THREEWITT ENTERPRISES, INC. 401(K) PROFIT SHARING PLAN
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2010 and 2009

NOTE 1 - DESCRIPTION OF PLAN

The Threewitt Enterprises, Inc. 401(k) Profit Sharing Plan (the "Plan") is a retirement savings plan designed to invest voluntary pre-tax employee contributions, matching employer contributions and discretionary employer contributions for the benefit of the participating employees. The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering employees of Northwitt, Inc., Threewings, Inc., Fisher, Lundgren and Slaughenhaupt Inc., Wright Wing Inc., Osuwitt LLC, Westwitt LLC, Atlantic City Submarine LLC, Carolinawitt, Inc. and Southwitt LLC (collectively, the "Company"). Effective January 1, 2011, the Plan will cover the employees of Milano's Bread, LLC. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The assets of the Plan are held by John Hancock Life Insurance Company (U.S.A.) (the "Trustee").

Eligibility

All employees of the Company are eligible to participate in the Plan as of the first enrollment date after completing one year of continuous service or attaining 1,000 hours of continuous service and attaining age of 21. The Plan offers enrollment dates twice a year, on January 1 and July 1.

Contributions

The Company makes a matching contribution biweekly. The matching contribution is equal to 50 percent of the eligible participant's first four percent of compensation deferred to the Plan. The Company's contributions for the years ended December 31, 2010 and 2009 were $55,914 and $46,749, respectively. The Company may also make discretionary contributions. No discretionary contribution was made for the years ended December 31, 2010 and 2009.

Eligible participants may contribute up to 100 percent of their annual compensation on a pre-tax basis, limited by current maximum amounts as determined by law. In addition, the Plan contains a catch-up option for participants who have attained age 50 before the end of the plan year, permitting them to make additional elective deferral. Participants direct the investments of their contributions into various investment options offered by the Plan.

Rollovers

Participants may transfer eligible cash distributions from any other employer sponsored qualified plan as defined by the Internal Revenue Code ("IRC").

Forfeitures

Forfeitures are credited to the forfeiture reserve account upon the occurrence of the participant incurring his or her fifth consecutive one-year break in service following a participant's termination of employment. Any amount in the forfeiture reserve account may be applied to Plan expenses or used to reduce the employer contribution. Total forfeitures were $2,965 and $768 for the year ended December 31, 2010 and 2009, respectively.

Investment Options

Participants direct the investment of their contributions into various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution and (b) Plan earnings. All accounts are valued daily by the Trustee. Allocations are based on participant compensation or account balance, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in their voluntary contributions plus earnings thereon. All contributions made under the Safe Harbor Matching formula prior to January 1, 2008 are immediately 100 percent vested for an employee plus earnings thereon. Effective January 1, 2008, the vesting percentage in the employer matching contributions is determined according to the following schedule:

Completed Years Of Service	Vested Amount
2	20%
3	40%
4	60%
5	80%
6 or more	100%

An employee's ownership of any profit sharing contributions is based on years of continuous service and follows the vesting schedule above.

Payment of Benefits

On reaching normal retirement age of 65 or termination of service, a participant may elect to receive a lump sum payment. The participant also has the option of deferring payment until their normal retirement date. Balances of terminating participants of less than $1,000 will be involuntarily distributed to the participant as a lump sum distribution of the value of the entire vested portion of the account balance and the non-vested portion will be treated as a forfeiture. For balances of terminating participants of less than $5,000 but greater than $1,000, the Plan shall make automatic rollovers of the value of the entire vested portion of the account balance into an individual retirement account and the non-vested portion will be treated as a

forfeiture. For terminating participants with account balances greater than $5,000, such amounts may be distributed in a lump-sum, for the entire vested portion of the account balance and the non-vested portion will be treated as a forfeiture, only at the request of the participant.

Participant Loans

Under the Plan document, eligible participants have a loan option available to them. The minimum amount to be borrowed is $1,000. The maximum amount to be borrowed is the lesser of $50,000 or 50 percent of the participant's vested account balance. Principal and interest payments are made through payroll withholding according to each loan's term per the promissory note. Loans bear interest at a commercially reasonable rate of interest, as defined under the Plan document, at the time of loan approval.

Administrative Fees

A portion of the administrative fees are paid by the Plan. Other administrative fees, including legal and professional fees, are paid by the Company as Plan Sponsor.

Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the basis financial statements and related notes to the financial statements. Actual results could differ from those estimates.

Fair Value of Financial Instruments

Fair value estimates are made at a specific point in time based on relevant market information about the financial instrument. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and, therefore, cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

As required by the Fair Value Measurements and Disclosures Topic ("FASB ASC 820") of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC"), the Plan adopted Accounting Standard Update No. 2010-06, Improving Disclosures about Fair Value Measurements, which amends FASB ASC 820. The amended guidance requires additional disclosures regarding assets and liabilities that are transferred between levels within the fair value hierarchy and about the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. Plans are also required to disclose information in Level 3 roll-forward about purchases, sales, issuances and settlements on a gross basis effective for fiscal years beginning after December 31, 2010.

Investment Valuation

The Plan's investments are stated at fair value at December 31, 2010 and 2009. Investments in pooled separate accounts are valued at the market value of shares held by the Plan at year end. Gains and losses on investments that were purchased, sold or held during the year are included in net appreciation (depreciation) in fair value.

As described in the Defined Contribution Pension Plans Topic of the FASB ASC, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for the portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As of December 31, 2010 and 2009, the contract value of fully benefit-responsive investment contracts approximate fair value. Therefore, no adjustment to contract values is required.

Income Recognition

Investment income consists of interest income. The net appreciation (depreciation) in the fair value of investments consists of realized gains or losses and the unrealized appreciation (depreciation) on those investments. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported based on historical cost.

Participant Loan Receivables

The Plan allows loans in accordance with Plan document. The loans are carried at the unpaid principal balance plus accrued interest. Loans are deemed distributions by the Plan when they are determined to be in default.

Payment of Benefits

Benefits are recorded when paid.

Income Taxes

As required by the Income Taxes Topic of the FASB ASC, the Plan adopted the standards related to Accounting for Uncertainty in Income Taxes, on January 1, 2009. The implementation of this standard did not have a material impact on the Plan's financial statements. The standard requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2006.

Subsequent Events

In accordance with the Subsequent Events Topic of the FASB ASC, the Plan has evaluated subsequent events through July 5, 2011, the date the financial statements were available to be issued.

Reclassification

Certain amounts in the 2009 financial statements have been reclassified to conform to the 2010 presentation.

NOTE 3 - INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

JH Stable Value	$ 77,216	$ 63,680

Total net appreciation in the fair market value of the investments was as follows for the years ended December 31:

	2010	2009
Pooled separate accounts	$ 149,856	$ 215,760
Common/collective trust	987	347
	$ 150,843	$ 216,107

Fair value is a market-based measurement that is determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, the Company uses a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

- Level 1 – Observable inputs such as quoted prices in active markets;
- Level 2 – Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and
- Level 3 – Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions

The classification of fair value measurements within the hierarchy is based upon the lowest level of input that is significant to the measurement. Valuation methodologies used for assets and liabilities measured at fair value are as follows:

- Common/collective trust: Valued based on the underlying investments traded on the active market.

bmf

The methods described above may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of:

NOTE 5 - TAX STATUS

The Company adopted the non-standardized prototype plan of Dynamic Pension Services Inc. The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan Administrator is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status

bmf

and believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 6 - PARTY-IN-INTEREST

Certain Plan investments are shares of pooled separate accounts which are maintained and managed by the Trustee as defined by the Plan and, therefore, these transactions are party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $10,243 and $7,879 for the years ended December 31, 2010 and 2009, respectively.
