1. Plan Description

The following description of the J Curt, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more comprehensive description of the Plan's provisions.

a) *General* – The Plan is a 401(k) defined contribution plan covering all full-time employees of J Curt, Inc. (the "Company") who have completed one year of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

b) *Contributions* – Each year participants may contribute up to 100% of pretax annual compensation, as defined by the Plan, subject to certain limitation under the Internal Revenue Code ("IRC"). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit plans or defined contribution plans. The Company contributes 100% of the first 3% and 50% of the next 2% of compensation that a participant contributes to the Plan. Additional profit sharing amounts may be contributed at the discretion of the Company's Board of Directors. Contributions are subject to certain limitations.

   Participants direct the investment of their contributions and the Company's contribution into various investment options offered by the Plan. The Plan currently offers various mutual funds as investment options for participants. Participants may change their investment options at any time via the telephone or internet.

c) *Participants Accounts* – Each participant's account is credited with the participant's contributions and allocation of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

d) *Vesting* – Participants are vested immediately in their contributions and the Company's matching contributions, plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts is based on years of continuous service. A participant is vested 100% after six years of credited service or upon the events of death, disability or attaining normal retirement age with five years of credited service. Normal retirement age is 55.

e) *Notes receivable from Participants* – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The notes are secured by the balance in the participant's account and bear interest at prime rate plus 1.0%, which is commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

   As a result of the adoption of the Financial Accounting Standards Board's (FASB) Accounting Standards Update 2010-25, Plan Accounting—Defined Contribution Plans, the Plan retrospectively classified participant loans as notes receivable from participants in the statements of net assets available for benefits and measured them at their unpaid principal balance plus any accrued but unpaid interest.

f) *Payment of Benefits* – In the case of retirement, death, disability or termination of employment, participants may elect to receive the vested accumulated value of their account in a lump sum distribution or partial payment.

g) *Forfeited accounts* – At December 31, 2010 there were no forfeited nonvested accounts of terminees. Forfeitures of nonvested balances may be used to reduce employer contributions and/or pay plan expenses.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan to make estimates and assumptions that affect the reported amounts of net assets and changes therein. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain administrative costs of the Plan are paid directly by the Company.

3. Subsequent Events

The Plan has evaluated events and transactions occurring subsequent to December 31, 2010 as of June 14, 2011, which is the date the financial statements were issued. Subsequent events occurring after June 14, 2011 have not been evaluated by management. No material events have occurred since December 31, 2010 that require recognition or disclosure in the financial statements.

During 2010 the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated by $39,374.

6. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds – Valued at net asset value (NAV) of shares held by the Plan at year end. The net asset value is a publicly quoted price in an active market.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value.

	Investment Assets at Fair Value as of December 31, 2010			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 293,883	$ –	$ –	$ 293,883
Total investments at fair value	$ 293,883	$ –	$ –	$ 293,883

7. Risks and Uncertainties

The Plan utilizes various investment instruments, which are exposed to various risks, such as interest rates, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

8. Related Party Transactions

Ascensus, Inc. and Frontier Trust (an Ascensus company) are the current record keeper and custodian of the Plan and qualify as parties-in-interest. Fees paid by the Plan to Ascensus and Frontier Trust were $250 in 2010.

9. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

10. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008 that the Prototype Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.
