INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator of
Rock-Tenn Company Pension Plan for
Certain Wage Hour Employees

We were engaged to audit the accompanying statement of net assets available for benefits of Rock-Tenn Company Pension Plan for Certain Wage Hour Employees (the "Plan") as of September 30, 2010, and the related statement of changes in net assets available for benefits for the year then ended. These financial statements are the responsibility of the Plan's management. The financial statements of the Plan as of September 30, 2009 were audited by other auditors. As permitted by 29 CFR 2520.103.8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed the other auditors not to perform and they did not perform, any auditing procedures with respect to the information certified by The Bank of New York, the Trustee of the Plan. Their report, dated July 9, 2010, indicated that (a) because of the significance of the information that they did not audit, they were unable to, and did not, express an opinion on the financial statements taken as a whole and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the Trustee, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As permitted by 29 CFR 2520.103.8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by The Bank of New York Mellon and The Northern Trust Company, the trustees, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that The Northern Trust Company held the Plan's investment assets and executed investment transactions from March 2, 2010 to September 30, 2010, and that the Bank of New York Mellon held the Plan's investment assets and executed investment transactions for the period October 1, 2009 to March 1, 2010. The Plan administrator has obtained certifications from the trustees as of and for the year ended September 30, 2010, that the information provided to the Plan administrator by the trustees is complete and accurate.

Because of the significance of the information in the Plan's 2010 financial statements that we did not audit, we are unable to, and do not, express an opinion on the accompanying 2010 financial statements taken as a whole. The form and content of the information included in the 2010 financial statements, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

ROCK-TENN COMPANY PENSION PLAN
FOR CERTAIN WAGE HOUR EMPLOYEES
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED SEPTEMBER 30, 2010 AND 2009

1. DESCRIPTION OF PLAN

The following description of the Rock-Tenn Company Pension Plan for Certain Wage Hour Employees (the “Plan”) provides only general information. Participants should refer to the Summary Plan Description for a complete description of the Plan’s provisions.

A. General

Rock-Tenn Company (the “Company” or “Plan Sponsor”) sponsors the Rock-Tenn Company Pension Plan for Certain Wage Hour Employees (the “Plan”). The Plan is a non-contributory defined benefit plan covering a substantial portion of the union hourly employees of the Company and its subsidiaries. Eligible participants must complete one year of vested service and be at least 21 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Effective September 30, 2010, the Plan Sponsor merged the Rock-Tenn Company Pension Plan for Certain Employees Covered Under Collectively Bargained Agreements and the Rock-Tenn Company Pension Plan with and into the Plan. Net assets totaling \$239,672,560 were transferred into the Plan in connection with the merger and are included in assets transferred from qualified plans on the statement of changes in net assets available for benefits. Prior to the merger, the Plan’s actuarial present value of accumulated benefits obligation was \$65,584,905 as of October 1, 2009. Subsequent to the merger, the Plan’s actuarial present value of accumulated benefits obligation totaled \$382,745,319 as of October 1, 2009. The merger will not affect participant pension benefits as the Plan was amended effective September 30, 2010, to incorporate the benefit provisions of the merged plans.

B. Benefits and Vesting

The Plan provides normal retirement benefits for its participants as of the first day of the month following the attainment of age 65. Early retirement benefits are provided to eligible participants as early as age 55 and extended retirement benefits are provided for those electing continued employment past normal retirement. Accrued benefits are fully vested upon completion of five years of service.

FOR THE YEARS ENDED SEPTEMBER 30, 2010 AND 2009

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles ("GAAP").

In June 2009, the Financial Accounting Standard Board ("FASB") established the FASB Accounting Standards Codification ("ASC") as the single source of authoritative GAAP. The FASB ASC superseded all the existing non-SEC accounting and reporting standards. The issuances of this statement did not change GAAP, but has changed the applicable citations and naming conventions used when referencing GAAP within these financial statements.

B. Investment Valuation

For the years ended September 30, 2010 and 2009, all assets are held in the Rock-Tenn Company Master Trust ("Master Trust"). The Master Trust also holds assets on behalf of other Rock-Tenn Company and RTS Packaging, LLC retirement plans.

C. Administrative Expenses

Certain expenses incurred in administration or operation of the Plan and Master Trust are paid from the assets of the Master Trust and allocated to each participating plan.

D. Payment of Benefits

Benefit payments are recorded when distributed.

E. Risks and Uncertainties

The Plan utilized various investment securities included in the Master Trust. Investment securities, in general, are exposed to various risks such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

F. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 8) represent estimated future periodic payments, including lump-sum distributions, to be made in accordance with the Plan's provisions with respect to service which employees have rendered to the valuation date. It includes benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The accumulated plan benefits are based on the monthly benefit amount designated by the Plan and in effect at the valuation date. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date. The effect of plan amendments on accumulated plan benefits is recognized in the year in which such amendments become effective.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and represents the amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations as of October 1, 2009 and 2008 were as follows:

Discount rate	5.53% and 7.50% per year, respectively
Mortality basis	2009 - RP-2000 with Blue Collar Adjustment projected to 2010 with Scale AA 2008 - RP-2000 with Blue Collar adjustment projected to 2009 with Scale AA
Employee turnover	A moderate scale consistent with the Company's experience
Retirement age	Age 65, or age on valuation date if greater than 65 on such date

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

FOR THE YEARS ENDED SEPTEMBER 30, 2010 AND 2009

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

F. Actuarial Present Value of Accumulated Plan Benefits (Continued)

Changes in assumptions and methods since last actuarial valuation include the following:

- A change in the interest rate assumption from 7.16% to 6.85%.
- The discount rate was changed from 7.50% to 5.53%.
- The mortality assumption for healthy lives changed from the RP-2000 with Blue Collar Adjustment projected with Scale AA to 2009 to the RP-2000 with Blue Collar Adjustment projected with scale AA to 2010.
- A change in the assumed retirement age for terminated vested participants from age 65 to age 61.

G. Use of Estimates

The preparation of financial statements in conformity with GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

3. INVESTMENT IN ROCK-TENN COMPANY MASTER TRUST

The Plan assets are held in the Master Trust under the terms of a trust agreement. The Bank of New York Mellon was the Trustee of the Plan for the year ended September 30, 2009 and the period October 1, 2009 to March 1, 2010. Effective March 2, 2010, The Northern Trust Company became the Trustee of the Plan. The value of the Plan's share of assets and the net investment experience of the Master Trust are presented as a single asset and a single addition to or deduction from net assets in the accompanying financial statements. Investment income/(loss) is credited/(charged) to each plan based upon the proportionate share of total Master Trust investments held by the respective plan. The investment value of the Master Trust interest held by each plan is equal to its allocable portion of the total Master Trust net assets. The Plan's interest in the net assets of the Master Trust is 93.03% and 16.35% at September 30, 2010 and 2009, respectively. The condensed statements of net assets and statements of changes in net assets of the Master Trust are presented in Note 10.

4. FAIR VALUE MEASUREMENTS

The FASB has established a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for the Master Trust's assets measured at fair value. There have been no changes in the methodologies used at September 30, 2010 and 2009.

Equity securities: These securities are comprised of common stock, preferred stock and an equity exchange traded fund. Investments in common and preferred stocks are valued using quoted prices multiplied by the number of shares owned. The investment in the exchange traded fund is valued at the net asset value per share multiplied by the number of shares held as of the measurement date. These securities are classified in both level 1 and 2 categories.

4. FAIR VALUE MEASUREMENTS (Continued)

Fixed income securities: These securities include U.S. government securities, non-U.S. government securities, U.S. corporate bonds, non-U.S. corporate bonds, mortgage-backed securities and other fixed income securities. The U.S. government securities include treasury and agency debt and are valued using a broker quote in an active market and are classified as level 2. The non-U.S. government securities, U.S. corporate bonds, non-U.S. corporate bonds, mortgage-backed securities and other fixed income securities are investments that are valued utilizing a market approach that includes various valuation techniques and sources such as value generation models, broker quotes in active and non-active markets, benchmark yields and securities, reported trades, issuer spreads, and/or other applicable reference data. The U.S. corporate bonds category is primarily comprised of U.S. dollar denominated investment grade securities. Other fixed income securities are comprised of municipal and asset-backed securities.

Short-term investments: At September 30, 2010, these assets included collective short-term investment funds that are valued at \$1.00/unit, which approximates fair value. These amounts are generally invested in interest-bearing accounts and are classified within level 1. At September 30, 2009, these assets represented an institutional cash flow account that was aggregated with other beneficial owners and swept into a money market fund. Management estimates the cash expected to be received in the account based on the proportionate funding swept into the money market fund. Such assets were classified within level 3 at September 30, 2009.

Alternative investments: These investments are valued at net asset value, which is calculated using the most recent partnership financial reports, adjusted, as appropriate, for any lag between the date of the financial reports and the measurement date. The alternative investments are diversified with nine hedge fund managers across different strategies and one venture capital fund and are classified as both level 2 and 3.

Common stock: These investments are valued at the closing price reported on the New York Stock Exchange and are classified in level 1.

Mutual funds: The shares of registered investment companies are values at quoted market prices in an exchange and active market, which represent the net asset value (NAV) of shares, held at year end and are classified as level 1. Investment in registered investment companies generally may be redeemed daily. Certain mutual funds have significant underlying investments in partnerships, which are level 3 investments; therefore, the fund itself is classified as a level 3 investment.

Real estate investment trust: The trust invests in commercial properties and is valued at the closing price reported on the New York Stock Exchange and are classified within level 1.

4. FAIR VALUE MEASUREMENTS (Continued)

Limited partnerships: These investments are valued at the NAV of shares held in partnerships that are not reported in an active market or traded on a market exchange at year end. Such assets are classified within level 3.

Common collective trusts: These assets are not available in an exchange or active market; however, the fair value is determined based on the NAV of the underlying assets as traded in an exchange or active market. Common collective trusts generally may be redeemed monthly. Such assets are generally classified within level 3.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's assets carried at fair value as of September 30, 2010:

5. INFORMATION CERTIFIED BY TRUSTEES

For the years ended September 30, 2010 and 2009, the Plan administrator elected, as permitted by Section 2520.103 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, to have certain financial information certified by the Trustees, The Northern Trust Company and The Bank of New York Mellon. The following information included in the Plan's September 30, 2010 and 2009 financial statements was prepared by the Trustees and furnished to the Plan administrator.

	September 30,	
	2010	2009
Statements of Net Assets Available for Benefits:		
Investments:		
Investments in Rock-Tenn Company		
Master Trust, at fair value	\$284,923,862	\$ 45,341,394
Statement of Changes in Net Assets Available		
for Benefits:		
Plan interest in Rock-Tenn Company		
Master Trust investment income/(loss)	\$ 4,899,657	\$ (136,760)

Additionally, the information in Note 10 was prepared by the Trustees and furnished to the Plan administrator. The Plan administrator has obtained certifications from the Trustees that such information as of and for the years ended for September 30, 2010 and 2009 is complete and accurate.

6. FUNDING POLICY

The Company contributes such amounts as are deemed necessary on an actuarial basis to provide assets sufficient to meet the benefits to be provided to Plan participants. Annual contributions for retirement benefits are computed according to the Standard Unit Cost method for 2010 and 2009 as prescribed by the Internal Revenue Service ("IRS"), are designed to fund, over 30 years, the Plan's normal costs currently and to fund, over 30 years, the costs arising from qualifying service before the establishment of the Plan. The Plan has met the minimum funding requirements of ERISA for the years ended September 30, 2010 and 2009.

7. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC") at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided for at all. For further description regarding the priority of participants' claims to the assets of the Plan upon Plan termination and benefits guaranteed by the PBGC, reference is made to the information included in the Summary Plan Description provided to all participants.

8. ACCUMULATED BENEFITS OBLIGATION

The present value of accumulated benefits obligation as determined by the actuary is as follows:

	October 1,	
	2009	2008
Vested benefits:		
Participants currently receiving payments	\$ 24,078,121	\$ 19,325,911

8. ACCUMULATED BENEFITS OBLIGATION (CONTINUED)

Changes in the actuarial present value of accumulated benefits obligation are as follows:

Actuarial present value of accumulated benefits obligation at October 1, 2008	\$ 48,642,735
Assumption changes (primarily discount rate change)	13,858,267
Interest due to the decrease in the discount period	3,555,988
Benefits paid	(2,504,388)

Other changes*	<u>1,757,049</u>
Actuarial present value of accumulated benefits obligation at October 1, 2009	<u>\$ 65,584,905</u>

* The "Other Changes" component represents the normal operation of the pension plan. It consists primarily of the increase due to ongoing benefit accruals (if any) and those items of plan experiences that are not associated with plan asset performance.

9. INCOME TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service dated December 4, 2003, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and, therefore, the related trust is exempt from taxation. The Plan has been amended and restated since receiving the determination letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and has no income subject to business income tax and, therefore, believes that the Plan, as amended and restated, is qualified and the related trust is tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements. The Plan is generally no longer subject to income tax examinations by tax authorities for years prior to September 30, 2008.

Schedule SB, line 25—Change in Method

The funding valuation reflects the following method changes:

- A change in the asset valuation method from the 11-month, 12-point average value method to the two-year, three-point smoothed value method as of October 1, 2009.
- A change in the interest rate assumption from the full yield curve with no lookback (based on the corporate bond rates from September 2008) to the full yield curve with a four-month lookback (based on the corporate bond rates from May 2009).
- An addition to the Target Normal Cost of assumed expenses payable from the trust, as required by WRERA.

These changes have automatic approval under final regulations, Notice 2009-22, or other IRS guidance.

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following non-prescribed assumption changes:

- The assumed retirement rates for active employees were updated.
- A change in the assumed retirement age for terminated vested participants from age 65 to age 61.
- A change in the payment form election assumptions from:
 - For male participants: 37% life annuity, 48% joint and survivor annuity, and 15% certain and continuous annuity, and
 - For female participants: 40% life annuity, 17% joint and survivor annuity, and 43% certain and continuous annuity,To:
 - For male participants: 35% life annuity, 50% joint and survivor annuity, and 15% certain and continuous annuity, and
 - For female participants: 40% life annuity, 20% joint and survivor annuity, and 40% certain and continuous annuity.

These changes were made to better reflect the anticipated plan experience. These assumption changes did not reduce the funding shortfall, as such approval of the Commissioner is not required.

The October 1, 2009 valuation reflects the following plan changes:

- An increase in the annual maximum benefit limit from \$185,000 in 2008 to \$195,000 in 2009.
- The Demopolis multiplier changed from a pay-related formula to an increasing schedule for pre/post June 6, 2005 service starting at \$3/\$42 on January 7, 2009.
- The Lynchburg multiplier changed from \$36.70 to an increasing schedule starting at \$37.70 on January 1, 2009.
- The Chattanooga multiplier increased from \$35 to an increasing schedule starting at \$36.00 on January 1, 2009 for Local #362 and on February 28, 2009 for Local #515.
- The mortality and interest rates under IRC Section 417(e)(3) were updated to the applicable rates for the current plan year.

Other Information to Fully and Fairly Disclose the Actuarial Position of the Plan

The target liability was calculated using the full yield curve based on corporate bonds rates for May 2009. As such, "4" was entered on line 21b as the applicable lookback month.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
