We were engaged to audit the statement of net assets available for benefits of California Hydronics Corporation Profit Sharing 401(k) Plan (the "Plan") as of December 31, 2010 and 2009, and the statement of changes in net assets available for benefits for the years then ended, and the supplemental schedule of assets (held at end of year) as of December 31, 2010. These financial statements and schedule are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by ING Life Insurance and Annuity Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the custodian as of and for the years ended December 31, 2010 and 2009 that the information provided to the Plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

PROFIT SHARING 401(K) PLAN
Notes to Financial Statements
December 31, 2010

Note 1 - Description of Plan:

The following description of the California Hydronics Corporation (the "Company") Profit Sharing 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of the Company, except leased and contract employees, who have attained the age of twenty-one. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Company is the Plan administrator and retains the services of a third party to assist in the administration of the Plan. Through December 31, 2010, the Plan's custodian was ING Life Insurance and Annuity Company ("ING"), and the Plan's third party administrator was Hicks Pension Services.

Contributions - Each year participants may contribute up to 100% of annual compensation to the Plan, subject to statutory limits. The Company does not make matching contributions; however the Company may make profit-sharing contributions, as defined in the Plan agreement. Eligibility for employer contributions is defined as employees who have attained the age of twenty-one and have completed one year of service, as defined by the Plan agreement.

In certain circumstances, eligible participants may "rollover" funds accumulated under plans in which they previously participated.

Participant accounts - Each participant's account is credited with the participant's contribution and allocations of: (a) the Company's contribution, and (b) Plan earnings. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments options - The Plan provides for investments to be directed by participants into a number of investment options held by the custodian. All Plan investments are units of funds and earnings of each investment fund are allocated to participant's accounts in proportion to each participant's share of that fund. Earnings of each investment fund are allocated to participant's accounts in proportion to each participant's share of that fund.

Notes to Financial Statements
December 31, 2010

Note 1 - Description of Plan (continued):

Vesting - Participants are immediately fully vested in their contributions, as well as all earnings on those contributions Participants become vested in the Company's profit-sharing contribution over a six-year graded vesting schedule.

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates. Principal and interest is paid ratably through monthly payroll deductions.

As a result of the adoption of the Financial Accounting Standards Board's ("FASB") Accounting Standards Update 2010-25, *Plan Accounting - Defined Contribution Plans*, the Plan retrospectively classified participant loans as notes receivable from participants in the statement of net assets available for benefits and measured them at their unpaid principal balance plus any accrued but unpaid interest.

Payment of benefits - Benefits are payable to participants at age 65, the completion of 5 years of service, or upon termination, occurrence of hardship, or death. The Plan allows for automatic lump sum distributions of participant vested account balances that do not exceed $5,000.

Forfeited accounts - Available forfeitures may be used to reduce future employer contributions. At December 31, 2010 and 2009, there was $9,542 and $5,587 in accumulated forfeitures, respectively.

Administrative expenses - The Company absorbs substantially all administrative expenses of the Plan. Other charges and fees on investments may be assessed against the respective participant account balances.

Note 2 - Significant accounting policies:

Basis of accounting - The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Contributions from participants are recorded when withheld from the participant. Benefit payments to participants are recorded when paid.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates

Investment valuation and income recognition - As described by Generally Accepted Accounting Principles ("GAAP"), investment contracts held by a defined contribution plan are required to be reported at fair value.

The Plan's investments are stated at their fair value except for its investment contract which is stated at contract value (Note 5). The trustee has stated that the best estimate of fair value for the investments which would be considered fully benefit-responsive is contract value, as participants may withdraw investment assets at contract value without restriction, and investment assets are marked-to-market on a daily basis Purchases and sales of securities are recorded on a trade date basis. Dividends are recorded on the ex-dividend date

Fair value measurements - The Plan performs fair value measurements in accordance with FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*. Refer to Note 3 for the fair value measurement disclosures associated with the Plan's investments.

Net appreciation in fair value of plan assets - The earnings, expenses, realized gains and losses, and unrealized appreciation (depreciation) in registered investments companies and other investments are recorded in the accompanying financial statements as net appreciation in fair value of plan assets.

Note 2 - Significant accounting policies (continued):

Recent accounting pronouncements - In January 2010, the FASB issued authoritative guidance that requires: (i) separate disclosure of significant transfers between Level 1 and Level 2 and reasons for the transfers; (ii) separate disclosure of significant sales, issuances, and net settlements within Level 3: (iii) disclosures by class of assets and liabilities; and (iv) a description of the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements. This guidance was adopted in the current year, except for the Level 3 disclosure requirements, which will be effective for fiscal years beginning after December 31, 2010 and interim periods within those fiscal years The Plan is currently evaluating the impact of its pending adoption on the Plan's financial statements.

In May 2011, the FASB issued Accounting Standards Update No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards (Topic 8220) – Fair Value Measurement* (ASU 2011-04), to provided a consistent definition of fair value and common requirements for measurement of and disclosure about fair value between U.S GAAP and International Financial Reporting Standards. ASU 2011-04 changes some fair value measurement principles, adds disclosure requirements for the use of nonfinancial assets measured or disclosed at fair value and enhances the disclosures about the recurring level 3 fair value measurements (as defined in Note 3 below). The Plan will adopt this new accounting standards update in the year ending December 31, 2012. The Plan is currently evaluating the impact of its pending adoption of the Plan's financial statements

Subsequent events - The Plan has evaluated subsequent events through the date that the financial statements were available to be issued which is the date of the independent auditor's report.

Reclassifications - Certain reclassifications have been made to the prior period financial statements to conform to the current period presentation. The reclassifications have no impact on the net increase. The Company specifically reclassified $2,174,330 of Level 2 measurement for the insurance contract to Level 3 (as shown in Note 3 below).

CALIFORNIA HYDRONICS CORPORATION
PROFIT SHARING 401(K) PLAN
Notes to Financial Statements

Note 3 - Fair value:

The Plan performs fair value measurement in accordance with ASC 820. ASC 820 defines fair value as the price that would be received from selling an asset in an orderly transaction between market participants at the measurement date. The accounting guidance for fair value measurement requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard establishes a fair value hierarchy based on the level of independent, objective evidence surrounding the inputs used to measure fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The fair value hierarchy is as follows:

- Level 1: quoted prices in active markets for identical assets or liabilities;
- Level 2: inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or
- Level 3: unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis consisted of the following types of instruments as of December 31, 2010 (Level 1, 2 and 3 inputs are defined above):

	Fair Value Measurements Using Input Type			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 9,759,287	$ -	$ 9,759,287
Insurance contract	-	-	2,372,580	2,372,580
Total investments measured at fair value	$ -	$ 9,759,287	$ 2,372,580	$ 12,131,867

Note 3 - Fair value (continued):

Investments measured at fair value on a recurring basis consisted of the following types of instruments as of December 31, 2009 (Level 1, 2 and 3 inputs are defined above):

	Fair Value Measurements Using Input Type			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 9,055,720	$ -	$ 9,055,720
Insurance contract	-	-	2,174,330	2,174,330
Total investments measured at fair value	$ -	$ 9,055,720	$ 2,174,330	$ 11,230,050

Pooled separate accounts are carried at the fair value of the underlying net assets of the funds. The valuation techniques used to measure fair value of the insurance contract is included in Note 5.

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets:

Note 5 - Insurance contract with insurance company:

The ING Fixed Account (the "Insurance Contract") consists of a fully benefit-responsive insurance contract. Because the Insurance Contract is a fully benefit-responsive fund, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the Insurance Contract. Contract value, as reported to the Plan by ING, represents contributions made under the Insurance Contract, plus earnings, less participant withdrawals and administrative expenses. The insurance contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the insurance contract is fully benefit-responsive, contract value is the relevant measurement attributed for that portion of the net assets available for benefits attributable to the insurance contract. Contract value as reported to the Plan by ING, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The fair value to contract value ratios for the Fund as of December 31, 2010 and 2009 were 100% and 105%, respectively.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rate was approximately 3.65% for 2010 and 2009 Certain events limit the ability of the Plan to transact at contract value with the insurance company. However, the Plan's management is not aware of the occurrence or likely occurrence of any such events, which would limit the Plan's ability to transact at contract value with participants.

Note 6 - Party-in-interest transactions:

At December 31, 2010 and 2009, the Plan held for investment approximately $7,366,000 and $6,158,000, respectively, in ING's investment accounts. ING is the Plan's investment broker and has custodial responsibility for investments held in the ING investment accounts.

Note 7 - Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their account balances

Notes to Financial Statements
December 31, 2010

Note 8 - Income tax status:

The Plan obtained its latest determination letter on December 5, 2002, in which the Internal Revenue Service stated that the Plan, as designed, was in compliance with the applicable requirements of the Internal Revenue Code. Subsequent to receiving this determination letter, the prototype plan was amended. The Plan administrator believes that the amended prototype plan, as adopted by the Company, is operating in compliance with the requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note 9 - Reconciliation of Financial Statements to Schedule H of Form 5500:

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2010 and 2009 to Schedule H of the Form 5500:

	2010	2009
Net assets available for benefits per the financial statements	$ 12,700,784	$ 11,726,910
Adjustment from contract value to fair value for insurance contract	-	64,447
Net assets available for benefits per Schedule H of the Form 5500	$ 12,700,784	$ 11,791,357

The fair value adjustment represents the difference between contract value of the Plan as included in the statement of changes in net assets available for benefits for the years ended December 31, 2010 and 2009, and the fair value of the Plan as reported in the Form 5500.

The following is a reconciliation of net appreciation in fair value of plan assets per the financial statements for the year ended December 31, 2010 to Schedule H of the Form 5500:

Net appreciation in fair value of plan assets per financial statements	$ 1,251,827
Less: Adjustment from contract value to fair value for insurance contract at December 31, 2009	64,447
Net investment gain per Form 5500	$ 1,187,380

Note 10 - Risks and uncertainties:

The Plan provides for investments in various investment securities which, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participant account balances.
