BRADKEN 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS
YEARS ENDED JUNE 30, 2010 AND 2009

1. DESCRIPTION OF THE PLAN

The following description of the Bradken 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") for all eligible employees of Bradken-Atchison/St. Joseph, Inc., Bradken – Amite, Inc. and Bradken – Atlas Limited Partnership (collectively the "Company). The Company adopted a new plan agreement effective December 15, 2009.

Fidelity Management Trust Company ("Fidelity") serves as the trustee and recordkeeper for the Plan.

Eligibility – An individual is eligible to participate in the Plan on the first day of the month after completing 3 months of service. The Plan is not open to union employees, janitorial employees or non-resident aliens.

Contributions – Participants may contribute up to 50% of their annual compensation on a pretax basis, as defined in the Plan, subject to certain Internal Revenue Code ("IRC") limitations. Additionally, participants may also contribute on an after-tax basis, subject to certain IRC limitations.

The Company matches participant contributions at an amount equal to 50% of each eligible contribution, not to exceed 6% of compensation in any period.

In addition, the Company may contribute a discretionary profit sharing amount annually. In 2010, the Company contributed 2% of eligible compensation. The contribution was paid into the Plan subsequent to year end. In order to receive a discretionary profit sharing contribution, the participant must work 100 hours during the year.

Participant Accounts – Each participant's account is credited with the participant's contributions, interest and dividends earned, and is charged with the participant's withdrawals and distributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments – Participants direct their contributions into various mutual funds, a common/ collective trust fund ("CCT") or a money market fund.

Vesting – Participants' contributions are fully vested at all times. The Company's contributions are 100% vested after three years of service, except for Atlas Limited Partnership employees hired before April 1, 2009, for which all prior employer contributions are 100% vested. In the event of permanent disability, death, or termination of the Plan, the Company's contributions will become fully vested.

Forfeitures – Forfeitures occur upon termination of employment by a participant who is not fully vested in the Plan. Forfeitures are used to reduce future employer matching contributions. During the Plan year, approximately $7,900 of forfeitures was used to reduce

employer matching contributions. As of June 30, 2010, there is approximately $16,500 available in forfeitures.

Payment of Benefits – Distributions from the Plan are made upon death, retirement or termination pursuant to the Plan's provisions and as permitted by law. A participant's vested account balance under $5,000 will be subject to automatic distribution. Vested balances between $1,000 and $5,000 will be automatically rolled over to an IRA account in the participant's name, unless otherwise instructed by the participant. If the account balance is $5,000 or greater, distributions can be in the form of a lump-sum payment, installments, or rollover to a personal IRA or another trustee.

In-Service Withdrawals – Participants may make withdrawals prior to termination of employment. Hardship withdrawals are available to Plan participants, as defined by the Plan and permitted by the IRC. Hardship withdrawals are limited to the participant's account balance that is 100% vested. Upon making such a withdrawal, the participant is suspended from making deferrals for six months.

Participants who have obtained the age of 59 ½ are allowed to receive a distribution of all or any portion of their vested account balances.

Notes Receivables from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at prime rate plus 1%. The maximum term for a loan is 5 years, except if the loan is to acquire the participant's principal residence, which has a maximum term of 30 years. Loan repayments are made ratably through payroll deductions.

Administrative Expenses – The Company pays the expenses of the Plan.

Termination of the Plan – Although the Company has not expressed any intent to do so, it has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the Plan and under ERISA. In the event that the Plan should be terminated, participants' accounts would become fully vested, and all remaining Plan assets would be allocated to the participants as described in the full text of the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The accompanying financial statements have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Contributions – Contributions are recorded in the year in which the services are rendered to the Company by the Plan participants.

Investment Valuation and Income Recognition – The Plan's investments are valued at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The Managed Income Portfolio is a stable value fund that is a CCT of the Fidelity Management Trust Company for employee benefit plans. The fund invests in a diversified portfolio of fixed–income securities or bond funds and enters into "wrapper" contracts issued by a third-party. Participants may ordinarily direct the withdrawals or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Unit Values – CCTs are maintained on a unit basis. The Plan does not have a beneficial ownership in specific underlying securities or other assets in the CCT, but does have an interest herein represented by units valued as of the last business day of the period. The Managed Income Portfolio is stated at a unit price of $1.00 at June 30, 2010.

Payment of Benefits – Benefit payments are recorded upon distribution.

Date of Management's Review – Subsequent events have been evaluated through April 14, 2011, the date that these financial statements were available to be issued.

New Accounting Pronouncements – In September 2010, the Financial Accounting Standards Board ("FASB") issued guidance which clarified how loans to participants should be classified and measured by defined contribution pension benefit plans. Previously participant loans were classified as investments. The new guidance requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The 2009 participant loan balances have been reclassified from investments to notes receivable from participants to conform to the new presentation. Notes receivable from participants will be reported as investments on the Form 5500, and as such, are included as an investment in the supplemental schedule – *Schedule of Assets (Held at End of Year).*

In January 2010, the FASB issued guidance which expanded the required disclosures about fair value measurements. In particular, this guidance requires (i) separate disclosure of the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements along with the reasons for such transfers, (ii) information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for Level 3 fair value measurements, (iii) fair value measurement disclosures for each class of assets and liabilities and (iv) disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for fair value measurements that fall in either Level 2 or Level 3. This guidance is effective for annual reporting periods beginning after December 15, 2009, except for (ii) above which is effective for fiscal years beginning after December 15, 2010. The Company is currently evaluating the impact that this guidance will have on the Plan's financial statement disclosures.

3. FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

> Level 1 – Inputs consist of unadjusted quoted prices for identical assets in active markets that the plan has the ability to access.
>
> Level 2 – Inputs consist of 1) quoted prices for similar assets in active markets, 2) quoted prices for identical or similar assets in inactive markets, 3) inputs other than quoted prices that are observable, and 4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset has a specified (contractual) term, the level 2 input must be observable for substantially the full term.
>
> Level 3 – Inputs consist of unobservable inputs where there is little or no market activity, and the reporting entity makes estimates and assumptions related to the pricing of the asset including assumptions regarding risk.

The assets fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2010 and 2009:

> Mutual Funds – Valued at the net asset value (NAV) of shares held by the plan at year end based on published quoted prices.
>
> Money market fund – Valued at cost, which approximates fair value.
>
> Common Collective Trust Fund – Valued at the trust NAV per unit based on fair value of the underlying investments, adjusted for trustee fees accrued daily, if applicable.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's investments are reported at fair value as follows at June 30, 2010 and 2009:

		Fair Value Measurements Using:		
	Fair Value	**Level 1**	**Level 2**	**Level 3**

	$ 18,374,492	$ 17,688,441	$ 686,051	

4. INVESTMENTS

The Plan's investments that represented 5% or more of the Plan's net assets available for benefits as of June 30 are as follows:

	2010	**2009**
Fidelity International Discovery Fund	$ 1,770,874	$ 1,519,141
Fidelity Freedom Income Fund	1,447,214	1,372,544
Fidelity Freedom 2020 Fund	1,320,790	1,188,792
Fidelity Retirement Money Market Portfolio	1,744,052	1,868,853
Spartan U.S. Equity Index Fund	2,289,562	1,951,942
Rainier Small/Mid Cap Equity Portfolio	1,243,401	1,070,227
Fidelity Contrafund	2,625,293	*

* Investment did not exceed stated threshold on that particular date.

During fiscal 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $1,918,637.

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

5. INFORMATION CERTIFIED BY THE TRUSTEE

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity, the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate with respect to investments as of June 30, 2010 and 2009, and for the year ended June 30, 2010:

- Investments, at fair value
- Notes receivable from participants
- Net appreciation in fair value of investments
- Interest and dividends
- Schedule of Assets (Held at End of Year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

6. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are mutual funds, money market fund, and a common/collective trust fund managed by Fidelity. Fidelity is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest.

7. TAX STATUS

The Company adopted a Prototype Non-standardized Profit-Sharing Plan which received a favorable opinion letter from the IRS on March 31, 2008, which stated that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since the date of the opinion letter. However, the Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and that, therefore, the Plan qualifies under Section 401(a) and the related trust is tax-exempt. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Company has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

8. RECONCILIATION TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of June 30, 2010 and 2009:

BRADKEN 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS
YEARS ENDED JUNE 30, 2010 AND 2009

1. DESCRIPTION OF THE PLAN

The following description of the Bradken 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") for all eligible employees of Bradken-Atchison/St. Joseph, Inc., Bradken – Amite, Inc. and Bradken – Atlas Limited Partnership (collectively the "Company). The Company adopted a new plan agreement effective December 15, 2009.

Fidelity Management Trust Company ("Fidelity") serves as the trustee and recordkeeper for the Plan.

Eligibility – An individual is eligible to participate in the Plan on the first day of the month after completing 3 months of service. The Plan is not open to union employees, janitorial employees or non-resident aliens.

Contributions – Participants may contribute up to 50% of their annual compensation on a pretax basis, as defined in the Plan, subject to certain Internal Revenue Code ("IRC") limitations. Additionally, participants may also contribute on an after-tax basis, subject to certain IRC limitations.

The Company matches participant contributions at an amount equal to 50% of each eligible contribution, not to exceed 6% of compensation in any period.

In addition, the Company may contribute a discretionary profit sharing amount annually. In 2010, the Company contributed 2% of eligible compensation. The contribution was paid into the Plan subsequent to year end. In order to receive a discretionary profit sharing contribution, the participant must work 100 hours during the year.

Participant Accounts – Each participant's account is credited with the participant's contributions, interest and dividends earned, and is charged with the participant's withdrawals and distributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments – Participants direct their contributions into various mutual funds, a common/ collective trust fund ("CCT") or a money market fund.

Vesting – Participants' contributions are fully vested at all times. The Company's contributions are 100% vested after three years of service, except for Atlas Limited Partnership employees hired before April 1, 2009, for which all prior employer contributions are 100% vested. In the event of permanent disability, death, or termination of the Plan, the Company's contributions will become fully vested.

Forfeitures – Forfeitures occur upon termination of employment by a participant who is not fully vested in the Plan. Forfeitures are used to reduce future employer matching contributions. During the Plan year, approximately $7,900 of forfeitures was used to reduce

employer matching contributions. As of June 30, 2010, there is approximately $16,500 available in forfeitures.

Payment of Benefits – Distributions from the Plan are made upon death, retirement or termination pursuant to the Plan's provisions and as permitted by law. A participant's vested account balance under $5,000 will be subject to automatic distribution. Vested balances between $1,000 and $5,000 will be automatically rolled over to an IRA account in the participant's name, unless otherwise instructed by the participant. If the account balance is $5,000 or greater, distributions can be in the form of a lump-sum payment, installments, or rollover to a personal IRA or another trustee.

In-Service Withdrawals – Participants may make withdrawals prior to termination of employment. Hardship withdrawals are available to Plan participants, as defined by the Plan and permitted by the IRC. Hardship withdrawals are limited to the participant's account balance that is 100% vested. Upon making such a withdrawal, the participant is suspended from making deferrals for six months.

Participants who have obtained the age of 59 ½ are allowed to receive a distribution of all or any portion of their vested account balances.

Notes Receivables from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at prime rate plus 1%. The maximum term for a loan is 5 years, except if the loan is to acquire the participant's principal residence, which has a maximum term of 30 years. Loan repayments are made ratably through payroll deductions.

Administrative Expenses – The Company pays the expenses of the Plan.

Termination of the Plan – Although the Company has not expressed any intent to do so, it has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the Plan and under ERISA. In the event that the Plan should be terminated, participants' accounts would become fully vested, and all remaining Plan assets would be allocated to the participants as described in the full text of the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The accompanying financial statements have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Contributions – Contributions are recorded in the year in which the services are rendered to the Company by the Plan participants.

Investment Valuation and Income Recognition – The Plan's investments are valued at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The Managed Income Portfolio is a stable value fund that is a CCT of the Fidelity Management Trust Company for employee benefit plans. The fund invests in a diversified portfolio of fixed–income securities or bond funds and enters into "wrapper" contracts issued by a third-party. Participants may ordinarily direct the withdrawals or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Unit Values – CCTs are maintained on a unit basis. The Plan does not have a beneficial ownership in specific underlying securities or other assets in the CCT, but does have an interest herein represented by units valued as of the last business day of the period. The Managed Income Portfolio is stated at a unit price of $1.00 at June 30, 2010.

Payment of Benefits – Benefit payments are recorded upon distribution.

Date of Management's Review – Subsequent events have been evaluated through April 14, 2011, the date that these financial statements were available to be issued.

New Accounting Pronouncements – In September 2010, the Financial Accounting Standards Board ("FASB") issued guidance which clarified how loans to participants should be classified and measured by defined contribution pension benefit plans. Previously participant loans were classified as investments. The new guidance requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The 2009 participant loan balances have been reclassified from investments to notes receivable from participants to conform to the new presentation. Notes receivable from participants will be reported as investments on the Form 5500, and as such, are included as an investment in the supplemental schedule – *Schedule of Assets (Held at End of Year).*

In January 2010, the FASB issued guidance which expanded the required disclosures about fair value measurements. In particular, this guidance requires (i) separate disclosure of the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements along with the reasons for such transfers, (ii) information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for Level 3 fair value measurements, (iii) fair value measurement disclosures for each class of assets and liabilities and (iv) disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for fair value measurements that fall in either Level 2 or Level 3. This guidance is effective for annual reporting periods beginning after December 15, 2009, except for (ii) above which is effective for fiscal years beginning after December 15, 2010. The Company is currently evaluating the impact that this guidance will have on the Plan's financial statement disclosures.

3. FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

> Level 1 – Inputs consist of unadjusted quoted prices for identical assets in active markets that the plan has the ability to access.
>
> Level 2 – Inputs consist of 1) quoted prices for similar assets in active markets, 2) quoted prices for identical or similar assets in inactive markets, 3) inputs other than quoted prices that are observable, and 4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset has a specified (contractual) term, the level 2 input must be observable for substantially the full term.
>
> Level 3 – Inputs consist of unobservable inputs where there is little or no market activity, and the reporting entity makes estimates and assumptions related to the pricing of the asset including assumptions regarding risk.

The assets fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2010 and 2009:

> Mutual Funds – Valued at the net asset value (NAV) of shares held by the plan at year end based on published quoted prices.
>
> Money market fund – Valued at cost, which approximates fair value.
>
> Common Collective Trust Fund – Valued at the trust NAV per unit based on fair value of the underlying investments, adjusted for trustee fees accrued daily, if applicable.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's investments are reported at fair value as follows at June 30, 2010 and 2009:

		Fair Value Measurements Using:		
	Fair Value	**Level 1**	**Level 2**	**Level 3**

	$ 18,374,492	$ 17,688,441	$ 686,051	

4. INVESTMENTS

The Plan's investments that represented 5% or more of the Plan's net assets available for benefits as of June 30 are as follows:

	2010	**2009**
Fidelity International Discovery Fund	$ 1,770,874	$ 1,519,141
Fidelity Freedom Income Fund	1,447,214	1,372,544
Fidelity Freedom 2020 Fund	1,320,790	1,188,792
Fidelity Retirement Money Market Portfolio	1,744,052	1,868,853
Spartan U.S. Equity Index Fund	2,289,562	1,951,942
Rainier Small/Mid Cap Equity Portfolio	1,243,401	1,070,227
Fidelity Contrafund	2,625,293	*

* Investment did not exceed stated threshold on that particular date.

During fiscal 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $1,918,637.

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

5. INFORMATION CERTIFIED BY THE TRUSTEE

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity, the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate with respect to investments as of June 30, 2010 and 2009, and for the year ended June 30, 2010:

- Investments, at fair value
- Notes receivable from participants
- Net appreciation in fair value of investments
- Interest and dividends
- Schedule of Assets (Held at End of Year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

6. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are mutual funds, money market fund, and a common/collective trust fund managed by Fidelity. Fidelity is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest.

7. TAX STATUS

The Company adopted a Prototype Non-standardized Profit-Sharing Plan which received a favorable opinion letter from the IRS on March 31, 2008, which stated that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since the date of the opinion letter. However, the Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and that, therefore, the Plan qualifies under Section 401(a) and the related trust is tax-exempt. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Company has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

8. RECONCILIATION TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of June 30, 2010 and 2009:

Form 5500
FOR THE YEAR ENDING
06/30/2010

This return must be electronically filed with the Department of Labor --
Employee Benefits Security Administration (EBSA)
by: 04/15/2011

Please follow these steps to finalize your return:

Step 1
Follow special instructions

- ❑ Download the Form 5500 data file by clicking on the 'Form 5500 data file ready for download' link. Save the file on your local PC. Download, if applicable, the Form 8955-SSA and any other Forms or letters by clicking on the appropriate links in PSW. Electronically file the 5500 on the Department of Labor's website: http://www.efast.dol.gov. Most of the data needed for the filing can be imported directly into the DOL site by using the formatted data file you downloaded from PSW. Add required schedules as attachments to the online filing. Notes on Attachments: The auditor's opinion must be a PDF document. Other attachments can be PDF or plain text (.TXT). Attachments are added electronically to the filing on the DOL website.
- ❑ Please note that a copy of the IRS Form 5558 "Application for Extension of Time to File Certain Employee Plan Returns", which was filed with the Internal Revenue Service, has been included, as a separate link on PSW with your Form 5500.
- ❑ Your company's plan was required to have an audit for the plan year ending 06/30/10, and to attach the accountants' opinion to the 5500. Please make sure that the financial information in the accountants' financial statements agrees with the Form 5500. If there is a variance, please be sure the audit report discloses the differences. Failure to attach the accountants' opinion and required schedules could result in a potential Department of Labor inquiry. If applicable, attach the following schedules that were prepared by the accountant to the filing on the DOL website: Schedule of Reportable Transactions, Schedule of Assets (Held at End of Year) and/or Schedule of Assets (Acquired and Disposed of Within the Year). If the accountants' report discloses any prohibited transactions, loans in default, or non-exempt reportable transactions, please notify your Fidelity Testing and Reporting Consultant so we can change Part IV of the Schedule H and if applicable complete the Schedule G.

Step 2
Electronically Sign the 5500 filing

- ❑ An authorized signer must electronically sign the filing on the DOL website. An authorized signer is a plan trustee, plan administrator, or other plan fiduciary. Form 5500 Signers must first register for electronic credentials with the DOL. Refer to the instructions on the DOL's website: http://www.efast.dol.gov or call 1-866-GOEFAST. Note: employees who import the 5500 and associated schedules must register with the DOL for the 'Filing Author' role.
- ❑ For 2009 and later years, the Form 8955-SSA will replace the Schedule SSA and will be filed directly with the IRS. The Form 8955-SSA has not been released for the 2009 or 2010 filings by the IRS. Do not attach Schedule SSA information to your form 5500 filing.
- ❑ Maintain a signed hardcopy of the 5500 to retain as a permanent record.

Step 3
Distribute SAR

- ❑ Copy the Summary Annual Report and distribute to all active and inactive plan participants by 06/15/2011.
