NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2010

NOTE 1 - PLAN DESCRIPTION

Lincoln Builders, Inc. established the Lincoln Builders, Inc. 401 (K) Plan (Plan) effective as of October 1, 1989. The following description of the Lincoln Builders, Inc. 401(K) Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering all full-time employees of the Company who have six months of service and are age 21 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974.

Contributions. Each year, participants may contribute up to 15% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers seven mutual funds as investment options for participants. The Company makes a discretionary match from 0 - 100% of the amount of contribution made by participants. Additional profit sharing amounts may be contributed at the option of the Company's Board of Directors. Contributions are subject to certain limitations.

Participant's Accounts. Each participant's account is credited with the participant's contribution, company match, and allocations of (a) the Company's contribution, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant's earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. Participants are immediately vested in their contributions. Vesting in the Company's contribution portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100% vested after 6 years of credited service.

Payment of Benefits. On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over the life expectancy of the individual and or his/her spouse. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts. At September 30, 2010, forfeited nonvested accounts totaled \$4,396. These accounts will be used to pay administrative expenses and to reduce future employer contributions.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNT POLICIES

Basis of Accounting

The Plan's policy is to prepare its financial statements on an accrual basis of accounting; consequently, contributions and investment income are recorded as earned and expenses are recorded when incurred. Investment transactions are recorded on a trade-date basis as required by generally accepted accounting principles. Dividends are recorded on the ex-dividend date.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles require the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The investments in mutual funds of the Plan are valued at fair value on September 30, 2010 and 2009. Quoted market prices are used to value investments. Shares of mutual funds are valued at quoted market prices in active markets which represent the net asset value of shares held by the Plan at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Investments are reported in the financial statements at fair value. Realized gains and losses from security transactions are reported on the average cost method.

Payment of Benefits

Benefits are recorded when paid.

Date of Management's Review

Subsequent events have been evaluated through July 8, 2011, which is the date the financial statements were available to be issued.

401 (K) PLAN

NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2010

NOTE 5 - TAX STATUS

The Internal Revenue Service has determined and informed the Fiduciary by a letter dated March 31, 2008, that the Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 6 - EXCESS CONTRIBUTIONS

For the year ended September 30, 2009, the Plan failed anti-discrimination tests, thereby enacting certain limitations for highly compensated participants. During the year ended September 30, 2010 excess contributions of \$1,733 were distributed to highly compensated participants.

NOTE 7 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 8 - ADMINISTRATIVE COSTS

Administrative expenses consist of audit fees and investment transaction and record-keeping fees. These expenses are paid by forfeitures to the extent they are available. Expenses in excess of forfeitures available are charged to participants on a pro rata basis.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10 - FAIR VALUE MEASUREMENTS

Generally accepted accounting principles establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobserved inputs (level 3 measurements). The three levels of the fair value hierarchy under the accounting standards are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the assets or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measure at fair value. There have been no changes in the methodologies used at September 30, 2010.

Mutual funds: Valued at the net asset value ('NAV') of shares held by the plan at year end. Net asset value is determined by quoted market prices in active markets.

NOTE 10 - FAIR VALUE MEASUREMENTS (Continued)

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of September 30, 2010 and 2009.

Assets at Fair Value as of September 30
