WASH DEPOT HOLDINGS, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2010

NOTE 1: DESCRIPTION OF PLAN

The following description of the Wash Depot Holdings, Inc. 401(k) Plan (Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Wash Depot Holdings, Inc. 401(k) Plan is a defined contribution plan that was adopted effective September 1, 1997, to provide employees of Wash Depot Holdings, Inc. (Company) the opportunity to accumulate savings that provide benefits in the event of retirement, disability or death. The Plan is structured to comply with the requirements of the Employee Retirement Income Security Act of 1974 (ERISA).

Participant Contributions - Employees are eligible to participate in the Plan after attaining 21 years of age and completing one year and 1,000 hours of service, as defined in the plan document. Eligible employees can enter the Plan quarterly, on the first day of the plan year quarter coinciding with or next following the date on which the eligibility requirements are met. Participants may contribute up to 50% of pretax annual compensation, as defined in the Plan. The Company provides a Safe Harbor Automatic Enrollment feature. Participants are enrolled automatically after completing the eligibility requirements, at an initial rate of 3% of pretax compensation, unless the participant elects to opt out or elects a different percentage. The automatic enrollment deferral percentage increases automatically by 1% annually up to a maximum of 6%. Participants 50 or older by the end of a calendar year may elect to contribute additional catch-up contributions to the Plan. Participants direct their contributions into various investment options offered by the Plan. All contributions are subject to the limitations of the Internal Revenue Code.

Employer Contributions - The Company makes qualified automatic safe harbor matching contributions of 100% of the elective deferral up to 1% of compensation and 50% of elective deferral between 2% and 6% of compensation.

Participant Accounts - Each participant's account is credited with the participant's contribution, the Company's contribution and the earnings from the participant-directed investment selections. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings (losses) thereon. Participants are 100% vested in employer contributions after two years of service.

Payment of Benefits - Upon termination of service due to death, disability or retirement, or attainment of age 59½ without terminating employment, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest. Balances of terminated participants that do not exceed $5,000 will be automatically distributed. In the event a participant does not elect to have a mandatory distribution greater than $1,000 paid directly to an eligible retirement plan or account specified by the participant in a direct rollover or to receive the distribution directly, the balances will be distributed in a direct rollover to an individual retirement account designated by the plan administrator.

NOTE 1: DESCRIPTION OF PLAN - CONTINUED

Hardship Withdrawals - Participants may withdraw their elective deferrals or rollover accounts in the form of a hardship withdrawal to satisfy an immediate and heavy financial need, as defined in the Plan. The participant must exhaust all other assets prior to obtaining a hardship withdrawal, including obtaining a loan from the Plan. The distribution may not exceed the amount of immediate and heavy financial need. The amount may include any amounts necessary to pay federal, state or local income taxes or penalties reasonably anticipated to result from the distribution. Salary deferrals will be suspended for six months after the receipt of a hardship distribution. The minimum hardship distribution amount is $500.

Forfeitures - Forfeitures are used to reduce future employer contributions. As of June 30, 2010 and 2009, there was $7,550 and $5,440, respectively, held in the forfeited nonvested account. During the year ended June 30, 2010, employer contributions were reduced by $9,349 of forfeited nonvested accounts.

Loans to Participants - Participants may borrow from their deferral and rollover accounts a minimum of $500 up to a maximum of the lesser of one half of the participant's vested account balance or $50,000 as aggregated with all participant loans from other employer-qualified plans, reduced by the excess of the participant's highest outstanding participant loan balance during the twelve-month period ending on the date of the loan over the participant's current outstanding participant loan balance on the date of the loan. The maximum number of loans that a participant may have outstanding at one time is one. The interest rate charged for the loans is based on Wall Street Journal prime rate plus 1%. All loans must be repaid in level payments on at least a quarterly basis over a period of five years or less, unless the loan is for the purchase of a principal residence. Loan repayments must be made through payroll deduction. The plan administrator will treat a loan as being in default, if any scheduled repayment remains unpaid as of the last business day of the calendar quarter following the calendar quarter in which a payment is first missed. Upon default, death, disability or termination of employment, the entire outstanding principal and accrued interest will be immediately due and payable and the participant will be deemed to have received a taxable distribution from the Plan.

Administration - Automatic Data Processing, Inc. (ADP) is the Plan's third-party administrator and JPMorgan Chase Trust Company (JPMorgan) is the Plan's trustee. The Company partially absorbs administrative fees.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

In accordance with accounting principles generally accepted in the United States of America, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective trust. Contract value for this collective trust is based on the net assets value of the fund as reported by the investment advisor. The statement of net assets available for benefits presents the fair value of the investment in the collective trust as of December 31, 2008 and 2009. Fair value at June 30, 2009 and 2010 is not available. The plan administrator does not believe there is a significant change in fair value from December 31 to June 30 each year. The statement of net assets available for benefits present an adjustment of the investment in the collective trust from fair value to contract value relating to the investment contract. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received for the sale of an asset or paid for the transfer of a liability in an orderly transaction between market participants at the measurement date. See Note 3 discussion of fair value measurements. Loans to participants are valued at amortized cost which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan's investment options include the Bank of America, N.A. Retirement Preservation Trust (RPT), which is a stable value fund. This stable value fund strives to maintain a $1 unit price, but cannot guarantee that it will be able to do so, and this yield will fluctuate. The average yield for RPT as of December 31, 2009 and 2008 was 2.35% and 4.1%, respectively. The average yield with an adjustment to reflect actual interest rate credited to participants was 2.57% as of December 31, 2009. The average yield and average yield with adjustment to reflect actual interest credited to participants as of end of the plan year (June 30) are not available. The RPT may invest in GIC's collateralized mortgage obligations, managed bond portfolios and cash. Participant withdrawals and exchanges are paid at book value (principal and interest accrued to date) during the term of the contract. However, withdrawals

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Investment Valuation and Income Recognition - continued - prompted by certain events (e.g., an employer-initiated event such as a layoff, sale of a division, plan termination or transfer) may be paid at market value, which may be less than book value. The crediting interest rate is based on a formula agreed upon with the issuer. Such rates are reviewed on a monthly or quarterly basis for resetting.

Payment of Benefits - Benefit payments to participants are recorded when paid.

Subsequent Events - The Plan's policy is to evaluate events and transactions subsequent to its year end for potential recognition in the financial statements or disclosure in the notes to the financial statements. Management has evaluated events and transaction through the date of the auditors' report, which is the date the financial statements were available to be issued.

NOTE 3: FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

NOTE 3: FAIR VALUE MEASUREMENTS - CONTINUED

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of June 30, 2010 and 2009.

Registered Investment Companies - Valued at the net asset value (NAV) of shares held by the Plan at year end.

Common/Collective Trusts - Valued at fair value, which is equal to the sum of the market value of all of the funds' underlying investments. See Note 2.

Loans to Participants - Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2010 (See Note 2):

Section 29 CFR 2520.103-8.

NOTE 4: INFORMATION CERTIFIED BY TRUSTEE - CONTINUED

NOTE 5: PARTY-IN-INTEREST TRANSACTIONS

The Plan has not considered normal plan operations such as participant and employer contributions or benefits paid to participants as party-in-interest transactions that require separate disclosure. Certain plan investments are shares of registered investment companies (mutual funds) and common/collective trusts managed by the Plan's institutional trustee. These transactions qualify as party-in-interest transactions that are exempt from the prohibited transaction rules. Fees for professional services rendered by some parties in interest are partially absorbed by the plan sponsor. Participant loan origination fees are paid out of the relevant participants' accounts.

NOTE 6: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a plan termination, participants would become 100 percent vested in their employer contributions.

NOTE 7: TAX STATUS

Effective April 1, 2010, the Company adopted the restated Automatic Data Processing (ADP) Prototype Non-Standardized 401(k) Profit Sharing Plan which has obtained an opinion letter from the Internal Revenue Service dated March 31, 2008, which stated the form of the Plan as then designed was in compliance with the applicable requirements of the Internal Revenue Code (IRC), and therefore the related trust is tax exempt. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since the effective date of the opinion letter; however, the plan administrator believes that the Plan is being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan's federal Forms 5500 are subject to examination by the IRS and the Department of Labor, generally for the three years after they were filed.

NOTE 8: RISKS AND UNCERTAINTIES

The Plan invests in various registered investment companies and common/collective trusts. These investments are exposed to various risks such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and such changes could materially affect participant account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 9: COMMITMENTS AND CONTINGENCIES

In the normal course of business, there are various commitments and contingencies that are not reflected in these financial statements. In the opinion of the plan administrator, the outcome of such events, if any, will not have a material effect on the Plan's financial position or operations.

NOTE 10: RECLASSIFICATIONS

Certain accounts in the prior year financial statements have been reclassified for comparative purposes to conform to the presentation in the current year financial statements. These reclassifications had no effect on previously reported net assets available for benefits or results of plan operations.
