SOLID STATE DEVICES, INC. 401(K) PLAN
NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 – DESCRIPTION OF THE PLAN AND BENEFITS

The following description of Solid State Devices, Inc. 401(k) Plan (the "Plan"), is provided only for general information. Participants should refer to the Plan agreement or Summary Plan Description for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan under Section 401(a) of the Internal Revenue Code (the "Code"). The Plan was established on October 1, 1981, for the benefit of eligible employees of Solid State Devices, Inc. and Solid State Components Corp. (together the "Company" or the "Employer"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

Eligible employees of the Plan must be at least 21 years of age and have completed 1,000 hours of service and at least six months following the date of hire. The entry dates are the first day of the quarter following the date the employee meets the eligibility requirements.

Contributions

Each year, participants may elect to contribute any amount of their annual compensation up to an amount as provided annually by the Internal Revenue Service ($16,500 for employees under age 50 and $22,000 for participants age 50 or over in 2010). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Employer may make discretionary matching 401(k) contributions for eligible participants up to 25% of the first 6% of the participants' gross compensation. The Company may also make other discretionary contributions. For the years ended December 31, 2010 and 2009, the Company did not make other discretionary contributions.

Participant accounts

Each participant's account is credited with the participant's contributions, employer's discretionary matching and other discretionary contributions, allocation of the Plan earnings and charged with an allocation of administrative expenses. Allocations of the Company's other discretionary contributions, if any, are based on the ratio of each participant's compensation to the total compensation for all eligible participants for the Plan year. Allocations of Plan earnings are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefits that can be provided from the participant's vested account. Participants direct the investment of all contributions into various investment options offered by the Plan.

NOTE 1 – DESCRIPTION OF THE PLAN AND BENEFITS (Continued)

Participant loans

Participants may borrow from their vested funds, subject to the Code regulations, a minimum of $1,000 up to a maximum of $50,000 or 50% of their account balance, whichever is less. Loan terms range from 1-5 years or up to 15 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account.

At December 31, 2010 and 2009, the Plan had outstanding loans to participants totaling $117,021 and $141,079, respectively. The loans have interest rates ranging from 4.25% to 9.5% and maturity dates through November 2015.

Vesting

Participants are immediately vested in their contributions and rollovers from other plans plus actual earnings thereon. Vesting in the Company's discretionary matching and other discretionary 401 (k) contributions plus actual earnings thereon is 20% after two years of service, with vesting increasing 20% after three years, 26% after four years and 34% after five years, at which time participants become 100% vested.

Participants also become fully vested at their normal retirement age of 65, upon death, upon retirement due to disability, and upon termination of the Plan.

Benefit payments and withdrawals

If a participant's employment ceases as a result of normal retirement, death, or disability, the participant or the participant's beneficiaries are entitled to receive the entire value of participant's vested interest in either a lump-sum distribution, partial withdrawals or installment payments. For termination of service due to other reasons, a participant may receive only the value of the vested interest in his or her account. Accounts with values greater than $5,000 can be distributed in a lump-sum distribution or installment payments. Accounts with values less than $5,000 but greater than $1,000 are automatically rolled into an Individual Retirement Account unless otherwise specified. Accounts with a value less than $1,000 are automatically distributed to participants.

In-service distributions may be made from any of the participants' vested accounts at anytime for a hardship. Some events that qualify for a hardship withdrawal are as follows: to cover necessary medical expenses, for costs directly related to the purchase of the participants primary residence, for expenses related to post-secondary education, or for payments necessary to prevent the participants eviction from or foreclosure of the primary residence.

NOTE 1 – DESCRIPTION OF THE PLAN AND BENEFITS (Continued)

Investment management and administration

The assets of each fund within the Plan are invested under an arrangement with EMJAY Corporation, the trustee. All expenses incurred in maintaining the Plan are charged against and withdrawn from the trust fund unless the employer, at its discretion, elects to pay all or part of these expenses. These expenses include fees of the Plan's trustee, third-party administrators, investment manager, insurance company and legal services.

Investment options

The Plan provides a variety of investment options with differing risk and growth characteristics. Participants may change their investment allocation and/or transfer their account balances among the various funds at any time.

Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue all contributions at any time and to terminate the Plan, subject to the provisions of ERISA.

Forfeitures

When certain terminations of participation in the Plan occur, the nonvested portion of the participant's account, as defined by the Plan, represents forfeiture. Forfeitures, first, are used to offset the Plan's expenses; second, any remaining forfeitures are used to reduce current employer contributions. At December 31, 2010 and 2009, forfeited nonvested accounts totaled $ 4,725 and $40, respectively. Also, in 2010, employer contributions were not reduced by forfeited non-vested accounts.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The accompanying financial statements of the Plan are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

available for benefits of a defined-contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective trust. The statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit responsive investment contracts from fair value to contract value. The contract value approximates fair value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Investment valuation and income recognition

The Plan's Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements.

The Plan's common collective trust funds consist entirely of Wells Fargo Stable Value Fund M. Wells Fargo Stable Value Fund M is a common collective trust fund with an underlying investment in Wells Fargo Stable Return Fund G. Wells Fargo Stable Return Fund G is common collective trust with underlying investments in investment contracts and security-backed contracts. An investment contract is a contract issued by a financial institution to provide a stated rate of return to the buyer of the contract for a specified period of time. A security-backed contract has similar characteristics as a traditional investment contract and is comprised of two parts: the first part is a fixed-Income security or portfolio of fixed-income securities; the second part is a contract value guarantee (wrapper) provided by a third party. Wrappers provide contract value payments for certain participant-initiated withdrawals and transfers, a floor crediting rate, and return of fully accrued contract value at maturity. The common collective funds accounted for approximately 7% and 19% of the total investments as of December 31, 2010 and 2009, respectively.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on Investments bought and sold as well as held during the year.

Contributions

Contributions from the employer and participants are accrued in the period when earned.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Administration expense

Certain expenses incurred in the administration of the Plan are paid by the Company.

Payment of benefits

Benefits are recorded when paid.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Subsequent events

The Plan has evaluated subsequent events through May 27, 2011, which is the date the financial statements were available to be issued.

NOTE 3 – INVESTMENTS

The Plan's investments are held in trust by EMJAY Corporation. All investments representing five percent (5%) or more of the Plan's end of the year net assets at December 31, 2010 and 2009 are as follows:

	2010
Pimco Total Return Mortgage Fund Inst	$ 1,426,628
Loomis Sayles Investment Grade Bond Y	1,024,939
Vanguard Intermediate Treasury Fund	889,466

During 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $261,061:

Common collective trust	$ 47,142
Mutual funds	213,919
	$ 261,061

NOTE 4 – CERTIFICATION BY THE TRUSTEE

The following account balances and transactions were obtained from statements certified to be complete and accurate by EMJAY Corporation, the Plan's trustee, within the meaning of 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA:

NOTE 5 – INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter dated February 26, 2004 that the Plan and related trust are designed in accordance with applicable sections of the Code. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

NOTE 6 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 7 – FAIR VALUE MEASUREMENT

The Plan values its financial assets and liabilities based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In order to increase consistency and comparability in fair value measurements, accounting principles have established a fair value hierarchy that prioritizes observable and unobservable inputs used to measure fair value into three broad levels, which are described below:

Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in inactive markets or model-derived valuations in which all significant inputs are observable or can be derived principally from or corroborated with observable market data.

Level 3: Unobservable inputs are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

In determining fair value, the Plan utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible as well as considers counterparty credit risk in its assessment of fair value.

Financial assets carried at fair value at December 31, 2010 are classified in the table below in one of the three categories described above:

NOTE 7 – FAIR VALUE MEASUREMENT (Continued)

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 5,676,793	$ -	$ -	$ 5,676,793
Common collective trust	-	412,843	-	412,843
Participant loans	-	-	117,021	117,021
Total assets - at fair value	$ 5,676,793	$ 412,843	$ 117,021	$ 6,206,657

Financial assets carried at fair value at December 31, 2009 are classified in the table below in one of the three categories described above:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 4,661,972	$ -	$ -	$ 4,661,972
Common collective trust	-	1,110,918	-	1,110,918
Participant loans	-	-	141,079	141,079
Total assets - at fair value	$ 4,661,972	$ 1,110,918	$ 141,079	$ 5,913,969

The following is a description of the valuation methodologies used for assets at fair value. There have been no changes in methodologies used at December 31, 2010 and 2009. The fair value of mutual funds designated as Level 1 is based on quoted net asset values of the shares held by the Plan at year end. The common collective trust is designated as a Level 2 and consists of guaranteed investment contracts and security-backed contracts. The Plan's interest in the common collective trust is valued based on information reported by the investment advisor using the audited financial statements of the common collective trust at year end. The net asset value is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding.

Participant loans are designated as Level 3 instruments and are valued at amortized cost, which approximates fair value.

The following table sets forth the changes in fair value of the Plan's Level 3 assets for the year ended December 31, 2010:

NOTE 7 – FAIR VALUE MEASUREMENT (Continued)

	Participant loans
Balance, beginning of year	$ 141,079
Purchase, sales, issuances, repayments of participant loans and settlements (net)	(24,058)
Balance, end of year	$ 117,021

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
