1. Plan Description

The following is a brief description of the Empire Office Inc. 401(k) Plan II (the "Plan") and provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan was established to provide benefits to certain employees of Empire Office, Inc. (the "Company" or the "Employer").

General

The Plan is a qualified defined contribution plan covering all full-time employees who have completed more than six months of service with the Company and have attained the age of twenty one, except for those employees employed pursuant to a Collective Bargaining Agreement with the United Brotherhood of Carpenters and Joiners of America. Such employees are covered under a different plan sponsored by the Company. The Plan is designed to comply with the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Plan Administration

The Plan is administered by the Administrative Committee consisting of one or more members of Company management. Wilmington Trust Fiduciary Services Company is the trustee (the "Trustee").

Contributions

Participants may elect to contribute up to 6.5% of their annual compensation, as defined, in the Plan. Total participant contributions in any calendar year are limited to the applicable limits under the Internal Revenue Code (the "Code"). Such limits were $16,500 for calendar year 2009, and $15,500 for calendar year 2008. Participants may also contribute amounts due to rollovers and plan-to-plan transfers. Participants direct the investment of the contributions into various investment options offered by the Plan. The Plan also allows participants age 50 or older to make additional "catch up" salary deferrals each year, also subject to limitations of the Code. Such catch up limits were $5,500 for 2009 and $5,000 for 2008. The Employer may allow participants to make catch-up contributions whereas upon proper notice and approval, a special salary reduction agreement to make additional deferral contributions in an amount up to 100% of their compensation for the payroll period designated by the Employer is offered to participants.

The Company will make a minimum contribution of $110,000 annually, subject to Code limitations, for this year and each year through 2015. Such contribution is allocated to participant accounts in accordance with the provisions of the Plan as a pro-rata share of each participant's contribution as a percentage of total contributions.

Vesting

Vested benefits are those amounts to which participants are entitled regardless of future services to the Company. Participants become fully vested immediately upon entry into the Plan in any Company contribution and in their voluntary contributions plus actual earnings thereon.

Participant Loans

Participants may borrow up to the lesser of 50% of their vested balance or $50,000. Such loans shall be interest-bearing at a reasonable rate of interest (as defined in the Plan) and evidenced by a note payable with a maturity within five years. However, loans used to purchase a primary residence may be paid over a reasonable period of time extending over five years. Loans outstanding as of December 31, 2009 bore interest at fixed rates between 4.25% and 9.25%. Principal and interest is paid ratably through payroll deductions.

Participant Accounts
Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's elective 401(k) deferrals and earnings in their investments, and charged with withdrawals and losses in their investments. Allocations of earnings and losses are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Benefit Payments
Upon termination of service due to death, disability, retirement, or other reasons, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

Administrative Expenses
Substantially all Plan administrative expenses are paid by the Company, with the exception of loan and Trustee fees. However, if the Company elects to do so, the loan fees may be paid by the Company.

Plan Termination
Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination of the Plan, the interest of each participant in the Plan will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Code.

2. Summary of Significant Accounting Policies

Basis of Accounting
The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the collective trust funding holding investment contracts as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. These significant estimates include the fair value of investments. Actual results could differ from those estimates.

Risks and Uncertainties
The Plan provides for various investment options in any one or a combination of mutual funds or common collective funds. These investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

Payment of Benefits
Benefits are recorded when paid.

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements. The Plan presents, in the Statement of Changes in Net Assets Available for Benefits, the net appreciation (depreciation) in the fair value of its investments which consists of realized and unrealized gains or losses on those investments. Participant loans are valued at cost which approximates fair value.

Purchases and sales of securities are recorded as of the trade date. Interest income is accrued as earned, and dividend income is recorded as of the ex-dividend date.

3. Plan Investments

In total, the Plan offers sixteen different, participant-directed common collective funds and two mutual funds as investment options to its participants.

4. Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated March 14, 2002, that the Plan is designed in accordance with applicable sections of the Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the financial statements.

5. **Information Certified by the Trustee**

In accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

a. Investments and participant loans as shown in the statements of net assets available for benefits as of December 31, 2009 and 2008.

b. Investment income as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2009.

c. Schedule H, line 4i- Schedule of Assets (Held at End of Year) as of December 31, 2009.

6. **Party-in-Interest Transactions**

Certain Plan investments are shares of funds of the Trustee. Services rendered by the Trustee as well as the investment transactions qualify as party-in-interest transactions. Fees for services rendered by the Trustee to the Plan are paid by the Plan. In addition, certain participants borrowed from the plan. Such participants are parties-in-interest to the plan.

7. **Fair Value Measurements**

Accounting Standards Codification 820, Fair Value Measurements and Disclosures ("ASC 820") defines fair value establishes a framework for measuring fair value, gives guidance regarding the methods used for measuring fair value, and expands disclosures about fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;

- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means

  If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is the description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual funds and common collective trusts: Valued at the net asset value (NAV) of shares held by the plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:
