Report of Independent Auditors

To the Participants and Administrator of the
Capgemini 401(k) Profit Sharing Plan

We have audited the accompanying statement of net assets available for benefits of Capgemini 401(k) Profit Sharing Plan (the "Plan") as of December 31, 2006, and the related statement of changes in net assets available for benefits for the year then ended. We have also audited the adjustment from fair value to contract for fully benefit responsive contracts as of December 31, 2006 and 2005. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit. The statement of net assets available for benefits of the Plan as of December 31, 2005 (with the exception of the adjustment from fair value to contract for fully benefit responsive contracts) was audited by other auditors whose report dated October 6, 2006, expressed an unqualified opinion on that financial statement.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2006, and the changes in net assets available for benefits for the year ended December 31, 2006 in conformity with accounting principles generally accepted in the United States of America.

Our audit was performed for the purpose of forming an opinion on the basic 2006 financial statements taken as a whole. The supplemental schedule of Assets (Held at End of Year) as of December 31, 2006 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic 2006 financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic 2006 financial statements taken as a whole.

Capgemini
401(k) Profit Sharing Plan
Notes to Financial Statements
December 31, 2006

1. Description of Plan

The following description of the Capgemini (the "Company") 401(k) Profit Sharing Plan (the "Plan") provides general information only. Participants should refer to the Summary Plan Agreement for more complete information regarding the Plan's provisions.

General

The Plan was established on May 23, 2000 (the date of inception) to provide retirement benefits to all employees of the Company. The Plan is a defined contribution 401(k) profit sharing plan subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and is sponsored by the Company.

Eligibility

The employees of the Company are eligible for membership on the completion of two months of service with the Company, and after attaining the age of 21.

Participant Accounts and Contributions

Participants may elect to contribute 1% to 18% of their annual compensation to the Plan, not to exceed \$15,000 and \$14,000 in 2006 and 2005. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company matches 25% to 50% of the first 6% of participants' actual contribution based on years of service.

Each participant's account is credited with the participant's and employer's contributions and an allocation of Plan earnings. Allocations of Plan earnings are based upon the participant's proportionate share of assets in the Plan. The Plan's Administrator had appointed Fidelity Management Trust Company as Trustee (the "Predecessor Trustee") to maintain the Plan assets. Effective June 27, 2005, the Plan's Administrator appointed State Street Corporation Trustee as the Plan Trustee.

Vesting

Participants are immediately vested in their voluntary contribution account plus actual earnings thereon and such balances are not subject to forfeiture for any reason.

Vesting in the Company's matching contribution portion of participant accounts plus actual earnings thereon is based upon the earlier of their completion of three years of service or their death.

Rollover Contributions

Contributions from a qualified retirement plan established by a new participant's previous employer may be "rolled over" into the Plan. The total rollover contributions for the year ended December 31, 2006 were \$1,562,018.

Notes to Financial Statements
December 31, 2006

Profit Sharing Contribution

In addition to the 401(k) match, the Sponsor may contribute a discretionary amount to be determined at year end and such amount is usually paid into the Plan in the subsequent Plan year.

Eligibility

An employee shall be eligible to participate in the Profit Sharing component of the Plan on earlier of:

- January 1 or July 1 on which he has attained the age of 21 years and has completed one year of service or
- the first day of the month on which he is an employee of the Company and has attained the age of 35 years.

However, in order to receive the profit sharing contribution for any given plan year, the employee must remain an active employee status on December 31 of such year.

Contributions

Profit sharing contributions are allocated based on a combination of the employee's profit sharing compensation, his or her position in the Company and his or her age, limited to certain parameters detailed in the plan document. In addition, all distributions are allocated based on participant investment elections.

Vesting

A member shall have vested interest in his profit sharing contribution upon the earlier of his completion of five years of service or his death while still an employee.

Benefits Paid Directly to Participants

Upon termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum distribution equal to the value of the participant's vested interest in his or her account, or annual installments over a period of time. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Administrative Expenses

Administrative fees, to the extent directly related to the Plan, are charged back to the Plan. These fees include investment management, investment consulting and trustee fees. All other expenses are paid by the Company.

Capgemini
401(k) Profit Sharing Plan
Notes to Financial Statements
December 31, 2006

Participant Loans

During employment, a participant may withdraw amounts applicable to employee contributions and income thereon, subject to certain restrictions. Furthermore, participants may borrow a minimum of \$500 up to a maximum of the lower of 50% of their vested account balance or \$50,000. Loans bear interest at a rate commensurate with local prevailing rates as determined by current market rates. The interest rate for loans entered into during the Plan year ended December 31, 2006 ranged from 4% to 11% and ranged from 4.75% to 7.75% during the Plan year ended December 31, 2005. Loan principal and interest payments are made primarily through payroll deductions or in a matter in accordance with the plan documents. Loan repayment should be made no less frequently than quarterly. Loan principal and interest payments are credited to the elective deferral account of the participant to whom the loan was granted and are invested in accordance with the participants' current investment election.

Loans outstanding as of December 31, 2006 and 2005 amounted to \$6,365,215 and \$6,953,037, respectively.

Forfeitures

The Plan holds refunded contributions in a forfeiture account. Amounts in this account are invested in any of the available investment options as elected by the Company and will be used to reduce future employer contributions or to pay plan expenses. At December 31, 2006 and 2005 the forfeited contribution account totaled \$13,138,589 and \$6,115,206, respectively, and is included in investments at fair value.

Plan Amendment or Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate it subject to the provisions of ERISA. In the event the Plan is terminated, participants shall become fully vested in their accounts. These accounts may be reduced by administrative termination expenses incurred and paid by the Company.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

Plan contributions are invested in accordance with the Trust Agreement. Investments are stated at fair value as determined by the Trustee, generally by reference to quoted market prices.

Participants direct their contributions to any of the available investment funds and are immediately vested in their contributions and earnings.

Dividend income is recorded on the ex-dividend date. Interest income is recognized when earned. Income from other investments is recorded as earned on the accrual basis. Purchases and sales of securities are recorded on the trade date of the transactions. The cost at original trade date is used in determining the gain or loss on Plan investments sold.

Payment of Benefits

Benefits are recorded when paid.

Capgemini
401(k) Profit Sharing Plan
Notes to Financial Statements
December 31, 2006

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and changes therein, and disclosures of contingent assets and liabilities in the financial statements and accompanying notes. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investment options in a variety of mutual funds and common/collective trust funds. These investments are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

Fully Benefit-Responsive Contracts

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans (the FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the FSP, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. This adjustment has been retrospectively applied to the amounts reported in the Statement of Net Assets Available for Benefits as of December 31, 2005. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Mutual Fund Fees

Investments in mutual funds are subject to sales charges in the form of front-end loads, back-end loads or 12b-1 fees. 12b-1 fees, which are ongoing fees allowable under Section 12b-1 of the Investment Company Act of 1940, are annual fees deducted to pay for marketing and distribution costs of the funds. These fees are deducted prior to the allocation of investment earnings activity and thus not separately identifiable as an expense.

3. Parties-in Interest

Certain Plan investments represent shares in a short-term investment fund managed by the Trustee. These transactions therefore qualify as party-in-interest. See supplemental schedule H for listing of parties-in interest.

Capgemini
401(k) Profit Sharing Plan
Notes to Financial Statements
December 31, 2006

The Plan presents in the Statement of Changes in Net Assets Available for Benefits, the net appreciation/depreciation in the fair value of its investments which consists of the realized gains and losses and the change in the unrealized appreciation/depreciation on those investments. Gains or losses are based on the average cost at the original trade date.

During 2006, the Plan's investments, which consist primarily of mutual funds, appreciated in value by \$50,178,018.

5. Investment Contract

The Fidelity Managed Income Portfolio's investment objective is to seek preservation of capital and a competitive level of income over time. The Portfolio is stated at an estimated fair value based on the unit values of the underlying funds. To achieve this investment objective, the Portfolio invests in fixed income securities or bond funds and may include derivative instruments such as futures contracts and swap agreements. Also, the Portfolio enters into wrap contracts.

The portfolio is included in the financial statements at fair value with an adjustment to contract value as reported to the Plan by the investment manager. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are currently no reserves against contract values for credit risk of the contract issuers or otherwise.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (i) the Plan's failure to qualify under Section 401(a) or Section 401(k) of the Internal Revenue Code; (ii) the establishment of a defined contribution plan that competes with the Plan for employee contributions; (iii) any substantive modification of the Plan or the administrator of the Plan that is not consented to by the wrap issuer; (iv) complete or partial termination of the Plan; (v) any change in law, regulation or administrative ruling applicable to the Plan that could have a material adverse effect on a portfolio's cash flow; (vi) merger or consolidation of the Plan with another plan, the transfer of Plan assets to another plan, or the sale, spin-off or merger of a subsidiary or division of the Plan sponsor; (vii) any communication given to participants by the Plan sponsor or any other Plan fiduciary that is designed to induce or influence participants not to invest in a portfolio or to transfer assets out of a portfolio; (viii) exclusion of a group of previously eligible employees from eligibility in the Plan; (ix) any early retirement program, group termination, group layoff, facility closing, or similar program; or (x) any transfer of assets from a

portfolio directly to a competing option. The Plan Administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

A wrap issuer may terminate a wrap contract for cause at any time.

The average yield the Portfolio earned was approximately 4.55% and 2.12% at December 31, 2006 and 2005, respectively. The average yield credited to participants was approximately 4.37% and 3.73% at December 31, 2006 and 2005, respectively.

6. Income Tax Status

The plan obtained its latest determination letter on May 10, 2004, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

7. Reconciliation of Financial Statements to Form 5500

Form 5500 reports the Portfolio at fair value per the Form 5500 instructions; thus the fair value per the Form is reconciled herein to the contract value shown in the Statement of Net Assets Available for Benefits.

Loans to participants per the statements of net assets available for benefits differs from loans to participants per the Form 5500 as of December 31, 2006, because certain conditions apply which cause certain loans to be reported as a deemed distribution for tax purposes. The loans are properly reported as a Plan asset for financial statement purposes as determined by the written terms of the Plan document, related Plan policies and procedures and the loan document. The distributions per the statement of changes in net assets available for benefits differs from the distributions per Form 5500 because these loans were deemed distributed for tax purposes during the current year.

Report of Independent Auditors

To the Participants and Administrator of the
Capgemini 401(k) Profit Sharing Plan

We have audited the accompanying statement of net assets available for benefits of Capgemini 401(k) Profit Sharing Plan (the "Plan") as of December 31, 2006, and the related statement of changes in net assets available for benefits for the year then ended. We have also audited the adjustment from fair value to contract for fully benefit responsive contracts as of December 31, 2006 and 2005. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit. The statement of net assets available for benefits of the Plan as of December 31, 2005 (with the exception of the adjustment from fair value to contract for fully benefit responsive contracts) was audited by other auditors whose report dated October 6, 2006, expressed an unqualified opinion on that financial statement.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2006, and the changes in net assets available for benefits for the year ended December 31, 2006 in conformity with accounting principles generally accepted in the United States of America.

Our audit was performed for the purpose of forming an opinion on the basic 2006 financial statements taken as a whole. The supplemental schedule of Assets (Held at End of Year) as of December 31, 2006 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic 2006 financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic 2006 financial statements taken as a whole.

Capgemini
401(k) Profit Sharing Plan
Notes to Financial Statements
December 31, 2006

1. Description of Plan

The following description of the Capgemini (the "Company") 401(k) Profit Sharing Plan (the "Plan") provides general information only. Participants should refer to the Summary Plan Agreement for more complete information regarding the Plan's provisions.

General

The Plan was established on May 23, 2000 (the date of inception) to provide retirement benefits to all employees of the Company. The Plan is a defined contribution 401(k) profit sharing plan subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and is sponsored by the Company.

Eligibility

The employees of the Company are eligible for membership on the completion of two months of service with the Company, and after attaining the age of 21.

Participant Accounts and Contributions

Participants may elect to contribute 1% to 18% of their annual compensation to the Plan, not to exceed \$15,000 and \$14,000 in 2006 and 2005. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company matches 25% to 50% of the first 6% of participants' actual contribution based on years of service.

Each participant's account is credited with the participant's and employer's contributions and an allocation of Plan earnings. Allocations of Plan earnings are based upon the participant's proportionate share of assets in the Plan. The Plan's Administrator had appointed Fidelity Management Trust Company as Trustee (the "Predecessor Trustee") to maintain the Plan assets. Effective June 27, 2005, the Plan's Administrator appointed State Street Corporation Trustee as the Plan Trustee.

Vesting

Participants are immediately vested in their voluntary contribution account plus actual earnings thereon and such balances are not subject to forfeiture for any reason.

Vesting in the Company's matching contribution portion of participant accounts plus actual earnings thereon is based upon the earlier of their completion of three years of service or their death.

Rollover Contributions

Contributions from a qualified retirement plan established by a new participant's previous employer may be "rolled over" into the Plan. The total rollover contributions for the year ended December 31, 2006 were \$1,562,018.

401(k) Profit Sharing Plan
Notes to Financial Statements
December 31, 2006

Profit Sharing Contribution

In addition to the 401(k) match, the Sponsor may contribute a discretionary amount to be determined at year end and such amount is usually paid into the Plan in the subsequent Plan year.

Eligibility

An employee shall be eligible to participate in the Profit Sharing component of the Plan on earlier of:

- January 1 or July 1 on which he has attained the age of 21 years and has completed one year of service or
- the first day of the month on which he is an employee of the Company and has attained the age of 35 years.

However, in order to receive the profit sharing contribution for any given plan year, the employee must remain an active employee status on December 31 of such year.

Contributions

Profit sharing contributions are allocated based on a combination of the employee's profit sharing compensation, his or her position in the Company and his or her age, limited to certain parameters detailed in the plan document. In addition, all distributions are allocated based on participant investment elections.

Vesting

A member shall have vested interest in his profit sharing contribution upon the earlier of his completion of five years of service or his death while still an employee.

Benefits Paid Directly to Participants

Upon termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum distribution equal to the value of the participant's vested interest in his or her account, or annual installments over a period of time. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Administrative Expenses

Administrative fees, to the extent directly related to the Plan, are charged back to the Plan. These fees include investment management, investment consulting and trustee fees. All other expenses are paid by the Company.

Capgemini
401(k) Profit Sharing Plan
Notes to Financial Statements
December 31, 2006

Participant Loans

During employment, a participant may withdraw amounts applicable to employee contributions and income thereon, subject to certain restrictions. Furthermore, participants may borrow a minimum of \$500 up to a maximum of the lower of 50% of their vested account balance or \$50,000. Loans bear interest at a rate commensurate with local prevailing rates as determined by current market rates. The interest rate for loans entered into during the Plan year ended December 31, 2006 ranged from 4% to 11% and ranged from 4.75% to 7.75% during the Plan year ended December 31, 2005. Loan principal and interest payments are made primarily through payroll deductions or in a matter in accordance with the plan documents. Loan repayment should be made no less frequently than quarterly. Loan principal and interest payments are credited to the elective deferral account of the participant to whom the loan was granted and are invested in accordance with the participants' current investment election.

Loans outstanding as of December 31, 2006 and 2005 amounted to \$6,365,215 and \$6,953,037, respectively.

Forfeitures

The Plan holds refunded contributions in a forfeiture account. Amounts in this account are invested in any of the available investment options as elected by the Company and will be used to reduce future employer contributions or to pay plan expenses. At December 31, 2006 and 2005 the forfeited contribution account totaled \$13,138,589 and \$6,115,206, respectively, and is included in investments at fair value.

Plan Amendment or Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate it subject to the provisions of ERISA. In the event the Plan is terminated, participants shall become fully vested in their accounts. These accounts may be reduced by administrative termination expenses incurred and paid by the Company.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

Plan contributions are invested in accordance with the Trust Agreement. Investments are stated at fair value as determined by the Trustee, generally by reference to quoted market prices.

Participants direct their contributions to any of the available investment funds and are immediately vested in their contributions and earnings.

Dividend income is recorded on the ex-dividend date. Interest income is recognized when earned. Income from other investments is recorded as earned on the accrual basis. Purchases and sales of securities are recorded on the trade date of the transactions. The cost at original trade date is used in determining the gain or loss on Plan investments sold.

Payment of Benefits

Benefits are recorded when paid.

Capgemini
401(k) Profit Sharing Plan
Notes to Financial Statements
December 31, 2006

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and changes therein, and disclosures of contingent assets and liabilities in the financial statements and accompanying notes. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investment options in a variety of mutual funds and common/collective trust funds. These investments are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

Fully Benefit-Responsive Contracts

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans (the FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the FSP, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. This adjustment has been retrospectively applied to the amounts reported in the Statement of Net Assets Available for Benefits as of December 31, 2005. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Mutual Fund Fees

Investments in mutual funds are subject to sales charges in the form of front-end loads, back-end loads or 12b-1 fees. 12b-1 fees, which are ongoing fees allowable under Section 12b-1 of the Investment Company Act of 1940, are annual fees deducted to pay for marketing and distribution costs of the funds. These fees are deducted prior to the allocation of investment earnings activity and thus not separately identifiable as an expense.

3. Parties-in Interest

Certain Plan investments represent shares in a short-term investment fund managed by the Trustee. These transactions therefore qualify as party-in-interest. See supplemental schedule H for listing of parties-in interest.

Capgemini
401(k) Profit Sharing Plan
Notes to Financial Statements
December 31, 2006

The Plan presents in the Statement of Changes in Net Assets Available for Benefits, the net appreciation/depreciation in the fair value of its investments which consists of the realized gains and losses and the change in the unrealized appreciation/depreciation on those investments. Gains or losses are based on the average cost at the original trade date.

During 2006, the Plan's investments, which consist primarily of mutual funds, appreciated in value by \$50,178,018.

5. Investment Contract

The Fidelity Managed Income Portfolio's investment objective is to seek preservation of capital and a competitive level of income over time. The Portfolio is stated at an estimated fair value based on the unit values of the underlying funds. To achieve this investment objective, the Portfolio invests in fixed income securities or bond funds and may include derivative instruments such as futures contracts and swap agreements. Also, the Portfolio enters into wrap contracts.

The portfolio is included in the financial statements at fair value with an adjustment to contract value as reported to the Plan by the investment manager. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are currently no reserves against contract values for credit risk of the contract issuers or otherwise.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (i) the Plan's failure to qualify under Section 401(a) or Section 401(k) of the Internal Revenue Code; (ii) the establishment of a defined contribution plan that competes with the Plan for employee contributions; (iii) any substantive modification of the Plan or the administrator of the Plan that is not consented to by the wrap issuer; (iv) complete or partial termination of the Plan; (v) any change in law, regulation or administrative ruling applicable to the Plan that could have a material adverse effect on a portfolio's cash flow; (vi) merger or consolidation of the Plan with another plan, the transfer of Plan assets to another plan, or the sale, spin-off or merger of a subsidiary or division of the Plan sponsor; (vii) any communication given to participants by the Plan sponsor or any other Plan fiduciary that is designed to induce or influence participants not to invest in a portfolio or to transfer assets out of a portfolio; (viii) exclusion of a group of previously eligible employees from eligibility in the Plan; (ix) any early retirement program, group termination, group layoff, facility closing, or similar program; or (x) any transfer of assets from a

portfolio directly to a competing option. The Plan Administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

A wrap issuer may terminate a wrap contract for cause at any time.

The average yield the Portfolio earned was approximately 4.55% and 2.12% at December 31, 2006 and 2005, respectively. The average yield credited to participants was approximately 4.37% and 3.73% at December 31, 2006 and 2005, respectively.

Notes to Financial Statements
December 31, 2006

6. Income Tax Status

The plan obtained its latest determination letter on May 10, 2004, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

7. Reconciliation of Financial Statements to Form 5500

Form 5500 reports the Portfolio at fair value per the Form 5500 instructions; thus the fair value per the Form is reconciled herein to the contract value shown in the Statement of Net Assets Available for Benefits.

Loans to participants per the statements of net assets available for benefits differs from loans to participants per the Form 5500 as of December 31, 2006, because certain conditions apply which cause certain loans to be reported as a deemed distribution for tax purposes. The loans are properly reported as a Plan asset for financial statement purposes as determined by the written terms of the Plan document, related Plan policies and procedures and the loan document. The distributions per the statement of changes in net assets available for benefits differs from the distributions per Form 5500 because these loans were deemed distributed for tax purposes during the current year.
