Independent Auditors' Report

Corporate Pension Committee
Husky Refining Company Pension Plan:

We were engaged to audit the accompanying statements of net assets available for benefits of the Husky Refining Company Pension Plan (the Plan) as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years then ended, and the statement of accumulated plan benefits as of December 31, 2008, and the related statement of changes in accumulated plan benefits for the year then ended, and the supplemental schedules of (1) schedule H, part IV, line 4i – schedule of assets (held at end of year) as of December 31, 2009 and 2008, and (2) schedule H, part IV, line 4j – schedule of reportable transactions for the years ended December 31, 2009 and 2008. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in note 7, which is certified by Wilmington Trust Retirement and Institutional Services Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2009 and 2008, and for the year ended December 2009, and for the period from August 19, 2008 through December 31, 2008, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulation for Reporting and Disclosure under the Employee Income Security Act of 1974.

Schedule SB, Line 22 - Description of Weighted Average Retirement Age

For each active participant, an expected retirement age was calculated weighted in proportion to the probability (as shown below) that the individual would remain an active participant to each age and then retire at that age. The plan's weighted average retirement age of 61 is the arithmetic average of the expected retirement ages of all participants on January 1, 2009.

Conversion of Account Balances

Account balances are generally converted from the normal form of payment to the optional form of payment on an actuarially equivalent basis. The following actuarial equivalence bases apply to the plan:

Mortality:

The mortality prescribed for purposes of Section 417(e)(3)(B) of the Code

Interest Rate:

Shall be the annual rate of interest as determined under Section 417(e)(3)(C) of the Code for the third full calendar month which precedes the first day of the plan year that includes the annuity start date of the participant or beneficiary.

Optional Forms of Payment

The following table summarizes the optional form of payment assumptions used in the actuarial valuation with regard to the form of payment that plan participants are expected to select.

Change in Assumptions and Methods Since Prior Valuation

The segment interest rates used to calculate the funding target and target normal cost were updated from January 2008 to January 2009.

The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements.

Assumed plan-related expenses of \$13,000 were added to the target normal cost.

The interest crediting rate was updated from the applicable segment rate for 2008 to the applicable segment rate for 2009 per the plan document.

The interest and mortality basis used to convert optional forms of payment were updated from the applicable basis for 2008 to the applicable basis for 2009 per the plan document.

Data Sources

Towers Watson used asset data supplied by the trustee. Husky Refining Company furnished participant data. Data were reviewed for reasonableness and consistency, but no audit was performed.

Assumptions or estimates were made by the Towers Watson actuaries when data were not available. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Plan Provisions – Husky Refining Company Pension Plan

Effective Date	July 1, 2007
Covered Employees	Employees other than: ▶ Leased employees ▶ Non-resident aliens with no U.S. source income
Participation Date	Completion of one year of service for non-represented employees or completion of six months of service for represented employees. For participants in a prior plan who were eligible on the effective date, the participation date was the effective date.
Definitions	
Plan Year	The period beginning on the Effective Date and ending on December 31, 2007, and each subsequent calendar year.
Credited service	Total period of an employee's service, used for benefit accrual purposes. A participant earns one year of credited service for each 12 month period of service as an eligible employee.
Vesting service	Total period of an employee's service. Employees will earn one vesting year for each 12 month period of service beginning on the employee's employment or reemployment date. Vesting service of a participant of a prior plan immediately prior to the effective date shall include all vesting years credited to the participant under the prior plan.
Compensation	For Non-Represented employees, all wages that are includible in gross income including but not limited to commissions and bonuses. For represented employees, any compensation above base pay, overtime and shift-differential shall be disregarded. Recognized compensation for any plan year shall not exceed \$245,000, as adjusted by the Secretary of the Treasury in the manner described in Section 401(a)(17) of the Internal Revenue Code.

Monthly Benefits Paid Upon the Following Events

Normal Retirement

Non-Represented:

An annuity in the normal form which is the actuarial equivalent of the participants single life annuity payable monthly, equal to 1.6% of the Participant's average monthly compensation, multiplied by the participant's years of credited service.

Represented:

An annuity in the normal form which is the actuarial equivalent of the participant's benefit account.

A participant's benefit account balance at the end of a plan year shall be the sum of the following:

A) The opening benefit account balance

B) A pay credit equal to a percentage of the Participant's Compensation during the Plan Year determined under the following table.

Age Plus Vesting Years*	
at End of Plan Year	Percentage of Compensation
Less than 35	2.0%
35 - 49	2.5%
50 – 64	3.0%
65 – 79	4.0%
80 or more	5.0%

* Vesting years measured from later of hire date or August 10, 1998.

C) An interest credit equal to the third segment rate (as described in Section 430(h)(2)(C)(iii) of the Internal Revenue Code) in effect for the month of October preceding the first day of the plan year, multiplied by the opening benefit account balance. If a participant's annuity start date occurs during the plan year, the interest credit for the plan year must be adjusted.

In no event shall a participant receive more than forty total annual pay credits under the plan.

Early Retirement

Non-Represented:

Equal to the participant's normal retirement benefit, reduced by 1/3% for each full or fractional month by which the participant's annuity starting date precedes age 62.

Represented:

An annuity in the normal form which is the actuarial equivalent of the participants benefit account.

Termination with vested benefit **Non-Represented:**

The participant shall be entitled to receive the accrued benefit before, on or after the normal retirement date, subject to necessary benefit adjustments.

Represented:

An annuity in the normal form which is the actuarial equivalent of the participants benefit account. The participant's benefit account determined as of the actual severance from service date increased by interest credits to the annuity starting date.

Death benefits

Non-Represented:

If a participant dies prior to the annuity start date, a vested participant's spouse shall be entitled to one of the following benefits:

- ▶ **Small Preretirement Death Benefit:** If the value of the accrued benefit is less than or equal to \$5,000, the vested participant's spouse shall be entitled to a lump sum payment.
- ▶ **Spousal Death Benefit:** The vested participant's spouse shall be entitled to the benefit payable as if the participant had commenced receiving a Qualified Joint and Survivor Annuity on the later of the day before death or early retirement age.

Schedule SB, Line 25 - Change in Method

The valuation software used to produce the actuarial information submitted on this schedule has been refined to reflect evolving understanding of PPA requirements, and such modifications may be considered to be a method change. The percentage changes in funding target, target normal cost and plan assets due to the refinements in the software are each less than 2% (disregarding the effects of any changes that are automatically approved under final IRC 430 regulations), and the modifications to the software were designed to produce results no less accurate than the results produced by the software prior to the change. Therefore the change in funding method due to a change in valuation software receives automatic approval under IRS Announcement 2010-3.

Under the Pension Protection Act of 2006 (PPA), as amended by the Worker, Retiree and Employer Recovery Act of 2008 (WRERA), the Funding Target Normal Cost for plan years beginning on or after January 1, 2009 must include "the amount of plan-related expenses expected to be paid from plan assets during the plan year." Assumed plan-related expenses of \$13,000 were added to the target normal cost.

Corporate Pension Committee
Husky Refining Company Pension Plan:

We were engaged to audit the accompanying statements of net assets available for benefits of the Husky Refining Company Pension Plan (the Plan) as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years then ended, and the statement of accumulated plan benefits as of December 31, 2008, and the related statement of changes in accumulated plan benefits for the year then ended, and the supplemental schedules of (1) schedule H, part IV, line 4i – schedule of assets (held at end of year) as of December 31, 2009 and 2008, and (2) schedule H, part IV, line 4j – schedule of reportable transactions for the years ended December 31, 2009 and 2008. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in note 7, which is certified by Wilmington Trust Retirement and Institutional Services Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2009 and 2008, and for the year ended December 2009, and for the period from August 19, 2008 through December 31, 2008, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulation for Reporting and Disclosure under the Employee Income Security Act of 1974.

Husky Refining Company

Pension Plan

Notes to Financial Statements

December 31, 2009 and 2008

1. Description of Plan:

The following brief description of the Husky Refining Company Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for more comprehensive description.

a. General

The Plan is a defined benefit pension plan covering all U.S. employees, except leased employees and non-resident aliens, of Husky Refining Company ("the Company") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Plan effective date is July 1, 2007.

The Company established a Corporate Pension Committee ("the Committee") to carry out fiduciary responsibilities, including the general operations and administration of the Plan. The Committee appointed an officer of the Company as the trustee of the Plan effective December 12, 2007. Effective April 1, 2008 the officer as trustee along with AST Capital Trust Company became the trustee of the Plan. Effective July, 2008, AST Capital Trust Company was renamed Wilmington Trust Retirement and Institutional Services Company ("the Trustee"). The Committee appointed Towers Perrin as the actuary of the Plan. On January 3, 2010 Towers Perrin and Watson Wyatt completed a merger to form Towers Watson & Co.

b. Participation

The Plan covers union and non-union employees who participated in either the Premcor Pension Plan for certain union employees or the Valero Energy Corporation Pension Plan ("the Prior Plan") immediately before July 1, 2007, and who became employed by the Company on July 1, 2007. Union employees hired on or after July 1, 2007 became participants in the Plan on the first day of the month after six months of continuous employment. Non-union employees hired on or after July 1, 2007 became participants in the Plan on the first day of the month after one year of continuous employment.

c. Eligibility for benefits

The Plan provides benefits based on the classification of employees as union ("Represented Participants") or non-union ("Non-represented Participants"). Both classes of employees are eligible to receive early and normal retirement benefits at retirement dates defined below.

Eligibility to receive benefits is subject to certain vesting periods. The vesting period for Non-represented Participants is five years and the vesting period for Represented Participants is three years. Once vested, the participant becomes eligible to receive the vested portion of their accrued benefit under the Plan.

The normal retirement date for Represented Participants is the first day of the month following the date the participant attains age 65. The normal retirement date for Non-represented Participants is the later of (i) the first day of the month following the date the participant attains age 65, or (ii) the fifth anniversary of the participant's employment date. Early retirement date for both classes of employees is the first day of the month after the later of (i) the date the participant attains age 55 or (ii) the participant has five or more vesting years.

d. Pension Benefits

- Represented Participants

Eligible Represented Participants are entitled to an annuity in the normal form, which is the actuarial equivalent of the participants benefit account. The participants benefit account at the end of a plan year is equal to the sum of:

- The opening benefit account balance;
- plus a pay credit equal to a percentage of the participant's compensation during the plan year. The percentage is determined as follows:

Age plus vesting years at end of plan year	Percentage of compensation
Less than 35 years	2.0%
35 to 49	2.5%
50 to 64	3.0%
65 to 79	4.0%
80 or more	5.0%

- plus an interest credit equal to the third segment rate (as described in Section 430(h)(2)(C)(iii) of the Internal Revenue Code) in effect for the month of October preceding the first day of the plan year, multiplied by the opening benefit account balance. If a participant's annuity start date occurs during the plan year, the interest credit for the plan year must be adjusted.

Vesting years include any service under the Prior Plan; however, service prior to August 10, 1998 is not included.

- Non-represented Participants

Eligible non-represented participants are entitled to an annuity in the normal form, which is the actuarial equivalent of the participant's single life annuity payable monthly, equal to 1.6% of the participant's final average monthly compensation, multiplied by the participant's years of credited service.

Only compensation and service earned after July 1, 2007 are considered for pension benefit purposes.

e. Death benefits

If a vested participant dies prior to the annuity start date the participant's spouse shall be entitled to an annuity. The amount of the annuity shall be equal to the survivor benefit that would have been payable to the spouse if the participant had: (i) separated from service on the date of death; (ii) survived to the earliest retirement age; (iii) retired with an immediate qualified joint and survivor annuity at the earliest retirement age; and (iv) died on the day after the earliest retirement age.

f. Contributions

The Plan is funded by contributions from the Company based upon determinations made annually by the Plan's actuaries, in accordance with an accepted actuarial cost method. The Plan met the minimum funding requirements of ERISA for 2009 and 2008.

Pension Plan

Notes to Financial Statements

December 31, 2009 and 2008

Rules governing plan termination

Employers can terminate a pension plan in two ways.

- 1) The employer can terminate the plan in a standard termination but only after demonstrating to the Pension Benefit Guaranty Corporation ("PBGC") that the plan has sufficient funds to pay all benefits owed to participants. The plan must either purchase an annuity from an insurance company, which will provide the participants with life time benefits upon retirement, or the Plan may issue one lump-sum payment that covers the entire accumulated benefit balance, if permitted. Prior to purchasing the annuities the plan administrator must notify all participants and identify the insurance company that has been selected to provide annuities. The PBGC's guarantee ends when the annuities have been purchased or lump-sum paid.
- 2) If the plan is not fully-funded, the employer may apply for a distress termination if the employer is in financial distress. The employer must prove to a bankruptcy court or to the PBGC that the employer cannot remain in business unless the plan is terminated. If the application is granted, the PBGC will take over the plan as trustee and pay the benefits up to the legal limits using the plan assets and PBGC guarantee funds.

Under certain circumstances, the PBGC may take unprompted action to end a pension plan. Most terminations initiated by the PBGC occur when the PBGC determines that plan termination is needed to protect the interests of plan participants or the PBGC insurance program. The PBGC can do so if, for example, a plan does not have sufficient funds to pay benefits currently due.

g. Benefit payments guaranteed by the PBGC

If a single-employer plan terminates without sufficient funds to pay all benefits, the PBGC will take over the plan and pay pension benefits through its insurance program. Most participants and beneficiaries receive all of the pension benefits they would have received under the plan, but some may not be guaranteed.

The PBGC pays pension benefits up to certain maximum limits. The maximum guaranteed benefit is \$4,500 per month, or \$54,000 per year, payable in the form of a straight line annuity, for a participant aged 65 in a plan that terminates in 2009. The maximum benefit may be reduced for an individual who is younger than age 65. The maximum benefit will also be reduced when a benefit is provided to a survivor of a plan participant.

The PBGC guarantees basic benefits earned before a plan is terminated, which includes:

- Pension benefits at normal retirement age;
- Most early retirement benefits;
- Annuity benefits for survivors of plan participants; and
- Disability benefits for a disability that occurred before the date the plan terminated.

The PBGC does not guarantee certain types of payments, which include:

- Benefits in which a participant has not vested;
- Benefits which a participant is ineligible to receive due to age, service or other requirements at the time the plan terminates;
- Benefit increases and new benefits that have been effective for less than one year at the time the plan terminates;
- Benefit increases and new benefits that have been effective for less than five years are only partly guaranteed;

Husky Refining Company

Pension Plan

Notes to Financial Statements

December 31, 2009 and 2008

- Benefits other than pension benefits, such as health insurance, life insurance, death benefits, vacation pay or severance pay are not guaranteed;
- Lump-sums greater than \$5,000 are generally not paid.

Even if certain benefits are not guaranteed, participants and beneficiaries still may receive some of those benefits from the PBGC depending on how much money the terminated plan has and how much the PBGC collects from the employer.

2. Summary of significant accounting policies:

a) Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

b) Changes in accounting policies

The Plan adopted the provisions of FASB ASC 820, "Fair Value Measurements" for its assets measured at fair value on a recurring basis, effective January 1, 2008. ASC 820 established a framework for measuring fair value and expands disclosures about fair value measures. The adoption of ASC 820 by the Plan effective January 1, 2008 did not affect the financial statements but did result in additional disclosures in respect of fair value measures.

In January 2010, the FASB issued additional guidance on the disclosure of fair value measurements, related to transfers in and out of levels 1 and 2, and separate disclosure about purchases, sales, issuances and settlements in level 3. The new guidance also provides clarification on the other disclosures related to the level of disaggregation among assets and liabilities and to the inputs and valuation techniques used to measure fair value. As this new guidance provides only disclosure requirements, the adoption will not have any effect on the Plan's reported net assets or changes in net assets.

In September 2009 the FASB issued ASU 2009-12, which amends FASB ASC 820, *Fair Value Measurements and Disclosures*. This guidance allows, as a practical expedient, the use of net asset value (NAV) as the basis to estimate fair value for certain investments. Additionally, the guidance provides updated disclosures for investments within its scope. This guidance is effective for interim and annual periods ending after December 15, 2009 with early adoption permitted. The Company adopted this guidance effective December 31, 2009. This did not have a material impact to the Plan.

c) Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated benefits at the date of the financial statements. Actual results could differ from those estimates.

d) Investment Valuation and Income Recognition

Investments are stated at fair value. The Plan's investments are valued at the share values supplied by the fund administrator, determined using closing market prices. The difference between the fair value and cost of the fund at the beginning and end of each year and net realized gain (loss) on sales of investments is reflected in the statement of changes in the net assets available for benefits as net appreciation (depreciation) in fair value of registered investment company. Security transactions are recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Interest is recorded as earned.

The following table discloses the fair value of investments held by the Plan at December 31, 2009 and 2008:

	Fair value at December 31,	2009	2008
Vanguard Short-Term Treasury Fund Admiral Shares		5,114,303	1,098,410

Husky Refining Company

Pension Plan

Notes to Financial Statements

December 31, 2009 and 2008

e) Administrative Expenses

The Company currently pays expenses incurred in respect of the operation and administration of the Plan. Any expenses not paid by the Company may be paid by the Trustee out of the Plan's assets, subject to any restrictions of laws or Plan provisions.

f) Accumulated Plan Benefits

The Plan's actuary estimates the accumulated plan benefits in accordance with generally accepted actuarial principles and practices.

Accumulated plan benefits are those actuarially estimated future periodic payments, including lump sum distributions that, under the Plan's provisions, are attributable to service rendered by the participants to the valuation date. Accumulated plan benefits include benefits expected to be paid to retired or terminated participants and their spouses or designated beneficiaries and currently employed participants and their spouses or designated beneficiaries. Benefits payable under all circumstances (retirement, death and termination of employment) are included to the extent that they are deemed attributable to the employee service rendered prior to the valuation date.

g) Actuarial Estimates and Assumptions

The present value of accumulated plan benefits is calculated by adjusting the total estimated future periodic payments to reflect the time value of money and the probability of payment including mortality, disability, termination and retirement between the valuation date and the expected date of payment.

Significant assumptions include:

Average retirement age	Rates vary by age (rates do not vary by service, gender or participant group)
Interest rate	6.33% - 2008 5.94% - 2007
Interest rate used for determining lump sum distributions (Segment Rates)	5.44%/5.95%/5.41% - 2008; 4.85%/5.02%/5.09% - 2007
Interest Crediting Rate	6.58% - 2008; 6.40% - 2007
Mortality	Separate IRS-prescribed RP-2000 healthy annuitant and non-annuitant tables with "static" projection of assumed mortality improvements. This table is updated each year for mortality improvements.
Mortality basis for calculation of lump sum distributions	The mortality table prescribed for purposes of Section 417 (e)(3)(B) of the Code, as determined from time to time by the Secretary of the Treasury. This table is updated each year for mortality improvements.
Discount rate	6.00% - 2008; 6.10% - 2007
Funding Method	Contributions from the Company based upon determinations made annually by the Plan's actuaries, in accordance with an accepted actuarial cost method.

These actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Interest rates used to determine lump-sum distributions under the Plan are updated in accordance with statutory requirements and the provisions of the Plan.

Husky Refining Company

Pension Plan

Notes to Financial Statements

December 31, 2009 and 2008

In accordance with ASC 960, "Accounting and Reporting by Defined Benefit Pension Plans" the Plan has elected the option to measure accumulated plan benefits at the beginning of the Plan year.

For the period ended December 31, 2008, changes in actuarial assumptions primarily represent changes in the interest crediting rate applied to the cash balance formula and the interest rates and mortality used to determine lump sum distributions in accordance with statutory requirements and the provisions of the Plan.

h) Payment of Benefits

Benefit payments are recorded upon distribution.

3. New Accounting Standards:

In January 2010, the Financial Accounting Standards Board ("FASB") issued ASU 2010-06, which amends FASB ASC 820 (pre-codification Financial Accounting Standard 157), *Fair Value Measurement and Disclosures*. This guidance requires new disclosures and provides amendments to clarify existing disclosures. The new requirements include disclosing transfer in and out of Levels 1 and 2 fair value measurements, describing reasons for the transfers and disclosing more disaggregated information related to the activity in Level 3 fair value measurements. The clarification of existing disclosure guidance includes further disaggregation of fair value measurements by providing fair value measurement disclosures for each class of assets and liabilities and providing disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements. The guidance also includes conforming amendments to the guidance on employers' disclosures about the postretirement benefit plan assets. This guidance is effective for interim and annual reporting periods beginning after December 15, 2009, except for the new disclosures regarding the activity in Level 3 measurements, which shall be effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. The Plan will adopt this guidance for Plan years beginning on or after January 1, 2010, except for the new disclosure regarding the activity in Level 3 measurements, which the Plan will adopt effective January 1, 2011.

In May 2011, the FASB issued ASU No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*. The new standard provides additional disclosures and clarifications of existing guidance to align with IFRS. A nonpublic entity is required to apply the ASU prospectively for annual periods beginning after December 15, 2011. A nonpublic entity may elect to adopt the requirements early, but no earlier than interim periods beginning after December 15, 2011. The Plan will adopt this guidance for Plan years beginning on or after January 1, 2012.

4. Investments:

The Plan's investment funds are managed by the Trustee who has discretionary investment authority over the investment of the Plan's funds. The Committee is responsible for the selection of the Plan's investment managers but not the underlying investments. Neither the Committee nor the Trustee is involved in the investment funds' day-to-day investment operations.

The Plan's investments are currently held in the Vanguard Short-Term Treasury Fund, which invests at least 80% of its assets in U.S. Treasury securities that are backed by the U.S. government.

5. Fair Value Measurements:

FASB ASC 820 establishes a framework for measuring fair value which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The three level valuation hierarchy is based upon the transparency of inputs to the valuation of an asset as of the measurement date.

The three levels are defined as follows:

- Level 1 – inputs to the valuation methodology are unadjusted quoted prices in active markets for identical assets that the Plan has the ability to access at the measurement date.
- Level 2 – inputs to the valuation methodology are observable for the asset (other than quoted prices included in level 1), either directly or indirectly. Observable inputs are those that reflect the assumptions market participants would use in pricing the asset developed on market data obtained from sources independent of the Plan.
- Level 3 – inputs to the valuation methodology are unobservable and significant to the fair value measurement. Unobservable inputs are those that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing the asset, developed based on the best information available in the circumstances.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The following table presents the financial instruments carried at fair value as of December 31, 2009 and 2008 by ASC 820 valuation hierarchy (as described above) The Plan has no investments classified within level 3 of the valuation hierarchy.

	Quoted prices in active markets	Significant other observable inputs	Significant unobservable inputs	Total
	Level 1	Level 2	Level 3	
December 31, 2009				
Registered Investment Company	\$5,114,303	\$ -	\$ -	\$5,114,303
December 31, 2008				
Registered Investment Company	\$1,098,410	\$ -	\$ -	\$1,098,410

There were no transfers between levels 1, 2 or 3 in 2009 and 2008.

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimates and assumptions process, it is at least reasonably possible the changes in these estimates and assumptions in the near term would be material to the financial statements.

7. Information Certified by the Plan's Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting under ERISA. Accordingly as permitted under such election, the Plan administrator has obtained certifications from the Trustee of the Plan that all information provided by them is complete and accurate.

Information included in the accompanying financial statements and notes to financial statements as to assets, investment income and all information in the supplemental schedules are presented in reliance solely upon those certifications. The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements, notes to financial statements and supplemental schedules.

8. Tax Status

The Plan obtained a determination letter dated March 24, 2009 in which the Internal Revenue Service stated that the Plan is designed in accordance with applicable sections of the Internal Revenue Code ("Code"). The Plan administrator believes that the Plan is designed and has been operated in compliance with the Code and therefore, the related trust is tax exempt. Accordingly, no provision for federal income taxes has been made in the accompanying financial statements.

GAAP require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that is more likely than not would not be sustained upon examination by the Internal Revenue Service ("IRS"). The plan administrator has analyzed the tax positions taken by the Plan, and concluded that as of December 31, 2009, there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. In general, the plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

9. Subsequent Event

The Plan evaluated subsequent events through June 2, 2011, the date the financial statements were issued. The Company amended the Plan in February 2011 whereby eligibility and accrued benefits under the Plan were frozen effective April 1, 2011 for Non-represented Participants. As a result, benefits for Non-represented Participants will be determined by years of credited service and average monthly compensation as of March 31, 2011. Non-represented Participants will continue to earn years of service for vesting purposes. In all other respects the Plan remains unchanged.

10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of the investment income per the financial statements to the Form 5500:
