Notes to Financial Statements December 31, 2010 and 2009

Note 1 – Summary of Significant Accounting Policies

Basis of Accounting:

The financial statements of Triple B Corporation 401(k) Savings Plan (the "Plan") are prepared on the accrual basis of accounting.

Cash and Cash Equivalents:

The Plan considers all highly liquid investments purchased with an initial maturity of three months or less to be cash equivalents.

Valuation of Plan Investments:

The Plan's investments are valued at quoted market prices that represent the fair market values of investments held by the Plan at year-end. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis.

Contributions -

Contributions from participants are recorded in the period in which they are withheld from the participant's compensation. Matching contributions from the Company are recorded in the period in which the related participant contributions are recorded.

Excess Contributions -

Certain contributions are considered to be excess contributions based on year-end compliance test results performed by the Plan's third party administrator and are required to be refunded to the participants. At December 31, 2010 and 2009, the Plan had excess contributions payable of \$57,529 and \$44,147, respectively, which have been refunded to the participants in the following year.

Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Subsequent Events:

The Plan has evaluated subsequent events through June 9, 2011, the date the financial statements were available to be issued.

Note 2 – Description of the Plan

General:

The Plan is a defined contribution plan effective January 1, 1995. The Plan is designed to benefit participating employees of the Triple B Corporation (the "Company") through voluntary contributions by participants through payroll deductions and matching employer contributions, if any. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Notes to Financial Statements December 31, 2010 and 2009

Note 2 – Description of Plan (Continued)

Eligibility:

An employee is eligible to participate upon completion of one year of service, as defined in the Plan document, and attaining the age of 21. Once eligible, an employee can enter the Plan on the next available Plan entry date. Plan entry dates are the first day of the Plan year and the first day of the seventh month of the Plan year.

Contributions:

Participants may elect to defer a portion of their compensation each year subject to annual limits and certain other limits for highly compensated employees. The Company's contributions are at the discretion of the Company's Board of Directors in amounts, if any, that match the participant's deferrals from their compensation. The Company made no contributions in 2010 or 2009. Participants may also contribute amounts representing distributions from other qualified plans ("rollovers from other qualified plans").

Participant Accounts:

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and net earnings. Allocations are based on participant contributions or account balances, as defined in the Plan. Participants are 100% vested in their contributions and vesting in Company contributions is earned ratably over six years of service. Effective January 1, 2004, participants individually direct their investments from available choices through Fidelity Investments.

Forfeitures:

Forfeitures are created when participants terminate employment before becoming fully vested in Company contributions to the Plan. Any such forfeited amounts will be used to reduce future Company contributions to the Plan. There were no forfeitures in 2010 or 2009.

Benefits:

Upon termination of employment with the Company, participants will be entitled to a distribution of their vested interest. Benefits are recorded when they are paid.

Plan Administration:

The Board of Directors of the Company appoints the Plan Administrator who is currently an employee of the Company. Some of the expenses for administration of the Plan are paid by the Company and were approximately \$19,300 in 2010 and \$24,100 in 2009. Investment management and service fees are paid by the Company or the participants.

Plan Changes:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions, if any, at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will be 100% vested in the employer and employee contribution accounts.

Notes to Financial Statements December 31, 2010 and 2009

Note 2 – Description of Plan (Continued)

Risks and Uncertainties -

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Income Tax Status:

The Plan has adopted a non-standardized prototype offered by Fidelity Management and Research Company. The prototype has received a favorable determination from the Internal Revenue Service. The Company has not received a determination letter as to the qualified status of the Plan's adoption agreement. However, the Plan administrator believes the Plan is currently designed and being operated in compliance with applicable requirements of the Internal Revenue Service. The Plan's annual Form 5500 is open for examination for the Plan years ending December 31, 2007 through 2010. The Plan has not received any notice of such examination as of the date of the independent auditor's report.

Note 3 – Investments

The Plan's investments are primarily held in custodial accounts with Fidelity Investments under the direction of Fidelity Management Trust Company, as trustee and therefore, transactions with Fidelity qualify as exempt party-in-interest transactions. Each participant has individual discretion and responsibility for investment allocations selected from available money market and mutual fund investment vehicles at Fidelity Investments.

The following table presents investments representing 5% or more of net assets available for Plan benefits in either year.

Note 4 – Fair Value Measurement

Fair value is defined as an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement determined based on assumptions that market participants would use in pricing an asset or liability. There are three levels which prioritize the inputs used in measuring fair value as follows:

- Level 1: Observable market inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: Observable market inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and
- Level 3: Unobservable inputs where there is little or no market data, which require the reporting entity to develop its own assumptions.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds: Valued based on quoted market prices (unadjusted) in active markets.

An asset or liability's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The fair value of Plan investments at December 31, 2010 and 2009, was determined using Level 1 inputs within the above fair value hierarchy as follows:

	Assets at Fair Value as of December 31, 2010 2009				
Mutual funds:					
Index funds	\$ 132,985	\$ 97,115			
Balanced funds	125,622	80,417

Increase in net assets available for plan benefits per Schedule H of Form 5500	\$	819,907	\$ <u>1</u>	,456,061

Note 6 – Pending Amendment

The Plan is in the process of petitioning the Internal Revenue Service, via the IRS' Employee Plans Compliance Resolution system ("EPCRS"), for approval of a retroactive amendment of the Plan that will amend the language of the Plan relative to the definition of compensation for elective deferral purposes to be consistent with administrative procedures. The Plan Administrator believes that it is reasonably possible that the application through EPCRS will be approved, with no effect on the financial statements. In the event that the petition is not approved, the Company would likely be required to make an additional contribution to the Plan. The Plan has been amended prospectively effective December 29, 2008 to be consistent with administrative procedure.

See Independent Auditors' Report.
