Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITORS' REPORT

To the Participants and Administrator of
the Superior Group, Inc. 2007 Retirement Plan
Conshohocken, Pennsylvania

We were engaged to audit the financial statements of the Superior Group, Inc. 2007 Retirement Plan (the "Plan") as of December 31, 2010 and 2009 and for the years then ended, and the supplemental schedules as of December 31, 2010, as listed in the table of contents. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by Vanguard Fiduciary Trust Company, the Trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the Trustee as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedules taken as a whole. The form and content of the information included in the financial statements and schedules, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Schedule SB, Line 22 — Description of Weighted Average Retirement Age

1.	Number of active employees with collectively bargained benefits	171
2.	Weighted average retirement age for active employees with collectively bargained benefits	62.7973
3.	(1) × (2)	10,738.34
4.	Number of active employees with cash balance benefits	47
5.	Weighted average retirement age for active employees with cash balance benefits	63.2616
6.	(4) × (5)	2,973.30
7.	Weighted average retirement age [(3)+(6)] ÷ [(1)+(4)]	63

The weighted average retirement ages for the union and nonunion groups are calculated by first determining the number of retirements at the earliest possible retirement age from a population of 10,000 lives. The number of retirements at each successive age is then determined by applying the appropriate retirement rate to the number of remaining lives. The percentage of the number of retirements at each age over 10,000 is the weight applied to that age to determine the weighted average. It should be noted that while only integral values are shown in the tables on the previous page, the full content of each cell, including decimal portions, is used in the calculations.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Actuarial methods

Asset methods

The asset valuation method is an average of the adjusted market value over the last 24 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The Vanguard Group provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements by that date are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Disabled participants:** The liabilities for participants on long-term disability have been included with the liabilities for terminated vested participants for those with collectively bargained benefits and with the liabilities for active participants for those with cash balance benefits.
- **Insurance contracts:** The plan does not have any insurance contracts.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Minimum funding method

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- This plan provides disability benefits that are only partially based on a participant's accrued benefit or years of service. This benefit is allocated to funding target based on the accrued benefit on the valuation date plus a portion of the excess of the benefit over the accrued benefit multiplied by the ratio of the participant's service at the beginning of the plan year to their service at each decrement age. This benefit is allocated to target normal cost based on the proportionate benefit attributable to the increase in the participant's service and compensation during the plan year.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Maximum deductible contribution method

Calculations of maximum deductible contributions include the excess of the funding target computed using the projected unit credit method over the minimum funding target. The objective of the projected unit credit method is to fund each participant's benefits under the plan as they accrue, taking into consideration expected future compensation increases. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- An individual's **projected funding target** is the present value of benefits based on credited service as of the beginning of the plan year and projected compensation that would be used in the calculation of the benefit on each expected separation date. If multiple decrements are used, the projected funding target for an individual is the sum of the component projected funding targets associated with the various anticipated separation dates.
- The plan's **projected funding target** is the sum of the projected funding targets for all participants under the plan. The excess of the plan's projected funding target over the plan's funding target is included in the "cushion amount."

Schedule SB, Part V — Summary of Plan Provisions**Plan provisions**

Following is a summary of the major plan provisions used to determine the plan's financial position. It should not be used in determining plan benefits.

Summary of major plan provisions – cash balance benefits

Effective date and plan year	Original plan: January 1, 2007 Restated plan: January 1, 2007 Plan year: January 1 to December 31
Status of the plan	The plan has ongoing benefit accruals and new employees are eligible to participate in the plan once they satisfy the participation requirements.
Significant events that occurred during the year	None

Definitions

▪ Eligibility	A full-time employee shall be eligible to become a participant upon his completion of 6 months of service. A part-time employee shall be eligible to become a participant upon his completion of 1,000 hours of service during the 12-consecutive month period beginning on his employment date or during any plan year.
▪ Years of service	With respect to full-time employees, an elapsed time definition is used to credit service with a year of service based on 12 months of service. With respect to part-time employees, a year of service is credited for plan years in which an employee completes 1000 hours of service.
▪ Account balance	An account used to determine the amount of pension benefits payable to a participant. The account balance will be credited with Contribution Credits at the end of each calendar month and Interest Credits compounded daily. A participant's Accrued Benefit is the annuitized projected Account Balance to age 65 with interest credits.
▪ Vesting	Completion of three years of service. All active participants as of December 31, 2006 in the Superior Group, Inc. Retirement Plan who remained employed on January 1, 2007 are automatically 100% vested in this plan.
▪ Interest credits	The amount credited to the Account Balance compounded daily prior to the crediting of Contribution Credits. The rate applicable to each calendar year quarter is based on the greater of 2.25% or the average monthly yield on 10-Year Treasury Securities at constant maturity for the second month preceding each calendar year quarter.

Schedule SB, Part V — Summary of Plan Provisions

▪ Contribution credits	The amount credited to the Account Balance at the end of each calendar month, based on participant attained age and Years of Service at the beginning of such month.

	A participant's age and service points shall equal the sum of a participant's whole and fractional years of age, and his whole and fractional years of service when combined on a points basis.										
▪ Actuarial equivalent	For purposes of determining the actuarial equivalent of a Participant's Account Balance, the single life annuity is determined on the basis of the annual interest rate on 30-year Treasury Securities for the second month preceding the Plan Year and mortality assumptions described under Section 471(e)(3)(A)(ii)(I) of the Internal Revenue Code and regulations.										
▪ Break in service	With respect to full-time employees, a 12 month period during which an individual is not credited with service. With respect to part-time employees, a plan year within which an employee is not credited with more than 500 hours of service (unless on a Qualified Leave of Absence). If the participant is not vested and the number of consecutive one-year Breaks in Service equals or exceeds the greater of total number of Years of Service earned prior to break, or five years, such prior service is lost.										
▪ Compensation	Total W-2 pay for a calendar year, including any pre-tax elected deferrals. Compensation excludes taxable fringe benefits, severance pay and similar payments. For 2010, compensation is capped at \$245,000.										
▪ Employee contributions	None										
Normal retirement

Plan provision changes since prior valuation

- Maximum compensation and Maximum benefit limits were updated from 2009 to 2010 but, the limits did not change.

Schedule SB, Part V — Summary of Plan Provisions

Benefits included or excluded

Unless noted below, all benefits provided by the plan, as restated and amended through January 1, 2010, are included in this valuation.

- **Most recent plan amendments included:** Amendment effective January 14, 2009 is included because it was adopted by the valuation date and is effective by the end of the plan year.
- **Plan amendments excluded:** None.
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - Plan amendments: See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.
- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. This valuation includes increases for current participants over age 70½.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Unpredictable contingent event benefits:** The plan does have unpredictable contingent event benefits but it is disregarded because the probability of occurrence is de minimis.
- **IRC Section 415(b) benefit limitations:** The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60 percent of the present value for all participants). However, we expect that the plan is not top-heavy due to the number of rank-and-file participants relative to the total population; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Schedule SB, Line 24 — Change in Actuarial Assumptions

- Interest discount rates and mortality rates were updated from 2009 to 2010 in accordance with PPA and the sponsor changed their interest rate election from full yield curve with a two month setback to segment rates with 0 months setback.
- The salary increase assumption was decreased from 3.75% to 2.00% for the next two years (2010 and 2011) and 4.00% thereafter.
- The inflation rate assumption was decreased from 3.00% to 2.75%.
- The social security wage base assumption decreased from 3.75% to 3.50%.
- The 30-year Treasury yield assumption was decreased from 4.55% to 4.15%.
- The cash balance interest accumulation rate was decreased from 4.25% to 3.50%.
- Expense normal cost decreased from \$480,000 to \$426,000 to reflect our expectations for the current plan year.
- The expected investment return was increased from 4.50% to 6.70%.

Schedule SB, Line 25 — Change in Method

The asset method was changed from one year averaging to two year averaging. This change qualifies for automatic IRS approval.

As required by the final Section 430 regulations released in late 2009, we changed the allocation of disability benefit costs to funding target and target normal cost.

- For the 2009 valuation, the allocation was based on the projected benefit multiplied by the ratio of the participant's accrued service to their service at first eligibility.
- For the 2010 valuation, the allocation is based on the accrued benefit on the valuation date plus a portion of the excess of the projected age 65 benefit over the accrued benefit multiplied by the ratio of the participant's accrued service to their service at each decrement age.

INDEPENDENT AUDITORS' REPORT

To the Participants and Administrator of
the Superior Group, Inc. 2007 Retirement Plan
Conshohocken, Pennsylvania

We were engaged to audit the financial statements of the Superior Group, Inc. 2007 Retirement Plan (the "Plan") as of December 31, 2010 and 2009 and for the years then ended, and the supplemental schedules as of December 31, 2010, as listed in the table of contents. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by Vanguard Fiduciary Trust Company, the Trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the Trustee as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedules taken as a whole. The form and content of the information included in the financial statements and schedules, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

SUPERIOR GROUP, INC. 2007 RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2010 AND 2009

NOTE A - Description of Plan

The following description of the Plan provides only general information. Participants should refer to the Plan agreement, as amended, for a more complete description of the Plan's provisions.

The Plan became effective January 1, 2007 and covers all eligible employees of Superior Group, Inc. (the "Company") and certain of its domestic subsidiaries including Superior Tube Company, Inc., the current plan sponsor. Prior to the establishment of the Plan, the Company sponsored the Superior Group, Inc. Union Pension Plan for the benefit of its eligible union employees and the Superior Group, Inc. Retirement Plan for the benefit of its eligible nonunion employees. The Superior Group, Inc. Union Pension Plan was merged with and into the Superior Group, Inc. Retirement Plan, effective as of September 30, 2006. The Superior Group, Inc. Retirement Plan was terminated effective December 31, 2006. The Company contributed 25% of the surplus assets from the termination of the Superior Group Retirement Plan to the Plan in the amount of \$25,044,452.

In 2008, Sharp Corporation, a subsidiary of Superior Group, Inc. was sold to United Drug plc. Employees of Sharp Corporation participated in the Superior Group, Inc. 2007 Retirement Plan until the effective date of a separate Sharp Corporation Retirement Plan. Effective August 11, 2008 all Sharp participants became fully vested in their benefits under the Superior Group, Inc. 2007 Retirement Plan. Sharp Corporation assumed all related liabilities for active Sharp Corporation participants of the Plan. Under the terms of the sale, Superior Group, Inc. 2007 Retirement Plan transferred \$16,865,581 to the Sharp Corporation Retirement Plan.

Effective July 31, 2010, the Plan was amended to transfer sponsorship to Superior Tube Company, Inc.

During 2009, the Plan was amended to update certain compensation limits and policies concerning severance from employment and participants who die while performing qualified military service.

During 2010, the Plan was amended to clarify certain provisions with respect to Hero's Earnings Assistance and Relief Tax Act 2008.

Effective March 15, 2010, the Plan was amended to reflect the most recent terms of the collective bargaining agreement. The actuarial present value of accumulated plan benefits disclosed in Note G does not reflect this amendment.

General - The Plan is a non-contributory defined benefit plan which provides benefits upon retirement to all employees of the Company and its domestic subsidiaries who become eligible in accordance with the terms of the Plan. Companies participating in the Plan as of December 31, 2010 and 2009 include Superior Tube Company, Inc. (Plan Sponsor) and Superior Group, Inc. (Participating Employer). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

SUPERIOR GROUP, INC. 2007 RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2010 AND 2009

NOTE A - Description of Plan - continued

Pension Benefits - Non-bargaining full-time employees with six months of service and part-time employees with 1,000 credited hours of service during a 12-consecutive month period are eligible to participate in the Plan. The Plan provides benefits beginning at normal retirement age (65) or earlier upon death, or upon termination after completion of three years of service. A participant's account balance is used to determine the pension benefits payable to each participant. Benefits are payable in the form of an annuity. The participant's account balance is credited with contribution credits at the end of each calendar month and interest credits compounded daily.

The amount of contribution credited to the account balance at the end of each calendar month is determined as follows:

<u>Age and Service Points</u>	<u>Percentage of Compensation</u>
Less than 30	4%
At least 30, but less than 40	5%
At least 40, but less than 55	6%
55 or more	7%

For 2010 and 2009, the compensation base for application of the percentage of compensation was limited to the first \$245,000 of earnings.

The Plan also provides benefits to full-time bargaining unit employees. Benefits commence at normal retirement age 65, or earlier upon death or disability, or upon election by the employee upon attaining age 55. Annual pension benefits are generally determined with reference to various formulas, including stipulated amounts determined at the date of retirement or separation from service multiplied by years of credited service. Benefits are payable in the form of a monthly annuity. For a complete description of the Plan's benefit and vesting provisions, participants should refer to the summary Plan description or Plan document.

NOTE B - Summary of Accounting Policies

This summary of significant accounting policies of the Plan is presented to assist in understanding the Plan's financial statements. The financial statements and notes are representations of the Plan's management who is responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the financial statements.

Basis of Accounting and Use of Estimates - The financial statements are prepared on the accrual basis of accounting. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - The Plan's investments are reported at fair value. Net realized and unrealized appreciation or depreciation in the fair value of investments is reported in the Statement of Changes in Net Assets Available for Benefits.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Capital gain distributions are included in dividend income.

NOTE B - Summary of Accounting Policies - continued

Fair Value Measurements - Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Accounting standards set a framework for measuring fair value using a three-tier hierarchy based on the extent to which inputs used in measuring fair value are observable in the market.

Level 1: Quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or inputs (interest rates, currency exchange rates, commodity rates and yield curves) that are observable or corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3: Inputs that are not observable in the market and reflect management's judgment about the assumptions that market participants would use in pricing the asset or liability.

The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds – Valued at the net asset value of shares held by the Plan at year-end

Fair value of all investments held by the Plan have been measured by quoted prices in an active market and are therefore considered as Level 1 measurements.

Actuarial Present Value of Accumulated Plan Benefits - Accumulated Plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances - retirement, disability, death, and termination of employment are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated Plan benefits is determined by Mercer Human Resources Consulting and is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to give effect to the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for disability, death, withdrawal, or retirement) between the valuation date and the expected date of payment.

SUPERIOR GROUP, INC. 2007 RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2010 AND 2009

NOTE B - Summary of Accounting Policies - continued

The significant actuarial methods and assumptions used in the actuarial valuation as of January 1, 2010 (January 1, 2009, where different) are as follows:

Cost Method	- Unit Credit Method
Value of Investments	- Market value
Mortality Basis	- 2010 PPA separate static annuitant and nonannuitant mortality tables (2009 tables for January 1, 2009 valuation)
Investment Return	- 6.7% (4.5% for January 1, 2009 valuation)
Withdrawal	- Annual termination rates of 14.55% decreasing to 0% based on attained ages of 25 to 55
Salary Increases	- 2.00% per year (2010 and 2011) and 4.00% thereafter (3.75% compounded annually for January 1, 2009 valuation)
Retirement Age	- Retirement rates from age 55 to 65

The foregoing actuarial methods and assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Payment of Benefits - Benefit payments to participants are recorded upon distribution.

Administrative expenses - All administrative expenses are paid by the Plan. Administrative expenses include payments to Superior Group, Inc. for accounting services and general administration of the Plan in the amount of \$16,399 for each of the years ended December 31, 2010 and 2009.

Recently Issued Accounting Pronouncements - The following standard will be effective for the Plan in 2011:

Disclosure of Fair Value Measurements - A standard issued in 2010 requires separate disclosures of purchases, sales, issuances, and settlements relating to Level 3 measurements. This requirement is effective for fiscal years beginning after December 15, 2010. The adoption of this guidance will not have a significant impact on the Plan's financial statements.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2010 AND 2009

NOTE C - Information Certified by the Trustee

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, Vanguard Fiduciary Trust Company (VFTC), the Plan's Trustee, certified the following information, which has not been subject to audit by independent accountants, to be accurate and complete:

Investment balances included in the statements of net assets available for benefits at December 31, 2010 and 2009.

Investment income and net appreciation/depreciation in fair value of investments included in the statements of changes in net assets available for benefits for the years ended December 31, 2010 and 2009.

Information included in the accompanying schedule of assets held at end of year and schedule of reportable transactions.

NOTE D - Related Party Transactions

The Plan invests in shares of mutual funds managed by an affiliate of Vanguard Fiduciary Trust Company. Vanguard acts as Trustee for Plan investments. Transactions in such investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA.

NOTE E - Funding Policy

Employer contributions are accrued based upon amounts required to be funded under provisions of ERISA. The Company met the minimum funding requirements of ERISA in 2010 and 2009.

Employer contributions are designed to provide for normal cost on a current basis and amortization of unfunded prior service costs over no greater than a 30-year period.

NOTE F - Plan Termination

Although the Participating Employers have not expressed any intention to do so, they have the right under the Plan to discontinue their contributions at any time, and to terminate the Plan subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a) There shall be set aside an amount which will provide retirement income for employees, spouses, or designated beneficiaries who are receiving benefits or who were eligible to receive benefits at least three years prior to termination of the Plan based on provisions in effect five years prior to the date of termination.
- b) There shall next be set aside an amount sufficient to discharge all other benefits insured by the Pension Benefit Guaranty Corporation (PBGC).
- c) There shall next be set aside an amount which will provide all other vested benefits as determined under the Plan, which are not insured.
- d) The balance of the net assets, if any, shall be set aside to provide for all other benefits provided under the Plan.

SUPERIOR GROUP, INC. 2007 RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2010 AND 2009

NOTE F - Plan Termination - continued

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees. The ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward. Whether all participants receive their benefits, should the Plan terminate at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

NOTE G - Accumulated Plan Benefits

The actuarial present values of accumulated Plan benefits as of January 1, 2010 and 2009 were as follows:

	<u>2010</u>	<u>2009</u>
Actuarial present values of accumulated Plan benefits:		
Vested benefits:		
Participants currently receiving payments	\$ 163,338	\$ 147,561
Other participants	<u>3,439,720</u>	<u>3,890,786</u>
Total vested benefits	3,603,058	4,038,347

Total actuarial present values of accumulated Plan benefits	<u>\$ 3,970,135</u>	<u>\$ 4,367,340</u>

The changes in the actuarial present value of accumulated Plan benefits was:

Actuarial present value of accumulated Plan benefits, January 1, 2009	\$ 4,367,340
Increase (decrease) due to:	
Benefits accumulated and experience loss	876,218
Interest due to the decrease in the discount period	194,497
Benefits paid	(90,363)
Change in actuarial assumptions (See Note B)	<u>(1,377,557)</u>

SUPERIOR GROUP, INC. 2007 RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2010 AND 2009

NOTE H - Tax Status

The Internal Revenue Service determined and informed the Company, by a letter dated May 19, 2009, that the Plan and related trust were qualified under the Internal Revenue Code (IRC) Section 401(a). The Plan has been amended since receiving the determination letter. However, the plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain tax positions taken or expected to be taken that require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE I - Financial Instruments - Concentrations of Credit Risk and Risks and Uncertainties

The Plan invests in various types of funds. These investment funds are exposed to various risks such as market volatility, interest rate, and credit risks. Therefore, it is at least reasonably possible that changes in value could occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The actuarial present value of accumulated Plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

NOTE J - Nonexempt Transactions

In 2009, the Plan paid two invoices for expenses that were the responsibility of the Plan Sponsor. The Plan Sponsor reimbursed the Plan for these expenses during 2009.

NOTE K - Subsequent Events

In preparing these financial statements, management has evaluated events and transactions for potential recognition or disclosure through May 31, 2011, the date the financial statements were available to be issued.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
