Note 1 – Description of the Plan

The following description of the Western Disposal, Inc. (the "Company" or "Employer") 401(k) Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

a. **General** The Plan is a defined contribution plan which went into effect January 1, 1986 that is generally available to all employees of the Company (excluding leased employees) who have completed 1 year of eligibility service, as defined, and are age 18 or older. Employees may enter the Plan on the first day of the Plan year and the first day of the fourth, seventh, and tenth months of the Plan year after meeting the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). Benefits under the Plan are not guaranteed by the Pension Benefit Guaranty Corporation.

b. **Plan Amendment** The Plan document was amended and restated effective October 1, 2010.

c. **Contributions** The following types of contributions are allowable under the Plan:

- Elective Deferral Contributions – Participants may contribute a percentage of their pretax earnings, as defined in the Plan document, subject to limitations discussed below.
- Roth Deferral Contributions – Participants may contribute a percentage of their after-tax earnings, as defined in the Plan document, subject to limitations discussed below.
- Safe Harbor Basic Matching Contributions – A safe harbor basic matching contribution is made each pay period in an amount equal to 100% of the amount of each participant's elective and/or Roth deferrals that do not exceed 3% of their eligible compensation, plus 50% of the amount of their elective and/or Roth deferrals that exceed 3% of their eligible compensation but that do not exceed 5% of eligible compensation.
- Rollover Contributions – Amounts distributed to participants from other qualified employee benefit plans may be rolled into the Plan.

All contributions are allocated to the Plan's investment funds at the direction of the participants.

A participant's total elective and Roth deferral contributions cannot exceed $16,500 ($22,000 for participants age 50 or older) in calendar year 2010. The total annual additions to a participant's account may not exceed the lesser of (i) $49,000 or (ii) 100% of the participant's compensation.

d. **Participant Accounts** Each participant's account is credited with the participant's contributions (elective deferrals, Roth deferrals, and rollovers, if any) and an allocation of (a) the Company's contribution (safe harbor basic matching), (b) fund earnings or losses, and (c) administrative expenses, if any. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Note 1 – Description of the Plan (continued)

e. **Vesting** Participants are immediately vested in their elective and Roth deferral contributions, rollover contributions, basic safe harbor matching Employer contributions, and related earnings at all times. Vesting of Employer matching contributions that were not designated as safe harbor contributions ("Non Safe Harbor Matching Contributions") and Employer profit sharing contributions made prior to January 1, 2000, and earnings thereon, is based on years of service as follows:

Profit Sharing Contributions		Non Safe Harbor Matching Contributions	
Years of Service	Vested Percentage	Years of Service	Vested Percentage
Less than 1 Year	0%	Less than 1 Year	0%
1	0%	1	0%
2	20%	2	0%
3	40%	3	100%
4	60%		
5	80%		
6	100%		

Furthermore, participants become 100% vested in the Employer contribution portion of their accounts upon the following events:

- Participant's death;
- Participant becomes disabled as defined under the Plan;
- Participant's normal retirement date; or
- Upon termination or partial termination of the Plan.

f. **Forfeitures** When certain terminations of participation in the Plan occur, the non-vested portion represents a forfeiture. Forfeitures are used to reduce administrative expenses or to reduce Employer contributions. For the year ended December 31, 2010, $13,075 of forfeitures were utilized to reduce administrative expenses. As of December 31, 2010 and 2009, unutilized forfeitures were $9,597 and $20,699, respectively.

g. **Investment Options** Participants may direct their investments into various mutual funds and a common collective trust.

h. **Notes Receivable from Participants** Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of (i) $50,000 or (ii) 50% of their vested account balance. Loan terms range from 1 month up to a maximum of 5 years (20 years if used for the purchase of a participant's principal residence). The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1% at the date the loan is granted. Principal and interest payments are paid ratably through payroll deductions.

i. **Payment of Benefits** Benefits to participants or beneficiaries generally are payable as a lump sum equal to the value of their vested account balance upon attainment of normal retirement age, disability, death or termination of the participant. Additionally, participants may request in-service withdrawals of their rollover contributions account, upon attainment of age 59½, or if they incur a financial hardship, as defined in the Plan document, if certain criteria are met.

Note 1 – Description of the Plan (continued)

j. **Administrative Expenses** Certain administrative expenses incurred in connection with the Plan are paid by the Plan. For the year ended December 31, 2010, the Plan paid $19,601 in administrative fees. All other costs incurred in connection with the Plan are paid by the Company.

Note 2 – Summary of Significant Accounting Policies

a. **Basis of Accounting and Use of Estimates** The financial statements of the Plan are prepared using the accrual basis of accounting. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from those estimates.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective trust. Contract value for this collective trust is based on the net asset value of the fund as reported by the investment advisor. The Statements of Net Assets Available for Benefits present the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

b. **Investment Valuation and Income Recognition** The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded when earned. Dividends are recorded on the ex-dividend date. Net realized and unrealized gains and losses are shown in the accompanying financial statements as net appreciation in fair value of investments and are determined as the difference between fair value at the beginning of the year (or date purchased during the year) and selling price or year end fair value.

c. **Notes Receivable from Participants** Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

d. **Benefit Payments** Benefits are recorded when paid.

e. **Reclassifications** Certain amounts in the 2009 financial statements have been reclassified in order to conform with the current year presentation.

f. **Subsequent Events** Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through June 28, 2011, which is the date the financial statements were available to be issued.

Note 4 – Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 4 – Fair Value Measurements (continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used at December 31, 2010 and 2009. The following is a description of the valuation methodologies used for assets measured at fair value:

- Mutual funds and the common collective trust are valued at the net asset value ("NAV") of shares/units held by the Plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010:

	Assets at Fair Value as of December 31, 2010

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2010, there were no significant transfers in or out of levels 1, 2 or 3.

Note 5 – Information Certified by the Trustee

The Plan administrator has elected the method of annual reporting and compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee of the Plan has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2010 and 2009, and Note 3;
- Notes receivable from participants, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2010 and 2009;
- Investment amounts within the fair value tables, as shown in Note 4;
- Adjustment from fair value to contract value for interest in collective trust relating to fully benefit-responsive investment contracts, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2010 and 2009, and Note 6;
- Investment income, as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2010, and Notes 3 and 6;
- Interest income on notes receivable from participants, as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2010, and Note 6; and
- The investment information in the Schedule of Assets (Held at End of Year) as of December 31, 2010, as shown in the supplemental schedule.

Note 5 – Information Certified by the Trustee (continued)

The Plan's independent auditors did not perform auditing procedures with respect to this information except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 6 – Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2010 and 2009:

	2010	2009

Adjustment from fair value to contract value for fully benefit responsive investment contracts	**7,189**	2,695
Deemed distributions of participant loans	**(1,756)**	(1,756)
Net assets available for benefits per the Form 5500 (unaudited)	**$ 9,754,345**	$ 8,736,025

The following is a reconciliation of investment income and interest income on notes receivable from participants per the financial statements to investment income per the Form 5500 for the year ended December 31, 2010:

Total investment income per the financial statements	**$ 1,025,830**

Adjustment from fair value to contract value for fully benefit responsive investment contracts	**4,494**
Total investment income per the Form 5500 (unaudited)	**$ 1,066,878**

Note 7 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination or partial termination, affected participants will become 100% vested in their accounts.

Note 8 – Income Taxes

The Company has adopted a Vanguard Fiduciary Trust Company Prototype Non-Standardized Plan Document ("prototype plan"). The prototype plan received a favorable opinion letter from the IRS on March 31, 2008 which stated that the prototype plan is qualified under the applicable sections of the Internal Revenue Code ("IRC"). Although the prototype plan and Plan have been amended since receiving the IRS determination letter, the Plan administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan is qualified under Section 401(a) of the IRC and the related Trust is tax exempt as of December 31, 2010 and 2009. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 8 – Income Taxes (continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note 9 – Party-In-Interest Transactions

Certain Plan investments are shares/units of mutual funds and a common collective trust managed by Vanguard Fiduciary Trust Company ("Vanguard"). As Vanguard is the trustee of the Plan, these transactions qualify as party-in-interest transactions. Additionally, the Plan maintains investments in participant loans. Fees paid for services rendered by parties-in-interest were based on customary and reasonable rates for such services.

Note 10 – Risks and Uncertainties

The Plan provides for various investment options in mutual funds and a common collective trust. Investment securities, in general, are exposed to various risks, such as significant world events, interest rate, credit, and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts presented in the statements of net assets available for benefits.
