The Cavender Employee Capital Accumulation Plan

We were engaged to audit the financial statements and supplemental schedule of The Cavender Employee Capital Accumulation Plan (the "Plan") as of December 31, 2010 and 2009, and for the years then ended, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management

As permitted by Section 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the financial information certified by Great West Life and Annuity Insurance Company and Orchard Trust Company, LLC, the Custodians of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the Custodians hold the Plan's investment assets and execute investment transactions. The Plan Administrator has obtained certifications from the agent on behalf of the Custodians as of and for the years ended December 31, 2010 and 2009, that the information provided to the Plan Administrator by the agent on behalf of the Custodians is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

1. DESCRIPTION OF PLAN

The following description of The Cavender Employee Capital Accumulation Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Participants of the Plan are eligible employees of Cavender Oldsmobile, Inc., Cavender Autoworks, Ltd. dba Cavender Audi, RHC Automotive, Ltd. dba Saturn of San Antonio, SBC Automotive, ltd. dba Cavender Toyota, Cavender Affiliated, Inc., Cavender's Rodeo Chevrolet, Saturn of San Antonio, and Cavender Toyota, Inc. (the "Company").

General

The Plan is a defined contribution profit sharing plan established by the Companies under the provision of Section 401(a) of the United States Internal Revenue Code (the "IRC"), which includes a qualified cash or deferred arrangement as described in Section 401(k) of the IRC, for the benefit of eligible employees of the Companies.

All employees of the Company who have completed one year of service, as defined, are eligible to participate, provided they are at least 21 years of age. The Plan is subject to the provisions of ERISA.

Plan Administration

The Plan is administered by the Company. The duties of the Plan administrator are to oversee the operations of the Plan, provide for prudent investment of Plan assets and keeping accurate records and reports. Accordingly, the Plan administrator has been granted discretionary authority concerning investment and management activities.

The Plan's Custodians, Great West Life and Annuity Insurance Company and Orchard Trust Company, LLC, (the "Custodians") are responsible for the custody and management of the Plan's assets.

On April 28, 2010, the Plan converted to a Net Asset Value investment option, whereby it ceased offering pooled separate funds and began offering mutual funds to Plan participants.

Contributions

Each year, participants may contribute from 1% to 20% of their total compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other eligible retirement plans. Participants direct the investment of the contributions into various investment options offered by the Plan.

The Company, at the discretion of the Board of Directors, may make matching contributions based on a percentage of participant pre-tax contributions, within the limits of Internal Revenue Service Regulations. An employee must complete at least 1,000 hours of service during the plan year and be actively employed on the last day of the year in which the Company's contribution is made in order to share in the Company's contribution, unless an exception exists. The Company did not make a contribution to the Plan during the years ended December 31, 2010 and 2009.

Participant Accounts

Individual accounts are maintained for each of the Plan's participants to reflect the participant's contributions and related employer matching contributions, as well as the participant's share of investment income, appreciation (depreciation) and any related administrative expenses. The participant determines both the amount to be invested and the allocation of the investment to one or more of the investment alternatives. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Forfeitures of terminated participants' nonvested accounts are reallocated to eligible participants.

1. DESCRIPTION OF PLAN (Continued)

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of vesting service. A participant is 100% vested after five years of credited service. Additionally, full vesting occurs upon a Participant's death, disability or termination of the Plan. Participants who leave the Company before they are fully vested in the Company's contributions forfeit their non-vested portion. Forfeited non-vested accounts are used to pay administrative expense or to reduce future employer profit sharing contributions.

Investment Options

Upon enrollment in the Plan, a participant may direct the contributions made to the Plan, for or on behalf of the participant, to any one or more of the investment funds determined at the discretion of the Plan Administrator and in such multiples as the participant prescribes. A participant may change his or her investment direction with respect to future contributions or redirect the investment of his or her account balances.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance, whichever is less. The notes receivable are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 9.25%, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Upon retirement, death, disability, or termination of service, a participant (or participant's beneficiary in the event of death) may elect to receive a lump-sum distribution equal to the participant's vested account balance. In addition, in-service and hardship distributions are permitted if certain criteria are met. Participants may not make contributions for at least six months after the receipt of a hardship distribution. A participant has the right to receive all or any portion of their vested Employer and Employee Contribution accounts upon attainment of age fifty-nine and a half (59½), normal retirement, early retirement, or upon termination of service. Normal retirement is age sixty-five (65). Early retirement age is age fifty-five (55) and completion of at least five years of service. Hardship distributions are subject to meeting strict hardship guidelines established by the Internal Revenue Service.

Forfeited Accounts

At December 31, 2010 and 2009, forfeited non-vested accounts totaled $0. Forfeitures of terminated participant's non-vested accounts are applied as an additional employer match. At December 31, 2010 and 2009, no forfeited amounts have been applied.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Method of Accounting

The accounting records of the Plan are maintained on the accrual basis of accounting. Benefits are recorded when paid.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan has entered into a group annuity contract with Great West Life and Annuity Insurance Company. The contract includes Great West Life and Annuity Insurance Key Guaranteed Portfolio Fund which are fully benefit-responsive and, therefore, recorded at fair value, which approximates contract value. The method for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. Interest crediting rate is reset quarterly. The average yield earned by the plan for the benefit responsive fund can be derived by averaging the quarterly gross interest rate for the fund over the year. The average yield earned by the plan for the year ended December 31, 2010 and 2009 is 2.49% and 3.16%, respectively. The actual average yield earned by the plan for the benefit responsive fund can be derived by averaging the plan's quarterly interest rates. The actual average yield earned by the plan for the year ended December 31, 2010 and 2009 is 3.78% and 4.95%, respectively.

As described in Financial Accounting Standards Board Staff Position FSP AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans*, fully benefit-responsive investment contracts held by a defined contribution plan are required to be reported at fair value. In addition, any material difference between the fair value of these investments and their contract value is to be presented as a separate adjustment line in the statement of net assets available for benefits, because contract value remains the relevant measurement attribute for that portion of net assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Management has determined that the estimated fair value of the Plan's investments in fully benefit-responsive contracts as of December 31, 2010 and 2009 approximates contract value, and any difference between fair value and contract value is immaterial.

Through April 28, 2010, the contract also included various pooled separate accounts. These pooled separate accounts were stated at the fair value of the underlying investments based on published market prices on the last day of the Plan year or as determined by Great West Life and Annuity Insurance Company.

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

The Plan provides for investments in various investment securities which, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Further, due to the level of risk associated with certain investment securities, it is at least reasonably possible that change in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

The Plan originally carried a life insurance option for eligible participants. While this is no longer an investment option for new participants (effective 1989), there are individuals in the Plan who have retained their insurance option. Insurance premiums are funded with the contributions to the Plan by the participants who have retained their insurance option.

Net Appreciation (Depreciation) in Fair Value of Investments

Net appreciation (depreciation) in fair value of investments includes realized and unrealized investment gains and losses on sales during the year and investments held at year end.

Brokerage fees, if any, are added to the acquisition costs of assets purchased and subtracted from the proceeds of assets sold.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Risks and Uncertainties

The Plan provides for investments in various investment securities which, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Further, due to the level of risk associated with certain investment securities, it is at least reasonably possible that change in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

Recent market conditions have resulted in an unusually high degree of volatility and increased the risks and affected the short term liquidity associated with certain investments held by the Plan which could impact the value of investments after the date of these financial statements. During the year ended December 31, 2010 and subsequent to year-end, the Plan's investment portfolio has remained consistent with the plan year end balances which are consistent with the general performance of financial markets. However, because the values of individual investments fluctuate with market conditions, the amount of gains or losses that will be recognized in subsequent periods, if any, cannot be determined.

Administrative Expenses

Certain administrative expenses of the Plan are paid by the Plan. The remaining administrative expenses are paid by the Company. The Plan is under no obligation to reimburse the Company for these expenses.

Reclassifications

Certain prior year amounts have been reclassified to conform to the current year presentation.

3. INVESTMENTS

The following presents investments that represent 5% or more of the Plan's net assets at December 31:

	2010	2009
Mutual Funds		
Key Guaranteed Portfolio Fund*	$ 2,664,849	$ -
Alger Capital Appreciation Inst'l I*	538,947	-
Davis NY Venture A*	584,011	-
Diamond Hill Large Cap A*	287,366	-
Pooled Separate Funds		
Key Guaranteed Portfolio Fund*	-	$ 2,709,415
Alger Capital Appreciation Inst'l I*	-	479,757
Davis NY Venture A*	-	490,024
Diamond Hill Large Cap A*	-	294,871

* - Party-in-interest

The net appreciation in fair value of investments of $240,506 and $383,603 for the years ended December 31, 2010 and 2009, respectively is attributable to investments in mutual funds and the pooled separate accounts.

4. FAIR VALUE MEASUREMENTS

Under accounting principles generally accepted in the United States of America a fair value hierarchy prioritizes inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of the observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2010.

Mutual Funds: Valued at the net asset value of shares held by the Plan at year end.

Pooled Separate Account Funds: Valued at the net asset value of investment units held by the Plan at year end.

Insurance Company General Account Funds: Valued at the net asset value per unit held by the Plan at year end as quoted by the funds, if available.

Cash Surrender Value of Life Insurance Policies: Valued at the net asset value of the policy held by the Plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis as of December 31, 2010:

	Level 1	Level 2	Level 3	Total
Mutual funds				
Large blend funds	$ 881,782	$ -	$ -	$ 881,782

5. INFORMATION CERTIFIED BY THE PLAN'S CUSTODIANS

The Plan administrator has elected the method of compliance permitted by Section 2520.103-8 of the United States Department of Labor's (the "DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Custodians have certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate as of and for the years ended December 31,:

	2010	2009
Investments at fair value:		
Insurance company general account funds	$ 2,664,849	$ 2,709,415
Mutual funds	2,065,172	-
Pooled separate account funds	-	1,723,329
Total	$ 4,730,021	$ 4,432,744
Investment income:		
Net appreciation (depreciation) in fair value of investments	$ 240,506	$ 383,603
Investment and dividend income	121,182	84,870
Total	$ 361,688	$ 468,473

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

6. NOTES RECEIVABLE FROM PATICIPANTS

Notes receivable from participant are due at various dates through February 9, 2015. Payments include interest at a reasonable and fair rate based on the prevailing rates charges by reputable financial institutions. The notes are collateralized by the participant's vested interest in the Plan. Notes receivable from participants are held at amortized cost which approximates fair value.

Notes receivable from participants interest earned is allocated to participants on a pro-rata basis.

7. REPORTABLE TRANSACTIONS

During the years ended December 31, 2010 and 2009, there were no reportable transactions, loans in default or uncollectible, investment assets acquired and disposed of within the Plan year or non-exempt transactions with parties-in-interest, which would require supplemental presentation under DOL regulations.

8. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds and insurance company general account funds managed by the Custodians. Great West Life and Annuity Insurance Company and Orchard Trust Company, LLC are the Custodians, record keepers and third party administrators as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

9. PLAN TERMINATION

Although it has not expressed any intent to do so, the Companies have the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and the IRC. In the event of Plan termination, participants would become 100% vested in their account balances and all benefits would be distributed to participants.

10. TAX STATUS

Company has adopted the Orchard Trust Company Defined Contribution Prototype Plan and Trust. The Internal Revenue Service has issued an opinion letter dated July 28, 2003 stating that the plan is acceptable under section 401 of the IRC for use by employers for the benefit of their employees. The Company is relying on the opinion letter (in accordance with Announcement 2001-77) that the Plan meets the qualification requirements of the IRC. Although the Plan has been amended since receiving the opinion letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2007.

11. INVESTMENT CONTRACTS WITH INSURANCE COMPANY

Pooled Separate Funds

Great West Life and Annuity Insurance Company maintained certain contributions in a pooled separate account through April 28, 2010. Assets of these contracts were invested in shares of the specific funds elected in the contract application. The account was credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses charged by Great West Life and Annuity Insurance Company.

General Account Funds

Great West Life and Annuity Insurance Company maintain certain contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Great West Life and Annuity Insurance Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is determined by Great West Life and Annuity Insurance Company and reset in accordance with the term of the contract.

Certain events may limit the ability of the Plan to transact at contract value with the issuer. The Plan administrator does not believe that any events that may limit the Plan's ability to transact at contract value with participants, is probable.

12. NEW ACCOUNTING PRONOUNCEMENTS

In September 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2010-25, Reporting Loans to Participants by Defined Contribution Pension Plans ("ASU 2010-25"). ASU 2010-25 requires participant loans to be measured at their unpaid principal balance plus any accrued but unpaid interest and to be classified as notes receivable from participants. Previously, loans were measured at fair value and classified as investments. The Plan adopted ASU 2010-25 for the year ended December 31, 2010. Participant loans have been reclassified to notes receivable from participants as of December 31, 2010 and 2009. The adoption of ASU 2010-25 was not significant as the unpaid principal balance plus accrued interest of loans to participants approximated fair value.

12. NEW ACCOUNTING PRONOUNCEMENTS (Continued)

In January 2010, the FASB issued Accounting Standards Update 2010-06, Improving Disclosures about Fair Value Measurements ("ASU 2010-06"). ASU 2010-06 amended Accounting Standards Codification ("ASC") 820, Fair Value Measurements and Disclosures ("ASC 820"), to clarify certain existing fair value disclosures and to require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2, and 3 of the fair value hierarchy and to present information regarding the purchases, sales, issuances, and settlements of Level 3 assets and liabilities on a gross basis. ASU No. 2010-06 is effective for periods beginning after December 15, 2009, except for the requirement to provide Level 3 activity of purchases, sales, issuances, and settlements on a gross basis, which will be effective for fiscal years beginning after December 15, 2010. The adoption of this new guidance has not and will not have a significant impact on the Plan's net assets available for benefits or its changes in net assets available for benefits, as changes are related to the fair value measurement disclosures.

13. SUBSEQUENT EVENTS

Management has evaluated subsequent events through July 11, 2011, the date the financial statements were available to be issued.
