INDEPENDENT AUDITORS' REPORT

To the Plan Administrative Committee
Fitzpatrick Dealership Group 401(k) Plan and Trust
Modesto, California

We were engaged to audit the financial statements and supplementary schedule of the Fitzpatrick Dealership Group 401(k) Plan and Trust ("the Plan") as of December 31, 2008 and 2007, and for the years then ended, as listed in the accompanying table of contents. These financial statements and supplementary schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Sentry Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and the supplementary schedule. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the custodian as of and for the years ended December 31, 2008 and 2007, that the information provided to the Plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplementary schedule taken as a whole. The form and content of the information included in the financial statements and supplementary schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS

Note 1. Description of Plan

The following description of the Fitzpatrick Dealership Group 401(k) Plan and Trust ("the Plan") provides general information only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was established March 1, 1991. It is a defined contribution plan providing benefits to eligible employees of Valley Motors, Inc. dba Valley BMW, Valley Lexus, Inc., Oakland Motor Cars, Inc. dba Coliseum Lexus of Oakland, and BEF Management Company (collectively "the Companies"). Employees become eligible to participate in the Plan on January 1, April 1, July 1, or October 1 following the completion of three months of service, as defined by the Plan.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

In general, participants may voluntarily elect to defer up to 100% of eligible annual compensation (as defined by the Plan), subject to the maximum amount allowable under the Internal Revenue Code ("IRC"). The Companies may also make discretionary contributions subject to certain limitations. The Companies elected not to make an employer-matching contribution for 2008. In 2007, the Companies elected to match 50% of the participant's first 6% of compensation (as defined by the Plan) that a participant contributed to the Plan. Participants direct the investment of both their contributions and contributions of the Companies into various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Companies' contribution and (b) Plan earnings and losses, and charged with an allocation of administrative expenses. Allocation of the Companies' contributions is based on the participant's employment group and participant compensation or contributions, as defined. Allocation of Plan earnings and losses is based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

DRAFT

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Companies' discretionary contributions plus actual earnings thereon is based on the following schedule of years of credited service:

Completed Years of Service	Percentage Vested
Less than 2	0%
2	20
3	40
4	60
5	80
6	100

Additionally, a participant becomes 100% vested when the participant reaches normal retirement age, dies while in the service of the Companies, or becomes disabled while a participant. Normal retirement age is 62.

Participant Loans

Under the terms of the Plan, participants may borrow from their accounts a minimum of $1,000 up to $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participants' accounts and bear interest ranging from 5% to 9%. Loan terms cannot exceed five years unless the loan proceeds are used for purchasing a primary residence. Payments are required through payroll deductions each pay period. Approximately 92% of the participant notes receivable balance was due from three participants at December 31, 2008, and 100% of the participant notes receivable balance was due from one participant at December 31, 2007.

Forfeitures

The portion of a terminated participant account that is not vested ("forfeitures") may be used to reduce future employer matching contributions or supplement any employer discretionary profit sharing contributions. Forfeitures were $20,341 and $25,023 for 2008 and 2007, respectively. Forfeitures in the amount of $61,721 and $38,411 are included with net assets available for plan benefits available to reduce future employer contributions at December 31, 2008 and 2007, respectively. During the year ended December 31, 2007, $21,874 was used to offset employer match contributions. No forfeitures were used in 2008.

Plan Changes

The Companies reserve the right to amend or terminate the Plan at any time. However, no such amendment or termination shall deprive any participant of any vested interest in the Plan. In the event of Plan termination, participants will become fully vested in their accounts.

DRAFT

Risks and Uncertainties

The Plan invests in various securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Payment of Benefits

If the participant's vested benefit in the Plan exceeds $5,000, then on termination of service, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or in equal installments over a period of time no greater than the participant's assumed life expectancy (or the assumed life expectancies of the participant and their beneficiary). If the participant's vested benefit in the Plan does not exceed $5,000, then a single lump-sum distribution is required.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. The fair values of pooled separate accounts are determined based on the unit values of the funds. Unit values are determined by the custodian of the Plan by dividing the fund's net assets at fair value by its units outstanding. Purchases and sales of investments are recorded on a trade-date basis.

The Plan's investment in an insurance company general account is invested in a fully benefit-responsive investment contract. It is invested in an annuity contract with Sentry Life Insurance Company. The fair value of the fully benefit-responsive investment contract is equal to the aggregate withdrawal value of all participant accounts, plus or minus any fixed interest account fair value adjustment. The fair value adjustment, if any, is determined by the custodian using a calculated percentage based on a comparison of the guaranteed rate credited to new contributions and the dollar-weighted average rate of interest credited to amounts withdrawn from the fixed interest account, and would only be administered in the event of a Plan termination initiated by the Plan trustees or complete termination of the investment contract.

Fully benefit-responsive investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The investment contract is included in the statements of net assets available for benefits at fair value, which materially equals contract value at December 31, 2008 and 2007, so no adjustment has been made to the investment contract from fair value to contract value. The statements of changes in net assets available for benefits present investment contract activity at contract value (which, as previously noted, approximates fair value).

DRAFT

Fair-Value Measurements

Fair value is defined as an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement determined based on assumptions that market participants would use in pricing an asset or liability. There are three levels, which prioritize the inputs used in measuring fair value as follows:

- Level 1: Observable market inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: Observable market inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and
- Level 3: Unobservable inputs where there is little or no market data, which require the reporting entity to develop its own assumptions.

An asset's or liability's level within the fair-value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for investments measured at fair value, including a general description of the Plan's investments.

Pooled Separate Accounts

The pooled separate accounts consist of a wide variety of underlying investments primarily in mutual funds. They are valued using the Net Asset Value ("NAV") provided by administrators of the pooled separate accounts. The NAV is based on the fair value of the underlying assets, less any liabilities, then divided by the number of shares outstanding. The NAV of the pooled separate accounts is classified as Level 2 of the fair-value hierarchy because the NAV's unit price is quoted in a market that is not active. However, the unit price is based on underlying investments which are traded on active markets.

The investment in an insurance company general account's estimated fair value and contract value is based on the underlying investment contract as reported by the trustee and is classified within Level 3 of the valuation hierarchy.

Participant Loans

Participant Loans are valued at cost plus accrued interest, which approximates fair value and are classified within Level 3 of the valuation hierarchy.

DRAFT

The following table represents information about the Plan's assets that have been measured at fair value on a recurring basis as of December 31, 2008, and indicates the classification by level of input within the fair value hierarchy described above:

	Levels of Fair Value Measurements at December 31, 2008			Value at December 31, 2008
	Level 1 Inputs	Level 2 Inputs	Level 3 Inputs	
Pooled Separate Accounts	$ -	$ 677,187	$ -	$ 677,187
Investment Contract General Account			828,417	828,417
Participant Loans			92,172	92,172
	$ -	$ 677,187	$ 920,589	$ 1,597,776

The table below is a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2008:

	Insurance Company General Contract
Balance at December 31, 2007	$ 699,157
Earnings	30,756
Contributions	86,865
Transfers from other Plan investments	80,534
Distributions	(68,895)
Balance at December 31, 2008	$ 828,417

	Participant Loans
Balance at December 31, 2007	$ 29,000
Loans disbursed	68,322
Loan interest	2,541
Loans repaid	(7,691)
Balance at December 31, 2008	$ 92,172

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Contributions

Contributions from participants are recorded in the period in which they are withheld from the participant's compensation. Matching contributions from the Companies are recorded in the period in which the related participant contributions are recorded.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses primarily relate to Plan administration and custodianship of investments. The Companies pay for a majority of the expenses of the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from those estimates.

Subsequent Events

Subsequent events have been evaluated through _____, the date these financial statements were available to be issued.

Note 3. Investments

The following investments represent 5% or more of the Plan's net assets available for benefits at December 31, 2008 and 2007:

	2008	2007
Sentry Insurance General Fund	$ 828,417	$ 699,157
Investments in pooled separate accounts		
Lifecycle Fund Target Retirement 2045	135,081	177,387
Lifecycle Fund Target Retirement 2035	122,089	116,394
Lifecycle Fund Target Retirement 2025		130,390

DRAFT

Note 4. Information Prepared and Certified by the Plan Custodian

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator has obtained a certification from Sentry Life Insurance Company ("Sentry") that the following data included in the accompanying financial statements and supplementary schedule is complete and accurate as of and for the years ended December 31, 2008 and 2007.

	2008	2007
Investments in pooled separate accounts	$ 677,187	$ 960,442
Investment in insurance company general account	828,417	699,157
Investment income:		
Net appreciation (depreciation) in fair value of pooled separate accounts	(322,381)	12,258
Interest income	30,756	15,364

Note 5. Investment Contract

The Plan has entered into a benefit-responsive investment contract as part of its investment in Sentry for the years ended December 31, 2008 and 2007. These funds invest in a benefit-responsive investment contract that provides for a guaranteed rate of return.

Contract value represents principal amounts invested in the underlying investments, plus interest accrued at a crediting rate established under the contract, less any adjustments for withdrawals. The crediting interest rate and the average yield was approximately 3.9% for 2008 (3.8% for 2007). The crediting interest rate is based on an agreed-upon formula with the issuer and based on the characteristics of the underlying fixed income portfolio, but cannot be less than zero. Certain events, such as the premature termination of the contract by the Plan, the termination of the Plan, and a material adverse change to the provisions of the Plan, would limit the Plan's ability to transact at contract value with the trustee. The Plan administrator believes the occurrence of such events that would limit the Plan's ability to transact at contract value with the Plan participants is not probable.

Note 6. Party-in-Interest Transactions

All Plan investments are sponsored by Sentry. Sentry is the custodian of Plan assets and, therefore, transactions with Sentry qualify as party-in-interest transactions.

DRAFT

Note 7. Income Tax Status

The Plan has adopted a standardized prototype sponsored by its third-party administrator. The prototype received a favorable determination letter from the Internal Revenue Service on March 31, 2008. The Companies have not received a determination letter as to the qualified status of the Plan's adoption agreement. However, the Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Note 8. Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per for financial statements to Schedule H of Form 5500 at December 31, 2008 and 2007:

	2008	2007
Net assets available for benefits per the financial statements	$ 1,609,719	$ 1,808,759
