BAKER & TAYLOR RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 AND 2009

1. DESCRIPTION OF PLAN

The following description of the Baker & Taylor Retirement Savings Plan (the “Plan”) provides only general information. Participants should refer to the plan document for a more complete description of the Plan’s provisions.

General - The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The plan covers substantially all full-time employees of Baker & Taylor, Inc. (the “Company”) who meet certain service requirements stipulated by the Plan document.

Contributions - Non-highly compensated participants may contribute between 1% and 50% of their annual before-tax compensation and between 1% and 16% of their annual after-tax compensation, up to a maximum of \$16,500 for both years ended December 31, 2010 and 2009, subject to certain discrimination tests prescribed by the Internal Revenue Code. Highly compensated participants may contribute from 1% to 4% of their annual compensation, subject to limitations referenced above. The Company matches employee pre-tax contributions at 50% of the first 4% of the participant’s compensation that a participant contributed to the Plan for the years ended December 31, 2010 and 2009. A discretionary profit sharing contribution may be made at the option of the Company’s board of directors. The Company did not make any discretionary profit sharing contributions during the years ended December 31, 2010 and 2009. Participants may also contribute rollover amounts representing distributions from other qualified defined benefit or defined contribution plans.

Participant Accounts - Each participant’s account is credited with the participant’s contributions, Company’s contributions, and allocations of Plan earnings or losses and administrative expenses. Allocations for each fund are based on the ratio of weighted average participant account balances to the total weighted average of all participant account balances. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant’s account.

Investment Options - Upon enrollment in the Plan, a participant directs the investment of his or her contributions and Company matching contributions into various investment options offered by the Plan.

Vesting - Participants are immediately vested in their voluntary contributions in addition to actual earnings thereon. Vesting in the Company’s matching and discretionary profit sharing contributions is based on years of service. Prior to normal retirement age, a participant’s interest in the contributions of the employer vest 20% after one year of service, increasing 20% each succeeding year until fully vested after five years of service.

Forfeitures - Benefit payments to terminated employees partially vested in the Plan include their vested portion of Company contributions. The non-vested portion of terminated participants’ account balances is used to reduce future employer contributions and/or pay for the administrative expense of the Plan, as determined by the Company at its sole discretion. As of December 31, 2010 and 2009, forfeited non-vested accounts totaled approximately \$220,000 and \$149,000, respectively. For the years ended December 31, 2010 and 2009, employer contributions were reduced by \$0 and \$8 from non-vested accounts, respectively.

Benefit Payments - Distributions from the Plan may be made upon proper application by a participant for retirement, proven financial hardship, in service (non-hardship), death (in which case the payment is made to the beneficiary), or employment termination, as specified in the Plan agreement.

Notes Receivable From Participants - The Plan permits participants to borrow a minimum of \$500 up to 50% of their vested account balance, not to exceed \$50,000. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 10.25%, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America, except that benefits paid to Plan participants are recorded on a cash basis.

Use of Accounting Estimates - The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of certain assets, liabilities and disclosures. Accordingly, the actual amounts could differ from those estimates. Any adjustments applied to estimated amounts are recognized in the year in which such adjustments are determined.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 5 for disclosure of fair value measurements.

As described in Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 962, *Defined Contribution Pension Plans*, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of net assets available for benefits for a defined contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount that participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective trust. As required by the ASC 962, the Statement of Net Assets Available for Benefits presents the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of net appreciation in fair value of investments.

The change in net unrealized appreciation of investments held from the beginning of the Plan year to the end of the Plan year is included with realized gains (losses) as net investment income reported in the accompanying statements of changes in net assets available for benefits.

The Plan's investment in LLC is comprised of a minority interest ownership in one privately held LLC as of December 31, 2010 and 2009. Management determined the fair value of the investment based upon the value of the LLC's underlying assets and liabilities, less a discount for the minority interest.

Contributions - Contributions from employees are recorded as they are withheld from the participant's wages. Contributions from the Company are recorded in the period in which the related participant contributions are due.

Notes Receivable From Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits - Benefits are recorded when paid.

Reclassifications - Certain amounts in the 2009 financial statements have been reclassified to conform with the 2010 presentation. Such reclassifications had no effect on the reported change in net assets available for benefits.

Subsequent Events - In preparing its financial statements, the Plan has evaluated subsequent events through July 5, 2011, which is the date the financial statements were available to be issued.

3. INVESTMENTS (UNAUDITED)

The Plan's investment assets were held in trust and administered by Fidelity Management Trust Company, (the "Trustee"). All investment information disclosed in the accompanying financial statements and supplemental schedule was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the Trustee.

5. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds: Valued at the net asset value (NAV) of units held by the plan at year end as determined by the fund's vendor or pricing agent.

Common collective trust: Valued at fair value of the underlying investments considering the credit-worthiness of the issuer.

Investment in LLC: Valued at historical cost, net of other debt, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2010:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

6. TRANSACTIONS WITH PARTIES-IN-INTEREST

Certain Plan investments are funds managed by Fidelity Investments, Inc., an affiliate of Fidelity Management Trust Company ("Fidelity"). Fidelity is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund. Certain administrative fees related to the administration of the Plan were paid by the Plan. Certain other third party administrator fees were paid by the Company on behalf of the Plan. These transactions qualify as party-in-interest transactions.

7. PLAN AMENDMENT

On November 1, 2010, the Plan was amended to allow for the transfer of assets and liabilities of eligible participants in the Blackwell's Book Services Retirement Savings Plan into the Plan. Eligible employees are certain former employees of Blackwell North America, Inc. that became employees of the Company on or about November 1, 2010. During the year ended December 31, 2010, \$364,724 was transferred into the Plan from the Blackwell's Book Services Retirement Savings Plan.

8. TAX STATUS

The Plan was restated effective January 1, 2010. The Plan has applied for a favorable determination letter and is waiting for a response from the IRS. The plan administrator believes the Plan is designed and is operating in accordance with the applicable requirements of the IRC; thus, the Plan and the related trust continue to be tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. The plan administrator has analyzed the tax position taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits of any tax periods in progress. The plan administrator believes it is no longer subject to tax examinations for the years prior to 2007.

9. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

10. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

11. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of the net assets available for benefits per the financial statements to Form 5500 as of December 31:

	<u>2010</u>
Net assets available for benefits per the financial statements	\$ 58,770,677

Net assets available for benefits per Form 5500	<u>\$ 58,792,426</u>

The following is a reconciliation of the change in net assets available for benefits per the financial statements to the Form 5500 for the year ended December 31:

Change in net assets available for benefits per the accompanying financial statements	\$ 5,671,639	\$ 9,793,678
