Wabash Electric Supply, Inc. 401(k) Plan
Wabash, Indiana

We were engaged to audit the accompanying statements of net assets available for benefits of the Wabash Electric Supply, Inc. 401(k) Plan as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the schedule of assets (held at end of year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investments, which were certified by United of Omaha Life Insurance Company, the Custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the Custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the Custodian as of December 31, 2010 and 2009, and for the year ended December 31, 2010, that the information provided to the Plan administrator by the Custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the investment information certified by the Custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Plan Description

Overview

The Wabash Electric Supply, Inc. 401(k) Plan (the "Plan") is a defined contribution plan, which was established to provide financial security during retirement years. The Plan covers all eligible employees of Wabash Electric Supply, Inc. (the "Employer") who are 18 years of age and have completed at least one year of service. Employees may enter the Plan on January 1, April 1, July 1, and October 1 following completion of the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan was most recently restated, effective January 1, 2009, to be in compliance with recent tax provisions. The provisions of the Plan are included in the official Plan document, which legally governs the operations of the Plan and is available for more detailed information.

Contributions

Employees may make voluntary pre-tax contributions of 1% to 100% of compensation up to the dollar limits set by the Internal Revenue Code. The Employer matches a percentage of the participant's elective deferral provided the participant has completed at least 1,000 hours of service. The Employer may provide a matching contribution of the participant's elected salary reduction, subject to a 5% maximum of the employee's compensation. The Employer did not provide a matching contribution for the year ended December 31, 2010. In addition, the Employer may provide a discretionary profit sharing contribution, allocated based on eligible wages. The Employer did not provide a discretionary profit sharing contribution for the year ended December 31, 2010.

Forfeitures

Participants who terminate from the Plan prior to becoming fully vested must forfeit a percentage of their Employer contributions. These forfeitures are used to reduce future Employer contributions and pay Plan expenses. Forfeitures of approximately \$4,000 were used to pay Plan expenses for the year ended December 31, 2010. There is approximately \$3,900 available in the forfeiture account to offset future Employer contributions and cover Plan expenses.

Participant Accounts

Each participant's account is credited with Employer contributions, if provided, plus an allocation of Plan earnings. Plan earnings are allocated to participants' accounts on a pro rata basis. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. All amounts in the participant accounts are participant directed.

Investment Options

Participants have the option of directing their contributions into various pooled separate accounts and one guaranteed fixed fund offered through United of Omaha Life Insurance Company.

WABASH ELECTRIC SUPPLY, INC. 401(K) PLAN

Notes to Financial Statements (Continued)

December 31, 2010

Note 1. Plan Description (Continued)

Notes Receivable from Participants

Participants could borrow from their fund accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or one half of their vested account balance. Loans were to be repaid in five years or less unless the loan was for the purchase of a principal residence. The loan interest rate was based on prime rate plus 1%. Principal and interest was paid through payroll deductions. Effective April 1, 2006, new notes were no longer permitted. All notes were paid off by December 31, 2010.

Benefit Payments

Upon termination of employment, retirement, disability, or death, distributions are made in lump-sum, installment payments, or annuity contracts equal to the value of the participant's vested interest in his or her account. In-service distributions from vested amounts may be made to a participant who has not separated from service provided he or she has attained age 59 1/2. Hardship distributions are also allowed as described in the Plan.

Vesting

Vesting is based on years of service. Participants begin vesting in employer contributions after two years of service at 20% and increase 20% each year until full vesting after six years of service, or at normal retirement age, early retirement age, or death. Participants are always 100% vested in any salary deferral contribution to the Plan.

Termination

Although the Employer has not expressed any intent, the Employer has the right to terminate the Plan. In the event the Plan is terminated, each participant will automatically become 100% vested and a lump sum distribution will be made to the participant.

Note 2. Significant Accounting Policies

Basis of Financial Statements

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

WABASH ELECTRIC SUPPLY, INC. 401(K) PLAN

Notes to Financial Statements (Continued)

December 31, 2010

Note 2. Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Income Tax Status

The Plan is a prototype plan of Retirement Financial Services, Inc., which obtained its latest determination letter on March 31, 2008, stating that the Plan is a qualified plan under Section 401 of the Internal Revenue Code. The Internal Revenue Service stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan sponsor and Plan administrator are not aware of any course of action or series of events that have occurred that would adversely affect the qualified status of the Plan.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the IRC. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts in the financial statements and accompanying notes. Actual results could differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest.

Payment of Benefits

Benefit payments to participants are recorded when paid.

WABASH ELECTRIC SUPPLY, INC. 401(K) PLAN

Notes to Financial Statements (Continued)

Note 2. Significant Accounting Policies (Continued)

Subsequent Events

Management of the Plan has evaluated events and transactions for possible recognition or disclosure through June 20, 2011, the date the financial statements were available to be issued.

Contributions received from participants for 2010 are net of payments of \$19,667 made in 2011 to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. Net realized and unrealized appreciation in fair value of investments was reduced by allocable income of \$1,422 related to excess deferral contributions. The total of the corrective distributions is also included in the Plan's statement of net assets available for benefits as excess contributions payable at December 31, 2010.

Note 3. Information Certified by the Plan's Custodian

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified by the Custodian, United of Omaha Life Insurance Company, and was not subjected to any auditing procedures performed by the independent public accountants:

- a. Total investments as shown in the accompanying statements of net assets available for benefits.
- b. Net investment earnings, as shown in the accompanying statement of changes in net assets available for benefits, including interest income and net realized and unrealized appreciation in fair value of investments.

Note 4. Significant Investments

The market value of investments that represent 5% or more of the Plan's net assets are summarized below:

Stock Market Index Fund	793,333

Note 5. Fair Value Measurements

The Plan utilizes the Fair Value Measurements framework which defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and establishes a hierarchy which prioritizes inputs to valuation techniques used to measure fair value into three broad levels. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include: <ul style="list-style-type: none">• quoted prices for similar assets or liabilities in active markets;• quoted prices for identical or similar assets or liabilities in inactive markets;• inputs other than quoted prices that are observable for the asset or liability;• inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.</p>
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 5. Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Pooled separate accounts: Fair value is estimated by United of Omaha Life Insurance Company based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of participation units outstanding (commonly referred to as the net asset value). The value of the underlying investments is primarily provided by outside pricing services for bonds and stocks and transfer agents for the mutual funds.

Guaranteed investment contracts: Fair value is estimated by discounting the cash flows of the guaranteed account using a discount rate that represents the interest rate that would be credited on accounts of similar duration.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments measured at fair value on a recurring basis as of December 31, 2010 and 2009.

WABASH ELECTRIC SUPPLY, INC. 401(K) PLAN

Notes to Financial Statements (Continued)

December 31, 2010

Note 6. Guaranteed Investment Contracts

The Plan's guaranteed investment contracts (Guaranteed Account) with United of Omaha Life Insurance Company is considered fully benefit-responsive. United of Omaha Life Insurance Company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The average yield and crediting interest rate were approximately 2.62% and 2.75% for the years ended December 31, 2010 and 2009, respectively. There is no minimum crediting interest rate.

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with United of Omaha Life Insurance Company. The Plan administrator believes the occurrence of such events that would limit the Plan's ability to transact at contract value with Plan participants is not probable.

Note 7. Transactions with Parties-In-Interest

The Employer provides certain accounting, recordkeeping, and administrative services for the Plan for which it receives no compensation. Administrative expenses for legal, accounting, and other services are rendered by parties-in-interest and are paid by the Employer. The Plan invests in pooled separate accounts affiliated with and a fixed income fund sponsored by the Custodian.

Note 8. Risks and Uncertainties

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
