Western Engineering Contractors, Inc.
Profit Sharing Plan
Notes to the Financial Statements
December 31, 2010 and 2009

Note 1: Description of Plan:

The following description of Western Engineering Contractors, Inc. (the Company) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering substantially all full-time employees of the Company who have obtained the age of 21, are not covered by a collective-bargaining agreement and have completed six months of service. The Plan also covers all Davis-Bacon or prevailing wage contract employees of the Company who are not nonresident aliens or participants in apprenticeship training programs. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions:

Each year, participants may contribute up to the maximum allowed under the Internal Revenue Code, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company may make discretionary matching and profit sharing contributions. For the year ended December 31, 2010, the Company elected to match 25% of the participant's contributions up to the first 5% of compensation. The Company also contributes the amount allowable as retirement contributions included under the General Prevailing Wage Determinations in effect and used to determine compensation for Davis-Bacon or state prevailing wage contracts to a maximum of 25% of the participant's compensation.

Participant Accounts:

The Plan administrator maintains a separate account for each participant and each type of contribution. Each participant may select from a series of investment options designated by the Company and Plan administrator. Earnings on each investment selection are credited to the participant's account.

Vesting:

Participants are immediately vested in their contributions plus actual earnings thereon. Effective January 1, 2010, participants are immediately vested in all employer matching and profit sharing contributions. A participant is also fully vested upon reaching normal retirement age, upon death, or upon becoming totally and permanently disabled. Prevailing wage contributions are fully vested and may be used to offset any additional profit sharing and/or matching contributions made by the Company.

Note 1: Description of Plan, continued:

Investment Options:

Upon enrollment in the Plan, a participant directs the contributions to their account balances between a choice of seven investment options in multiples of 1%.

- FMT/PIMCO Total Return Fund
- FMT/Vanguard 500 Index Fund
- FMT/American Funds Growth Fund of America
- FMT/Dodge & Cox Stock Fund
- FMT/Neuberger Berman Genesis Fund
- ABN-AMRO Income Plus
- FMT/American Funds Europacific Fund

Participants may change their investment options electronically at any time.

Payment of Benefits:

On termination of service, death, disability, or retirement, a participant will receive either a lump-sum amount or a series of installments over a period of time equal to the value of the participant's vested interest in his or her account. Hardship distributions will be distributed as a lump-sum.

Forfeited Accounts:

As of December 31, 2010, forfeited nonvested accounts amounted to $331 and may be used to reduce employer matching and profit sharing contributions. Forfeitures in the amount of $3,943 were used to offset the Company's matching contributions for the year ended December 31, 2010. Forfeitures of profit sharing contributions totaling $7,034 were reallocated to remaining participant accounts.

Costs:

Legal expenses of the Plan amounted to $2,323 for the year ended December 31, 2010 and were paid by the Company. Administrative expenses include $9,900 of audit fees, and $11,811 of administrative expenses, and were paid by the Plan.

Note 1: Description of Plan, continued:

Date of Management's Evaluation:

Management has evaluated subsequent events through April 25, 2011, the date on which the financial statements were available to be issued. No subsequent events requiring disclosure existed as of this date.

Note 2: Summary of Significant Accounting Policies:

Basis of Accounting:

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition:

The Plan's investments are stated at fair value. Shares of registered investment companies are valued at quoted market prices.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits:

Benefits are recorded when paid.

Note 3: Information Prepared and Certified by Custodian:

The following is a summary of the investment information regarding the Plan as of December 31, 2010 and 2009, and for the year ended December 31, 2010, included in the Plan's financial statements and supplemental schedule, that was prepared by, or derived from, information prepared by First Mercantile Company, the custodian of the Plan, and furnished to the Plan administrator. The Plan administrator has obtained certifications from the custodian that such information is complete and accurate.

* Denotes investments which represent five percent or more of the net assets available for benefits in either year.

Note 4: Fair Value Measurement of Investments:

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 4: Fair Value Measurement of Investments, continued:

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

The preceding method may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2010:

	Investments at Fair Value as of December 31, 2010			
	Level 1	Level 2	Level 3	Total
Mutual funds:

Total investments at fair value	$ 8,649,470	$ -	$ -	$ 8,649,470

Note 4: Fair Value Measurement of Investments, continued:

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2009:

	Investments at Fair Value as of December 31, 2009			
	Level 1	Level 2	Level 3	Total
Mutual funds:

Total investments at fair value	$ 8,302,041	$ -	$ -	$ 8,302,041

Note 5: Net Assets Available for Benefits:

Net assets available for benefits at December 31, 2010 and 2009 include $1,093,409 and $1,357,476, respectively, allocated to the accounts of persons who, as of that date, had withdrawn from participating in the earnings and operations of the Plan. The amount is payable to the former participants as provided under the terms of the Plan. This amount has not been recorded as a liability as of December 31, 2010 and 2009.

Note 6: Tax Status:

The Plan obtained its latest determination letter on August 23, 2010, in which the Internal Revenue Service stated that the Plan, as then designed, is in compliance with the applicable requirements of the Internal Revenue Code.

The Plan administrator and the Plan's tax counsel believe that the Plan, including all amendments, is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements for the year ended December 31, 2010.

Note 7: Transactions with Parties-in-Interest:

The Company provides to the Plan certain accounting and administrative services for which no fees are charged.

Note 8: Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan.

Note 9: Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10: Reconciliation of Financial Statements to Form 5500:
