown in the statements of net assets available for benefits as of June 30, 2010 and 2009.
- Investment income (loss), as shown in the statements of changes in net assets available for benefits for the years ended June 30, 2010 and 2009.
- Schedule H, Line 4(i) - schedule of assets (held at end of year) as of June 30, 2010.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplementary schedule.

NOTE H - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA.

During 2009, the Company incurred a significant decline in workforce resulting in a partial termination of the Plan. As participants are 100 percent vested in their accounts at all times, there was no impact to the Plan.

NOTE I - RECONCILIATION BETWEEN FINANCIAL AND TAX REPORTING

The audited financial statements were prepared in accordance with accounting principles generally accepted in the United States of America and, accordingly, report investments at contract value. The financial statements in the Form 5500 were prepared using the fair value of investments. A reconciliation of the difference between the Form 5500 and the accompanying financial statements is as follows:

	<u>2010</u>	<u>2009</u>
Net assets available for benefits, at fair value, as reported on Form 5500	\$ 30,133,523	\$ 27,667,983
Adjustment from fair value to contract value for interest in collective trust fund relating to fully benefit-responsive investment contracts	<u>(101,887)</u>	<u>179,368</u>
Net assets available for benefits, at contract value, as reported in the accompanying financial statements	<u>\$ 30,031,636</u>	<u>\$ 27,847,351</u>
Increase (decrease) in net assets available for benefits, as reported on the Form 5500	\$ 2,465,540	\$ (9,477,230)
Adjustment from fair value to contract value - prior year	(179,368)	(81,144)
Adjustment from fair value to contract value - current year	<u>(101,887)</u>	<u>179,368</u>
Increase (decrease) in net assets available for benefit as reported in the accompanying financial statements	<u>\$ 2,184,285</u>	<u>\$ (9,379,006)</u>

NOTE J - SUBSEQUENT EVENTS

The Plan evaluated its June 30, 2010 financial statements for subsequent events through April 12, 2011, the date the financial statements were available to be issued. The Plan is not aware of any subsequent events, except as noted below, which would require recognition or disclosure in the financial statements.

Effective December 15, 2010, the Company was acquired.

Effective April 1, 2011, the Phillips Plastics Corporation Profit Sharing Plan merged into the Plan.
