INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator
Interactive Teleservices Corporation
401(k) Profit Sharing Plan
Dublin, Ohio

We were engaged to audit the accompanying statements of net assets available for benefits of Interactive Teleservices Corporation 401(k) Profit Sharing Plan (the Plan) as of September 10, 2010 and December 31, 2009 and the related statement of changes in net assets available for benefits for the period from January 1, 2010 through September 10, 2010. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the trustee as of September 10, 2010 and December 31, 2009 and for the period ended September 10, 2010, that the information provided to the Plan administrator by the trustee is complete and accurate.

As further discussed in Note 5 to the financial statements, the Board of Directors of Interactive Teleservices Corporation, the Plan's sponsor, voted to terminate the Plan effective August 1, 2010. In accordance with accounting principles generally accepted in the United States of America, the Plan has changed its basis of accounting used in presenting the 2009 financial statements from the ongoing plan basis to the liquidation basis for the period from January 1, 2010 to the time at which the Plan transferred all its remaining assets, as further described in Note 5, which occurred during the period ended September 10, 2010. Accordingly, the assets of the Plan as of September 10, 2010 were \$0.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. PLAN DESCRIPTION

The following description of the Interactive Teleservices Corporation 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

Effective May 1, 1997, Interactive Teleservices Corporation (the Corporation or Employer) adopted a defined contribution plan, and all employees who worked at least six months became eligible to participate in the 401(k) Profit Sharing Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan was terminated effective August 1, 2010 and distributed all assets during August and September 2010.

Contributions

Participants may defer up to 60% of their compensation, as defined, up to specified limits allowed by law. The Corporation may elect to match a percentage of each participant's salary deferral contributions. During the period ended September 10, 2010, the Corporation elected not to match employee deferrals to the Plan. The Corporation absorbs a significant portion of the costs of administering the Plan.

Vesting

Participants are immediately vested in their contributions to the Plan and allocated earnings thereon. Participants are fully vested in Employer contributions and allocated earnings thereon with four years of credited service (33% per year of service starting in the second year of service). Additionally, a participant becomes 100% vested upon death, disability, or attainment of normal retirement. Upon termination of the Plan on August 1, 2010, all employees became 100% vested in Employer contributions.

Investment Options

Participants have the option of transferring their funds between investment options daily. Each participant's account is credited with his or her contributions and allocations of (a) the Employer's contribution, (b) Plan forfeitures and (c) Plan earnings, and charged with the participant's distribution (when applicable) and an allocation of administrative expenses. Participants can direct contributions to any investment option. Allocations are based on participants' compensation and account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided by the participant's vested account.

NOTE 1. PLAN DESCRIPTION – CONTINUED

Forfeitures

Forfeitures attributable to employer matching contributions are used to reduce employer matching contributions or to pay administrative expenses. At September 10, 2010 and December 31, 2009, forfeited nonvested accounts totaled \$0 and \$7,357, respectively. Forfeited nonvested accounts of \$7,487 were used to pay administrative expenses during the period ended September 10, 2010.

Distributions to Participants

Upon retirement, death, disability or termination of employment, a participant (or the participant's beneficiary, if applicable) may elect to receive a lump sum distribution, or an annuity provided their vested account balance exceeds \$5,000. Participants may receive a hardship distribution from their vested account balances subject to certain limitations, as defined in the Plan. Included in net assets available for benefits were balances attributable to participants no longer participating in the Plan of approximately \$0 and \$7,320 at September 10, 2010 and December 31, 2009, respectively.

Administrative Expenses

A significant portion of the Plan's administrative expenses are paid for by the Corporation. Any expenses not paid for by the Corporation are paid by the Plan.

Notes Receivable From Participants

Participants may borrow from their account a minimum of \$1,000 and up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The notes receivable are secured by the balance in the participant's account and bear interest at rates that range from 6.5% to 10.25%.

All notes receivable from participants must be repaid ratably through payroll deductions on at least a quarterly basis over a maximum of 5 years, unless the note is for the purchase of the participant's principal residence, in which case the maximum term is 10 years.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying 2010 financial statements are prepared on the liquidation basis of accounting. The accompanying 2009 statement of net assets available for benefits was prepared on the accrual basis of accounting. Under both methods, distributions to participants are recorded when paid.

INTERACTIVE TELESERVICES CORPORATION
401(k) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Investment Valuation

All investments are reported at fair value, which approximates liquidation value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. The net appreciation in fair value of investments includes realized and unrealized investment gains and losses. Realized gains or losses on the disposal of securities are determined on the basis of the average cost of securities sold, while unrealized gains or losses are determined on the basis of the cost of securities held at the end of the year.

Interest income is recorded as earned on the accrual basis. Dividend income is recorded on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Excess Contributions Refundable to Participants

Excess contributions associated with the Plan's failure to satisfy the actual deferral percentage (ADP) test, that are refunded within 2 ½ months of year-end, are reflected in the financial statements at year-end as a liability, "excess contributions refundable to participants," with a corresponding reduction to contributions from participants.

At December 31, 2009, a payable of \$13,259 was recorded for amounts refundable by the Plan to participants for excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. This liability was refunded by the Plan by March 15, 2010.

Reclassifications

Certain reclassifications have been made to the 2009 financial statements to make them conform to the 2010 presentation. Such reclassifications had no effect on total assets available for benefits or change in net assets available for benefits as previously reported.

NOTE 3. INVESTMENTS – INFORMATION CERTIFIED BY THE TRUSTEE

The following is a summary of the unaudited information regarding the Plan as of September 10, 2010 and December 31, 2009, included in the Plan's financial statements, which was prepared and certified by the Trustee, and furnished to the Plan administrator, as being complete and accurate.

As of September 10, 2010, the Plan had \$0 of investments and \$0 in net assets.

NOTE 5. PLAN TERMINATION

The Corporation has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. The Plan was terminated effective August 1, 2010 and no further contributions were made to the Plan effective August 1, 2010. Upon termination of the Plan, all Plan participants were deemed to have a fully vested interest in their account balances. Participants could elect a lump sum cash distribution of their account balances, an eligible rollover, or a combination of a lump sum cash distribution and an eligible rollover. For participants who did not make an election by September 1, 2010, the Trustee rolled over the funds to an IRA with Millennium Trust Company. All Plan assets were transferred according to participant direction as of September 10, 2010.

NOTE 6. FAIR VALUE MEASUREMENTS

The Plan has adopted FASB ASC 820, *Fair Value Measurement and Disclosures*, (Topic 820) which clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value and requires additional disclosures about the use of fair value measurements.

Topic 820 defines “fair value” as the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. Where available, fair value is based on observable market prices or parameters or derived from such prices or parameters. Where observable prices or inputs are not available, valuation models are applied. These valuation techniques involve some level of management estimation and judgment, the degree of which is dependent on the price transparency for the instruments or market and the instruments’ complexity.

Topic 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 inputs) and the lowest priority to unobservable inputs (Level 3 inputs). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 inputs – Unadjusted, quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 inputs – Inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices in active markets that are either directly or indirectly observable for the asset or liability through correlation with market data or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 inputs – Prices or valuations that require unobservable inputs that are both significant to the fair measurement and unobservable. Valuation under level 3 generally involves a significant degree of judgment from Plan management. Due to the inherent uncertainty of these estimates, these values may differ materially from the values that would have been used had a ready market for the investments existed.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment’s level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement.

NOTE 6. FAIR VALUE MEASUREMENTS – CONTINUED

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 10, 2010 and December 31, 2009:

Mutual Funds: Valued at the closing price reported on the active market on which the individual securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

As of September 10, 2010, the Plan had \$0 of investments and \$0 in net assets.

The following table presents the classification of the securities by level at December 31, 2009:

Assets at Fair Value as of December 31, 2009

NOTE 7. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Fidelity Investments. Fidelity Management Trust Company is the trustee of the Plan, and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund. These transactions are covered by an exemption from the "prohibited transactions" provisions of ERISA and the Internal Revenue Code (IRC).

NOTE 8. INCOME TAX STATUS

The Corporation has adopted and followed the terms of a prototype plan, as submitted to the Internal Revenue Service (IRS). The Corporation has relied on the favorable opinion letter issued by the IRS on March 31, 2008 regarding the acceptability of the prototype plan under section 401 of the IRC as not subject to tax under present income tax laws. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of September 10, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Tax years open to examination from taxing authorities include the years 2007 to present.

NOTE 9. SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through July 13, 2011, the date the financial statements were available to be issued and determined that no other events have occurred subsequent to September 10, 2010 that warrant additional disclosure.
