INDEPENDENT AUDITORS' REPORT

To the Plan Administrator of the
Fabrigo, Inc. Retirement Plan
Oxford, Massachusetts

We were engaged to audit the accompanying statements of Net Assets available for Benefits of the Fabrigo, Inc. Retirement Plan as of June 30, 2010 and 2009, and the related Statement of Changes in Net Assets Available for Benefits for the years then ended and the supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of year) as of June 30, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by State Street Bank & Trust Company, the Trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained certifications from the Trustee as of and for the years ended June 30, 2010 and 2009, that the information provided to the Plan Administrator by the Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

FABRICO, INC. RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
Years Ended June 30, 2010 and 2009

1. DESCRIPTION OF THE PLAN

The following description of the Fabrico, Inc. Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan’s provisions.

General

The purpose of the Plan is to enable participating employees of Fabrico, Inc. (the “Company” or “Plan Administrator”) to accumulate capital accessible in their retirement years.

The Plan is a defined contribution plan covering substantially all employees of the Company. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

All assets acquired under this Plan as a result of participant and Company contributions, income and other additions will be administered, distributed, forfeited and otherwise governed by the provisions of this Plan. The Plan is administered by the Company for the exclusive benefit of participants in the Plan and their beneficiaries.

Eligibility

Each employee who is 21 years of age or older and has completed two months of service is eligible to make salary deferrals into the Plan. Employees are eligible to receive the employer discretionary profit sharing contributions if they have completed one year of service and are employed by the Company at Plan year end.

Participant Contributions

An active participant may elect to make two types of contributions to the Plan subject to limitations as defined in the Internal Revenue Code as follows:

Compensation deferral contributions

Each active participant may elect to contribute to the Plan a percentage of their compensation, as defined, up to 50% of compensation, up to the maximum amount allowable under federal regulations and in the absence of an affirmative election, 2% of compensation will be deferred on each eligible employee’s behalf, unless an employee opts not to participate. Compensation deferral contributions are remitted to the Plan by the Company on the participants’ behalf.

See independent auditors’ report.

NOTES TO FINANCIAL STATEMENTS (Continued)

DESCRIPTION OF THE PLAN (continued)

Participant Contributions (concluded)

Rollover contributions

An active participant may, at the discretion of the Plan Administrator, contribute to the Plan, distributions from other qualified plans or individual retirement accounts, if the contributions satisfy the tax law requirements for a qualified rollover.

Total contributions by participants for the years ended June 30, 2010 and 2009 amounted to \$311,143 and \$319,888, respectively.

Employer Contributions

The Company, at their discretion, may elect to make a profit-sharing contribution to the Plan. A participant shall only be entitled to receive employer profit-sharing contributions for a plan year if the participant is employed by the employer on the last day of the plan year and has completed one year of service. The Company did not make a profit-sharing contribution in either of the years ended June 30, 2010 and 2009.

The Company does not provide for a matching contribution.

The Company remitted \$11,354 to the Plan during the year ended June 30, 2010 as described in Note 6.

Vesting

A participant will have a fully vested interest in that portion of their account attributable to compensation deferral contributions, rollover contributions and related investment earnings. Participants vest in the employer profit-sharing contributions as follows:

<u>Completed Years of Credited Service</u>	<u>Vested Percentage</u>
Less than 3 years	0%
3 years	20%
4 years	40%
5 years	60%
6 years	80%
7 years or more	100%

See independent auditors' report.

FABRICO, INC. RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

DESCRIPTION OF THE PLAN (continued)

Forfeitures

Only contributions made by the Company are subject to forfeiture. Forfeitures are used to reduce future employer contributions to the Plan. At June 30, 2010 and 2009, there was \$4,375 and \$0, respectively, in forfeited non-vested accounts. No forfeitures were used to reduce employer contributions for either of the years ended June 30, 2010 and 2009.

Investments

The Plan offers a number of investment options which vary by investment objective. Participants elect in which investment or investments they wish their accounts invested. Participants may change their investment options daily. Earnings for each investment are allocated to each participant's investment account based on the ratio of each participant's account balance to the balance of all participants' accounts invested in the same investment.

Participant Loans

Loans to participants are made in accordance with provisions in the Plan. Loans shall be in an amount not less than \$500 or greater than \$50,000, limited to 50% of a participant's vested interest in the Plan. Loans are secured by an irrevocable pledge and assignment of up to 50% of the participant's vested interest in the Plan. Each loan shall bear a fixed interest rate equal to the prime rate at the date of the loan plus one percent. Loans are generally required to be repaid through regular payroll deductions within five years of the date it is made, unless such loan is used to acquire a principal residence in which case the term is extended. A participant is not allowed to have more than two loans outstanding at any time.

A loan is considered delinquent if the participant misses a regularly scheduled payment. A delinquent loan is considered to be in default in the calendar quarter following the quarter in which the last payment was made. Upon default, the outstanding balance of the loan shall be deemed distributed to the participant. During the years ended June 30, 2010 and 2009, defaulted loans deemed distributed amounted to \$7,072 and \$4,499, respectively.

Distributions

Retirement, Disability or Death

Participants who retire or become disabled will be entitled to 100% of their account balance. Upon death, the participant's beneficiary will be entitled to 100% of the account balance, payable in accordance with the Plan agreement.

See independent auditors' report.

DESCRIPTION OF THE PLAN (concluded)

Distributions (concluded)

In Service

A participant who has reached age 59½ will be entitled to withdraw 100% of their vested account balance. Distributions can also be made as in-service hardship withdrawals, as defined.

Other Termination of Employment

Upon termination of employment for any reason other than retirement or death, the participant shall be entitled to receive the entire amount of their vested account balance.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts which shall not thereafter be subject to forfeiture.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting and are in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates

The presentation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets at the date of the financial statements and the reported amount of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

See independent auditors' report.

FABRICO, INC. RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

SIGNIFICANT ACCOUNTING POLICIES (continued)

Tax Status

In June 2005, the Company adopted an Automated Data Processing Federal Credit Union prototype plan, which the Internal Revenue Service determined, as stated in a letter dated May 3, 2002, was acceptable under the applicable requirements of the Internal Revenue Code. The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and therefore, believes that the Plan qualifies as a tax-exempt plan. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

In 2010, the Plan adopted accounting guidance regarding the recognition, measurement, presentation, and disclosure of uncertain tax positions in the financial statements. Tax positions taken or expected to be taken in the course of preparing the Plan's tax returns, including the position that the Plan is in compliance with the applicable requirements of the Internal Revenue Code, are required to be evaluated to determine whether the tax positions are "more-likely-than-not" to be upheld under regulatory review. The adoption of this new guidance did not have a material impact on the Plan's net assets or changes in net assets. The Plan does not have any uncertain tax positions at June 30, 2010 which require accrual or disclosure.

Investment Contracts

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents the fair value of investment contracts as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Valuation of Investments and Income Recognition

Investments in mutual funds are valued at fair value based on quoted market prices. Interest and earned dividends are recorded on the accrual basis. Purchases and sales of investments are recorded on a trade-date basis. Gains and losses on the sale of investments are calculated using the average cost method. The investment contract is stated at fair value and adjusted to contract value based on information reported by the investment advisor.

See independent auditors' report.

FABRICO, INC. RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

SIGNIFICANT ACCOUNTING POLICIES (continued)

Valuation of Investments and Income Recognition (concluded)

The hierarchal framework prioritizes and ranks the level of market price observability used in measuring investments at fair value. Market price observability is impacted by a number of factors, including the type of investment and the characteristics specific to the investment. Investments with readily available active quoted prices or for which fair value can be measured from actively quoted prices generally will have a higher degree of market price observability and a lesser degree of judgment used in measuring fair value.

The Plan groups its financial instruments generally measured at fair value in three levels, based on the markets in which the instruments are traded and the reliability of the assumptions used to determine fair value. The three levels of the fair value hierarchy are as follows:

Level 1 - Fair values are based upon unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 - Fair values are based upon quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, and inputs other than quoted prices that are observable for the asset or liability, either directly or by correlation or other means.

Level 3 - Fair values are based upon unobservable inputs for the asset or liability and include situations where there is little, if any, market activity for the asset or liability. Such inputs are based upon the best information in the circumstances and may require significant management judgment or estimation.

In certain cases, inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the investment.

Valuation of Participant Loans

Participant loans receivable are valued at the cost basis of outstanding principal, which approximates fair value.

See independent auditors' report.

Administrative Expenses

Certain costs of the Plan were paid by the Company for the years ended June 30, 2010 and 2009.

3. INFORMATION CERTIFIED BY THE TRUSTEE

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by State Street Bank & Trust Company (the "Trustee") except for comparing such information certified by the Trustee to information included in the Plan's financial statements and supplemental schedule. The Plan Administrator has obtained a certification from the Trustee for each of the years ended June 30, 2010 and 2009 that such information is complete and accurate.

Information certified as of and for the years ended June 30, 2010 and 2009 is as follows:

	2010	2009
Investments at fair value:		
Mutual funds	\$ 2,635,165	\$ 2,155,717
Participant loans	217,787	213,875
Investments at contract value:		
Collective investment fund	\$ 410,759	\$ 386,136
Investment income:		
Net appreciation (depreciation) in fair value of investments	\$ 282,324	\$ (660,437)
Dividends and interest on investments	42,737	117,404
Interest on participant loans	14,574	18,830

The Trustee also certified all the information in the Schedule of Assets (Held at End of Year) included on page 16 of the financial statements.

See independent auditors' report.

4. INVESTMENTS

The following table represents the fair value of investments which individually exceed 5% of the Plan's net assets available for benefits at June 30, 2010 and 2009:

	<u>2010</u>	<u>2009</u>
Investments at fair value:		
Mutual Funds:		
Calvert Income Fund	\$ 431,776	\$ 339,202
Davis New York Venture Fund	227,040	181,227
Oppenheimer Global Fund	181,595	143,901
Invesco Comstock Fund	398,029	350,860
Invesco Equity and Income Fund	-	151,390
Collective Investment Fund:		
Morgan Stanley Stable Value Fund	358,749	325,232

The Plan's net appreciation (depreciation) in the fair value of investments (including dividends reinvested and investments bought, sold, as well as held) was determined by the change in the underlying fair value of investments and amounted to \$282,324 and \$(660,437) during the years ended June 30, 2010 and 2009, respectively.

Collective Investment Fund

The Plan entered into a benefit-responsive investment contract with SEI Trust Company ("SEI"). SEI maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is reflected in the financial statements at fair value as reported to the Plan by SEI.

Since the collective investment fund is fully benefit-responsive, fair value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the collective investment fund. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value, as reported to the Plan by SEI represents contributions made under the contract, plus credited interest, less participant withdrawals and administrative expenses.

See independent auditors' report.

FABRICO, INC. RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

INVESTMENTS (continued)

Collective Investment Fund (concluded)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at June 30, 2010 and 2009 was \$358,749 and \$325,232, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. The financial statements of the Collective Investment Fund are based on a calendar year end and as such fair value estimates based on the ratio of the fair value of the net assets over the contract value of the net assets was utilized to determine the fair value at Plan year end.

Certain events may limit the ability of the Plan to transact at contract value. Such events include but may not be limited to the following: (1) the complete or partial termination of the Plan; (2) the establishment or activation of, or material change in, any Plan investment fund, or an amendment to the Plan or a change in the administration or operation of the Plan, including the removal of a group of employees from Plan coverage as a result of the sale or liquidation of a subsidiary or division or as a result of group layoffs or early retirement programs. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The Collective Investment Fund does not permit the issuer to terminate the agreement prior to the scheduled maturity date.

	December 31,	
	2009	2008
Average yields:		
Based on actual earnings	3.36%	4.24%
Based on interest rate credited to participants	1.12%	2.19%

Fair Value Hierarchy

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2010:

Mutual funds: Valued at the net asset value of shares held by the Plan at year end.

Participant loans: Valued at cost basis of outstanding principal, which approximates fair value.

See independent auditors' report.

FABRICO, INC. RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

INVESTMENTS (continued)

Fair Value Hierarchy (concluded)

Collective investment fund: Valued as determined by the Trustee based on the net asset values and supported by the value of the underlying securities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments at Fair Value on a Recurring Basis

The following table summarizes the valuation of the Plan's investments by the fair value hierarchy as of June 30, 2010 and 2009:

Loan originations, net of repayments and distributions	<u>3,912</u>
Balance, June 30, 2010	<u><u>\$ 217,787</u></u>

5. RISKS AND UNCERTAINTIES

The Plan invests in a variety of investment vehicles which are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risk factors in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

6. VOLUNTARY CORRECTION

As otherwise required by the Plan, during 2009 and prior, the Plan Sponsor did not defer participant contributions from compensation premiums earned for hours worked during second shift, as defined. Having identified this procedural error, in March 2010, the Plan Sponsor remitted \$11,354 to the Plan on behalf of the affected participants. This amount represents corrective non-deferrals and lost earnings and is recorded as an employer contribution receivable on the 2009 statement of net assets available for benefits.

INDEPENDENT AUDITORS' REPORT

To the Plan Administrator of the
Fabrigo, Inc. Retirement Plan
Oxford, Massachusetts

We were engaged to audit the accompanying statements of Net Assets available for Benefits of the Fabrigo, Inc. Retirement Plan as of June 30, 2010 and 2009, and the related Statement of Changes in Net Assets Available for Benefits for the years then ended and the supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of year) as of June 30, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by State Street Bank & Trust Company, the Trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained certifications from the Trustee as of and for the years ended June 30, 2010 and 2009, that the information provided to the Plan Administrator by the Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

FABRICO, INC. RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
Years Ended June 30, 2010 and 2009

1. DESCRIPTION OF THE PLAN

The following description of the Fabrico, Inc. Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan’s provisions.

General

The purpose of the Plan is to enable participating employees of Fabrico, Inc. (the “Company” or “Plan Administrator”) to accumulate capital accessible in their retirement years.

The Plan is a defined contribution plan covering substantially all employees of the Company. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

All assets acquired under this Plan as a result of participant and Company contributions, income and other additions will be administered, distributed, forfeited and otherwise governed by the provisions of this Plan. The Plan is administered by the Company for the exclusive benefit of participants in the Plan and their beneficiaries.

Eligibility

Each employee who is 21 years of age or older and has completed two months of service is eligible to make salary deferrals into the Plan. Employees are eligible to receive the employer discretionary profit sharing contributions if they have completed one year of service and are employed by the Company at Plan year end.

Participant Contributions

An active participant may elect to make two types of contributions to the Plan subject to limitations as defined in the Internal Revenue Code as follows:

Compensation deferral contributions

Each active participant may elect to contribute to the Plan a percentage of their compensation, as defined, up to 50% of compensation, up to the maximum amount allowable under federal regulations and in the absence of an affirmative election, 2% of compensation will be deferred on each eligible employee’s behalf, unless an employee opts not to participate. Compensation deferral contributions are remitted to the Plan by the Company on the participants’ behalf.

See independent auditors’ report.

FABRICO, INC. RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

DESCRIPTION OF THE PLAN (continued)

Participant Contributions (concluded)

Rollover contributions

An active participant may, at the discretion of the Plan Administrator, contribute to the Plan, distributions from other qualified plans or individual retirement accounts, if the contributions satisfy the tax law requirements for a qualified rollover.

Total contributions by participants for the years ended June 30, 2010 and 2009 amounted to \$311,143 and \$319,888, respectively.

Employer Contributions

The Company, at their discretion, may elect to make a profit-sharing contribution to the Plan. A participant shall only be entitled to receive employer profit-sharing contributions for a plan year if the participant is employed by the employer on the last day of the plan year and has completed one year of service. The Company did not make a profit-sharing contribution in either of the years ended June 30, 2010 and 2009.

The Company does not provide for a matching contribution.

The Company remitted \$11,354 to the Plan during the year ended June 30, 2010 as described in Note 6.

Vesting

A participant will have a fully vested interest in that portion of their account attributable to compensation deferral contributions, rollover contributions and related investment earnings. Participants vest in the employer profit-sharing contributions as follows:

<u>Completed Years of Credited Service</u>	<u>Vested Percentage</u>
Less than 3 years	0%
3 years	20%
4 years	40%
5 years	60%
6 years	80%
7 years or more	100%

See independent auditors' report.

FABRICO, INC. RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

DESCRIPTION OF THE PLAN (continued)

Forfeitures

Only contributions made by the Company are subject to forfeiture. Forfeitures are used to reduce future employer contributions to the Plan. At June 30, 2010 and 2009, there was \$4,375 and \$0, respectively, in forfeited non-vested accounts. No forfeitures were used to reduce employer contributions for either of the years ended June 30, 2010 and 2009.

Investments

The Plan offers a number of investment options which vary by investment objective. Participants elect in which investment or investments they wish their accounts invested. Participants may change their investment options daily. Earnings for each investment are allocated to each participant's investment account based on the ratio of each participant's account balance to the balance of all participants' accounts invested in the same investment.

Participant Loans

Loans to participants are made in accordance with provisions in the Plan. Loans shall be in an amount not less than \$500 or greater than \$50,000, limited to 50% of a participant's vested interest in the Plan. Loans are secured by an irrevocable pledge and assignment of up to 50% of the participant's vested interest in the Plan. Each loan shall bear a fixed interest rate equal to the prime rate at the date of the loan plus one percent. Loans are generally required to be repaid through regular payroll deductions within five years of the date it is made, unless such loan is used to acquire a principal residence in which case the term is extended. A participant is not allowed to have more than two loans outstanding at any time.

A loan is considered delinquent if the participant misses a regularly scheduled payment. A delinquent loan is considered to be in default in the calendar quarter following the quarter in which the last payment was made. Upon default, the outstanding balance of the loan shall be deemed distributed to the participant. During the years ended June 30, 2010 and 2009, defaulted loans deemed distributed amounted to \$7,072 and \$4,499, respectively.

Distributions

Retirement, Disability or Death

Participants who retire or become disabled will be entitled to 100% of their account balance. Upon death, the participant's beneficiary will be entitled to 100% of the account balance, payable in accordance with the Plan agreement.

See independent auditors' report.

DESCRIPTION OF THE PLAN (concluded)

Distributions (concluded)

In Service

A participant who has reached age 59½ will be entitled to withdraw 100% of their vested account balance. Distributions can also be made as in-service hardship withdrawals, as defined.

Other Termination of Employment

Upon termination of employment for any reason other than retirement or death, the participant shall be entitled to receive the entire amount of their vested account balance.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts which shall not thereafter be subject to forfeiture.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting and are in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates

The presentation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets at the date of the financial statements and the reported amount of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

See independent auditors' report.

FABRICO, INC. RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

SIGNIFICANT ACCOUNTING POLICIES (continued)

Tax Status

In June 2005, the Company adopted an Automated Data Processing Federal Credit Union prototype plan, which the Internal Revenue Service determined, as stated in a letter dated May 3, 2002, was acceptable under the applicable requirements of the Internal Revenue Code. The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and therefore, believes that the Plan qualifies as a tax-exempt plan. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

In 2010, the Plan adopted accounting guidance regarding the recognition, measurement, presentation, and disclosure of uncertain tax positions in the financial statements. Tax positions taken or expected to be taken in the course of preparing the Plan's tax returns, including the position that the Plan is in compliance with the applicable requirements of the Internal Revenue Code, are required to be evaluated to determine whether the tax positions are "more-likely-than-not" to be upheld under regulatory review. The adoption of this new guidance did not have a material impact on the Plan's net assets or changes in net assets. The Plan does not have any uncertain tax positions at June 30, 2010 which require accrual or disclosure.

Investment Contracts

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents the fair value of investment contracts as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Valuation of Investments and Income Recognition

Investments in mutual funds are valued at fair value based on quoted market prices. Interest and earned dividends are recorded on the accrual basis. Purchases and sales of investments are recorded on a trade-date basis. Gains and losses on the sale of investments are calculated using the average cost method. The investment contract is stated at fair value and adjusted to contract value based on information reported by the investment advisor.

See independent auditors' report.

FABRICO, INC. RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

SIGNIFICANT ACCOUNTING POLICIES (continued)

Valuation of Investments and Income Recognition (concluded)

The hierarchal framework prioritizes and ranks the level of market price observability used in measuring investments at fair value. Market price observability is impacted by a number of factors, including the type of investment and the characteristics specific to the investment. Investments with readily available active quoted prices or for which fair value can be measured from actively quoted prices generally will have a higher degree of market price observability and a lesser degree of judgment used in measuring fair value.

The Plan groups its financial instruments generally measured at fair value in three levels, based on the markets in which the instruments are traded and the reliability of the assumptions used to determine fair value. The three levels of the fair value hierarchy are as follows:

Level 1 - Fair values are based upon unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 - Fair values are based upon quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, and inputs other than quoted prices that are observable for the asset or liability, either directly or by correlation or other means.

Level 3 - Fair values are based upon unobservable inputs for the asset or liability and include situations where there is little, if any, market activity for the asset or liability. Such inputs are based upon the best information in the circumstances and may require significant management judgment or estimation.

In certain cases, inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the investment.

Valuation of Participant Loans

Participant loans receivable are valued at the cost basis of outstanding principal, which approximates fair value.

See independent auditors' report.

Benefits are recorded when paid.

Administrative Expenses

Certain costs of the Plan were paid by the Company for the years ended June 30, 2010 and 2009.

3. INFORMATION CERTIFIED BY THE TRUSTEE

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by State Street Bank & Trust Company (the "Trustee") except for comparing such information certified by the Trustee to information included in the Plan's financial statements and supplemental schedule. The Plan Administrator has obtained a certification from the Trustee for each of the years ended June 30, 2010 and 2009 that such information is complete and accurate.

Information certified as of and for the years ended June 30, 2010 and 2009 is as follows:

	2010	2009
Investments at fair value:		
Mutual funds	\$ 2,635,165	\$ 2,155,717
Participant loans	217,787	213,875
Investments at contract value:		
Collective investment fund	\$ 410,759	\$ 386,136
Investment income:		
Net appreciation (depreciation) in fair value of investments	\$ 282,324	\$ (660,437)
Dividends and interest on investments	42,737	117,404
Interest on participant loans	14,574	18,830

The Trustee also certified all the information in the Schedule of Assets (Held at End of Year) included on page 16 of the financial statements.

See independent auditors' report.

4. INVESTMENTS

The following table represents the fair value of investments which individually exceed 5% of the Plan's net assets available for benefits at June 30, 2010 and 2009:

	<u>2010</u>	<u>2009</u>
Investments at fair value:		
Mutual Funds:		
Calvert Income Fund	\$ 431,776	\$ 339,202
Davis New York Venture Fund	227,040	181,227
Oppenheimer Global Fund	181,595	143,901
Invesco Comstock Fund	398,029	350,860
Invesco Equity and Income Fund	-	151,390
Collective Investment Fund:		
Morgan Stanley Stable Value Fund	358,749	325,232

The Plan's net appreciation (depreciation) in the fair value of investments (including dividends reinvested and investments bought, sold, as well as held) was determined by the change in the underlying fair value of investments and amounted to \$282,324 and \$(660,437) during the years ended June 30, 2010 and 2009, respectively.

Collective Investment Fund

The Plan entered into a benefit-responsive investment contract with SEI Trust Company ("SEI"). SEI maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is reflected in the financial statements at fair value as reported to the Plan by SEI.

Since the collective investment fund is fully benefit-responsive, fair value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the collective investment fund. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value, as reported to the Plan by SEI represents contributions made under the contract, plus credited interest, less participant withdrawals and administrative expenses.

See independent auditors' report.

FABRICO, INC. RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

INVESTMENTS (continued)

Collective Investment Fund (concluded)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at June 30, 2010 and 2009 was \$358,749 and \$325,232, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. The financial statements of the Collective Investment Fund are based on a calendar year end and as such fair value estimates based on the ratio of the fair value of the net assets over the contract value of the net assets was utilized to determine the fair value at Plan year end.

Certain events may limit the ability of the Plan to transact at contract value. Such events include but may not be limited to the following: (1) the complete or partial termination of the Plan; (2) the establishment or activation of, or material change in, any Plan investment fund, or an amendment to the Plan or a change in the administration or operation of the Plan, including the removal of a group of employees from Plan coverage as a result of the sale or liquidation of a subsidiary or division or as a result of group layoffs or early retirement programs. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The Collective Investment Fund does not permit the issuer to terminate the agreement prior to the scheduled maturity date.

	December 31,	
	2009	2008
Average yields:		
Based on actual earnings	3.36%	4.24%
Based on interest rate credited to participants	1.12%	2.19%

Fair Value Hierarchy

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2010:

Mutual funds: Valued at the net asset value of shares held by the Plan at year end.

Participant loans: Valued at cost basis of outstanding principal, which approximates fair value.

See independent auditors' report.

FABRICO, INC. RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

INVESTMENTS (continued)

Fair Value Hierarchy (concluded)

Collective investment fund: Valued as determined by the Trustee based on the net asset values and supported by the value of the underlying securities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments at Fair Value on a Recurring Basis

The following table summarizes the valuation of the Plan's investments by the fair value hierarchy as of June 30, 2010 and 2009:

Loan originations, net of repayments and distributions	<u>3,912</u>
Balance, June 30, 2010	<u><u>\$ 217,787</u></u>

5. RISKS AND UNCERTAINTIES

The Plan invests in a variety of investment vehicles which are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risk factors in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

6. VOLUNTARY CORRECTION

As otherwise required by the Plan, during 2009 and prior, the Plan Sponsor did not defer participant contributions from compensation premiums earned for hours worked during second shift, as defined. Having identified this procedural error, in March 2010, the Plan Sponsor remitted \$11,354 to the Plan on behalf of the affected participants. This amount represents corrective non-deferrals and lost earnings and is recorded as an employer contribution receivable on the 2009 statement of net assets available for benefits.
