REPORT OF INDEPENDENT AUDITORS

The Plan Administrator of the
Crane Plumbing L.L.C. 401(k) Retirement Plan
Piscataway, New Jersey

We were engaged to audit the financial statements of the Crane Plumbing L.L.C. 401(k) Retirement Plan as of August 1, 2010 and December 31, 2009 and for the period from January 1, 2010 to August 1, 2010, as listed in the accompanying contents page. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Massachusetts Mutual Life Insurance Company, ("Mass Mutual"), the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the custodian as of August 1, 2010 and December 31, 2009 and for the period from January 1, 2010 to August 1, 2010 that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

CRANE PLUMBING L.L.C. 401(k) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
August 1, 2010 and December 31, 2009

NOTE 1 - DESCRIPTION OF THE PLAN

The Crane Plumbing L.L.C. 401(k) Retirement Plan ("the Plan") is a defined contribution plan established by Crane Plumbing L.L.C. ("the Company") to provide a savings and investment plan for the benefit of substantially all employees. The following description of the Plan provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: Massachusetts Mutual Life Insurance Company ("the Custodian" or "Mass Mutual") invested plan assets in pooled separate and general fund accounts. Employees of the Company were eligible to participate in the Plan upon attaining the age of 21. The Plan was subject to certain provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan was frozen to new participants effective January 1, 2009 and contributions were no longer allowed to the Plan as of this date.

Contributions: Effective January 1, 2009, participants are no longer allowed to contribute to the Plan and no further employer contributions will be made to the Plan.

Participant Accounts: Each participant's account was credited with the participant's allocations of plan earnings. Allocations were based on account balances, as defined. The benefit to which a participant was entitled was the benefit that would have been provided from the participant's vested account.

Vesting: Effective January 1, 2009, all participants became 100% vested in their accounts.

Loans to Participants: The Plan allowed participants to borrow against their account balances. The loans were limited to the lesser of a maximum of \$50,000 or 50% of the participant's vested account balance at the time the loan was issued. The minimum loan withdrawal amount was \$1,000. The loans were secured by the balance in the participant's account and bore interest at a rate determined under the provisions of the Plan. Principal and interest payments were paid ratably through payroll deductions.

Payments of Benefits: On termination of service due to death, disability, or retirement, a participant could have elected to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, annual installments over a period of time determined by applicable life expectancies, partial withdrawals, or a 100% joint and survivor annuity. For termination of service due to other reasons, a participant could have received the value of their vested interest in his or her account as a lump-sum distribution.

The Plan also allowed participants to withdraw amounts for reason of financial hardship and after attaining the age of 59 ½ as stated within the plan document. Except for reasons of hardship and withdrawal at or after the age of 59 ½, or qualified loans as described above, participants could not elect withdrawals on their accounts until they terminated employment.

Forfeited Accounts: Forfeited accounts are used to pay plan expenses and to reduce future employer contributions. At December 31, 2009, forfeited non-vested accounts totaled \$58,214.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements have been prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Payment of Benefits: Benefits were recorded when paid.

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition: The Plan's investments were reported at fair value. Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Fully Benefit-Responsive Investment Contracts: While Plan investments were presented at fair value in the statement of net assets available for benefits, any material difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value was presented as an adjustment line in the statement of net assets available for benefits, because contract value was the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represented contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts could have ordinarily directed the withdrawal or transfer of all or a portion of their investment at contract value. The Plan held a direct interest in a fully benefit-responsive contract as of December 31, 2009.

Expenses of the Plan: All expenses of the Plan were paid from the assets of the Plan except to the extent paid by the Company.

Use of Estimates: The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect certain reported amounts of net assets available for benefits as well as the revenues and expenses recognized during the reporting period. Accordingly, actual results could differ from those estimates.

Risks and Uncertainties: The Plan provided for various investment options in pooled separate accounts and a guaranteed investment contract. The underlying investment securities were exposed to various risks, such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it was at least reasonably possible that changes in the values of investment securities would have occurred in the near term and that such changes could have materially affected participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 3 - INCOME TAX STATUS

The Internal Revenue Service informed Mass Mutual, the Plan's custodian, by a letter dated April 23, 2002, that the prototype Non-Standardized Profit Sharing Plan upon which the Company's Plan was based was designed in accordance with the applicable sections of the IRC. The Plan had been amended by the Company; however, the plan administrator believes that the Plan was currently designed and being operated in compliance with the applicable requirements of the IRC.

NOTE 4 - INVESTMENTS – FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs when measuring fair value. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Pooled separate accounts – The fair values of participation units held in pooled separate accounts, are based on their net asset values, as reported by the managers of the pooled separate accounts and as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date (level 2 inputs). With the exception of the Premier Core Value Equity Fund, each of the pooled separate accounts invests in a single, open-ended mutual fund which is generally identified in the name of the pooled separate account. The Premier Core Value Equity Fund invests in equity securities. Each pooled separate account provides for daily redemptions by the Plan with no advance notice requirements.

Guaranteed interest contract – Valued at fair value determined to be the liquidation basis of the contract. The liquidation basis is calculated by an actuary of Mass Mutual by taking into account the interest rate being earned by the contract compared to the assumed interest rates Mass Mutual can obtain for new investments based on the Barclays Capital U.S. Aggregate index, excluding Treasuries, for the latest calendar month as published (Level 3 inputs).

Participant loans – Valued at the sum of all outstanding balances without accrued interest. (Level 3 inputs)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5 - INVESTMENTS – UNAUDITED INFORMATION

Mass Mutual held investments of the Plan and executed transactions therein, and substantially all information pertaining to investments included in the financial statements were certified by them. This information has not been audited by independent accountants.

The following table presents the fair values of the Plan's investments that represent 5% or more of the Plan's net assets as of December 31, 2009:

<u>Description</u>	<u>2009</u>
MassMutual Guaranteed Interest Account (Contract value: 2009 - \$2,020,743)	\$ 2,219,926
MassMutual Premium Balanced Account	331,247
MassMutual Premier Core Value Equity Account	409,882
MassMutual Premier International Equity Account	356,375
MassMutual Select Indexed Equity Account	248,082
MassMutual Contrafund Account	411,982

During 2010, the Plan's pooled separate accounts and guaranteed interest account (including gains and losses on investments bought and sold, as well as held, during the year) appreciated in value by \$18,526 and \$196,872, respectively.

During 2010, the Plan's investments earned interest income of \$51,073.

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The Plan invested in a guaranteed investment contract and pooled separate accounts managed by Mass Mutual, the custodian of the Plan. Accordingly, these investments qualified as party-in-interest investments. The Plan also held loans which qualified as party-in-interest investments.

Certain professional fees for the administration and audit of the Plan were paid by the Company. Expenses paid from plan assets to parties-in-interest were \$23,278 in 2010.

NOTE 7 - PLAN MERGER

As of August 1, 2010, the Plan merged into the AS America, Inc. 401(k) Plan.

(Continued)

NOTE 8 - INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan held a fully benefit-responsive investment contract with Mass Mutual ("the Issuer"). Mass Mutual maintained the contributions in its general account. The account was credited with interest based on the contractual crediting interest rate and charged for participant withdrawals and administrative expenses. Participants ordinarily directed the withdrawal or transfer of all or a portion of their investments at contract value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. There were no reserves against contract value for credit risk of the Issuer or otherwise.

The Plan's investment contract specified certain conditions under which distributions from the contract would be payable at amounts below contract value. Such circumstances include Plan termination, Plan Merger, premature contract termination initiated by the Company, and certain other Company-initiated events that result in distributions exceeding a set amount. The contract limits the circumstances under which the Issuer may terminate the contract. Examples of circumstances which would allow the Issuer to terminate the contract include the Plan's loss of its qualified status, plan termination or partial plan termination, contributions to the Plan are less than \$50,000 for two consecutive years, or during a year withdrawals exceed 50% of the total balance of the Guaranteed Interest Account and the Separate Accounts. If one of these events were to occur, the Issuer could terminate the contract at an amount less than contract value. As of the transfer date, the Plan did not transact distributions at less than contract value.

The crediting interest rate of the contract was based on an agreed-upon formula with the Issuer, as defined in the contract agreement. Such interest rates were reviewed on an annual basis for resetting. The key factors that influenced future interest crediting rates may have included the following: the level of market interest rates; the amount and timing of participant contributions, transfers and withdrawals into/out of the contract; and the duration of the underlying investments backing the contract.

	<u>2009</u>
Average yields:	
Based on annualized earnings (1)	3.88%
Based on interest rate credited to participants (2)	3.88%
(1) Computed by dividing the annualized one-day actual earnings of the contract on the last day of the Plan year by the fair value of the contract investments on the same day.	
(2) Computed by dividing the annualized one-day earnings credited to participants on the last day of the Plan year by the fair value of the contract investments on the same date.	

NOTE 10 - SUBSEQUENT EVENT

Plan management has evaluated subsequent events for recognition and disclosure through June 13, 2011, which is the date the financial statements were available to be issued.
