Independent Auditor's Report

To the Board of Trustees
Global Transportation Services, Inc. 401(k) Profit Sharing Plan
Seattle, Washington

We were engaged to audit the accompanying financial statements of **Global Transportation Services, Inc. 401(k) Profit Sharing Plan** as of July 30, 2010 and December 31, 2009, and for the seven months ended July 30, 2010, as listed in the accompanying contents. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR Section 2520.103-8 of the United States Department of Labor's *Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974*, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified or provided by John Hancock Life Insurance Company, U.S.A., custodian of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan administrator that the custodian holds the Plan's assets and executes transactions. The Plan administrator has obtained certifications from the custodian as of July 30, 2010 and December 31, 2009, and for the seven months ended July 30, 2010, that the information provided to the Plan administrator by the custodian is complete and accurate to the best of their knowledge.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from information certified or provided by the custodian, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's *Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974*.

As discussed in Note 11 to the financial statements, the Board of Directors of Global Transportation Services, Inc., the Plan's sponsor voted to merge the Plan into Jacobson Companies 401(k) Profit Sharing Plan effective July 30, 2010. All Plan assets were transferred to Jacobson Companies 401(k) Profit Sharing Plan on July 30, 2010.

Global Transportation Services, Inc. 401(k) Profit Sharing Plan
July 30, 2010 and December 31, 2009

Note 1 - Plan Description

The following description of Global Transportation Services, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The provisions of the Plan were effective October 1, 2006 (inception of the Plan).

General

The Plan is a defined contribution plan covering all nonunion employees of the Company. Employees become eligible to participate in the Plan upon obtaining 18 years of age and completing six months of service. Employees may begin participation in the Plan on a quarterly basis. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA).

Contributions and Investment Options

Participants may elect to defer up to 100 percent of their compensation, as defined in the Plan and within statutory limits. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans.

The Company may also authorize discretionary matching contributions. Participants who have completed six months of service and are 18 years of age are eligible for any matching contributions. There was no employee match in 2010 or 2009.

The Plan is intended to comply with Section 404(c) of ERISA. Accordingly, the participants, rather than the Plan administrator, are responsible for making investment decisions for their accounts. Participants direct the investment of their account balances into various investment options offered by the Plan consisting of several pooled separate funds.

Participant Accounts

Individual participant accounts are maintained by Retirement Strategies, Inc. (RSI), the Plan's current third-party administrator. Each participant's account is credited with the participant's contribution and the Company's matching contributions, if any, the Plan's earnings and losses, and administrative expenses. Loan fees are deducted from the respective participants' accounts. Allocations are based on participant compensation or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

July 30, 2010 and December 31, 2009

Note 1 - Plan Description *(concluded)*

Vesting

Participants are immediately vested in their own contributions, plus actual earnings thereon. Vesting in the Company's matching contributions, plus earnings, is based on years of credited service, as defined in the Plan document. Participants are immediately 20 percent vested upon Plan entry, with an additional 20 percent vesting after each year of service and 100 percent vesting after four years. A participant is also 100 percent vested in all benefits upon normal retirement (65), death or disability.

Participant Loans

Participants may borrow up to the lesser of 50 percent of their vested account balance or \$50,000. Loan terms range from one to five years except for the purchase of a primary residence. The loans are secured by the vested balance in the participant's account and bear interest at the prime rate plus 1 percent at the time of loan issuance. There were no participant loans as of July 30, 2010.

Payments of Benefits

Benefits may be distributed upon retirement, death or disability, or termination of employment. Benefits equal to the value of the participant's vested account balance are paid in a lump sum, as described in the Plan document. Lump-sum distributions will be made for all terminated participants with account balances less than \$1,000. Under certain hardship circumstances, participants may request a lump-sum distribution of their vested account balances prior to retirement.

Forfeitures

Forfeitures from participants' nonvested account balances may be used to reduce employer matching contributions. There were no forfeitures used to reduce employer matching contributions during the seven months ended July 30, 2010, nor the year ended December 31, 2009. At July 30, 2010 and December 31, 2009, forfeited account balances totaled \$0 and \$4,554, respectively.

Note 2 - Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefit and changes therein. Actual results could differ from those estimates.

July 30, 2010 and December 31, 2009

Note 2 - Summary of Significant Accounting Policies *(concluded)*

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade-date basis. Interest income is recorded on the accrual basis, and dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the Plan year.

Payment of Benefits

Benefits are recorded when paid.

Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported on the statements of net assets available for benefits.

Recent Accounting Pronouncement

In January 2010, Financial Accounting Standards Board (the FASB) issued guidance to improve the disclosures related to fair value measurements. The new guidance requires expanded fair value disclosures, including the reasons for significant transfers between Level 1 and Level 2 and the amount of significant transfers into each level disclosed separately from transfers out of each level. For Level 3 fair value measurements, information in the reconciliation of recurring Level 3 measurements about purchases, sales, issuances and settlements shall be presented separately on a gross basis rather than as one net amount. In addition, clarification is provided about existing disclosure requirements, such as presenting fair value measurement disclosures for each class of assets and liabilities that are determined based on their nature and risk characteristics and their placement in the fair value hierarchy, as opposed to each major category of assets and liabilities, as required in the previous guidance. Disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements will be required for fair value measurements that fall in either Level 2 or Level 3. The new guidance is effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures related to the gross presentation of purchases, sales, issuances and settlements for Level 3 fair value measurements, which are effective for reporting periods beginning after December 15, 2010.

Note 3 - Fair Value Measurements

Financial Accounting Standards Board Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted, quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted, quoted prices for identical assets or liabilities in active markets that the Plan has the ability to assess.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at July 30, 2010 and December 31, 2009.

Pooled separate accounts: Valued based on quoted market prices of the securities fund, which represents the net asset value of the underlying securities held by the fund at year-end.

Cash: Valued at cost which approximates fair value.

Participant loans: Valued at amortized cost, which approximates fair value

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 3 - Fair Value Measurements *(continued)*

The following sets forth additional disclosures of the Plan's investments, whose fair value is estimated using net asset value per share (or its equivalent):

Investment	Fair Value July 30, 2010	Fair Value December 31, 2009	Unfunded Commitment	Redemption Frequency	Redemption Notice Period

Aggressive Growth (h)	--	105,393	--	Daily	None
Total pooled separate accounts	\$- -	\$3,526,305	\$- -		

- (a) Lifecycle Funds - Under normal market conditions, the fund primarily invests its assets in underlying funds using an allocation strategy designed for investors who are expecting to retire at a specific date. Depending on the retirement date the underlying funds are invested according to an asset allocation strategy that becomes increasingly conservative near the retirement objective date.
- (b) Lifestyle Portfolios - The portfolio seeks long-term growth of capital. Current income is not a consideration. To pursue this goal, the portfolio, which is a fund of funds, normally invests between 40 percent and 100 percent of its assets in underlying funds that invest primarily in equity securities. The portfolio offers instant and broad diversification with exposure to a wide range of asset classes and investment styles.
- (c) Focused Diversification - Investments seek long-term growth of capital by investing approximately 60 percent of assets in equity securities and approximately 40 percent of assets in fixed income securities.
- (d) Conservative - Investments in high-quality, short-term U.S. dollar-denominated money market instruments. Examples include obligations issued or guaranteed as to principal and interest by the U.S. government, certificates of deposit, and bank notes.
- (e) Income - To seek to provide current income while maintaining limited price volatility. The fund invests its assets in short-term bonds issued by the U.S. government and its agencies and instrumentalities, and diversified portfolio of fixed income instruments of varying maturities, which may be represented by forwards or derivatives such as options, futures contracts, or swap agreements.

Note 3 - Fair Value Measurements *(concluded)*

- (f) Growth and Income - To seek capital appreciation through a diversified, value-oriented approach. The trust invests in equal allocations to three underlying funds: Franklin Income Fund, Mutual Shares Fund, and Templeton Growth Fund, that invest in stocks and bonds in the U.S. and abroad and utilizes a diversified value-oriented approach specifically targeting securities trading at a discount to their true worth.
- (g) Growth - To seek long-term capital appreciation. The portfolio invests, under normal market conditions, primarily in a diversified mix of common stocks of mid-size U.S. companies that are believed to be undervalued by various measures and offer good prospects for capital appreciation as well as investing in established, growing companies all over the world, including the United States.
- (h) Aggressive Growth - The portfolio seeks to achieve long-term growth of capital by investing primarily in stocks of smaller companies located around the world, including the United States or by purchasing the stocks of emerging market equity securities that the advisor determines to be value stocks at the time of purchase.

Note 4 - Investments

The following represents the fair value of investments that represent 5 percent or more of the Plan's net assets available for benefits at July 30, 2010 and December 31, 2009:

Note 5 - Information Certified by Custodian

The following is a summary of the investment information as of July 30, 2010 and December 31, 2009, and for the seven months ended July 30, 2010, included throughout the Plan's financial statements, which was prepared or derived from information provided by the custodian and furnished to the Plan administrator.

The Plan administrator has elected the method of compliance permitted by 29 CFR Section 2520.103-8 of the Department of Labor's *Rules and Regulations for Reporting and Disclosure under ERISA*. Accordingly, the Plan's custodian, John Hancock Life Insurance Company, U.S.A., has certified to the completeness and accuracy of all investment information related to the investments and participant loans reflected on the accompanying statements of net assets available for benefits at July 30, 2010 and December 31, 2009, the statement of changes in net assets available for benefits for the seven months ended July 30, 2010.

Note 6 - Related-Party Transactions

At July 30, 2010 and December 31, 2009, certain Plan investments included units of pooled separate accounts and a money market fund totaling \$0 and \$3,168,657, respectively, which were managed by John Hancock Life Insurance Company, U.S.A. (John Hancock), the Plan's asset custodian; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services totaled \$2,728 and \$19,632 for the seven months ended July 30, 2010 and for the year ended December 31, 2009, respectively, which have been incorporated in the earnings on investments.

Note 7 - Investment with Insurance Company

On September 25, 2008, the Plan entered into Investment Contract No. 87144 with John Hancock. John Hancock maintains Plan contributions in pooled separate accounts (underlying assets are mutual funds), as defined by the contract.

Note 8 - Tax Status

The Plan operated under provisions of the Retirement Strategies, Inc. Prototype Plan, which received an opinion letter from the Internal Revenue Service dated March 31, 2008. This letter stated that the prototype plan, as then designed, was in compliance with the applicable sections of the Internal Revenue Code (IRC) for use by employers for the benefit of their employees. The prototype plan opinion letter has been relied upon by the Plan. Although the Plan has been amended since that date, the Plan administrator believes the Plan is designed and currently operated in compliance with the applicable requirements of the IRC and, therefore, believes the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Notes to Financial Statements

Global Transportation Services, Inc. 401(k) Profit Sharing Plan
July 30, 2010 and December 31, 2009

Note 9 - Administration of Plan Assets

Recordkeeping, loan administration, and certain investment advisory fees are paid to Retirement Strategies, Inc. by the Plan. Collective trust expenses and expenses under the group annuity contract, including 12(b)1 revenue sharing fees, are deducted from each fund's earnings to arrive at investment income as reported on the accompanying statement of changes in net assets available for benefits. Certain administrative functions are performed by officers and employees of the Company. No such officers or employees receive compensation from the Plan.

Note 10 - Partial Plan Terminations

In 2009, as the result of the downturn in the economy, the Company had involuntary terminations, which resulted in a partial liquidation of the Plan. This affected several participants during 2009. These participants took distributions totaling \$95,500 during 2009. Due to the partial liquidation, all affected non-fully vested participants have become 100 percent vested in their accounts. Amounts originally forfeited by affected participants who took distributions amounted to approximately \$3,467 and were distributed in 2010 to the affected participants. There were no involuntary terminations or partial plan terminations during 2010.

Note 11 - Plan Merger

During the Plan year, the Plan sponsor, Global Transportation Services, Inc., was acquired by JHCI Acquisition, Inc. and its plan was merged with the Jacobson Companies 401(k) Profit Sharing Plan at July 30, 2010. The merger does not impact participant benefits or vesting as the benefit provisions were incorporated in the Jacobson Companies 401(k) Profit Sharing Plan.

Note 12 - Subsequent Events

In preparing the financial statements, management has evaluated events and transactions for potential recognition and disclosure through May 9, 2011, the date available to be issued. There were no events or transactions requiring recognition or disclosure.
