SUMTOTAL SYSTEMS, INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the SumTotal Systems, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all full-time, regular domestic employees of SumTotal Systems, Inc. (the Company) who are at least 18 years old. The Company is the Plan's sponsor and serves as plan administrator. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Participants may elect to defer up to 60% of their annual compensation, subject to annual limits imposed under the Internal Revenue Code (IRC). Participants may also contribute amounts representing rollovers from other qualified defined benefit or contribution plans. The Company may make discretionary matching and profit sharing contributions to the Plan.

Participant loans - Participants may borrow from their accounts a minimum of \$1,000 and up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Participant loans are repaid through payroll deductions, and outstanding loans are secured by the balance in the participant's account. As of December 31, 2009, interest rates on outstanding loans ranged from 5.6% to 7.75% with various maturities through May 2022.

Participant accounts - Each participant's account is credited with the participant's contributions and allocations of employer contributions and investment earnings or losses. Allocations are based on the participant's contributions during the year or interest in a particular fund at the valuation date.

Payment of benefits - On termination of service due to death, disability, or retirement, a participant (or beneficiary) may elect to receive either a lump-sum amount equal to the vested portion of the participant's account balance or annual installments. For termination of service due to other reasons, a participant may receive the value of the interest in his or her account as a lump-sum distribution.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Participants are 30% vested in the Company's contributions after one year of service, 60% after two years and 100% vested after three years of continuous service.

Plan termination - Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, a participants' accounts will become fully vested.

Administrative expenses - In addition to expenses paid by the Plan, certain administrative expenses related to the Plan are paid by the Company.

Forfeitures - Forfeitures are the nonvested portion of a participant's account that is lost upon termination of employment. Forfeitures are retained in the Plan and are used to reduce future employer contributions. As of December 31, 2009 and 2008, forfeited nonvested accounts totaled \$82,199 and \$38,125. Forfeitures totaling \$84,762 were used to reduce employer contributions for 2009.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting - The accompanying financial statements have been prepared using the accrual basis of accounting.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

SUMTOTAL SYSTEMS, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS

Income recognition - Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation in fair value of investments consists of both the realized gains or losses and unrealized appreciation or depreciation of those investments.

Investment valuation - Investments are stated at fair value as certified by the Plan's trustee, Fidelity Management Trust Company. If available, quoted market prices are used to value investments.

Investment contracts - Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Authoritative guidance requires the statements of net assets available for benefits present the fair value of the investments, as well as the adjustment from fair value to contract value for fully benefit-responsive investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Payment of benefits - Benefits are recorded when paid.

Expenses - Administrative expenses are paid from the Plan's forfeiture account. Certain transaction fees are paid by the Plan. The Company will pay for these expenses, if the forfeiture balance is insufficient.

Subsequent events - The Plan has evaluated subsequent events through February 3, 2011, which is the date the financial statements were available to be issued.

NOTE 3 - INVESTMENTS

* Presented at contract value

During 2009, the Plan's investments in registered investment companies, including gains and losses on investments purchased, sold, as well as held during the year, appreciated \$5,416,250 in fair value.

The Plan invests in the Fidelity Managed Income Portfolio (Portfolio). The Portfolio is a common collective trust designed to provide preservation of capital and a competitive level of income over time. The Portfolio seeks to earn a high level of income consistent with those objectives. The Portfolio purchases a selection of investment contracts from a diversified list of issuers. Investment contracts typically have a fixed maturity. Fair value of the Portfolio is the net asset value (NAV) of its underlying investments and contract value is principal plus accrued interest. The Portfolio is fully benefit-responsive and, in accordance with applicable guidance, is presented at fair value on the statements of net assets available for benefits. The adjustment from fair value to contract value is based on the contract value as reported by Fidelity Management Trust Company. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

NOTE 4 - FAIR VALUE MEASUREMENTS (UNAUDITED)

In accordance with the authoritative guidance, the Plan classifies its investments based upon an established fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1:* Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
- Level 2:* Quoted prices in markets that are not considered to be active or financial instruments without quoted market prices, but for which all significant inputs are observable, either directly or indirectly.
- Level 3:* Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Shares of registered investment company funds are valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and is classified within level 1 of the valuation hierarchy.

Units held in common/collective trusts are valued using the NAV of the fund. The NAV is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The NAV of a collective investment fund is calculated based on a compilation of primarily observable market information. The number of units of the fund that are outstanding on the calculation date is derived from observable purchase and redemption activity in the fund. Accordingly, the unit value for a collective investment fund is classified within level 2 of the valuation hierarchy.

Participant loans are not actively traded and significant other observable inputs are not available. Participant loans are stated at amortized cost, which approximates fair value, and are classified within level 3 of the valuation hierarchy. Loans are secured by each respective participant's account balance.

The following sets forth, by level within the fair value hierarchy, the Plan's assets at fair value at December 31:

NOTE 8 - TAX STATUS

The Plan currently operates under a non-standardized prototype plan, which has received an opinion letter dated October 9, 2003, stating that the prototype plan was designed in accordance with applicable sections of the Internal Revenue Code (IRC). Both the prototype plan and the Plan have been amended since receiving this opinion letter. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

NOTE 9 - PARTIAL PLAN TERMINATION

During 2009, the Company terminated a significant number of employees due to downsizing or office closures. Subsequent to December 31, 2009, the plan sponsor determined the reduction in workforce represented a partial termination of the Plan, and as a result the account balances of the affected employees are to be fully vested.
