Report of Independent Auditors

To the Trustee, Participants and Administrator of
Scitor Corporation Employee Stock Ownership Plan

In our opinion, the accompanying statements of net assets available for benefits and the related statements of changes in net assets available for benefits present fairly, in all material respects, the net assets in liquidation of Scitor Corporation Employee Stock Ownership Plan (in termination) (the "Plan") at September 30, 2010 and 2009, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America on the basis described below. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule at September 30, 2010 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

As discussed in Note 1 to the financial statements, Plan management elected to terminate the Plan, and the Plan commenced liquidation shortly thereafter. As a result, the Plan changed its basis of accounting for period subsequent to September 27, 2007 from the ongoing basis to a liquidation basis.

1. Description of the Plan

The following brief description of the Scitor Corporation (the "Company" and the "Sponsor Company") Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan was established by the Company effective July 25, 2002 and was intended to be an employee stock ownership plan within the meaning of section 4975(e)(7) of the Internal Revenue Code, as amended. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan was administered by the ESOP Committee, which was appointed by the Board of Directors of the Company through September 26, 2007. Principal Financial Group serves as the Plan recordkeeper. Principal Bank currently holds the Plan assets.

Plan Termination
On July 30, 2007, the Board of Directors voted to approve a stock purchase agreement whereby the Plan Trustee would sell all of the Company common stock to Scitor Acqusition Corp., an affiliate of Leonard Green & Partners, L.P. On September 26, 2007, the stock purchase agreement was executed and the Plan was effectively terminated. The Plan was amended to reflect this termination effective September 27, 2007.

Effective September 27, 2007, the Plan now constitutes a profit sharing plan and any Plan provisions resulting from, or relating to, the Plan's former status as an "employee stock ownership plan" within the meaning of Section 4975(e) of the Code, are no longer applicable, and no distributions of Company Stock or any other "qualifying employer security" (within the meaning of Section 4975(e) of the Code) is provided. No future contributions will be made to the Plan and once the final distribution is made, the Plan will cease to exist.

Within 90 days following September 26, 2007 participants received a distribution of approximately 98% of their respective accounts. Within 60 days following receipt of a favorable IRS determination letter, which was received on August 20, 2009, participants received a distribution of the remaining balance of their accounts. Participants could elect distributions in the form of lump sum cash payments or rollovers to other qualified plans. For amounts originally transferred from the Scitor Corporation Pension Plan ("Pension Plan") to the Plan in 2002, participants could elect to receive an annuity. Subsequent to September 30, 2010, the Plan distributed the remaining participant balances of $388,211.

Eligibility
Effective with the Plan's termination, no new employees may become eligible to participate in the Plan.

Vesting
Participants are 100% invested in their account balances.

Participant Accounts
The Plan is a defined contribution plan under which separate accounts were established for each participant. Effective with the Plan's termination all Company common stock was converted to cash and each participant's account is credited with an allocation of the Plan earnings (losses) thereon based on account balances, as defined, at the end of the Plan year.

Payment of Benefits
During Plan year 2010, participants elected distributions of the remaining 2% of assets, in conjunction with Plan termination activities, totaling $12,240,726.

Administrative Expenses
Administrative expenses are paid by the Company and, therefore, are not included in the Plan's financial statements.

2. Summary of Significant Accounting Policies

Basis of Accounting
The accompanying financial statements are prepared using the liquidation basis of accounting.

Valuation of Investments and Income Recognition
Short term investments are stated at amortized cost which approximates market value. Interest income from short term investments is recorded on the accrual basis. Purchases and sales of securities are recorded on a trade-date basis.

Tax Status
Income taxes are not provided as the Plan is designed to be exempt from taxation under the Internal Revenue Code (the "IRC"). The Plan was amended for the Plan termination. A review of the Plan termination was completed by the Internal Revenue Service (the "IRS") and the related determination letter was issued on August 20, 2009, at which time the IRS stated the Plan, as then designed, was in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of September 30, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Risks and Uncertainties
The Plan currently holds investments which are exposed to various risks, such as interest, market and credit risks. Due to the level of risk associated with investments, it is at least reasonably possible that changes in investment values could occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Payment of Benefits
Benefit payments are recorded when paid.

New Accounting Pronouncements
In January 2010, the Financial Accounting Standards Board (the "FASB") issued additional disclosure requirements for fair value measurements. The guidance requires previous fair value hierarchy disclosures to be further disaggregated by class of assets and liabilities. A class is often a subset of assets or liabilities within a line item in the statement of net assets available for benefits. In addition, significant transfers between Levels 1 and 2 of the fair value hierarchy are required to be disclosed. These additional requirements became effective January 1, 2010. These amendments did not have

an impact on the financial results as this guidance relates only to additional disclosures. In addition, the fair value disclosure amendments also require more detailed disclosures of the changes in Level 3 instruments. These changes will be effective January 1, 2011 and will not have an impact on the financial results as this guidance only relates to additional disclosures. See Note 4, "Fair value of Investments," for further information.

3. Investments

The Plan's investments, at September 30, are presented in the following table:

	2010	2009
Principal Bank interest-bearing cash	$ 388,211	$ 12,628,937

4. Fair value of Investments

The FASB provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the framework are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Plan's investments at September 30, 2010 and 2009 consist of interest-bearing cash of $388,211 and $12,628,937, respectively, which is classified as a Level 1 asset.

5. Related-Party Transactions

The Plan currently invests in short term investment funds managed by Principal Bank. Principal Financial Group serves as custodian of the cash and short term investment assets of the Plan. Principal Financial Group also serves as the Plan recordkeeper. Transactions in such investments qualify as party-in-interest transactions, and are exempt from the prohibited transactions rules. Additionally, Carl Monk, Jr. serves as Trustee of the Plan and also has an account in the Plan. As such, he is considered a party-in-interest.

6. Subsequent Events

In preparing these financial statements, management performed an evaluation of subsequent events through July 12, 2011, the date the financial statements were available for issuance, to determine whether circumstances warranted recognition and disclosure of those events or transactions in the financial statements as of September 30, 2010.
