MEALEY GROUP 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2009 and 2008

NOTE 1 DESCRIPTION OF PLAN

The following description of the Mealey Group 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering all employees of Donald & Janet Mealey Family Limited Partnership and participating employers (collectively referred to as the Company) who have one year of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). As of November 12, 2009, employees of certain participating employers were no longer covered by the Plan and the related participant accounts were transferred to the NRAM Holdings, LLC NADART Salary Def 401K Plan. This amount is shown as a transfer out of the plan in the accompanying statement of changes in net assets available for benefits.

Contributions – Each year, participants may contribute up to the maximum allowed by law of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their elective deferrals and employer contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and common/collective trusts as investment options for participants. For 2009, the Company made a Safe Harbor matching contribution of 100% of the first 3% of compensation and 50% of the next 2% of compensation that a participant contributed to the Plan. Additional profit sharing contributions may be contributed at the option of the Company. For 2009, no profit sharing contributions were made. Contributions are subject to certain limitations.

Participant Accounts – Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution, and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their contributions and the Company's Safe Harbor matching contribution plus actual earnings thereon. Vesting in the remainder of their account is based on years of continuous service. A participant begins to vest after year one (20%) and increases ratably until fully vested in year five.

MEALEY GROUP 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2009 and 2008

NOTE 1 DESCRIPTION OF PLAN – Continued

Participant Loans – Participants may borrow from their fund accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. At December 31, 2009, interest rates range from 4.25% to 9.25%. Principal and interest is paid ratably through bi-weekly payroll deductions.

Payment of Benefits – On termination of service, a participant may elect to receive a lump-sum payment, installments, or partial withdrawals of at least \$500.

Forfeited Accounts – Forfeited nonvested accounts will be used to pay Plan expenses and reduce future employer contributions.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The Plan's financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through collective trusts. The Statements of Net Assets Available for Benefits present the fair value of the investment in the collective trusts as well as the adjustment of the investment in the collective trusts from fair value to contract value relating to the investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates – The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

NOTES TO FINANCIAL STATEMENTS

December 31, 2009 and 2008

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits – Benefits are recorded when paid.

Operating Expenses – The majority of expenses related to maintaining the Plan are paid by the Company.

Subsequent Events – The Plan has evaluated subsequent events through May 11, 2011, the date which the financial statements were available to be issued.

NOTE 3 INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE (UNAUDITED)

Wachovia Bank, N.A. (Wachovia), the trustee of the Plan, holds the Plan's investment assets and executes transactions therein. NOTE 5 FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include quoted prices for similar assets or liabilities in an active market; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008. The inputs or methodology used for valuing investments are not an indication of the risk associated with investing in those securities.

Common/collective trusts: Valued based on information reported by the investment advisor using the audited financial statements of the collective trust at year end.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

NOTE 5 FAIR VALUE MEASUREMENTS – Continued

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

NOTES TO FINANCIAL STATEMENTS

December 31, 2009 and 2008

NOTE 6 RELATED PARTY TRANSACTIONS – Continued

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

During the year ended December 31, 2009, the Company failed to remit employee contributions of \$250 in a timely manner.

NOTE 7 PLAN TERMINATION

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

NOTE 8 TAX STATUS

The Plan and Trust have been adopted using the *Wystar Global Retirement Solutions Defined Contribution Prototype Plan and Trust*. The prototype plan sponsor, Wachovia, obtained a favorable determination letter dated September 28, 2004; however, such letter is only applicable to Wachovia. The Plan administrator has adopted all Plan provisions within the prototype document and believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

NOTE 9 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
