Notes to the Financial Statements

(1) Plan Description

The following description of the L-3 Chesapeake Sciences Corporation 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more comprehensive description of the Plan's provisions.

General

The Plan was a defined contribution plan covering all eligible employees of L-3 Chesapeake Sciences Corporation who were age 21 or older. After three months of service, participants were eligible for the employer's discretionary contribution. After eligibility requirements were met, employees could enroll in the Plan on the first available entry date. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Effective January 30, 2009, the shareholders of Chesapeake Sciences Corporation sold 100% of the outstanding common stock to L-3 Communications Corporation and subsequently changed its name to L-3 Chesapeake Sciences Corporation (the "Company").

On November 18, 2010, the Plan merged with and into the L-3 Communications Master Saving Plan (the "MSP").

Contributions

Contributions were made by the Company on behalf of the employee participants who had agreed to have deductions made from their eligible compensation. Participants were permitted to contribute to the Plan on a pre-tax basis, subject to the limitations specified in the Internal Revenue Code. Participants were also able to roll over amounts representing distributions from other qualified defined benefit or contribution plans.

Effective October 15, 2010, the Company froze the plan, terminating employee contributions and the Company's Safe Harbor, matching and discretionary contributions. Discretionary contributions were at the option of the Company's Board of Directors. Employer contributions made to the Plan for 2010 amounted to \$235,366.

The employer contribution amounted to \$686,034 for the year ended December 31, 2009 and included \$392,547 discretionary contributions, \$258,796 corrective contributions and \$34,691 for reinstated forfeiture balances. The corrective contributions represented the deferral calculated on bonuses paid during 2002 – 2008 plus lost earnings.

Individual contributions were limited by Federal Tax legislation. The limit for 2010 401(k) employee contributions was \$16,500 per participant under fifty years of age and \$22,000 for participants fifty years of age and over.

Notes Receivable from Participant Accounts

Participant loans were allowed under the Plan for amounts up to fifty percent of the participant's vested balance not to exceed \$50,000. The loans were collateralized by the balance in the participant's account and must be repaid within five years. During 2010 and 2009, interest rates ranged from 4.25% to 9.75%, which was charged at the prime rate plus one percent. Principal and

interest was paid ratably through payroll deductions.

Participant Accounts

Each participant's account was credited with the participant's contribution and allocations of the Company's contribution, Plan earnings (losses), and charges for an allocation of fees and administrative expenses. Allocations were based on participant earnings or account balances, as defined. Forfeited balances of terminated participants' non-vested accounts were used to reduce future Company contributions. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Payment of Benefits

Participants were entitled to the full value of their vested accounts upon occurrence of termination of employment due to death, disability, or normal retirement (age 65). On termination of service, a participant could elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or as a direct rollover into an IRA or another plan. For account balances greater than \$5,000, the participant had the option to remain in the Plan until normal retirement.

Vesting

Participants were immediately vested in their contributions and actual earnings thereon. The portion of a participant's accrued benefit attributable to the Company's discretionary contributions was vested to the extent designated below:

Years of Service	Percentage Vested
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Effective January 30, 2009, with the acquisition of Chesapeake Sciences Corporation by L-3 Communications Corporation, all unvested employer discretionary contributions became 100% vested to each participant.

Forfeitures

Under the provisions of the Plan, a participant who terminated employment before becoming vested in the Company's discretionary contributions forfeited the unvested amounts when any vested amounts were distributed or, if later, upon the occurrence of five one-year consecutive breaks in service. The nonvested portion was transferred to the Company forfeiture account. If a terminated participant was reemployed by the Company before five consecutive one-year breaks in service, his or her forfeited account was reinstated only if he or she repaid any previously distributed vested amounts. Forfeitures were held in investments selected by the Plan administrator until used to reduce employer contributions. The nonvested forfeited account balance at December 31, 2009

were \$7,741. On November 18, 2010, \$7,741 of forfeitures was transferred to the MSP.

Administrative Costs

Administrative costs of the Plan were paid at the Company's discretion either by the Company or by the Plan.

(2) Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements were prepared under the accrual basis of accounting, except for the recording of benefit payments, as discussed below.

In September 2010, the Financial Accounting Standards Board (FASB) issued an accounting standard for reporting loans to participants by defined contribution benefit plans. This standard requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid balance plus any accrued but unpaid interest. This standard was effective for the Plan beginning with the fiscal period from January 1, 2010 to November 18, 2010, and applied retrospectively to all prior periods presented. This accounting standard did not have a material impact on the Plan's Statement of Net Assets Available for Benefits or the Statement of Changes in Net Assets Available for Benefits.

Valuation of Investments and Income Recognition

The Plan presents in the Statement of Changes in Net Assets Available for Benefits, the net appreciation in the fair value of the Plan's investments, which consisted of realized gains or losses and the unrealized appreciation (depreciation) of those investments. Interest income was recorded as earned. Purchases and sales of investments were accounted for on a trade-date basis. See Note 5 for a description of the valuation methodologies of the Plan.

Payment of Benefits

Benefits were recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results will differ from those estimates.

Subsequent Events

The Plan continues to evaluate events after the Statement of Net Assets Available for Benefits date through July 1, 2011, the date the financial statements were available to be issued.

(3) Financial Information Certified by the Custodian

The Plan's investments were held by ING Life Insurance and Annuity Company (ILIAC), the Plan's custodian. Financial information relating to these investments, including investment value, interest and dividend income, and net appreciation in fair value, is included in the accompanying financial statements, notes and supplemental information based on information provided by the custodian.

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator has obtained certifications from the custodian of the Plan that all of the information provided by them is complete and accurate. The amounts included in the financial statements for investments, at fair value, interest and dividend income and net appreciation in fair value of investments, were provided and certified as complete and accurate by the Plan's custodian as of and for the periods presented. The incorporation of this financial information in the accompanying financial statements is based solely upon that certification and has not been audited by the Plan's independent auditors.

The following information was included in the information certified by the custodian, ILIAC, and was used by the Plan administrator in the preparation of the financial statements and schedules in compliance with ERISA:

- a. Balances in the participant directed investments at December 31, 2009 was \$10,472,400, and
- b. Net appreciation in the fair market value of investments of \$1,177,380 and interest income of \$5,885 for the period from January 1, 2010 to November 18, 2010.

(4) Investments Exceeding 5% of Net Assets

The following table presents the fair value of investments that represent 5 percent or more of the Plan's net assets as of December 31, 2009:

Identity of issue, borrower, lessor or similar party	Description of Investments	2009
Pioneer	Mid Cap Value VTC Port - I	\$ 1,248,721
Pioneer	Equity Income Fund – R.....	1,167,661

ING	Fixed Account.....	726,807
ING	VP Intermediate Bond Port – I.....	618,632

For the fiscal period from January 1, 2010 to November 18, 2010, the Plan's investments (including investments bought, sold, and held during the year) appreciated in value by \$1,177,380 as follows:

Pooled separate accounts.....	\$ 1,155,398

(5) Fair Value Measurements

The Plan applied the provisions for the accounting standard on fair value measurements. The provisions of the standard were applicable to all of the Plan's assets and liabilities that were measured and recorded at fair value. This standard establishes a new framework for measuring fair value and expands related disclosures. This standard defines fair value as the price that would be received for an asset or the exit price that would be paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants. It establishes a fair value hierarchy that gives the highest priority to observable inputs and the lowest priority to unobservable inputs. The three levels of the fair value hierarchy are described below.

Level 1: Quoted market prices available in active markets for identical assets or liabilities as of the reporting date. The Plan has no Level 1 assets.

Level 2: Pricing inputs other than quoted prices in active markets included in Level 1, which were either directly or indirectly observable as of the reporting date. The Plan's Level 2 assets included its pooled separate accounts, whose underlying investments were represented by units of a separate account established to hold pooled money earmarked for investments offered by ING. Each fund in the pooled separate accounts are represented by a Accumulation Unit Value (AUV), whose value are the result of the accumulated value of the underlying investments, which make investments in registered investment companies (whose unit value was based on the current net asset value (NAV) price), dividend distributions, and other income information received from either the clearing corporation or various fund groups.

Level 3: Pricing inputs that were generally unobservable inputs and not corroborated by market data. The Plan's Level 3 asset included its fixed account, which guarantees both principal and interest. For 2009, the fund interest rate was 3.00%, which was reset annually and credited daily. The fund interest rate was established prior to each calendar year and was made available in advance of the calendar year. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. A contract holder was able to request a payout as an annuity distributed at book value, or as a lump sum distribution with a market value adjustment for distributions exceeding 20% of the current value of all plan accounts. All benefits were paid proportionately from the source records in plan accounts. The fixed account was recorded at contract value, which approximates market value.

The investments that were measured at fair value on a recurring basis consisted of the following types of instruments as of December 31, 2009:

	Fair Value Measurements Using Input			
	Type			
December 31, 2009	Level 1	Level 2	Level 3	Total
Pooled separate accounts.....	\$ -	\$ 9,745,593	\$ -	\$ 9,745,593

Total investments measured at fair value	\$ -	\$ 9,745,593	\$ 726,807	\$10,472,400

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the period ended November 18, 2010.

(6) Related Party Transactions

ILIAC and ING National Trust., an affiliate of ILIAC, managed certain Plan investment that totaled \$2,248,882 as of December 31, 2009, therefore, transactions in such investments qualified as related party transactions.

(7) Plan Termination

The Company had the right to terminate the Plan at any time, subject to the provisions of ERISA. In the event of Plan termination, participants would have become 100% vested in their accounts.

(8) Tax Status

The Internal Revenue Service has determined and informed Chesapeake Sciences Corporation on March 31, 2008 that the prototype plan and related trust were designed in accordance with applicable sections of the Internal Revenue Code. Management believes that the Plan was designed and was being operated in such a way as to be qualified under Section 401 of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions by the Plan, and has concluded that as of November 18, 2010, there were no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2007.
