ECOS CONSULTING, INC. 401(K) PLAN

Notes to Financial Statements

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements of Ecos Consulting, Inc. 401(k) Plan (the "Plan") have been prepared on the accrual basis.

Investment Valuation

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an ordinary transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Investment transactions are accounted for on the trade date (the date the order to buy or sell is executed). Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rates, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Benefit Payments

Benefit payments are recorded when paid.

Estimates

The preparation of financial statements in conformity with United States generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Expenses

Certain expenses and costs of the Plan were paid by Ecos IQ, Inc. (the "Company") and, accordingly, are not reflected in the Plan's financial statements.

Related-Party Transactions

Certain Plan investments are investments in collective trusts managed by AXA Equitable Life Insurance Company. AXA Equitable Life Insurance Company is the asset custodian and trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest.

Several employees of the Company provide administrative services to the Plan. These services include Plan oversight and day-to-day Plan administration. The Plan is not charged by the Company for the services of the employees to the Plan.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Subsequent Events

The Company has evaluated subsequent events through October 14, 2010, which is the date these financial statements were available to be issued, and have determined that there are no subsequent events that require disclosure under applicable GAAP for subsequent events.

NOTE 2 DESCRIPTION OF THE PLAN

The following description of the Plan provides only general information. Participants should refer to the Ecos Consulting, Inc. 401(k) Plan's plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan formed January 31, 2001. Substantially all full time employees of the Company are eligible for participation in the Plan after completing three months of service. Eligible employees may enter the Plan on the first day of each month. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to 15% of pretax annual compensation, as defined in the Plan. However, contributions may not exceed limitations established under Section 402(g) of the Internal Revenue Code of 1986 as amended ($15,500 at December 31, 2009). For 2009, Section 414(v) of the Internal Revenue Code of 1986 as amended allowed a maximum catch-up contribution of $5,500 for those participants age 50 or older. Participants may change the percentage of contributions invested in each account and may make transfers between accounts anytime during the year. For 2009, the Company made safe harbor matching contributions equal to 100% of the first 3% of eligible compensation and 50% of the next 2% of eligible compensation. The Company did not make any discretionary profit sharing contributions during 2009.

Rollover Contributions

Participants may roll over their taxable portion of funds previously held for their account in another qualified retirement plan to the Plan on a tax-free basis.

Participant Accounts

Each participant's account is credited with the participant's and Company's contributions and a pro-rata allocation of the Plan's earnings and expenses. The pro-rata allocation is based upon each participant's earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 2 DESCRIPTION OF THE PLAN (CONTINUED)

Vesting

Participants are vested immediately in their rollover contributions and employee deferral contributions plus actual earnings thereon. Participants are also immediately vested in all safe harbor Company contributions. Vesting in the remaining Company contribution portion of their accounts is based on years of service. A participant is 100% vested after three years of credited service. The balance of unallocated forfeitures was $1,703 and $214 as of December 31, 2009 and 2008, respectively.

Payment of Benefits

Upon a participant's retirement, death, total and permanent disability, other termination of employment with the Company, or termination of the Plan, the participant's account is distributed in a lump sum.

In-service distributions are permissible from the Plan for participants that have attained the age of 59 1/2. Also, withdrawals of rollover contributions are permitted at anytime.

In conditions of "financial hardship", as defined, a participant may apply to the Plan administrator for approval to withdraw that portion of their elective deferrals necessary to meet the financial hardship, subject to the limitations of the Plan and the Internal Revenue Code.

Loans

Participant loans are available on amounts in the participant's account. The minimum loan amount is $1,000 and the maximum loan amount is the lesser of one-half of the participant's vested account balance or $50,000. The vested participant account balance will be used as collateral for any loan. All loans shall bear a reasonable rate of interest as determined by the Plan administrator. All loans must be repaid within five years except in the case of a loan for the purpose of acquiring a home. Participants may only have three loans outstanding at any given time.

NOTE 3 INVESTMENTS

The following investments represent five percent or more of the Plan's net assets available for benefits as of December 31, 2009 and 2008:

	2009	2008
EQ Nueberger & Berman Genesis Trust	$ 331,949	$ 198,284
EQ Money Market	149,345	79,085
EQ Ariel Appreciation Fund	205,655	110,242
EQ Janus Forty	164,969	73,127
EQ Janus Balanced Fund	192,448	100,459
EQ Oppenheimer Global Fund	405,431	237,351
Templeton Growth Fund	163,236	96,710
EQ SSGA Intermediate Fund	202,200	177,745

During 2009, the Plan's pooled separate accounts appreciated by $446,800.

NOTE 4 TAX STATUS

The Plan Sponsor has adopted a prototype plan which has received an opinion letter from the Internal Revenue Service dated March 31, 2008, which states the provider's prototype, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan itself has not received a determination letter from the IRS. The Plan has been amended since adoption of the prototype plan. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code, therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 5 FAIR VALUE MEASUREMENTS

The financial statements have been prepared in accordance with applicable GAAP for fair value measurements and disclosures, effective for fiscal years beginning after November 15, 2007 for financial assets and liabilities. Under the applicable GAAP literature, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date.

In determining fair value, the Company uses various valuation approaches. The applicable GAAP literature establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the Company's assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The hierarchy is broken down into three levels base on the ability to observe inputs as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 5 FAIR VALUE MEASUREMENTS (CONTINUED)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2009 and 2008.

Pooled separate accounts: Valued at the net asset value ('NAV") of shares held by the Plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ 2,292,126	$ -	$ -	$ 2,292,126
Participant loans	-	-	9,523	9,523
Total assets at fair value	$ 2,292,126	$ -	$ 9,523	$ 2,301,649

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2008:

	Level 1	Level 2	Level 3	Total
		(compiled)		
Mutual funds	$ 1,348,441	$ -	$ -	$ 1,348,441
Participant loans	-	-	9,523	9,523
Total assets at fair value	$ 1,348,441	$ -	$ 9,523	$ 1,357,964

NOTE 5 FAIR VALUE MEASUREMENTS (CONTINUED)

The following is a summary of changes in the fair value of the Plan's level 3 assets for year ended December 31, 2009:

	Participant Loans
Balance, beginning of year	$ 9,523
Interest income	-
Purchases, sales, issuances and settlements (net)	-
Balance, end of year	$ 9,523
