INDEPENDENT AUDITORS' REPORT

May 27, 2011

To the Participants and Administrator of the
Desco Industries, Inc. Employee Stock Ownership Plan:

We have audited the accompanying statement of net assets available for benefits of the Desco Industries, Inc. Employee Stock Ownership Plan as of October 31, 2010 and 2009 and the related statement of changes in net assets available for benefits for the year ended October 31, 2010. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of October 31, 2010 and 2009 and the changes in net assets available for benefits for the year ended October 31, 2010 in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of October 31, 2010 and supplemental schedule of reportable transactions for the year ended October 31, 2010, is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

DESCO INDUSTRIES, INC. EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

OCTOBER 31, 2010 AND 2009

1. DESCRIPTION OF PLAN

The following description of the Desco Industries, Inc. (the Company) Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Company established the Plan effective November 1, 1994. The Plan is designed to comply with Sections 401(a) and 4975(e)(7) and the regulations there under of the Internal Revenue Code of 1986 (as amended) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is administered by person(s) appointed by the Company's Board of Directors. Wayne D. Hunter and John J. Brake, Jr. are the Plan's co-trustees pursuant to a successor trust agreement.

Eligibility

All employees of the Company, other than those covered by a collective bargaining agreement, are generally eligible to participate in the Plan upon the age of 20 ½ and completing 6 months of service.

Contributions

Each year, the Company determines the amount to be contributed to the Plan. Contributions are discretionary and can be made out of current or accumulated net income of the Company, subject to certain limitations of Section 404 of the Internal Revenue Service Code (IRC) of 1986, as amended. It is the intention of the Board of Directors that the Company's annual contribution be sufficient to fund the payment of distributions due to terminated Plan participants. Participant contributions are not permitted under the Plan. Contributions for the year ended October 31, 2010 were $1,196,046.

Participant Accounts

Each participant's account is credited with an allocation of (a) the Company's contributions, (b) Plan earnings (including stock appreciation), and (c) forfeitures of terminated participants' nonvested accounts. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. DESCRIPTION OF PLAN – (continued)

Payment of Benefits

On termination of service due to death, disability, retirement, or other reasons, a participant shall receive the value of the vested interest in his or her account as a single lump-sum distribution or in substantially equal annual installments over a period generally not to exceed five years. The distribution will commence no later than the allocation date (October 31) of the Plan year following the Plan year in which the participant's death, disability or retirement occurs. If the participant terminates employment with the Company for any other reason, the distribution will commence no later than the allocation date of the sixth Plan year following the Plan year in which the termination of employment occurs. Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a cash distribution.

Vesting

Vesting in the Company's contributions is based on years of service according to the following schedule:

Years of Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Participants also become 100% vested if they attain the age of 65 while in the employ of the Company, are disabled or die.

Forfeitures

The unvested portion of a terminated participant's account will be forfeited and reallocated among participants eligible to share in the reallocation during the plan year. The reallocation of

Forfeitures – (continued)

forfeitures occurs upon the earlier of the distribution of a participant's vested benefits or a two year break in service. Total forfeitures of $3,698 were reallocated during the year ended October 31, 2010. Vested but undistributed account balances of terminated participants totaled $136,595 and $161,232 as of October 31, 2010 and 2009, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The common shares of the Company are valued at fair market value as determined by an independent appraisal.

Payment of Benefits

Benefits are generally recorded when paid. At October 31, 2010, the Plan had accrued for the withholding of income taxes on certain distributions that occurred near year end.

Plan Fees and Administrative Expenses

Plan fees and administrative expenses are paid by the Company.

Subsequent Events

The plan has evaluated subsequent events through the date of the independent auditors' report, the date the financial statements were available to be issued.

3. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate or amend the Plan at any time, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

4. INVESTMENT IN COMMON STOCK

The Plan's investment in Company common stock at October 31 is as follows:

	2010	2009
Number of shares	25,200	25,200
Cost	$ 4,725,000	$ 4,725,000
Fair market value	$ 6,075,720	$ 4,007,052

During the year ended October 31, 2010, the Plan's investment in common stock appreciated in value by $2,068,668.

5. PARTY-IN-INTEREST TRANSACTIONS

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. The Plan's investment is in the common stock of the Plan Sponsor. The Company paid certain administrative expenses of the Plan, including recordkeeping and audit fees. These transactions qualify as party in interest transactions for which a statutory exemption exists.

6. TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated October 29, 2002, that the Plan and related Trust are designed in accordance with the applicable requirements of the Internal Revenue Code (IRC). The Plan was amended and restated effective November 1, 2008 to include the provisions of the Economic Growth and Tax Relief Reconciliation Act of 2001 and Pension Protection Act of 2006. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service (IRS) or Franchise Tax Board.

6. TAX STATUS – (continued)

The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of October 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. The Plan is currently under audit by the IRS.

7. RISKS AND UNCERTAINTIES

The Plan invests in the common stock of the Plan Sponsor. Common stock is exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with investments in common stock, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. FAIR VALUE MEASUREMENTS

The Plan accounts for fair value measurements of assets and liabilities in accordance with accounting guidance issued by the FASB on fair value measurements. The provisions of this guidance defines fair value, establishes a framework for measuring fair value in accordance with accounting principles generally accepted in the United States of America, and expands disclosures about fair value measurements. The guidance is intended to enable the reader of the financial statements to assess the quality and reliability of the inputs used to develop those measurements by establishing a hierarchy, which maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the observable inputs be used when available.

Observable inputs are inputs that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Plan. Unobservable inputs are inputs that reflect the Plan's estimates about the assumptions market participants would use in pricing the asset or liability based on the best information available under the circumstances.

The hierarchy is broken down into three levels based on the reliability of inputs as follows:

- Level 1 – Defined as quoted market prices in active markets for identical assets and liabilities.
- Level 2 – Defined as observable market-based inputs or unobservable inputs which are corroborated by market data.
- Level 3 – Defined as unobservable inputs that are not corroborated by market data.

8. FAIR VALUE MEASUREMENTS – (continued)

The fair value measurement level for an asset or liability, within the fair value hierarchy, is based on the lowest level of input that is significant to the fair value measurement at October 31, 2010 and 2009. Valuation methods need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following valuation methodologies were used for the Plan's assets to measure fair value at October 31, 2010 and 2009:

Investment in common stock: The Plan's investment in common stock is valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of valuation techniques consistent with the prior year. The appraiser took into account historical and projected revenue, cash flow, net income and earnings before income taxes, depreciation and amortization (EBITDA).

Although the methods above may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values, the Plan believes its valuation methods are appropriate and consistent with other market participants and that the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following fair value hierarchy table presents information about the Plan's investments measured at fair value on a recurring basis as of October 31, 2010 and 2009:

Description	Total	Level 1	Level 2	Level 3
2010:				
Investment in common stock	$ 6,075,720	$ -	$ -	$ 6,075,720
2009:				
Investment in common stock	$ 4,007,052	$ -	$ -	$ 4,007,052

8. FAIR VALUE MEASUREMENTS – (continued)

The following table presents a summary of changes in the fair value of the Plan's level 3 assets for the year ended October 31, 2010:

Balance, October 31, 2009	$ 4,007,052
Unrealized appreciation	2,068,668
Balance, October 31, 2010	$ 6,075,720
