SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
for the year ended December 31, 2010

1. Description of Plan:

The following description of the DiPasqua Enterprises, Inc. (Company) Savings Plan (Plan), provides only general information. Effective August 20, 2009, the Plan was restated from the original Plan established October 1, 1991. On November 15, 2010, the Plan was amended to allow ROTH contributions. The Plan, as restated, is a trusteed profit sharing 401(k) salary deferred thrift plan. Participants should refer to the Plan agreement, as amended, and annuity contract for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of the Company who have one year of service, attained age eighteen, and have at least 1,000 hours of service during the year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Employees may elect to contribute to the Plan through salary deferrals subject to Plan limitations. The Company may contribute a discretionary matching percentage of such salary deferral on deferrals up to 5% of employee compensation. Additionally, the Company may elect to contribute to the Plan such portion of its current net profit or accumulated profit for its fiscal year as the Board of Directors may determine.

Participant Accounts - Each participant's account is credited with an allocation of (a) his/her elective deferral contributions, (b) the Company's matching and profit sharing contributions, (c) Plan earnings (losses) and, (d) forfeitures of terminated participants' nonvested accounts. Profit sharing contributions are allocated based on the fiscal year compensation of the participants.

Vesting - Employee contributions are always 100% vested. Participants are vested in the employer's contributions and plan earnings (losses) according to the following table:

2. Summary of Significant Accounting Policies:

Basis of Accounting - The accompanying financial statements are prepared on the accrual basis of accounting.

Accordingly, actual results may differ from those estimates.

2. Summary of Significant Accounting Policies - Continued

Fair Value Measurements - The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

Level 1 Inputs - Fair values are based on quoted prices (unadjusted) in active markets for identical assets that the plan has the ability to access at the measurement date (e.g. prices derived from NYSE, NASDAQ or Chicago Board of Trade). None of the investments were assigned an input level of 1 because they are held in separate accounts for which there is no publicly quoted price.

Level 2 Inputs - Fair values are based on inputs other than quoted price included within level 1 that are observable for valuing the asset or liability, either directly or indirectly (i.e. interest rate and yield curves observable at commonly quoted intervals, default rates, etc.). Observable inputs include quoted price for similar assets or liabilities in active or non-active markets. Level 2 inputs may also include insignificant adjustments to market observable prices.

Level 3 Inputs - Fair values are based on unobservable inputs used for valuing the asset or liability. Unobservable inputs are those that reflect the plan's own assumptions about the assumptions that market participants would use in pricing the asset, based on the best information available in the circumstances. An example could be real estate valuations, which require significant judgment.

Payment of Benefits - Benefit payments to participants are recorded upon distribution.

6. Forfeited Accounts:

For the year ended December 31, 2010, forfeited nonvested accounts of withdrawing participants was $4,743. During 2011, this amount will be applied first to administrative expenses then the balance will be distributed among the remaining participants in accordance with the Plan agreement, as amended.

7. Tax Status:

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. The Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

8. Subsequent Event:

In preparing these financial statements, the Company has evaluated events and transactions for potential recognition or disclosure through July 7, 2011, the date the financial statements were available to be issued.
